AN ACT

For the relief of Joseph M. Cacace, Charles M. Cacace, and Mary E. Clibourne.

June 16, 1937  
[S. 470]  
[Private, No. 163]  
Joseph M. Cacace  
and others.  
Preamble.

Whereas in the District Court of the United States for the Eastern District of Virginia, on the 20th day of November 1934, John T. Cacace was convicted of an offense and was thereupon admitted to bail in the penalty of \$10,000 pending his motion for a new trial, and executed a recognizance for said sum with Joseph M. Cacace, Charles M. Cacace, and Mary E. Clibourne, his brothers and sister, as sureties; and

Whereas on the 23d of November 1934, said John T. Cacace without the knowledge, consent, or connivance of said sureties, willfully defaulted by leaving the jurisdiction and failed to appear on November 26, the time appointed for the hearing of his motion for a new trial, whereupon he was declared in default and on motion of the United States, by its attorney, a scire facias issued on said date returnable on November 30, on which last-named date the court declined to give the sureties on said bond additional time for the purpose of attempting to produce said convict but forfeited said bond and entered judgment against the stipulators for the sum of \$10,000 and costs; and

Whereas, on December 6, 1934, the said John T. Cacace voluntarily surrendered himself to the marshal of the district and was thereafter sentenced and is now serving his term in a penitentiary designated by the court; and

Whereas the sureties on said recognizance filed their petition in said court, on December 8, 1934, praying that said judgment might be set aside and the forfeiture remitted, which prayer has been refused by the court upon the ground that under the statute in such case made and provided it had no discretion where the default was willful; and

Whereas by the voluntary appearance and the sentencing of said convict the ends of justice have been accomplished without additional expense to the Government so that nothing further is to be gained by the enforcement of said judgment, which enforcement will cause said stipulators to lose their homes by foreclosure under execution: Now, therefore,

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the clerk of the United States District Court for the Eastern District of Virginia at Norfolk is hereby authorized and directed to satisfy, of record, the judgment obtained by the United States on November 30, 1934, against Joseph M. Cacace, Charles M. Cacace, and Mary E. Clibourne, who are hereby relieved of all liability to the United States for the payment of said judgment, which was entered against them as sureties on the criminal bail bond executed in behalf of John T. Cacace, the latter having failed to appear after he had willfully departed from the jurisdiction without the knowledge, consent, or connivance of said sureties. Said John T. Cacace subsequently voluntarily appeared on December 6, 1934, without cost to the Government, and was sentenced to imprisonment for conspiracy to violate the National Motor Vehicle Theft Act in accordance with his previous conviction on November 24, 1934.

Approved, June 16, 1937.

Release from liability for payment of court judgment.

1. This Chapter, except where it is otherwise expressly provided, applies to new passenger ships engaged on international voyages.

Definition.

2. A new passenger ship is a ship the keel of which is laid on or after the 1st July, 1931, or a ship which is converted to passenger service on or after that date, all other passenger ships being described as existing passenger ships.

Exemptions in certain cases.

3. Each Administration may, if it considers that the route and the conditions of the voyage are such as to render the application of the requirements of this Chapter unreasonable or unnecessary, exempt from the requirements of this Chapter individual ships or classes of ships belonging to its country which, in the course of their voyage, do not proceed more than 20 miles from the nearest land.

Relaxations.  
*Post*, p. 1204.

4. In the case of a passenger ship which, in the course of its voyage, does not proceed more than 200 miles from the nearest land, the Administration of the country to which the ship belongs may allow relaxations from such of the requirements of Regulations IX, X, XV and XIX as may be proved to the satisfaction of the Administration to be neither reasonable nor practicable.

Modification of existing ships.

5. In the case of existing passenger ships engaged on international voyages which do not already comply with the provisions of this Chapter relating to new passenger ships, the arrangements on each ship shall be considered by the Administration of the country to which the ship belongs, with a view to improvements being made to provide increased safety where practicable and reasonable.

Pilgrim, etc., trades.

6. In the case of passenger ships engaged on international voyages which are employed in the carriage of large numbers of unberthed passengers in special trades, such, for example, as the pilgrim trade, an Administration, if satisfied that it is impracticable to enforce compliance with the requirements of this Chapter, may exempt such ships, when they belong to its country, from those requirements on the following conditions:—

Les personnes qui se trouvent à bord d'un navire par raison de force majeure ou qui s'y trouvent par suite de l'obligation imposée au capitaine de transporter soit des naufragés, soit d'autres personnes, ne doivent pas entrer en ligne de compte lorsqu'il s'agit de vérifier l'application au navire d'une prescription quelconque de la présente Convention.

## CHAPITRE II.—CONSTRUCTION.

### ARTICLE 4.

#### *Navires auxquels s'applique ce Chapitre.*

1. Le présent Chapitre s'applique, sauf dans les cas où il en est autrement disposé, aux navires à passagers neufs, affectés à des voyages internationaux.

2. Un navire à passagers neuf est un navire dont la quille a été posée le 1<sup>er</sup> juillet 1931 ou postérieurement ou qui est transformé pour être affecté à un service de passagers à cette date ou postérieurement. Tous les autres navires à passagers sont considérés comme navires à passagers existants.

3. Toute Administration d'un pays peut, si elle juge que la route suivie et les conditions du voyage sont de nature à ne rendre l'application des prescriptions du présent Chapitre ni raisonnable ni nécessaire, dispenser de ces prescriptions des navires ou des catégories de navires, appartenant à ce pays, qui, au cours de leur voyage, ne s'éloignent pas de plus de 20 milles marins de la terre la plus proche.

4. Dans le cas où un navire à passagers ne s'éloigne pas, au cours de son voyage, de plus de 200 milles marins de la terre la plus proche, l'Administration à laquelle appartient le navire peut accorder des atténuations aux prescriptions des Règles IX, X, XV et XIX si la preuve peut être faite à la satisfaction de l'Administration que l'application de ces prescriptions n'est ni raisonnable ni pratiquement réalisable.

5. Dans le cas de navires à passagers existants effectuant des voyages internationaux et ne satisfaisant pas déjà aux prescriptions du présent Chapitre relatives aux navires à passagers neufs, les mesures à prendre pour chaque navire seront déterminées par l'Administration du pays auquel il appartient, de manière à obtenir une sécurité plus grande sur les points où cela sera pratiquement réalisable et raisonnable.

6. Dans le cas de navires à passagers effectuant des voyages internationaux, qui sont utilisés à des transports spéciaux d'un grand nombre de passagers sans installation de couchettes, comme par exemple, le transport de pèlerins, toute Administration d'un pays peut, si elle juge qu'il est pratiquement impossible d'appliquer les prescriptions du présent Chapitre, dispenser ceux de ces navires qui appartiennent à ce pays des prescriptions en question, sous les conditions suivantes:

(a.) That the fullest provision which the circumstances of the trade will permit shall be made in the matter of construction.

(b.) That steps shall be taken to formulate general rules which shall be applicable to the particular circumstances of these trades. Such rules shall be formulated in concert with such other Contracting Governments, if any, as may be directly interested in the carriage of such passengers.

Ships not included.

7. This Chapter does not apply to ships which are not mechanically propelled or to wooden ships of primitive build, such as dhows, junks, &c.

## ARTICLE 5.

### *Watertight Subdivision of Ships.*

Watertight subdivision of ships.

1. Ships shall be as efficiently subdivided as is possible having regard to the nature of the service for which they are intended. The requirements respecting subdivision are given in the following Articles and in the Regulations.

Degree.

2. The degree of subdivision provided for by these requirements varies with the length of the ship and with the service, in such manner that the highest degree of subdivision corresponds with the ships of greatest length primarily engaged in the carriage of passengers.

Method of determination.  
Post, p. 1188.

3. Regulations I to V indicate the method to be followed in order to determine the degree of subdivision applicable to a ship.

Subdivision loadlines.

4. In order that the required degree of subdivision shall be maintained, a loadline corresponding to the approved subdivision draft shall be assigned and marked on the ship's sides. A ship having spaces which are specially adapted for the accommodation of passengers and the carriage of cargo alternatively may, if the owners desire, have one or more additional loadlines assigned and marked to correspond with the subdivision drafts which the Administration may approve for the alternative service conditions. The freeboard corresponding to each approved subdivision loadline, and the conditions of service for which it is approved, shall be clearly indicated on the Safety Certificate. Subdivision loadlines shall be marked and recorded in the manner provided in Regulation VII.

2. Le degré de compartimentage assuré par l'application de ces Règles varie avec la longueur du navire et le service auquel il est destiné, de telle manière que le degré de compartimentage le plus élevé corresponde aux plus longs navires essentiellement affectés au transport des passagers.

3. Les Règles I à V indiquent la méthode à suivre pour déterminer le degré de compartimentage applicable à un navire.

4. Pour que le degré de compartimentage requis soit respecté, une ligne de charge, correspondant au tirant d'eau qui aura été approuvé comme répondant au compartimentage, sera assignée au navire et marquée sur le bordé extérieur. S'il existe sur le navire des espaces spécialement disposés pour servir à volonté, soit d'emménagements pour passagers, soit de locaux à marchandises, on pourra, à la demande de l'armateur, lui assigner et tracer sur le bordé extérieur, une ou plusieurs lignes de charge additionnelles, correspondant aux divers tirants d'eau de compartimentage que l'Administration jugera répondre aux différentes conditions de service. Le franc-bord correspondant à chacune de ces lignes de charge et les conditions de service pour lesquelles il est accepté seront indiqués d'une façon précise sur le certificat de sécurité. Les lignes de charge de compartimentage doivent être marquées et inscrites suivant la méthode prescrite par la Règle VII.

6. The main and emergency (reserve) installations must be capable of transmitting and receiving on the frequencies (wave lengths) and types of waves assigned by the International Radiotelegraph Convention in force for the purpose of distress and safety of navigation to ships compulsorily fitted with radiotelegraph installations in accordance with the present Convention.

7. The main and emergency (reserve) transmitters shall have a note frequency of at least 100.

8. The main transmitter shall have a *normal range* of 100 nautical miles, that is to say, it must be capable of transmitting clearly perceptible signals from ship to ship over a range of at least 100 nautical miles by day under normal conditions and circumstances, the receiver being assumed to be one employing a rectifier of the crystal type without amplification.\*

9. Sufficient power must be available in a ship station at all times to operate the main radiotelegraph installation efficiently under normal conditions over the above range.

10. All parts of the emergency (reserve) installation shall be placed in the upper part of the ship, in a position of the greatest possible safety, as high above the deepest load water line as practicable. The emergency (reserve) installation must be provided with a source of energy independent of the propelling power of the ship and of the main electricity system and must be capable of being put into operation rapidly and of working for at least six continuous hours.

For the emergency (reserve) installation, the normal range as defined in paragraph 8 above must be at least 80 nautical miles for ships required to maintain a continuous watch and at least 50 nautical miles for all other ships.\*

11. The receiving installation must permit of the reception of such of the waves used for the transmission of time signals and meteorological messages as may be considered necessary by the Administration.

12. The receiver must be so arranged as to be capable of maintaining reception by means of a rectifier of the crystal type.

\* Unless a more precise and practical method is available to determine the range of transmitters it is recommended that, as a guide, the following relations between the range in nautical miles (from ship to ship under normal conditions in daytime) and the power of the ship transmitter in metre amperes for 500 kilocycles per second (600 m) be used:—

100 nautical miles	60 M A
80 nautical miles	45 M A
50 nautical miles	25 M A

*M* being the actual height in metres of the aerial from its highest point to the load line.

*A* being the current in amperes measured at the base of the aerial in case of B, or fully modulated A 2, transmitters. [Footnote in the original.]

6. Les installations principales et de secours (réserve) doivent pouvoir transmettre et recevoir avec les fréquences (longueurs d'ondes) et sur les types d'ondes prescrits pour le trafic de détresse et la sécurité de la navigation par la Convention Radiotélégraphique Internationale en vigueur pour les navires obligatoirement pourvus d'une installation radiotélégraphique en vertu de la présente Convention.

7. L'émetteur principal et l'émetteur de secours (réserve) doit avoir une fréquence musicale d'au moins 100.

8. L'émetteur principal doit avoir une *portée normale* de 100 milles marins, c'est-à-dire qu'il doit être capable de transmettre des signaux clairement perceptibles de navire à navire, à une distance d'au moins 100 milles, de jour, dans des conditions et circonstances normales, le récepteur étant supposé pourvu d'un détecteur à cristal sans dispositif d'amplification.\*

9. La station de bord doit pouvoir disposer, en tout temps, d'une source d'énergie suffisante pour faire fonctionner efficacement le poste radiotélégraphique principal dans des conditions normales, à la distance indiquée ci-dessus.

10. Tous les organes de l'installation de secours (réserve) doivent être placés dans la partie supérieure du navire de manière à se trouver dans les meilleures conditions de sécurité et aussi haut que possible au-dessus de la ligne de charge maximum. L'installation de secours (réserve) doit disposer d'une source d'énergie indépendante de celle qui est utilisée pour la propulsion du navire et pour le réseau principal d'électricité; elle doit pouvoir être rapidement mise en service et être utilisée pendant six heures consécutives au moins.

La portée normale de l'installation de secours (réserve), telle qu'elle est définie au paragraphe 8 ci-dessus, doit être d'au moins 80 milles marins pour les navires tenus d'assurer une écoute permanente et d'au moins 50 milles marins pour tous les autres navires.\*

11. L'installation de réception doit permettre de recevoir, sur celles des longueurs d'onde utilisées pour la transmission des signaux horaires et des messages météorologiques, qui seraient jugés nécessaires par l'Administration.

12. Le récepteur doit être disposé de façon à assurer la réception au moyen d'un détecteur à cristal.

---

\*Jusqu'à ce que l'on dispose d'une méthode plus exacte ou plus pratique pour déterminer la portée des transmetteurs, il est recommandé de prendre comme guide les relations suivantes entre la portée en milles marins (de navire à navire dans des conditions normales et de jour) et la puissance du transmetteur du navire en mètres-ampères pour 500 kilocycles à la seconde (600 mètres).

100 milles marins	60 M.A.
80 milles marins	45 M.A.
50 milles marins	25 M.A.

M étant la hauteur réelle en mètres de l'antenne à son point le plus élevé, au-dessus de la ligne de charge,

A étant le courant en ampères mesuré à la base de l'antenne dans le cas de transmetteurs B ou A2 modulés. [Footnote in the original.]

13. In ships in which watch is kept by means of an automatic alarm receiver a means of giving audible warning shall be provided in the wireless telegraph room, in the wireless operator's cabin, and on the bridge, which shall operate continuously after the receiver has been operated by the alarm signal or distress call until stopped. Only one switch for stopping the warning shall be provided and this shall be situated in the wireless telegraph room.

14. In such ships the wireless operator, when going off watch, shall connect the automatic alarm receiver to the aerial and test its efficiency. He shall report to the master or the officer on watch on the bridge whether it is in working order.

15. Whilst the ship is at sea the emergency source of power shall be maintained at its full efficiency and the automatic alarm receiver shall be tested at least once every 24 hours. A statement that both these requirements have been fulfilled must be inserted in the ship's official log daily.

16. A wireless log shall be carried by every ship compulsorily equipped with wireless transmitting apparatus. This document shall be kept in the wireless telegraph room, and in it shall be inserted the names of the operators and watchers as well as all incidents and occurrences connected with the wireless service which may appear to be of importance to safety of life at sea, and in particular all distress messages and distress traffic in full.

*Post*, p. 1170.

17. The direction-finding apparatus required by Article 47 shall be efficient and capable of receiving clearly perceptible signals and of taking bearings from which the true bearing and direction may be determined. It shall be capable of receiving signals on the frequencies prescribed for distress, direction finding and wireless telegraph beacons by the International Radiotelegraph Convention in force.

Efficient communication shall be provided between the apparatus and the bridge.

##### *Competence.*

Competence.  
45 Stat. 2760.

The matters governed by the International Radiotelegraph Convention, Washington, 1927, and the Regulations annexed thereto remain, and will continue, subject to the provisions:—

(1.) Of that Convention and of the Regulations annexed thereto, and of any Convention and Regulations which may in the future be substituted therefor;

(2.) Of the present Convention in regard to all the points in which it supplements the aforementioned documents.

13. A bord des navires où l'écoute est assurée au moyen d'un récepteur automatique d'alarme, on doit installer des avertisseurs sonores dans la cabine de radiotélégraphie, dans la cabine de l'opérateur radiotélégraphiste et sur la passerelle de navigation. Ces avertisseurs doivent fonctionner continuellement après que le récepteur a été actionné par le signal d'alarme ou de détresse, et jusqu'à ce qu'il soit arrêté. Pour arrêter les avertisseurs, il ne doit exister qu'un seul interrupteur, placé dans la cabine de radiotélégraphie.

14. A bord des navires visés au paragraphe précédent, l'opérateur, en quittant l'écoute, doit reconnecter le récepteur automatique d'alarme à l'antenne et éprouver son efficacité. Il doit rendre compte de son bon état de fonctionnement au capitaine ou à l'officier de quart sur la passerelle de navigation.

15. Lorsque le navire est à la mer, la source d'énergie de secours doit être maintenue dans un parfait état d'efficacité et le récepteur automatique d'alarme doit être vérifié au moins une fois par 24 heures. Mention que ces deux obligations ont été remplies sera portée, chaque jour, au Journal du bord.

16. A bord de tout navire obligatoirement pourvu d'une installation émettrice radioélectrique, il doit être tenu un journal radioélectrique. Sur ce document, qui doit se trouver dans la cabine de radiotélégraphie, seront inscrits les noms des opérateurs et des écouteurs, ainsi que tous les incidents et événements concernant le service radioélectrique et pouvant offrir un intérêt quelconque pour la sauvegarde de la vie humaine en mer; en particulier, tous les messages et tout le trafic de détresse doivent y être reproduits dans leur intégralité.

17. L'appareil radiogoniomètre, rendu obligatoire en vertu de l'Article 47, doit être d'un fonctionnement efficace, susceptible de recevoir des signaux clairement perceptibles et de prendre des relevements dont il sera possible de déterminer le sens et de déduire le gisement vrai. Il doit pouvoir recevoir des signaux sur les fréquences prescrites, pour les cas de détresse, pour les radiogoniomètres et pour les radiophares, par la Convention Radiotélégraphique Internationale en vigueur.

Un moyen de communication efficace doit exister entre l'appareil et la passerelle de navigation.

### *Compétence.*

Les questions qui sont réglées par la Convention Radiotélégraphique Internationale de Washington de 1927 et par les Règlements y annexés, restent et continueront à être soumises aux dispositions:

(1) de cette Convention et des Règlements y annexés et des autres Conventions et Règlements qui pourraient y être substitués dans l'avenir;

(2) de la présente Convention en ce qui concerne tous les points où elle complète les documents susvisés.

## CHAPTER V.—SAFETY OF NAVIGATION.

## ARTICLE 33.

*Application.*

Application.

The provisions of this Chapter referring to ships, unless otherwise expressly provided, apply to all ships on all voyages.

## ARTICLE 34.

*Danger Messages.*

Danger messages.

The master of every ship which meets with dangerous ice, a dangerous derelict, a dangerous tropical storm or any other direct danger to navigation is bound to communicate the information, by all the means of communication at his disposal, to the ships in the vicinity, and also to the competent authorities at the first point of the coast with which he can communicate. It is desirable that the said information be sent in the manner set out in Regulation XLVI.

Post, p. 1264.

Each Administration will take all steps which it thinks necessary to ensure that when intelligence of any of the dangers specified in the previous paragraph is received, it will be promptly brought to the knowledge of those concerned and communicated to other Administrations interested.

The transmission of messages respecting the dangers specified is free of cost to the ships concerned.

## ARTICLE 35.

*Meteorological Services.*Meteorological serv-  
ices.

The Contracting Governments undertake to encourage the collection of meteorological data by ships at sea, and to arrange for their examination, dissemination and exchange in the manner most suitable for the purpose of aiding navigation.

In particular, the Contracting Governments undertake to co-operate in carrying out, as far as practicable, the following meteorological arrangements:—

(a) to warn ships of gales, storms and tropical storms, both by the issue of wireless messages and by the display of appropriate signals at coastal points;

(b) to issue daily, by radio, weather bulletins suitable for shipping, containing data of existing weather conditions and forecasts;

(c) to arrange for certain selected ships to take meteorological observations at specified hours, and to transmit such observations by wireless telegraphy for the benefit of other ships and of the various official meteorological services; and to provide coast stations for the reception of the messages transmitted;

(d) to encourage all ship-masters to inform surrounding ships whenever they experience wind force of 10 or above on the Beaufort scale (force 8 or above on the decimal scale).

## CHAPITRE V.—SÉCURITÉ DE LA NAVIGATION.

## ARTICLE 33.

*Application.*

Les prescriptions du présent Chapitre, visant des navires, s'appliquent, à moins qu'il n'en soit expressément spécifié autrement, à tous les navires pour tous les voyages.

## ARTICLE 34.

*Avis de dangers.*

Le capitaine de tout navire, se trouvant en présence de glaces ou d'une épave dangereuses ou d'une tempête tropicale dangereuse, ou de tout autre danger immédiat pour la navigation, est tenu d'en informer par tous les moyens de communication dont il dispose les navires dans le voisinage ainsi que les autorités compétentes au premier point de la côte avec lequel il peut communiquer. Il est souhaitable que cette information soit transmise de la manière exposée à la Règle XLVI.

Chaque Administration prendra toutes les mesures qu'elle jugera nécessaires pour s'assurer que l'information des dangers définis au paragraphe précédent soit rapidement portée à la connaissance de ceux que cela concerne et transmise aux autres Administrations intéressées.

La transmission de messages concernant les dangers en question est gratuite pour les navires intéressés.

## ARTICLE 35.

*Services météorologiques.*

Les Gouvernements contractants s'engagent à encourager la centralisation de renseignements d'ordre météorologique par les navires en mer, de les faire examiner, propager et de se les communiquer de la manière la plus efficace dans le but de venir en aide à la navigation.

En particulier, les Gouvernements contractants s'engagent à collaborer à l'application, dans la plus grande mesure possible, des dispositions météorologiques suivantes:

(a) avertir les navires des coups de vents, tempêtes et tempêtes tropicales, tant par la transmission de messages radioélectriques que par l'usage de signaux appropriés sur des points de la côte;

(b) transmettre journellement par sans fil des bulletins sur l'état du temps pouvant intéresser la navigation, et donnant des renseignements sur les conditions actuelles du temps ainsi que des prévisions;

(c) établir des mesures pour que certains navires spécialement désignés prennent des observations météorologiques à des heures déterminées et transmettent ces observations par télégraphie sans fil dans l'intérêt des autres navires et des divers services météorologiques officiels, et pourvoir certaines stations côtières pour la réception de ces messages;

(d) encourager tous les capitaines de navires à prévenir les navires dans le voisinage lorsqu'ils rencontrent une force de vent de 10 ou au-dessus—échelle Beaufort (force 8 ou au-dessus, échelle décimale).

45 Stat. 2878, 2872.

The information provided for in paragraphs (a) and (b) of this article will be furnished in form for transmission in accordance with Article 31, §§ 1, 3 and 5, and Article 19, § 25, of the General Regulations annexed to the International Radiotelegraph Convention, Washington, 1927, and during transmission "to all stations" of meteorological information, forecasts and warnings, all ship stations must conform to the provisions of Article 31, § 2, of those General Regulations.

Weather observations from ships addressed to national meteorological services will be transmitted with the priority specified in Article 3, Additional Regulations, International Radiotelegraph Convention, Washington, 1927.

Forecasts, warnings, synoptic and other meteorological reports intended for ships shall be issued and disseminated by the national service in the best position to serve various zones and areas, in accordance with mutual arrangements made by the countries concerned.

Uniformity of procedure.

Every endeavour will be made to obtain a uniform procedure in regard to the international meteorological services specified in this Article, and, as far as is practicable, to conform to the recommendations made by the International Meteorological Organization, to which organization the Contracting Governments may refer for study and advice any meteorological questions which may arise in carrying out the present Convention.

#### ARTICLE 36.

##### *Ice Patrol. Derelicts.*

Ice patrol.

The Contracting Governments undertake to continue a service of ice patrol and a service for study and observation of ice conditions in the North Atlantic. Further, they undertake to take all practicable steps to ensure the destruction or removal of derelicts in the northern part of the Atlantic Ocean east of the line drawn from Cape Sable to a point in latitude 34° N. longitude 70° W. if this destruction or removal is considered necessary at the time.

Derelicts in North Atlantic Ocean.

The Contracting Governments undertake to provide not more than three vessels for these three services. During the whole of the ice season they shall be employed in guarding the south-eastern, southern and south-western limits of the regions of icebergs in the vicinity of the Great Bank of Newfoundland for the purpose of informing trans-Atlantic and other passing vessels of the extent of this dangerous region; for the observation and study of ice conditions in general; for the destruction or removal of derelicts; and for the purpose of affording assistance to vessels and crews requiring aid within the limits of operation of the patrol vessels.

During the rest of the year the study and observation of ice conditions shall be maintained as advisable, and one vessel shall always be available for the search for, and destruction or removal of derelicts.

Les informations prévues aux paragraphes (a) et (b) du présent Article seront transmises dans la forme indiquée aux Articles 31 (paragraphes 1, 3 et 5) et l'Article 19 (paragraphe 25) du Règlement général annexé à la Convention Radiotélégraphique Internationale de Washington, 1927, et pendant la durée des transmissions de renseignements météorologiques, avertissements et prévisions "à tous," toutes les stations de bord doivent se conformer aux dispositions de l'Article 31 (paragraphe 2) de ce Règlement.

Les observations sur le temps adressées par les navires aux services météorologiques nationaux bénéficieront de la priorité de transmission spécifiée à l'Article 3, Règlements additionnels, Convention Radiotélégraphique Internationale de Washington, 1927.

Les prévisions, avertissements, rapports synoptiques et autres rapports météorologiques à l'usage des navires doivent être transmis et propagés par le service national dans la position la plus favorable pour desservir les différentes zones et régions suivant des accords mutuels entre les pays intéressés.

Tous les efforts tendront à obtenir une procédure internationale uniforme en ce qui concerne les services météorologiques internationaux spécifiés au présent Article et à se conformer, dans la mesure du possible aux recommandations de l'Institution météorologique internationale, à qui les Gouvernements contractants pourront se référer pour étude et avis sur tous les sujets d'ordre météorologique pouvant se présenter dans l'application de la présente Convention.

#### ARTICLE 36.

##### *Recherche des glaces. Epaves.*

Les Gouvernements contractants s'engagent à maintenir un service de recherche des glaces et un service d'étude et d'observation du régime des glaces dans l'Atlantique Nord. De plus, ils s'engagent à prendre toutes les mesures possibles pour assurer la destruction ou l'enlèvement des épaves dans la partie nord de l'Océan Atlantique, à l'est d'une ligne tracée du Cap Sable jusqu'à un point situé par 34 degrés de latitude Nord et 70 degrés de longitude Ouest si l'utilité de ces destructions ou de ces enlèvements est reconnue.

Les Gouvernements contractants s'engagent à fournir trois navires au plus pour le fonctionnement de ces trois services. Pendant toute la saison des glaces, ces navires doivent être affectés à la surveillance des limites sud-est, sud et sud-ouest des régions des icebergs dans le voisinage du grand banc de Terre-Neuve, pour informer de l'étendue de la région dangereuse les navires transatlantiques et autres qui passent; pour étudier et observer le régime des glaces; pour détruire et enlever les épaves; et pour prêter assistance aux navires et équipages qui ont besoin d'aide dans la zone d'action des navires patrouilleurs.

Pendant le reste de l'année, l'étude et l'observation du régime des glaces doivent être poursuivies, suivant les nécessités, et un navire doit toujours être disponible pour la recherche, la destruction ou l'enlèvement des épaves.

ARTICLE 37.

*Ice Patrol. Management and Cost.*

Management by  
United States.  
  
  
  
Cost contributions.

The Government of the United States is invited to continue the management of these services of ice patrol, study and observation of ice conditions, and derelict destruction and removal. The Contracting Governments specially interested in these services, whose names are given below, undertake to contribute to the expense of maintaining and operating these services in the following proportions:—

	Per cent.
Belgium . . . . .	2
Canada . . . . .	3
Denmark . . . . .	2
France . . . . .	6
Germany . . . . .	10
Great Britain and Northern Ireland . . . . .	40

Union of Socialist Soviet Republics . . . . .	1
United States of America . . . . .	18

Right to discon-  
tinue.

Each of the Contracting Governments has the right to discontinue its contribution to the expense of maintaining and operating these services after the 1st September, 1932. Nevertheless, the Contracting Government which avails itself of this right will continue responsible for the expense of working up to the 1st September following the date of giving notice of intention to discontinue its contribution. To take advantage of the said right it must give notice to the other Contracting Governments at least six months before the said 1st September; so that, to be free from this obligation on the 1st September, 1932, it must give notice on the 1st March, 1932, at the latest, and similarly for each subsequent year.

If, at any time, the United States Government should not desire to continue these services, or if one of the Contracting Governments should express a wish to relinquish responsibility for the pecuniary contribution defined above, or to have its percentage of obligation altered, the Contracting Governments shall settle the question in accordance with their mutual interests.

Alteration of pro-  
visions.

The Contracting Governments which contribute to the cost of the three above-mentioned services shall have the right by common consent to make from time to time such alterations in the provisions of this Article and of Article 36 as appear desirable.

ARTICLE 38.

*Speed near Ice.*

Speed near ice.

When ice is reported on, or near, his course, the master of every ship at night is bound to proceed at a moderate speed or to alter his course so as to go well clear of the danger zone.

## ARTICLE 37.

*Recherche des glaces. Gestion et Dépenses.*

Le Gouvernement des États-Unis est invité à continuer la gestion de ces trois services; recherche des glaces; étude et observation du régime des glaces; destruction et enlèvement des épaves. Les Gouvernements contractants qui sont spécialement intéressés à ces services et dont les noms suivent s'engagent à contribuer aux dépenses d'entretien et de fonctionnement de ces services dans les proportions suivantes:

	Pour Cent.
Allemagne. . . . .	10
Belgique. . . . .	2
Canada . . . . .	3
Danemark. . . . .	2
Espagne. . . . .	1
États-Unis d'Amérique . . . . .	18
France . . . . .	6

Suède. . . . .	2
Union des Républiques Soviétistes Socialistes. . . . .	1

Chacun des Gouvernements contractants a la faculté de cesser de contribuer aux dépenses d'entretien et de fonctionnement de ces services après le 1<sup>er</sup> septembre 1932. Toutefois, le Gouvernement contractant qui usera de cette faculté restera tenu des dépenses ci-dessus jusqu'au 1<sup>er</sup> septembre qui suivra la date de notification de son intention de cesser sa contribution. Pour user de ladite faculté, il devra notifier son intention aux autres Gouvernements contractants six mois au moins avant ledit 1<sup>er</sup> septembre, de sorte que, pour être dégagé de ces obligations au 1<sup>er</sup> septembre 1932, il devra notifier son intention au plus tard le 1<sup>er</sup> mars 1932, et de même chaque année qui suivra.

Au cas où, à un moment quelconque, le Gouvernement des États-Unis ne désirerait plus gérer ces services ou que l'un des Gouvernements contractants exprimerait le désir de ne plus assumer la charge de la contribution pécuniaire ci-dessus définie ou de voir modifier son pourcentage, les Gouvernements contractants régleront la question au mieux de leurs intérêts réciproques.

Les Gouvernements contractants qui contribuent aux frais des trois services susmentionnés ont le droit d'apporter au présent Article et à l'Article 36 d'un commun accord et en tout temps, les changements qui seraient jugés désirables.

## ARTICLE 38.

*Vitesse dans le voisinage des Glaces.*

Lorsque des glaces sont signalées sur la route ou près de la route à suivre, le capitaine de tout navire est tenu de modérer pendant la nuit la vitesse de son navire ou de changer de route, de manière à bien s'écarter de la zone dangereuse.

## ARTICLE 39.

*North Atlantic Routes.*

North Atlantic  
routes.

The practice of following recognised routes across the North Atlantic in both directions has contributed to safety of life at sea, but the working of these routes should be further investigated and studied with a view to the introduction of such variations as experience may show to be necessary.

The selection of the routes and the initiation of action with regard to them is left to the responsibility of the steamship companies concerned. The Contracting Governments will assist the companies, when requested to do so, by placing at their disposal any information bearing on the routes which may be in the possession of the Governments.

The Contracting Governments undertake to impose on the companies the obligation to give public notice of the regular routes which they propose their vessels should follow, and of any changes made in these routes; they will also use their influence to induce the owners of all vessels crossing the Atlantic to follow, so far as circumstances will permit, the recognised routes, and to induce the owners of all vessels crossing the Atlantic bound to or from ports of the United States via the vicinity of the Great Bank of Newfoundland to avoid, as far as practicable, the fishing banks of Newfoundland north of latitude 43° N. during the fishing season, and to pass outside regions known or believed to be endangered by ice.

The Administration managing the ice patrol service is requested to report to the Administration concerned any ship which is observed not to be on any regular, recognised or advertised route, or which crosses the above-mentioned fishing banks during the fishing season, or which, when proceeding to or from ports of the United States, passes through regions known or believed to be endangered by ice.

## ARTICLE 40.

*Collision Regulations.*

Collision regula-  
tions.

The Contracting Governments agree that the alterations in the International Regulations for Preventing Collisions at Sea shown in Annex II are desirable and ought to be made. The Government of the United Kingdom of Great Britain and Northern Ireland is requested to forward full particulars of the alterations to the other Governments who have accepted the International Regulations for Preventing Collisions at Sea, and ascertain whether they will adopt these alterations; to report the result to the Governments represented at this Conference, and to endeavour to arrange that the revised regulations shall come in force on the 1st July, 1931.

## ARTICLE 39.

*Routes de l'Atlantique Nord.*

La pratique consistant à suivre des routes définies pour la traversée de l'Atlantique du Nord, dans l'un et l'autre sens, a contribué à la sauvegarde de la vie humaine en mer; mais les résultats de l'utilisation de ces routes devraient faire l'objet d'enquêtes et d'études plus approfondies permettant d'apporter à la pratique actuelle les modifications dont l'expérience montrerait la nécessité.

Le choix des routes et l'initiative des mesures à prendre à leur égard sont laissés à la charge des compagnies de navigation intéressées. Les Gouvernements contractants prêteront leurs concours à ces compagnies, lorsqu'ils en seront sollicités, en mettant à leur disposition tous les renseignements sur les routes qui peuvent être en la possession des Gouvernements.

Les Gouvernements contractants s'engagent à imposer aux compagnies l'obligation de publier les routes régulières qu'elles se proposent de faire suivre à leurs navires ainsi que tous changements qui peuvent leur être apportés. Ils useront également de leur influence pour inciter les armateurs de tous les navires traversant l'Atlantique à suivre, autant que les circonstances le permettent, les routes définies et pour inciter les armateurs de tous les navires traversant l'Atlantique à destination ou en provenance des ports des États-Unis, en passant au voisinage du grand banc de Terre-Neuve, à éviter, autant qu'il est possible, pendant la saison de pêche, les lieux de pêche de Terre-Neuve au nord du 43<sup>ème</sup> degré de latitude Nord et à faire route en dehors des régions où des glaces dangereuses existent ou sont supposées exister.

L'Administration qui dirige le service de surveillance des glaces est invitée à signaler à l'Administration intéressée tout navire dont on constate la présence en dehors d'une route régulière reconnue ou annoncée, ou qui traverse les bancs de pêche susmentionnés pendant la saison de pêche, ou qui, faisant route à destination ou en provenance d'un port des États-Unis, traverse des régions où des glaces dangereuses existent ou sont supposées exister.

## ARTICLE 40.

*Règles d'abordage.*

Les Gouvernements contractants conviennent que les modifications à apporter au règlement international pour prévenir les abordages en mer, telles qu'elles figurent à l'Annexe II sont désirables et devraient y être apportées. Le Gouvernement du Royaume Uni de la Grande-Bretagne et de l'Irlande du Nord est prié de transmettre les détails complets de ces modifications aux autres Gouvernements qui ont accepté le Règlement international pour prévenir les Abordages en Mer, de s'assurer qu'ils les adoptent, d'informer les Gouvernements représentés à la Conférence de la suite donnée et, enfin, de s'efforcer de faire mettre en vigueur le règlement modifié à la date du 1<sup>er</sup> juillet 1931.

## ARTICLE 41.

*Helm Orders.*

Helm orders.

The Contracting Governments agree that after midnight on the 30th June, 1931, helm or steering orders, *i. e.*, orders to the steersman, shall on all their ships be given in the direct sense, *e. g.*, when the ship is going ahead an order containing the word "starboard" or "right" or any equivalent of "starboard" or "right" shall only be used when it is intended, on ships as at present generally constructed and arranged, that the wheel, the rudder-blade and the head of the ship, shall all move to the right.

## ARTICLE 42.

*Misuse of Distress Signals.*

Misuse of distress signals.

The use of an international distress signal, except for the purpose of indicating that a vessel is in distress, and the use of any signal which may be confused with an international distress signal, are prohibited on every ship.

## ARTICLE 43.

*Alarm, Distress and Urgency Signals.*

Alarm, distress, and urgency signals.

The alarm signal and the distress signal may only be used by ships in serious and imminent danger which require immediate assistance. In all other cases in which assistance is required, or in which a vessel desires to issue a warning that it may become necessary to send out the alarm signal or the distress signal at a later stage, use must be made of the urgency signal (XXX) established by the International Radiotelegraph Convention, Washington, 1927.

45 Stat. 2871.

If a ship has sent out the alarm or distress signal and subsequently finds that assistance is no longer required such ship shall immediately notify all stations concerned as provided for by the Radiotelegraph Convention in force.

*Commandements à la Barre.*

Les Gouvernements contractants conviennent qu'à la date du 30 juin 1931 à partir de minuit les commandements à la barre, c'est-à-dire les commandements donnés à l'homme de barre, doivent être donnés, sur tous leurs navires, sous la forme de commandements directs, c'est-à-dire que, le navire allant de l'avant, le mot "tribord" ou "droite" ou tout mot équivalent à "tribord" ou à "droite" ne doit être donné à bord des navires—tels qu'ils sont généralement construits et aménagés de nos jours—que lorsque l'intention est de manœuvrer à droite, et tout à la fois, la roue, le safran du gouvernail et l'avant du navire.

## ARTICLE 42.

*Emploi injustifié des signaux de détresse.*

L'emploi d'un signal international de détresse, sauf s'il s'agit de signaler qu'un navire est en détresse, ainsi que l'emploi d'un signal pouvant être confondu avec un signal international de détresse sont interdits sur tous les navires.

## ARTICLE 43.

*Signaux d'alarme, de détresse et d'urgence.*

Les signaux d'alarme et de détresse peuvent seulement être employés par les navires en danger sérieux et imminent qui ont besoin d'une assistance immédiate. Dans tous les autres cas où on a besoin d'assistance ou dans lesquels un navire désire émettre un avertissement indiquant qu'il pourra être nécessaire de faire ultérieurement le signal d'alarme ou de détresse, il doit être fait usage du signal urgent (XXX) prévu par la Convention Radiotélégraphique Internationale de Washington, 1927.

Si un navire a émis le signal d'alarme ou de détresse et s'il estime ultérieurement que l'assistance n'est plus nécessaire, ce navire doit immédiatement le faire savoir à toutes les stations intéressées conformément à la Convention Radiotélégraphique en vigueur.

## ARTICLE 44.

*Vitesse de transmission des messages de détresse.*

La vitesse de transmission des messages relatifs aux cas de détresse, d'urgence ou de sécurité, ne doit pas dépasser 16 mots par minute.

## ARTICLE 45.

*Messages de détresse. Procédure.*

1. Le Capitaine d'un navire, qui reçoit d'un autre navire un signal de détresse, est tenu de se porter à toute vitesse au secours des personnes en détresse, sauf en cas d'impossibilité ou si, dans des circonstances

circumstances of the case, considers it unreasonable or unnecessary to do so, or unless he is released under the provisions of paragraphs 3 and 4 of this Article.

2. The master of a ship in distress, after consultation, so far as may be possible, with the masters of the ships which answer his call for assistance, has the right to requisition such one or more of those ships as he considers best able to render assistance, and it shall be the duty of the master or masters of the ship or ships requisitioned to comply with the requisition by continuing to proceed with all speed to the assistance of the persons in distress.

3. A master shall be released from the obligation imposed by paragraph 1 of this Article as soon as he is informed by the master of the ship requisitioned, or, where more ships than one are requisitioned, all the masters of the ships requisitioned, that he or they are complying with the requisition.

4. A master shall be released from the obligation imposed by paragraph 1 of this Article, and, if his ship has been requisitioned, from the obligation imposed by paragraph 2 of this Article, if he is informed by a ship which has reached the persons in distress, that assistance is no longer necessary.

5. If a master of a ship, on receiving a wireless distress call from another ship, is unable, or in the special circumstances of the case considers it unreasonable or unnecessary to go to the assistance of that other ship, he must immediately inform the master of that other ship accordingly, and enter in his log-book his reasons for failing to proceed to the assistance of the persons in distress.

6. The provisions of this Article do not prejudice the International Convention for the unification of certain rules with respect to Assistance and Salvage at Sea, signed at Brussels on the 23rd September, 1910, particularly the obligation to render assistance imposed by Article 11 of that Convention.

Dans le cas où ce contrôle donne lieu à une intervention quelconque, le fonctionnaire exerçant ce contrôle doit informer immédiatement le Consul du pays où le navire est immatriculé de toutes les circonstances qui ont fait considérer cette intervention comme nécessaire.

## ARTICLE 55.

*Bénéfice de la Convention.*

On ne peut réclamer le bénéfice de la présente Convention au profit d'un navire s'il ne possède un certificat régulier et non périmé.

## ARTICLE 56.

(1.) The *subdivision loadline* is the waterline used in determining the subdivision of the ship.

Deepest subdivision loadline.

The *deepest subdivision loadline* is that which corresponds to the greatest draught.

Length of the ship.

(2.) The *length of the ship* is the length measured between perpendiculars taken at the extremities of the deepest subdivision loadline.

Breadth of the ship.

(3.) The *breadth of the ship* is the extreme width from outside of frame to outside of frame at or below the deepest subdivision loadline.

Draught.

(6.) The *draught* is the vertical distance from the top of keel amidships to the subdivision loadline in question.

Permeability.

(7.) The *permeability* of a space is the percentage of that space which can be occupied by water.

The volume of a space which extends above the margin line shall be measured only to the height of that line.

## ANNEXE I.

## RÈGLEMENT.

## CONSTRUCTION.

## RÈGLE I.

*Définitions.*

(1.) La *ligne de charge de compartimentage* est la flottaison considérée dans la détermination du compartimentage du navire.

La *ligne de charge maximum de compartimentage* est celle qui correspond au tirant d'eau le plus élevé.

(2.) La *longueur du navire* est la longueur mesurée entre les perpendiculaires menées aux extrémités de la ligne de charge maximum de compartimentage.

(3.) La *largeur du navire* est la largeur extrême hors membres mesurée à la ligne de charge maximum de compartimentage ou au-dessous de cette ligne de charge.

(4.) Le *pont de cloisonnement* est le pont le plus élevé jusqu'auquel s'élèvent les cloisons étanches transversales.

(5.) La *ligne de surimmersion* est une ligne tracée sur le bordé, à 76 millimètres (3 pouces), au-dessous de l'intersection de la surface extérieure du bordé avec la surface supérieure du pont de cloisonnement, en abord, parallèlement à ce pont.

(6.) Le *tirant d'eau* est la distance verticale du dessus de la quille au milieu, à la ligne de charge de compartimentage considérée.

(7.) La *perméabilité* d'un espace s'exprime par le pourcentage du volume de cet espace que l'eau peut occuper.

Le volume d'un espace qui s'étend au-dessus de la ligne de surimmersion sera mesuré seulement jusqu'à la hauteur de cette ligne.

(8.) La *tranche des machines* s'étend entre le dessus de la quille et la ligne de surimmersion, d'une part, et, d'autre part, entre les cloisons étanches transversales principales qui limitent l'espace occupé par les machines principales, les machines auxiliaires relatives à la propulsion, les chaudières, s'il y en a, et toutes les soutes à charbon permanentes.

(9.) Les *espaces à passagers* sont ceux qui sont prévus pour le logement et l'usage des passagers à l'exclusion des soutes à bagages, des magasins, des soutes à provisions, et à colis postaux et à dépêches.

Pour l'application des prescriptions des Règles III et IV, les espaces prévus en dessous de la ligne de surimmersion pour le logement et l'usage de l'équipage, seront considérés comme espaces à passagers.

(10.) Dans tous les cas, les *volumes* doivent être les volumes hors membres.

## REGULATION II.

*Floodable Length.*

Floodable length.

(1.) The floodable length at any point of the length of a ship shall be determined by a method of calculation which takes into consideration the form, draught and other characteristics of the ship in question.

(2.) In a ship with a continuous bulkhead deck, the floodable length at a given point is the maximum portion of the length of the ship, having its centre at the point in question, which can be flooded under the definite assumptions hereafter set forth in Regulation III without the ship being submerged beyond the margin line.

(3.) In the case of a ship not having a continuous bulkhead deck, the floodable length at any point may be determined to an assumed continuous margin line, up to which, having regard to sinkage and trim after damage, the sides of the ship and the bulkheads concerned are carried watertight.

## REGULATION III.

*Permeability.*

Permeability.

(1.) The definite assumptions referred to in Regulation II relate to the permeabilities of the spaces below the margin line.

In determining the floodable length, a uniform average permeability shall be used throughout the whole length of each of the following portions of the ship below the margin line:—

- (a) the machinery space as defined in Regulation I (8);
- (b) the portion forward of the machinery space; and
- (c) the portion abaft the machinery space.

(2.)—(a.) For steamships the uniform average permeability throughout the machinery space shall be determined from the formula—

$$80 + 12 \cdot 5 \left( \frac{a-c}{v} \right), \text{ where}$$

a=volume of the passenger spaces, as defined in Regulation I (9), which are situated below the margin line within the limits of the machinery space.

c=volume of between deck spaces below the margin line within the limits of the machinery space which are appropriated to cargo, coal or stores.

v=whole volume of the machinery space below the margin line.

(b.) For ships propelled by internal combustion engines, the uniform average permeability shall be taken as 5 greater than that given by the above formula.

## RÈGLE II.

*Longueur envahissable.*

(1.) Pour chaque point de la longueur du navire la longueur envahissable doit être déterminée par une méthode de calcul tenant compte des formes, du tirant d'eau et des autres caractéristiques du navire considéré.

(2.) Pour un navire dont les cloisons transversales étanches sont limitées par un pont de cloisonnement continu, la longueur envahissable en un point donné est la portion maximum de la longueur du navire, ayant pour centre le point considéré et qui peut être envahie par l'eau dans les conditions hypothétiques définies par la Règle III, sans que le navire s'immerge au delà de la ligne de surimmersion.

(3.) Pour un navire n'ayant pas de pont de cloisonnement continu, la longueur envahissable en chaque point peut être déterminée en considérant une ligne de surimmersion continue, jusqu'à laquelle, compte tenu de l'immersion et du changement d'assiette qui peuvent résulter d'une avarie, la muraille du navire et les cloisons correspondantes sont maintenues étanches.

## RÈGLE III.

*Perméabilité.*

(1.) Les hypothèses visées à la Règle II sont relatives aux perméabilités des volumes, limités supérieurement à la ligne de surimmersion.

Dans la détermination des longueurs envahissables, on adopte une perméabilité moyenne uniforme pour l'ensemble de chacune des trois parties suivantes du navire, limitées supérieurement à la ligne de surimmersion:

- (a) la tranche des machines, comme définie par la Règle I (8);
- (b) la partie du navire à l'avant de la tranche des machines, et
- (c) la partie du navire à l'arrière de la tranche des machines.

(2.)—(a.) Pour les navires à vapeur, la perméabilité moyenne de la tranche des machines sera calculée par la formule

$$80 + 12,5 \left( \frac{a-c}{v} \right)$$

dans laquelle:

- a = volume des espaces à passagers suivant la définition de la Règle I (9), qui sont situés au-dessous de la ligne de surimmersion et compris dans la tranche des machines;
- c = volume des entreponts, affectés aux marchandises, au charbon ou aux provisions de bord, qui sont situés au-dessous de la ligne de surimmersion et compris dans la tranche des machines;
- v = volume total de la tranche des machines au-dessous de la ligne de surimmersion.

(b.) Pour les navires qui ont des moteurs à combustion interne, la perméabilité moyenne uniforme sera égale à la valeur donnée par la formule précédente augmentée de 5.

(c.) Where it is shown to the satisfaction of the Administration that the average permeability, as determined by detail calculation, is less than that given by the formula, the calculated value may be substituted. For the purposes of such calculation, the permeabilities of passenger spaces, as defined in Regulation I (9), shall be taken as 95, that of all cargo, coal and store spaces as 60, and that of double bottom, oil fuel and other tanks at such values as may be approved in each case by the Administration.

(3.) The uniform average permeability throughout the portion of the ship before (or abaft) the machinery space shall be determined from the formula—

$$63 + 35 \frac{a}{v}, \text{ where}$$

$a$  = volume of the passenger spaces, as defined in Regulation I (9), which are situated below the margin line, before (or abaft) the machinery space, and  
 $v$  = whole volume of the portion of the ship below the margin line before (or abaft) the machinery space.

(4.) If a between deck compartment between two watertight transverse bulkheads contains any passenger or crew space, the whole of that compartment, less any space completely enclosed within permanent steel bulkheads and appropriated to other purposes, shall be regarded as passenger space. If, however, the passenger or crew space in question is completely enclosed within permanent steel bulkheads, only the space so enclosed need be considered as passenger space.

#### REGULATION IV.

##### *Permissible Length of Compartments.*

Permissible length  
of compartments.

Factor of sub-  
division.

(1.) *Factor of Subdivision.*—The maximum permissible length of a compartment having its centre at any point in the ship's length is obtained from the floodable length by multiplying the latter by an appropriate factor called the *factor of subdivision*.

The factor of subdivision shall depend on the length of the ship, and for a given length shall vary according to the nature of the service for which the ship is intended. It shall decrease in a regular and continuous manner—

- (a) as the length of the ship increases, and
- (b) from a factor A, applicable to ships primarily engaged in the carriage of cargo, to a factor B, applicable to ships primarily engaged in the carriage of passengers.

(c.) Lorsqu'on pourra établir, à la satisfaction de l'Administration que la perméabilité moyenne déterminée par un calcul direct est moindre que celle qui résulte de la formule, on pourra substituer à cette dernière la perméabilité calculée directement. Pour ce calcul direct, la perméabilité des espaces affectés aux passagers définis par la Règle I (9) sera prise égale à 95, celle des espaces affectés aux marchandises, au charbon et aux provisions de bord, égale à 60, et celle du double-fond, des soutes à combustible liquide et autres réservoirs sera fixée aux valeurs approuvées dans chaque cas par l'Administration.

(3.) La perméabilité moyenne uniforme sur toute la longueur du navire en avant (ou en arrière) de la tranche des machines, sera déterminée par la formule

$$63 + 35 \frac{a}{v}$$

dans laquelle:

a = volume des espaces à passagers, suivant la définition de la Règle I (9), qui sont situés sous la ligne de surimmersion, en avant (ou en arrière) de la tranche des machines, et  
 v = volume total de la partie du navire au-dessous de la ligne de surimmersion et en avant (ou en arrière) de la tranche des machines.

(4.) Si un compartiment, dans un entrepont, entre deux cloisons étanches transversales, renferme un espace affecté aux passagers ou à l'équipage, on considérera comme espace à passagers l'ensemble de ce compartiment, en déduisant, toutefois, tout espace affecté à un autre service qui serait complètement entouré de cloisons métalliques permanentes. Si, cependant, l'espace en question affecté aux passagers ou à l'équipage est lui-même complètement entouré de cloisons métalliques permanentes, on ne comptera que cet espace comme espace à passagers.

#### RÈGLE IV.

##### *Longueur admissible des Compartiments.*

(1.) *Facteur de cloisonnement.*—La longueur maximum admissible pour le compartiment ayant son centre en un point quelconque de la longueur d'un navire, se déduit de la longueur envahissable en multipliant celle-ci par un facteur approprié dit *facteur de cloisonnement*.

Le facteur de cloisonnement doit dépendre de la longueur du navire et, pour une longueur donnée, varier selon la nature du service pour lequel le navire est prévu. Ce facteur doit décroître d'une façon régulière et continue:

- (a) à mesure que la longueur du navire augmente, et
- (b) depuis un facteur A applicable aux navires essentiellement affectés au transport des marchandises, jusqu'à un facteur B applicable aux navires essentiellement affectés au transport des passagers.

The variations of the factors A and B shall be expressed by the following formulæ (i) and (ii) where L is the length of the ship as defined in Regulation I (2):—

L in feet.

$$A = \frac{190}{L-198} + .18 \quad (L=430 \text{ and upwards}).$$
$$B = \frac{100}{L-138} + .18 \quad (L=260 \text{ and upwards}).$$

L in metres.

$$A = \frac{58.2}{L-60} + .18 \quad (L=131 \text{ and upwards}).$$
$$B = \frac{30.3}{L-42} + .18 \quad (L=79 \text{ and upwards}).$$

(i)

(ii)

Criterion of service.

(2.) *Criterion of Service.*—For a ship of given length the appropriate factor of subdivision shall be determined by the Criterion of Service Numeral (hereinafter called the Criterion Numeral) as given by the following formulæ (iii) and (iv) where:—

- C<sub>s</sub> = the Criterion Numeral;
- L = length of the ship, as defined in Regulation I (2);
- M = the volume of the machinery space, as defined in Regulation I (8); with the addition thereto of the volume of any permanent oil fuel bunkers which may be situated above the inner bottom and before or abaft the machinery space;
- P = the whole volume of the passenger spaces below the margin line, as defined in Regulation I (9);
- V = the whole volume of the ship below the margin line;
- P<sub>1</sub> = KN where:—
  - N = number of passengers for which the ship is to be certified, and
  - K has the following values:—

	Value of K.
Length in feet and volumes in cubic feet . . . . .	.6 L.
Length in metres and volumes in cubic metres . . . . .	.056 L.

Where the value of KN is greater than the sum of P and the whole volume of the actual passenger spaces above the margin line the lower figure may be taken provided that the value of P<sub>1</sub> used is not less than ⅔ KN.

When P<sub>1</sub> is greater than P

$$C_s = 72 \frac{M + 2P_1}{V + P_1 - P} \quad \dots \dots \dots (iii)$$

and in other cases

$$C_s = 72 \frac{M + 2P}{V} \quad \dots \dots \dots (iv)$$

For ships not having a continuous bulkhead deck the volumes are to be taken up to the actual margin lines used in determining the floodable lengths.

Rules for subdivision.

(3.) *Rules for Subdivision.*—(a.) *The subdivision abaft the fore peak* of ships 430 feet (131 metres) in length and upwards having a criterion numeral of 23 or less shall be governed by the factor A given by formula (i); of those having a criterion numeral of 123 or more by the

Les variations des facteurs A et B sont données par les formules (i) et (ii) suivantes, dans lesquelles L est la longueur du navire définie par la Règle I (2).

L en mètres.	L en pieds.
$A = \frac{58,2}{L-60} + 0,18$ (L=131 et au-dessus).	$A = \frac{190}{L-198} + 0,18$ (L=430 et au-dessus). . . . . (i)
$B = \frac{30,3}{L-42} + 0,18$ (L=79 et au-dessus).	$B = \frac{100}{L-138} + 0,18$ (L=260 et au-dessus). . . . . (ii)

(2.) *Critérium de Service.*—Pour un navire de longueur donnée, le facteur de cloisonnement approprié est déterminé à l'aide de la valeur du Critérium de Service (appelé ci-après Critérium) donné par les formules (iii) et (iv) ci-après, dans lesquelles:

$C_s$  = le Critérium;

L = la longueur du navire, définie par la Règle I (2);

M = le volume de la tranche des machines, défini par la Règle I (8), mais en y ajoutant le volume de toutes les soutes permanentes à combustible liquide, situées hors du double-fond et en avant ou en arrière de la tranche des machines;

P = le volume total des espaces à passagers au-dessous de la ligne de surimmersion d'après la définition de la Règle I (9);

V = le volume total du navire au-dessous de la ligne de surimmersion;

$P_1$  = le produit KN;

N = le nombre de passagers pour lequel le navire est destiné à être autorisé; et

K = 0,056 L, si L et V sont mesurés en mètres et mètres cubes respectivement (0.6 L, si L et V sont mesurés en pieds et pieds cubes respectivement).

Si la valeur du produit KN est plus grande que la valeur de la somme de P et du volume total réel affecté aux passagers, au-dessus de la ligne de surimmersion, on peut prendre pour  $P_1$  la valeur la plus faible des deux, sous réserve que cette valeur ne soit pas inférieure aux deux tiers de KN.

Si  $P_1$  est plus grand que P on aura

$$C_s = 72 \frac{M + 2P_1}{V + P_1 - P} \dots \dots \dots (iii)$$

et dans les autres cas

$$C_s = 72 \frac{M + 2P}{V} \dots \dots \dots (iv)$$

Dans le cas des navires n'ayant pas de pont de cloisonnement continu, on calculera les volumes jusqu'à la ligne de surimmersion effectivement considérée dans le calcul de la longueur envahissable.

(3.) *Prescriptions pour le Compartimentage.*—(a.) *Le cloisonnement en arrière de la cloison d'abordage* des navires ayant une longueur de 131 mètres (430 pieds) et au-dessus et dont le critérium est au plus égal à 23, doit être déterminé par le facteur A donné par la formule (i);

factor B given by formula (ii); and of those having a criterion numeral between 23 and 123 by the factor F obtained by linear interpolation between the factors A and B, using the formula:—

$$F = A - \frac{(A-B)(C_s-23)}{100} \dots \dots \dots (v)$$

Where the factor F is less than .40 and it is shown to the satisfaction of the Administration to be impracticable to comply with the factor F in a machinery compartment of the ship, the subdivision of such compartment may be governed by an increased factor, which, however, shall not exceed .40.

(b.) *The subdivision abaft the fore peak* of ships less than 430 feet (131 metres) but not less than 260 feet (79 metres) in length having a criterion numeral equal to S, where  $S = \frac{9382-20L}{34}$  (L in feet)  $= \frac{3574-25L}{13}$  (L in metres) shall be governed by the factor unity; of those having a criterion numeral of 123 or more by the factor B given by the formula (ii); of those having a criterion numeral between S and 123 by the factor F obtained by linear interpolation between unity and the factor B, using the formula:—

$$F = 1 - \frac{(1-B)(C_s-S)}{123-S} \dots \dots \dots (vi)$$

(c.) *The subdivision abaft the fore peak* of ships less than 430 feet (131 metres) but not less than 260 feet (79 metres) in length and having a criterion numeral less than S, and of all ships less than 260 feet (79 metres) in length shall be governed by the factor unity, unless it is shown to the satisfaction of the Administration to be impracticable to comply with this factor in any part of the ship, in which case, the Administration may allow such relaxation as may appear to be justified, having regard to all the circumstances.

(d.) The provisions of sub-paragraph (c) shall apply also to ships of whatever length, which are to be certified to carry a number of passengers exceeding 12 but not exceeding  $\frac{L^2 \text{ (in feet)}}{7000} \left( \frac{L^2 \text{ (in metres)}}{650} \right)$  or 50, whichever is the less.

#### REGULATION V.

##### *Special Rules concerning Subdivision.*

Special rules concerning subdivision.

(1.) A compartment may exceed the permissible length determined by the rules of Regulation IV provided the combined length of each pair of adjacent compartments to which the compartment in question is common does not exceed either the floodable length or twice the permissible length, whichever is the less.

de ceux qui ont un critérium au moins égal à 123, par le facteur B donné par la formule (ii); enfin, de ceux qui ont un critérium compris entre 23 et 123, par un facteur F obtenu par interpolation linéaire, à l'aide de la formule:

$$F = A - \frac{(A-B)(C_s-23)}{100} \dots \dots \dots (v)$$

Si le facteur F est inférieur à 0.40 et s'il est établi, à la satisfaction de l'Administration, qu'il est pratiquement impossible d'adopter ce facteur pour un compartiment de la tranche des machines du navire considéré, le cloisonnement de ce compartiment peut être déterminé avec un facteur plus élevé, pourvu, toutefois, que ce facteur ne soit pas supérieur à 0.40.

(b.) *Le cloisonnement en arrière de la cloison d'abordage des navires* ayant moins de 131 mètres (430 pieds), mais pas moins de 79 mètres (260 pieds) de longueur, dont le critérium aura la valeur S donnée par la formule:

$$S = \frac{3574-25L}{13} (L \text{ en mètres}) = \frac{9382-20L}{34} (L \text{ en pieds})$$

doit être déterminé par un facteur égal à l'unité, de ceux dont le critérium est égal ou supérieur à 123, par le facteur B donné par la formule (ii), enfin, de ceux dont le critérium est compris entre S et 123, par un facteur obtenu par interpolation linéaire entre l'unité et le facteur B, au moyen de la formule:

$$F = 1 - \frac{(1-B)(C_s-S)}{123-S} \dots \dots \dots (vi)$$

(c.) *Le cloisonnement en arrière de la cloison d'abordage des navires* ayant moins de 131 mètres (430 pieds) de longueur, mais pas moins de 79 mètres (260 pieds) dont le critérium est moindre que S, et de tous les navires ayant moins de 79 mètres (260 pieds) de longueur, doit être déterminé par un facteur égal à l'unité, à moins qu'il ne soit établi à la satisfaction de l'Administration qu'il est pratiquement impossible de maintenir ce facteur dans tout ou partie du navire; dans ce cas, l'Administration pourra accorder des tolérances dans la mesure qui lui paraîtra justifiée par les circonstances.

(d.) Les prescriptions de l'alinéa (c) s'appliqueront également, quelle qu'en soit la longueur, aux navires qui seront prévus pour porter un nombre de passagers dépassant douze (12), mais ne dépassant pas le plus petit des deux nombres  $\frac{L^2 (L \text{ en mètres})}{650}$   $\left( \frac{L^2 (L \text{ en pieds})}{7000} \right)$  ou 50.

#### RÈGLE V.

##### *Prescriptions spéciales relatives au Compartimentage.*

(1.) Un compartiment peut dépasser la longueur admissible fixée par les prescriptions de la Règle IV, pourvu que la longueur de chacune des deux paires de compartiments adjacents, comprenant chacune le compartiment en question ne dépasse ni la longueur envahissable, ni deux fois la longueur admissible.

If one of the two adjacent compartments is situated inside the machinery space, and the second is situated outside the machinery space, and the average permeability of the portion of the ship in which the second is situated differs from that of the machinery space, the combined length of the two compartments shall be adjusted to the mean average permeability of the two portions of the ship in which the compartments are situated.

Where the two adjacent compartments have different factors of subdivision, the combined length of the two compartments shall be determined proportionately.

(2.) In ships 430 feet (131 metres) in length and upwards, one of the main transverse bulkheads abaft the fore peak shall be fitted at a distance from the forward perpendicular which is not greater than the permissible length.

(3.) A main transverse bulkhead may be recessed provided that all parts of the recess lie inboard of vertical surfaces on both sides of the ship, situated at a distance from the shell plating equal to one-fifth the breadth of the ship, as defined in Regulation I (3), and measured at right angles to the centreline at the level of the deepest subdivision loadline.

Any part of a recess which lies outside these limits shall be dealt with as a step in accordance with the following paragraph.

(4.) A main transverse bulkhead may be stepped provided that—

(a) the combined length of the two compartments, separated by the bulkhead in question, does not exceed 90 per cent. of the floodable length, or

(b) additional subdivision is provided in way of the step to maintain the same measure of safety as that secured by a plane bulkhead.

(5.) Where a main transverse bulkhead is recessed or stepped, an equivalent plane bulkhead shall be used in determining the subdivision.

(6.) If the distance between two adjacent main transverse bulkheads, or their equivalent plane bulkheads, or the distance between the transverse planes passing through the nearest stepped portions of the bulkheads, is less than 10 feet (3.05 metres) plus 2 per cent. of the length of the ship, only one of these bulkheads shall be regarded as forming part of the subdivision of the ship in accordance with the provisions of Regulation IV.

(7.) Where a main transverse watertight compartment contains local subdivision and it can be shown to the satisfaction of the Administration that, after any assumed side damage extending over a length of 10 feet (3.05 metres) plus 2 per cent. of the length of the ship, the whole volume of the main compartment will not be flooded, a proportionate allowance may be made in the permissible length otherwise required for such compartment.

Si l'un des deux compartiments adjacents est situé dans la tranche des machines et le second en dehors de la tranche des machines, et si la perméabilité moyenne de la portion du navire où le second est situé n'est pas la même que celle de la tranche des machines, la longueur combinée des deux compartiments doit être corrigée en prenant pour base la moyenne des perméabilités des deux portions du navire auquel les compartiments en question appartiennent.

Lorsque les deux compartiments adjacents ont des facteurs de cloisonnement différents, la longueur combinée de ces deux compartiments doit être déterminée proportionnellement.

(2.) Pour les navires d'au moins 131 mètres (430 pieds) de longueur, une des cloisons principales transversales en arrière de la cloison d'abordage doit être placée à une distance de la perpendiculaire avant au plus égale à la longueur admissible.

(3.) Une cloison transversale principale peut présenter une niche, pourvu qu'aucun point de la niche ne dépasse vers l'extérieur du navire deux surfaces verticales menées de chaque bord à une distance du bord égale à  $\frac{1}{4}$  de la largeur du navire définie par la Règle I (3), cette distance étant mesurée normalement au plan diamétral du navire et dans le plan de la ligne de charge maximum de compartimentage.

Si une partie d'une niche dépasse les limites ainsi fixées, cette partie sera considérée comme une baïonnette et on lui appliquera les règles du paragraphe suivant.

(4.) Une cloison transversale principale peut être à baïonnette, pourvu:

(a) que la longueur combinée des deux compartiments séparés par la cloison en question n'excède pas 90 pour cent de la longueur envahissable; ou bien

(b) que par le travers de la baïonnette, un compartimentage supplémentaire soit prévu pour maintenir le même degré de sécurité que si la cloison était plane.

(5.) Lorsqu'une cloison transversale principale présente une niche ou une baïonnette, on la remplacera dans la détermination du cloisonnement par une cloison plane équivalente.

(6.) Si la distance entre deux cloisons transversales principales adjacentes, ou entre les cloisons planes équivalentes, ou enfin la distance entre deux plans verticaux passant par les points les plus rapprochés des baïonnettes, s'il y en a, est inférieure à 3 mètres 05 (10 pieds) plus 2 pour cent de la longueur du navire, une seule de ces cloisons sera acceptée comme faisant partie du cloisonnement du navire tel qu'il est prescrit par la Règle IV.

(7.) Lorsqu'un compartiment principal étanche transversal est lui-même compartimenté, s'il peut être établi à la satisfaction de l'Administration que, dans l'hypothèse d'une avarie s'étendant sur une longueur de 3m. 050 (10 pieds) plus 2 pour cent de la longueur du navire, le volume total du compartiment principal ne peut être rempli, une augmentation proportionnée peut être accordée sur la longueur admissible déterminée sans tenir compte de ce compartimentage supplémentaire.

In such a case the volume of effective buoyancy assumed on the undamaged side shall not be greater than that assumed on the damaged side.

(8.) Where it is proposed to fit watertight decks, inner skins or longitudinal bulkheads, watertight or non-watertight, the Administration shall be satisfied that the safety of the ship will not be diminished in any respect, particularly having in view the possible listing effect of flooding in way of such structural arrangements.

#### REGULATION VI.

##### *Peak and Machinery Space Bulkheads, Shaft Tunnels, &c.*

Peak and machinery space bulkheads, shaft tunnels, etc.

(1.) Every ship shall have a forepeak or collision bulkhead, which shall be watertight up to the bulkhead deck. This bulkhead shall be fitted not less than 5 per cent. of the length of the ship, and not more than 10 feet (3.05 metres) plus 5 per cent. of the length of the ship from the forward perpendicular.

If the ship has a long forward superstructure, the forepeak bulkhead shall be extended weathertight to the deck next above the bulkhead deck. The extension need not be fitted directly over the bulkhead below, provided it is at least 5 per cent. of the length of the ship from the forward perpendicular, and the part of the bulkhead deck which forms the step is made effectively weathertight.

*Ante*, p. 1188.

(2.) An afterpeak bulkhead, and bulkheads dividing the machinery space, as defined in Regulation I (8), from the cargo and passenger spaces forward and aft, shall also be fitted and made watertight up to the bulkhead deck. The afterpeak bulkhead may, however, be stopped below the bulkhead deck, provided the degree of safety of the ship as regards subdivision is not thereby diminished.

(3.) In all cases stern tubes shall be enclosed in watertight spaces. The stern gland shall be situated within a watertight shaft tunnel or other space of such volume that if flooded by leakage through the stern gland the margin line will not be submerged.

#### REGULATION VII.

##### *Assigning, Marking and Recording of Subdivision Loadlines.*

Subdivision loadlines.

Assigning, marking, and recording.  
*Ante*, p. 1134.

(1.) The subdivision loadlines assigned and marked under the provisions of Article 5 of the Convention shall be recorded in the Safety Certificate, and shall be distinguished by the notation C.1 for the principal passenger condition, and C.2, C.3, &c., for the alternative conditions.

Dans ce cas, le volume de la réserve de flottabilité supposé intact du côté opposé à l'avarie ne devra pas être supérieur à celui qui est supposé intact du côté de l'avarie.

(8.) Lorsqu'on proposera de construire des ponts étanches, des double-coques ou des cloisons longitudinales étanches ou non, l'Administration s'assurera que la sécurité du navire n'est diminuée sous aucun rapport, en tenant spécialement compte de la bande qui peut se produire en cas d'invasissement de ces parties de la coque.

#### RÈGLE VI.

*Cloisons d'extrémité, Cloisons limitant la Tranche des Machines, Tunnels des Lignes d'arbres, &c.*

(1.) Tout navire doit être pourvu d'une cloison de coqueron avant ou d'abordage qui doit être étanche jusqu'au pont de cloisonnement. Cette cloison doit être placée à une distance de la perpendiculaire avant égale au moins à 5 pour cent de la longueur du navire et au plus à 3m. 05 (10 pieds) plus 5 pour cent de la longueur du navire.

S'il existe à l'avant une longue superstructure, une cloison étanche aux intempéries doit être établie au-dessus de la cloison d'abordage entre le pont de cloisonnement et le pont situé immédiatement au-dessus. Le prolongement de la cloison d'abordage peut ne pas être placé directement au-dessus de celle-ci, pourvu que ce prolongement soit à une distance de la perpendiculaire avant au moins égale à 5 pour cent de la longueur du navire et que la partie du pont de cloisonnement qui forme baïonnette soit effectivement étanche aux embruns.

(2.) Il y aura également une cloison de coqueron arrière et des cloisons séparant la tranche des machines, telle qu'elle est définie par la Règle I (8), des espaces à passagers et marchandises situés à l'avant et à l'arrière; ces cloisons doivent être étanches jusqu'au pont de cloisonnement. Toutefois, la cloison du coqueron arrière peut être arrêtée au-dessous de ce pont, pourvu que le degré de sécurité du navire en ce qui concerne le compartimentage ne soit pas diminué de ce fait.

(3.) Dans tous les cas, les tubes de sortie d'arbres arrière doivent être enfermés dans des espaces étanches. Le presse étoupe arrière doit être placé à l'intérieur d'un tunnel étanche ou dans un autre espace d'un volume assez réduit pour qu'il puisse être rempli par une fuite du presse-étoupe sans que la ligne de surimmersion soit immergée.

#### RÈGLE VII.

*Détermination, Marquage et Inscription des Lignes de charge de Compartimentage.*

(1.) Les lignes de charge de compartimentage déterminées et tracées conformément aux prescriptions de l'Article 5 de la Convention doivent être mentionnées sur le Certificat de Sécurité en désignant par la notation C.1 celle qui se rapporte au cas où le navire est employé principalement au service des passagers, et par les notations C.2, C.3, &c., celles qui se rapportent aux autres cas d'utilisation de navire.

(2.) The freeboard corresponding to each of these loadlines inserted in the Safety Certificate shall be measured at the same position and from the same deck line as the freeboards determined by recognised national Freeboard Regulations.

(3.) In no case shall any subdivision loadline mark be placed above the deepest loadline in salt water as determined by the strength of the ship and/or recognised national Freeboard Regulations.

(4.) Whatever may be the position of the subdivision loadline marks, a ship shall in no case be loaded so as to submerge the loadline mark appropriate to the season and locality as determined by the recognised national Freeboard Regulations.

#### REGULATION VIII.

Watertight bulk-  
heads, etc.

#### *Construction and Initial Testing of Watertight Bulkheads, &c.*

Construction and  
initial testing of.

(1.) Watertight subdivision bulkheads, whether transverse or longitudinal, shall be constructed in such a manner that they shall be capable of supporting with a proper margin of resistance, the pressure due to a head of water up to the margin line in way of each bulkhead. The construction of these bulkheads shall be to the satisfaction of the Administration.

(2.) Steps and recesses in bulkheads shall be watertight and as strong as the bulkhead at the place where each occurs.

Where frames or beams pass through a watertight deck or bulkhead, such deck or bulkhead shall be made structurally watertight without the use of wood or cement.

(3.) Testing main compartments by filling them with water is not compulsory. A complete examination of the bulkheads shall be made by a surveyor; and, in addition, a hose test shall be made in all cases.

(4.) The forepeak shall be tested with water to a head up to the deepest subdivision loadline.

(5.) Double bottoms, including duct keels, and inner skins are to be subjected to a head of water up to the margin line.

(6.) Tanks which are intended to hold liquids, and which form part of the subdivision of the ship, shall be tested for tightness with water to a head up to the deepest subdivision loadline or to a head corresponding to two-thirds of the depth from the top of keel to the margin line in way of the tanks, whichever is the greater; provided that in no case shall the test head be less than 3 feet (.92 metre) above the top of the tank.

(2.) Le franc-bord correspondant à chacune de ces lignes de charge, inscrit au Certificat de Sécurité doit être mesuré au même emplacement et à partir de la même ligne de pont que les francs-bords déterminés conformément aux Règles nationales de franc-bord reconnues.

(3.) Dans aucun cas, une marque de ligne de charge de compartimentage ne peut être placée au-dessus de la ligne de charge maximum en eau salée déterminée par la solidité du navire et ou par les tables nationales de franc-bord reconnues.

(4.) Quelle que soit la position des marques de lignes de charge de compartimentage, un navire ne doit jamais être chargé de façon à immerger la ligne de charge correspondant à la saison et à la région du globe, tracée conformément aux Règles nationales de franc-bord reconnues.

### RÈGLE VIII.

#### *Construction et Épreuves initiales des Cloisons étanches, Doubles-fonds, &c.*

(1.) Les cloisons étanches de compartimentage, qu'elles soient transversales ou longitudinales,, doivent être construites de manière à pouvoir supporter, avec une marge de résistance convenable, la pression due à une colonne d'eau s'élevant, jusqu'à la ligne de surimmersion par le travers de chacune d'elles. La construction de ces cloisons doit donner satisfaction à l'Administration.

(2.) Les baionnettes et niches pratiquées dans les cloisons doivent être étanches et présenter la même résistance que les parties avoisinantes de la cloison.

Quand des membrures ou des barrots traversent un pont étanche ou une cloison étanche, ce pont et cette cloison doivent être rendus étanches par leur construction même, sans l'emploi de bois ou de ciment.

(3.) L'essai par remplissage des compartiments principaux n'est pas obligatoire. Un examen complet des cloisons doit être fait par un inspecteur agréé; cet examen doit être complété dans tous les cas par un essai à la lance.

(4.) Le coqueron avant doit être soumis à un essai par remplissage, le niveau de l'eau s'élevant jusqu'à la ligne de charge maximum de compartimentage.

(5.) Les doubles-fonds y compris les quilles tubulaires et les parois internes des doubles coques doivent être essayés sous une charge d'eau montant jusqu'à la ligne de surimmersion.

(6.) Les citernes qui doivent contenir des liquides et qui forment une partie du compartimentage du navire doivent être éprouvées pour vérification de l'étanchéité sous une charge d'eau correspondant soit à la ligne de charge maximum de compartimentage, soit aux deux tiers du creux mesuré depuis le dessus de la quille jusqu'à la ligne de surimmersion, par le travers de la citerne en prenant la plus grande de ces charges, toutefois la hauteur de charge au-dessus du plafond ne doit être en aucun cas inférieure à 0m. 92 (3 pieds).

## REGULATION IX.

*Openings in Watertight Bulkheads.*

Openings in watertight bulkheads.

(1.) The number of openings in watertight bulkheads shall be reduced to the minimum compatible with the design and proper working of the ship; satisfactory means shall be provided for closing these openings.

(2.)—(a.) Where pipes, scuppers, electric-light cables, &c., are carried through watertight subdivision bulkheads, arrangements shall be made to ensure the integrity of the watertightness of the bulkheads.

(b.) Sluice valves shall not be permitted in the watertight subdivision bulkheads.

(3.)—(a.) No doors, manholes, or access openings are permitted—

(i) in the collision bulkhead below the margin line;

(ii) in watertight transverse bulkheads dividing a cargo space from an adjoining cargo space or from a permanent or reserve bunker, except as provided in paragraph (7).

(b.) The collision bulkhead may be pierced below the margin line by not more than one pipe for dealing with fluid in the fore peak tank, provided that the pipe is fitted with a screwdown valve capable of being operated from above the bulkhead deck, the valve chest being secured inside the fore peak to the collision bulkhead.

(4.)—(a.) Watertight doors fitted in bulkheads between permanent and reserve bunkers, shall be always accessible, except as provided in sub-paragraph 9 (b) for between deck bunker doors.

(b.) Satisfactory arrangements shall be made by means of screens or otherwise, to prevent the coal from interfering with the closing of watertight bunker doors.

(5.) Within the machinery space and apart from bunker and shaft tunnel doors, not more than one door may be fitted in each main transverse bulkhead for inter-communication. These doors shall be located so as to have the sills as high as practicable.

(6.)—(a.) The only types of watertight doors permissible are hinged doors, sliding doors, and doors of other equivalent patterns, excluding plate doors secured only by bolts.

(b.) A hinged door shall be fitted with catches workable from each side of the bulkhead.

(c.) A sliding door may have a horizontal or vertical motion. If required to be hand operated only, the gearing shall be capable of being worked at the door itself and also at an accessible position above the bulkhead deck.

## RÈGLE IX.

*Ouvertures dans les Cloisons étanches.*

(1.) Le nombre des ouvertures pratiquées dans les cloisons étanches doit être réduit au minimum compatible avec les dispositions générales et la bonne exploitation du navire; ces ouvertures doivent être pourvues de dispositifs de fermeture satisfaisants.

(2.)—(a.) Si des tuyautages, dalots, câbles électriques, &c., traversent des cloisons étanches de compartimentage, des dispositions doivent être prises pour maintenir l'intégrité de l'étanchéité de ces cloisons.

(b.) Il n'est pas permis de munir les cloisons étanches de compartimentage de vannes à glissières.

(3.)—(a.) Il ne peut exister ni porte, ni trou d'homme, ni aucun orifice d'accès:

(i) dans la cloison étanche d'abordage, au-dessous de la ligne de surimmersion;

(ii) dans les cloisons transversales étanches séparant un local à marchandises d'un local à marchandises contigu ou d'une soute à charbon permanente ou de réserve, sauf exceptions spécifiées au paragraphe (7) ci-après.

(b.) On peut faire traverser la cloison d'abordage au-dessous de la ligne de surimmersion par un tuyau au plus pour le service du liquide contenu dans le coqueron avant, pourvu que ce tuyau soit muni d'une vanne à fermeture à vis, commandée d'un point au-dessus du pont de compartimentage et dont le corps sera fixé à la cloison d'abordage à l'intérieur du coqueron avant.

(4.)—(a.) Les portes étanches dans les cloisons séparant les soutes permanentes des soutes de réserve doivent être toujours accessibles, sauf toutefois l'exception prévue à l'alinéa 9 (b) pour les portes des soutes d'entrepont.

(b.) Des dispositions satisfaisantes, au moyen d'écrans ou autrement, doivent être prises pour éviter que le charbon n'empêche la fermeture des portes étanches des soutes à charbon.

(5.) Dans la tranche des machines, exclusion faite des portes des soutes à charbon et des tunnels de lignes d'arbres, il ne peut exister qu'une porte de communication dans chaque cloison transversale principale. Ces portes doivent être placées de manière que leurs seuils soient pratiquement aussi hauts que possible.

(6.)—(a.) Ne sont admises comme portes étanches que les portes à charnières et les portes à glissières ou toutes autres d'un type équivalent, à l'exclusion des portes montées simplement sur boulons.

(b.) Les portes à charnières doivent être pourvues de loquets commandés par des leviers manœuvrables de chaque côté de la cloison.

(c.) Les portes à glissières peuvent être à déplacement vertical ou horizontal. Si elles doivent être seulement commandées à bras, le mécanisme doit pouvoir être actionné sur place et en outre d'un point accessible situé au-dessus du pont de cloisonnement.

(d.) If a door is required to be closed by dropping or by the action of a dropping weight, it shall be fitted with a suitable arrangement to regulate the closing movement, and the gearing shall be so arranged that the door can be released both at the door itself and at an accessible position above the bulkhead deck. Hand gear shall also be provided, so arranged as to operate at the door itself and above the bulkhead deck, and also, so that after being disengaged for dropping, it can be quickly re-engaged from either the upper or the lower position.

(e.) If a door is required to be power operated from a central control, the gearing shall be so arranged that the door can be operated by power also at the door itself. The arrangements shall be such that the door will close automatically if opened by the local control after being closed from the central control, and also such that any door can be kept closed by local arrangements, which will prevent that door from being opened from the central control. Such power operated doors shall be provided with hand gear, workable both at the door itself and from an accessible position above the bulkhead deck.

(f.) In all classes of doors indicators shall be fitted at all operating stations other than at the door itself, showing whether the door is opened or closed.

(7.)—(a.) Hinged watertight doors in passenger, crew, and working spaces are only permitted above a deck, the underside of which, at its lowest point at side, is at least 7 feet (2·13 metres) above the deepest subdivision loadline, and they are not permitted in those spaces below such deck.

(b.) Hinged watertight doors of satisfactory construction may be fitted in bulkheads dividing cargo between deck spaces, in levels in which side cargo doors would be permitted under the provisions of Regulation X (11). These doors shall be closed before the voyage commences and shall be kept closed during the voyage, and the time of opening such doors in port and of closing them before the ship leaves port shall be entered in the official log book. Where it is proposed to fit such doors, the number and arrangements shall receive the special consideration of the Administration, and a statement shall be required from the owners certifying as to the absolute necessity of such doors.

(8.) All other watertight doors shall be sliding doors.

(9.)—(a.) When any watertight doors which may be sometimes opened at sea, excluding those at the entrances of tunnels, are fitted in the main transverse watertight bulkheads at such a height that

(d.) Les portes, qui doivent être fermées par leur poids ou par la chute d'un poids, doivent être pourvues d'un dispositif convenable pour régulariser leur fermeture; le mécanisme doit permettre de libérer la porte sur place et en outre d'un point accessible situé au-dessus du pont de cloisonnement. Une commande à main doit être également installée pour permettre de manœuvrer la porte sur place et d'un point situé au-dessus du pont de cloisonnement; enfin, le mécanisme de la porte doit, quand il a été débrayé pour libérer cette porte, pouvoir être embrayé rapidement de l'un ou de l'autre des postes de manœuvre.

(e.) Lorsqu'il est prévu qu'une porte doit être fermée au moyen d'une source d'énergie, d'un poste central de manœuvre, le mécanisme doit être disposé de manière à permettre la commande de la porte sur place au moyen de la même source d'énergie. La porte devra se refermer automatiquement si, après avoir été fermée du poste de commande central, elle est ouverte sur place. De même, il doit exister sur place un moyen de la maintenir fermée sans qu'elle puisse être ouverte par le poste de commande central. Enfin, toute porte manœuvrée au moyen d'une source d'énergie doit être pourvue d'une commande à main, manœuvrable sur place et d'un point accessible au-dessus du pont de cloisonnement.

(f.) Les portes de toutes catégories doivent être munies d'indicateurs d'ouverture, permettant de vérifier de tous les postes de commande, autres que sur place, si la porte est ouverte ou fermée.

(7.)—(a.) Des portes étanches à charnières peuvent être admises dans les parties du navire affectées aux passagers et à l'équipage, ainsi que dans les locaux de service, à condition qu'elles soient établies au-dessus d'un pont dont la surface inférieure a son point le plus bas en abord, se trouve au moins à 2.13 mètres (7 pieds) au-dessus de la ligne de charge maximum de compartimentage; ces portes ne sont pas autorisées dans ces parties et locaux du navire au-dessous d'un tel pont.

(b.) Des portes étanches à charnières de construction satisfaisante peuvent être admises dans les cloisons d'entrepont séparant deux locaux à marchandises, à la hauteur qui est permise pour les portes de charge sur le bordé conformément aux prescriptions de la Règle X (11). Ces portes doivent être fermées avant le départ et tenues fermées pendant tout le voyage; l'heure de leur ouverture à l'arrivée au port et de leur fermeture avant le départ du port doivent être inscrites dans le journal de bord réglementaire. Lorsqu'il est proposé d'installer des portes de cette nature, leur nombre et le détail de leurs dispositions font l'objet d'un examen spécial par l'Administration. Celle-ci exige des armateurs une attestation que cette installation est une nécessité de service absolue.

(8.) Toutes les autres portes étanches doivent être à glissières.

(9.)—(a.) Lorsqu'il existe des portes étanches devant être à certains moments ouvertes à la mer, exception faite de celles des entrées des tunnels et que ces portes sont placées dans les cloisons étanches

their sills are below the deepest subdivision loadline, the following rules shall apply:—

(I.) When the number of such doors exceeds 5 all the watertight sliding doors shall be power operated and shall be capable of being simultaneously closed from a station situated on the bridge, simultaneous closing of these doors being preceded by a warning sound signal.

(II.) When the number of such doors does not exceed 5—

- (i) if the criterion numeral does not exceed 30, all the watertight sliding doors may be operated by hand only;
- (ii) if the criterion numeral exceeds 30, but does not exceed 60, all the watertight sliding doors may be either dropping doors fitted with releasing and hand gear operated at the door and from above the bulkhead deck or doors operated by power.
- (iii) if the criterion numeral exceeds 60, all the watertight sliding doors shall be operated by power.

(b.) If watertight doors which have sometimes to be open at sea for the purpose of trimming coal are fitted between bunkers in the between-decks below the bulkhead deck, these doors shall be operated by power. The opening and closing of these doors shall be recorded in the official log book.

(c.) When trunkways in connection with refrigerated cargo are carried through more than one main transverse watertight bulkhead, and the sills of the openings are less than 7 feet (2.13 metres) above the deepest subdivision loadline, the watertight doors at such openings shall be operated by power.

(10.) Portable plates on bulkheads shall not be permitted except in machinery spaces. Such plates shall always be in place before the ship leaves port, and shall not be removed at sea except in case of urgent necessity. The necessary precautions shall be taken in replacing them to ensure that the joints shall be watertight.

(11.) All watertight doors shall be kept closed during navigation except when necessarily opened for the working of the ship, and shall always be ready to be immediately closed.

(12.) Where trunkways or tunnels for access from crew's accommodation to the stokehold, for piping, or for any other purpose are carried through main transverse watertight bulkheads, they shall be watertight and in accordance with the requirements of Regulation XII. The access to at least one end of each such tunnel or trunkway, if used as a passage at sea, shall be through a trunk extending watertight to a height sufficient to permit access above the margin line. The access to the other end of the trunkway or tunnel may be through

transversales principales de façon que leur seuil soit au-dessous de la ligne de charge maximum de compartimentage, les règles suivantes sont appliquées:

(I.) Si le nombre de ces portes excède 5, toutes les portes étanches à glissières doivent être manœuvrées au moyen d'une source d'énergie et pouvoir être fermées simultanément d'un poste de manœuvre situé sur la passerelle, la fermeture simultanée de ces portes étant précédée d'un signal sonore.

(II.) Si le nombre de ces portes n'excède pas 5:

- (i) si le critérium n'excède pas 30, toutes les portes étanches à glissières peuvent être manœuvrées à la main seulement;
- (ii) si le critérium excède 30, sans dépasser 60, toutes les portes étanches à glissières peuvent être soit des portes se fermant par gravité munies d'un déclic et d'une manœuvre à bras pouvant être actionnées aussi bien sur place que d'un point au-dessus du pont de cloisonnement, soit des portes manœuvrées au moyen d'une source d'énergie;
- (iii) si le critérium numérique excède 60, toutes les portes étanches à glissières doivent être manœuvrées au moyen d'une source d'énergie.

(b.) S'il existe, entre des soutes à charbon dans les entreponts au-dessous du pont de cloisonnement des portes étanches qui doivent, à la mer, être occasionnellement ouvertes pour la manipulation du charbon, l'emploi d'une source d'énergie est exigé pour la manœuvre de ces portes. L'ouverture et la fermeture doivent être mentionnées au journal de bord.

(c.) L'emploi d'une source d'énergie est également exigé pour la manœuvre des portes établies au passage des conduits des cales frigorifiques, si ces conduits traversent plus d'une cloison transversale principale étanche, et si les seuils de ces portes sont situés à moins de 2,13 mètres (7 pieds) au-dessus de la ligne de charge maximum de compartimentage.

(10.) L'emploi de panneaux démontables en tôle n'est toléré que dans la tranche des machines. Ces panneaux doivent toujours être en place avant l'appareillage; ils ne peuvent être enlevés à la mer, si ce n'est en cas d'impérieuse nécessité. Les précautions nécessaires doivent être prises au remontage pour rétablir la parfaite étanchéité du joint.

(11.) Toutes les portes étanches doivent être fermées en cours de navigation ou n'être ouvertes que lorsque le service du navire l'exige. Dans ce cas, elles doivent toujours être prêtes à être immédiatement fermées.

(12.) Si des tambours ou tunnels reliant les logements du personnel aux chaufferies ou disposés pour renfermer des tuyautages ou pour tout autre but sont ménagés à travers les cloisons transversales étanches principales, ces tambours ou tunnels doivent être étanches et satisfaire aux prescriptions de la Règle XII. L'accès à l'une ou l'autre des extrémités de ces tunnels ou tambours, si on s'en sert comme passage à la mer, doit être réalisé par un puits étanche d'une hauteur suffisante pour que son débouché soit au-dessus de la ligne

a watertight door of the type required by its location in the ship. Such trunkways or tunnels shall not extend through the first subdivision bulkhead abaft the collision bulkhead.

Where it is proposed to fit tunnels or trunkways for forced draft, piercing main transverse watertight bulkheads, these shall receive the special consideration of the Administration.

#### REGULATION X.

##### *Openings in Ship's Sides below the Margin Line.*

Openings in ship's  
sides below margin  
line.

(1.) The arrangement and efficiency of the means for closing any opening in the ship's sides shall be consistent with its intended purpose and the position in which it is fitted and generally to the satisfaction of the Administration.

(2.)—(a.) If in a between decks, the sills of any sidescuttles are below a line drawn parallel to the bulkhead deck at side and having its lowest point  $2\frac{1}{2}$  per cent. of the breadth of the ship above the deepest subdivision loadline, all sidescuttles in that between deck shall be of a non-opening type.

(b.) If in a between decks, the sills of any sidescuttles other than those required to be of a non-opening type by sub-paragraph (a) are below a line drawn parallel to the bulkhead deck at side and having its lowest point at a height of 12 feet (3.66 metres) plus  $2\frac{1}{2}$  per cent. of the breadth of the ship above the deepest subdivision loadline, all sidescuttles in that between decks shall be of such construction as will effectively prevent any person opening them without the consent of the master of the ship.

(c.) Other sidescuttles may be of an ordinary opening type.

(d.) If in a between decks, the sills of any of the sidescuttles referred to in sub-paragraph (b) are below a line drawn parallel to the bulkhead deck at side and having its lowest point  $4\frac{1}{2}$  feet (1.37 metres), plus  $2\frac{1}{2}$  per cent. of the breadth of the ship above the loadline at which the ship is floating on her departure from any port, all the sidescuttles in that between decks shall be closed watertight and locked before the ship leaves port and they shall not be opened during navigation.

The time of opening such sidescuttles in port and of closing and locking them before the ship leaves port shall be entered in the official log book.

The Administration may indicate the limiting mean draught at which these sidescuttles will have their sills above the line defined in this paragraph and at which it will be permissible to open them at sea on the responsibility of the master. In tropical waters in fair weather this limiting draught may be increased by 1 foot (.305 metres).

de surimmersion. L'accès à l'autre extrémité peut se faire par une porte étanche du type exigé par son emplacement dans le navire. Aucun de ces tunnels ou tambours ne doit traverser la cloison de compartimentage immédiatement en arrière de la cloison d'abordage.

Lorsqu'il est prévu des tunnels ou tambours pour tirage forcé, traversant les cloisons étanches transversales principales, le cas doit être spécialement examiné par l'Administration.

#### RÈGLE X.

##### *Ouverture dans la Muraille extérieure au-dessous de la Ligne de surimmersion.*

(1.) La disposition et l'efficacité des moyens de fermeture de toutes les ouvertures pratiquées dans la muraille extérieure du navire doivent correspondre au but à réaliser et à l'emplacement où ils sont fixés; ils doivent d'une manière générale être à la satisfaction de l'Administration.

(2.)—(a.) Si, dans un entrepont, le bord inférieur de l'ouverture d'un hublot quelconque est au-dessous d'une ligne tracée sur la muraille parallèlement au livet du pont de cloisonnement et ayant son point le plus bas à  $2\frac{1}{2}$  pour cent de la largeur du navire au-dessus de la ligne de charge maximum de compartimentage, tous les hublots de cet entrepont doivent être des hublots fixes.

(b.) Si, dans un entrepont, le bord inférieur de l'ouverture d'un hublot quelconque autre que ceux qui doivent être fixes, aux termes de l'alinéa (a) ci-dessus, est au-dessous d'une ligne tracée parallèlement au livet du pont de cloisonnement et ayant son point le plus bas à 3 mètres 66 (12 pieds) plus  $2\frac{1}{2}$  pour cent de la largeur du navire, au-dessus de la ligne de charge maximum de compartimentage, tous les hublots de cet entrepont seront construits de telle sorte que personne ne puisse les ouvrir sans l'autorisation du Capitaine du navire.

(c.) Tous les autres hublots peuvent être du type ouvrant ordinaire.

(d.) Si, dans un entrepont, le bord inférieur de l'ouverture d'un quelconque des hublots visés au alinéa (b) ci-dessus, est au-dessous d'une ligne tracée parallèlement au livet du pont de cloisonnement et ayant son point le plus bas à 1 mètre 37 ( $4\frac{1}{2}$  pieds) plus  $2\frac{1}{2}$  pour cent de la largeur du navire au-dessus de la flottaison du navire, à son départ du port, tous les hublots de cet entrepont sont fermés d'une façon étanche et à clef avant que le navire ne sorte du port, et ne doivent pas être ouverts en cours de navigation.

Les heures d'ouverture de ces hublots dans le port et de leur fermeture à clef avant le départ seront inscrites au journal de bord réglementaire.

L'Administration peut préciser le tirant d'eau milieu maximum auquel les hublots en question ont le bord inférieur de leur ouverture au-dessus de la ligne définie dans le présent paragraphe et auquel, par suite, il sera permis de les ouvrir à la mer sous la responsabilité du Capitaine. Dans les mers tropicales, par beau temps, ce tirant d'eau peut être augmenté de 305 millimètres (1 pied).

(3.) Efficient hinged inside deadlights arranged so that they can be easily and effectively closed and secured watertight shall be fitted to all sidescuttles—

- (a) which are required to be of a non-opening type;
- (b) which are to be fitted within one-eighth of the ship's length of the forward perpendicular;
- (c) which are to be fitted in positions defined in sub-paragraph (2) (b);
- (d) which will not be accessible during navigation;
- (e) which are to be fitted in spaces intended for the accommodation of sailors and firemen;
- (f) which are to be fitted in spaces intended for the accommodation of steerage passengers.

(4.) Sidescuttles fitted below the bulkhead deck, other than those referred to in the preceding paragraph, shall be fitted with efficient inside deadlights which may be portable and stowed adjacent to the sidescuttles.

(5.) Sidescuttles and their deadlights, which will not be accessible during navigation, shall be closed and secured before the ship proceeds to sea.

(6.) No sidescuttles shall be fitted in any spaces which are appropriated exclusively to the carriage of cargo or coal.

(7.) Automatic ventilating sidescuttles shall not be fitted in the ship's sides below the margin line without the special sanction of the Administration.

(8.) All machinery and other inlets and discharges in the ship's sides shall be arranged so as to prevent the accidental admission of water into the ship.

(9.) The number of scuppers, sanitary discharges and other similar openings in the ship's sides shall be reduced to the minimum either by making each discharge serve for as many as possible of the sanitary and other pipes, or in any other satisfactory manner.

(10.) Discharges led through the ship's sides from spaces below the margin line shall be fitted with efficient and accessible means for preventing water from passing inboard. It is permissible to have for each separate discharge either one automatic non-return valve fitted with a positive means of closing it from above the bulkhead deck, or, alternatively, two automatic non-return valves without such means, the upper of which valves is so situated above the deepest subdivision loadline as to be always accessible for examination under service conditions.

Where a positive action valve is fitted, the operating position above the bulkhead deck shall always be readily accessible and means shall be provided for indicating whether the valve is open or closed.

(11.) Gangway, cargo and coaling ports fitted below the margin line shall be of sufficient strength. They shall be effectively closed

(3.) Des tapes à charnières, d'un modèle efficace et disposées de manière à pouvoir être réellement fermées et rendues étanches, doivent être installées sur tous les hublots:

- (a) qui doivent réglementairement être fixes;
- (b) qui sont situés sur un huitième de la longueur du navire à partir de la perpendiculaire avant;
- (c) qui occupent les positions définies à l'alinéa (2) (b) ci-dessus;
- (d) qui ne sont pas accessibles en cours de navigation;

(5.) Les hublots et leurs tapes qui ne sont pas accessibles en cours de navigation doivent être fermés et condamnés avant l'appareillage.

(6.) Aucun hublot ne peut être établi dans les locaux affectés exclusivement au transport de marchandises ou de charbon.

(7.) Aucun hublot à ventilation automatique ne peut être établi dans la muraille du navire au-dessous de la ligne de surimmersion, sans une autorisation spéciale de l'Administration.

(8.) Toutes les prises d'eau et décharges dans la muraille doivent être disposées de façon à empêcher toute introduction accidentelle d'eau dans le navire.

(9.) Le nombre des dalots, tuyaux de décharge sanitaires et autres ouvertures similaires dans la muraille, doit être réduit au minimum, soit en utilisant chaque orifice de décharge, pour le plus grand nombre possible de tuyaux sanitaires ou autres, soit de toute autre manière satisfaisante.

(10.) Les décharges à la coque, dont l'orifice inférieur se trouve au-dessous de la ligne de surimmersion, doivent être munies de dispositifs efficaces et accessibles empêchant l'eau de s'introduire dans le navire. On peut, pour chaque décharge séparée, employer soit une soupape automatique de non-retour, pourvu d'un moyen de fermeture direct, manœuvrable d'un point situé au-dessus du pont de cloisonnement, soit, à volonté, deux soupapes automatiques de non-retour sans moyen de fermeture direct, pourvu que la plus élevée soit placée de telle sorte au-dessus de la ligne de charge maximum de compartimentage qu'elle soit toujours accessible pour être visitée dans les circonstances normales du service.

Lorsqu'on emploie des valves à commande de fermeture directe, les postes de manœuvre au-dessus du pont de cloisonnement doivent toujours être facilement accessibles et ils doivent comporter des indicateurs d'ouverture et de fermeture.

(11.) Les coupées, portes de chargement et sabords à charbon situés au-dessous de la ligne de surimmersion doivent être de résis-

and secured watertight before the ship leaves port, and shall be kept closed during navigation.

Cargo and coaling ports which are to be fitted partly or entirely below the deepest subdivision loadline shall receive the special consideration of the Administration.

(12.) The inboard opening of each ash-shoot, rubbish-shoot, &c., shall be fitted with an efficient cover.

If the inboard opening is situated below the margin line, the cover shall be watertight, and in addition an automatic non-return valve shall be fitted in the shoot in an easily accessible position above the deepest subdivision loadline. When the shoot is not in use both the cover and the valve shall be kept closed and secured.

(12.) Les ouvertures intérieures des manches à escarbilles, manches à saletés, &c., doivent être pourvues d'un couvercle efficace.

Si ces ouvertures sont situées au-dessous de la ligne de surimmersion, le couvercle doit être étanche et on doit, en outre, installer dans la manche un clapet de non-retour, placé dans un endroit accessible, au-dessus de la ligne de charge maximum de compartimentage. Quand on ne se servira pas de la manche, le couvercle et le clapet doivent être fermés et assujettis en place.

(3.) In ships 330 feet (100 metres) in length and upwards a double bottom shall be fitted amidships, and shall extend to the fore and after peak bulkheads, or as near thereto as practicable.

(4.) Where a double bottom is required to be fitted the inner bottom shall be continued out to the ship's sides in such a manner as to protect the bottom to the turn of bilge.

Such protection will be deemed satisfactory if the line of intersection of the outer edge of the margin plate with the bilge plating is not lower

une semaine, un exercice complet doit avoir lieu avant l'appareillage, et d'autres ensuite pendant la navigation, à raison d'un au moins par semaine; toutefois, les portes dont la manœuvre comporte l'emploi d'une source d'énergie et les portes à charnières des cloisons transversales principales doivent être manœuvrées quotidiennement, lorsqu'elles sont utilisées à la mer.

Les portes étanches, y compris les mécanismes et les indicateurs qui s'y rapportent, ainsi que les soupapes dont la fermeture est nécessaire pour assurer l'étanchéité d'un compartiment, doivent être périodiquement inspectées à la mer, à raison d'une fois au moins par semaine.

#### RÈGLE XIV.

##### *Mentions au Journal de bord réglementaire.*

Sur tout navire neuf ou existant, les portes à charnières, panneaux démontables, hublots, coupées, portes de chargement, sabords à charbon et autres ouvertures, qui doivent rester fermées pendant la navigation, en application des prescriptions précédentes, doivent être fermés avant l'appareillage. Mention doit être faite au journal de bord réglementaire des heures de fermeture de tous ces organes et des heures auxquelles auront été ouverts ceux dont le présent Règlement permet l'ouverture.

Mention de tous les exercices et toutes les inspections prescrits par la Règle XIII ci-dessus doit être faite au journal de bord réglementaire; toute défectuosité constatée y est explicitement notée.

#### RÈGLE XV.

##### *Doubles-fonds.*

(1.) Les navires dont la longueur est au moins égale à 61 mètres (200 pieds) et inférieure à 76 mètres (249 pieds) doivent être pourvus d'un double-fond s'étendant au moins depuis l'avant de la tranche des machines jusqu'à la cloison du coqueron avant ou aussi près que possible pratiquement de cette cloison.

(2.) Les navires dont la longueur est au moins égale à 76 mètres (249 pieds) et inférieure à 100 mètres (330 pieds) doivent être pourvus de doubles-fonds au moins en dehors de la tranche des machines. Ces doubles-fonds doivent s'étendre jusqu'aux cloisons des coquerons avant et arrière ou aussi près que possible pratiquement de ces cloisons.

(3.) Les navires dont la longueur est égale ou supérieure à 100 mètres (330 pieds) doivent être pourvus au milieu d'un double-fond s'étendant jusqu'aux cloisons des coquerons avant et arrière ou aussi près que possible pratiquement de ces cloisons.

(4.) Là où un double-fond est exigé, il doit se prolonger en abord vers la muraille de manière à protéger efficacement les bouchains.

Cette protection sera considérée comme satisfaisante si aucun point de la ligne d'intersection de l'arête extérieure de la tôle de côté avec

at any part than a horizontal plane passing through the point of intersection with the frame line amidships of a transverse diagonal line inclined at 25 degrees to the base line and cutting it at a point one-half the ship's moulded breadth from the middle line.

(5.) Wells constructed in the double bottom in connection with the drainage arrangements shall not extend downwards more than necessary, nor shall they be less than 18 inches (457 millimetres) from the outer bottom or from the inner edge of the margin plate. A well extending to the outer bottom is, however, permitted at the after end of the shaft tunnel of screw ships.

#### REGULATION XVI.

##### *Fire-resisting Bulkheads.*

Fire-resisting bulkheads.

Ships shall be fitted above the bulkhead deck with fire-resisting bulkheads which shall be continuous from side to side of the ship and arranged to the satisfaction of the Administration.

They shall be constructed of metal or other fire-resisting material, effective to prevent for one hour, under the conditions for which the bulkheads are to be fitted in the ship, the spread of fire generating a temperature of 1,500° F. (815° C.) at the bulkhead.

Steps and recesses and the means for closing all openings in these bulkheads shall be fire-resisting and flametight.

The mean distance between any two adjacent fire-resisting bulkheads in any superstructure shall in general not exceed 131 feet (40 metres).

#### REGULATION XVII.

##### *Side and other Openings, &c., above the Margin Line.*

Side and other openings, etc.

Design, construction, etc.

(1.) Sidescuttles, gangway, cargo and coaling ports, and other means for closing openings in the ship's sides above the margin line shall be of efficient design and construction and of sufficient strength having regard to the spaces in which they are fitted and their positions relative to the deepest subdivision loadline.

(2.) The bulkhead deck or a deck above it shall be weathertight in the sense that in ordinary sea conditions water will not penetrate in a downward direction. All openings in the exposed weather deck shall have coamings of ample height and strength, and shall be provided with efficient means for expeditiously closing them weathertight.

(3.) Freeing ports and/or scuppers shall be fitted as necessary for rapidly clearing the weather deck of water under all weather conditions.

le borde extérieur ne vient au-dessous d'un plan horizontal passant par le point du tracé hors membres où le couple milieu est coupé par une diagonale inclinée à  $25^{\circ}$  sur l'horizontale et menée par le sommet inférieur externe du rectangle circonscrit à la maîtresse section.

(5.) Les puisards établis dans les doubles-fonds pour recevoir les aspirations des pompes ne doivent pas être plus profonds qu'il n'est nécessaire et, en tous les cas, ils ne doivent pas être à moins de 457 millimètres (18 pouces) du bordé extérieur ou du bord intérieur de la tôle de côté. Des puisards allant jusqu'au bordé peuvent cependant être admis à l'extrémité arrière des tunnels d'arbres des navires à hélice.

#### RÈGLE XVI.

##### *Cloisons contre l'Incendie.*

Les navires doivent avoir, au-dessus du pont de cloisonnement, des cloisons contre l'incendie, s'étendant sans discontinuité d'un bord à l'autre et disposées à la satisfaction de l'Administration.

Elles doivent être construites en métal ou toute autre substance résistant au feu, et efficaces pour empêcher pendant une heure, dans les conditions pour lesquelles l'installation de ces cloisons est prévue, la propagation d'un incendie développant au voisinage de la cloison une température de  $815^{\circ}$  C. ( $1500^{\circ}$  F.).

Les niches, baïonnettes et tous les dispositifs fermant les ouvertures pratiquées dans ces cloisons seront à l'épreuve du feu et étanches aux flammes.

La distance moyenne de deux cloisons contre l'incendie adjacentes, dans une superstructure quelconque, doit être en général au plus égale à 40 mètres (131 pieds).

#### RÈGLE XVII.

##### *Hublots et autres Ouvertures, &c., au-dessus de la Ligne de surimmersion.*

(1.) Les hublots, les portes des coupées, les portes de chargement, les sabords à charbon, et autres dispositifs fermant les ouvertures pratiquées dans la muraille du navire au-dessus de la ligne de surimmersion doivent être convenablement dessinés et construits et présenter une résistance suffisante, eu égard au compartiment dans lequel elles sont placées et à leur position par rapport à la ligne de charge maximum de compartimentage.

(2.) Le pont de cloisonnement ou un autre pont situé au-dessus doit être étanche en ce sens que, dans des circonstances de mer ordinaires, il ne laisse pas l'eau pénétrer de haut en bas. Toutes les ouvertures pratiquées dans le pont exposé à la mer doivent être pourvues d'hiloires de hauteur et de résistance suffisantes et munies de moyens de fermeture efficaces permettant de les fermer rapidement et de les rendre étanches à la mer.

(3.) Des sabords de décharge à la mer et (ou) des dalots doivent être installés pour évacuer rapidement l'eau des ponts exposés à la mer en toutes circonstances de mer.

## REGULATION XVIII.

*Exits from Watertight Compartments.*

Watertight compartment exits.

(1.) In passenger and crew spaces, practicable means of exit to the open deck shall be provided for the occupants from each watertight compartment.

(2.) Practicable means of escape for the crew shall be provided from each engine room, shaft tunnel, stokehold compartment, and other working spaces, independent of watertight doors.

## REGULATION XIX.

Pumping arrangements.

*Pumping Arrangements.*

Steamships.

*Steamships.*

(1.) Ships shall be provided with an efficient pumping plant capable of pumping from and draining any watertight compartment under all practicable conditions after a casualty whether the ship is upright or listed. For this purpose wing suction will generally be necessary except in narrow compartments at the ends of the ship. Where close ceiling is fitted over the bilges, arrangements shall be made whereby water in the compartment may find its way to the suction pipes. Efficient means shall be provided for draining water from insulated holds.

(2.) In addition to the ordinary bilge pump, worked by the main engines, or its equivalent engine room pump, two independent power bilge pumps shall be provided, except that in ships less than 300 feet (91.5 metres) in length, having a criterion numeral less than 30, either two efficient hand pumps of the crank type fitted one forward and one aft, or a portable power pump, may be substituted for one of the additional independent power bilge pumps.

Sanitary, ballast and general service pumps may be accepted as independent power bilge pumps if fitted with the necessary connections to the bilge pumping system.

(3.) Where two or more independent power pumps are required, the arrangement shall be such that at least one power pump will be available for use in all ordinary circumstances in which a vessel may be flooded at sea. One of the power pumps shall, therefore, be an emergency pump of a reliable submersible type. A source of power situated above the bulkhead deck shall be available for this pump in any case of emergency.

(4.) Where practicable, the power bilge pumps shall be placed in separate watertight compartments so arranged or situated that these compartments will not readily be flooded by the same damage. If the engines and boilers are in two or more watertight compartments,

## RÈGLE XVIII.

*Évacuation des Compartiments étanches.*

(1.) Dans les parties du navire affectées aux passagers et à l'équipage, tout compartiment étanche doit être pourvu d'une échappée praticable offrant aux personnes qui l'occupent un moyen de gagner le pont découvert.

(2.) Toute chambre de machine, tout tunnel d'arbre, toute chaufferie et tout autre local de service doit être pourvu d'une échappée praticable offrant au personnel un moyen de retraite qui n'exige pas la traversée de portes étanches.

## RÈGLE XIX.

*Moyens de Pompage.**Navires à vapeur.*

(1.) Tout navire doit être pourvu d'une installation de pompage efficace permettant d'épuiser et d'assécher, dans la mesure pratiquement possible, à la suite d'une avarie, un compartiment étanche quelconque, que le navire soit droit ou incliné. A cet effet des aspirations latérales sont en général nécessaires, sauf dans les parties resserrées aux extrémités du navire. Lorsque le vaigrage aux bouchains est jointif, on doit ménager un accès de l'eau aux tuyaux d'aspiration. Des moyens efficaces doivent être prévus pour l'épuisement de l'eau des cales frigorifiques.

(2.) En plus de la pompe de cale ordinaire conduite par la machine principale ou de la pompe indépendante qui la remplace, il y aura deux pompes de cale indépendantes actionnées par une source d'énergie. Toutefois, dans les navires de moins de 91m. 50 (300 pieds) de longueur ayant un critérium numérique inférieur à 30, une des pompes indépendantes peut être remplacée soit par deux pompes à bras efficaces, placées une à l'avant, l'autre à l'arrière, soit par une pompe transportable actionnée par une source d'énergie.

Les pompes sanitaires, les pompes de ballast ou de service peuvent être considérées comme des pompes de cale indépendantes si elles sont disposées pour être reliées au réseau de tuyautage de cale.

(3.) Lorsqu'il est exigé deux pompes indépendantes au moins actionnées par une source d'énergie, leur disposition doit être telle qu'une au moins puisse servir, dans les circonstances ordinaires où le navire peut être envahi à la mer. Une de ces pompes indépendantes doit en conséquence être une pompe de secours d'un type submersible éprouvé. Une source d'énergie située au-dessus du pont de cloisonnement doit être disponible pour actionner cette pompe en toute éventualité.

(4.) Si possible, les pompes de cale actionnées par une source d'énergie doivent être placées dans des compartiments étanches séparés et situés de telle sorte que la même avarie ne puisse vraisemblablement pas en amener l'envahissement rapide. Si les machines

the pumps available for bilge service shall be distributed through these compartments as far as is possible.

(5.) With the exception of pumps which may be provided for peak compartments only, each bilge pump, whether operated by hand or by power, shall be arranged to draw water from any hold or machinery compartment in the ship.

(6.) Each independent power bilge pump shall be capable of giving a speed of water through the main bilge pipe of not less than 400 feet (122 metres) per minute, and it shall have a separate direct suction, to the compartment in which it is situated, of a diameter not less than that of the bilge main. The direct suctions from each independent power bilge pump shall be arranged to pump from either side of the ship.

(7.) Main circulating pumps shall have direct suction connections, provided with non-return valves, to the lowest drainage level in the machinery space, and of a diameter at least two-thirds that of the main sea inlet. Where the fuel is, or may be, coal, and there is no watertight bulkhead between the engines and boilers, a direct discharge overboard shall be fitted from at least one circulating pump, or, alternatively, a bye-pass may be fitted to the circulating discharge.

(8.)—(a.) All pipes from the pumps which are required for draining cargo or machinery spaces shall be entirely distinct from pipes which may be used for filling or emptying spaces where water or oil is carried.

(b.) Lead pipes shall not be used under coal bunkers or oil fuel storage tanks, nor in boiler or machinery spaces, including motor rooms in which oil settling tanks or oil fuel pump units are situated.

(9.) The Administration shall make rules relating to the diameters of the bilge main and branch pipes which shall be proportioned respectively in relation to the size of the ship and the sizes of the compartments to be drained.

(10.) The arrangement of the bilge and ballast pumping system shall be such as to prevent the possibility of water passing from the sea and from water ballast spaces into the cargo and machinery spaces, or from one compartment to another. Special provision shall be made to prevent any deep tank having bilge and ballast connections being inadvertently run up from the sea when containing cargo, or pumped out through a bilge pipe when containing water ballast.

(11.) Provision shall be made to prevent the compartment served by any bilge suction pipe being flooded, in the event of the pipe being severed or otherwise damaged, by collision or grounding, in any

et les chaudières sont dans deux ou plus de deux compartiments étanches les pompes utilisables comme pompes de cale doivent être réparties autant que possible dans ces divers compartiments.

(5.) Chaque pompe de cale, à bras ou mécanique, à l'exception de celles qui sont prévues pour les coquerons seulement, doit être disposée pour aspirer dans une cale quelconque ou un compartiment quelconque de la tranche des machines.

(6.) Chaque pompe de cale indépendante mécanique doit être capable d'imprimer à l'eau dans le collecteur principal d'aspiration une vitesse d'au moins 122 mètres (400 pieds) par minute, elle doit avoir une aspiration directe séparée dans le compartiment où elle est située et d'un diamètre au moins égal à celui de ce collecteur. Les aspirations directes de chaque pompe indépendante mécanique doivent être disposées pour aspirer de chaque bord du navire.

(7.) Les pompes de circulation principales doivent avoir une aspiration directe munie de clapet de non-retour, au point le plus bas de la chambre des machines et d'un diamètre au moins égal aux deux tiers de la prise principale d'eau de circulation. Si le combustible est, ou peut être du charbon, et s'il n'y a pas de cloison étanche entre les machines et les chaudières, une pompe de circulation au moins doit pouvoir refouler directement à la mer ou bien un tuyautage direct doit être installé allant à la décharge principale muni de vanne d'isolement.

(8.)—(a.) Le tuyautage desservant les pompes exigées pour l'épuisement des compartiments des machines ou des cales à marchandises doit être entièrement distinct du tuyautage employé pour le remplissage ou l'épuisement des compartiments à eau ou à combustible liquide.

(b.) L'emploi de tuyaux en plomb est interdit dans les soutes à charbon ou dans les soutes à combustible liquide, ou dans les chambres de machines ou de chaudières, y compris les chambres des moteurs renfermant des pompes à combustible liquide ou des caisses de décantation.

(9.) L'Administration doit établir des règles pour le calcul du diamètre des collecteurs et branchements du tuyautage des cales en tenant compte des dimensions du navire et de celles des compartiments à épuiser.

(10.) La disposition du tuyautage des cales et du tuyautage des ballasts doit être telle que l'eau ne puisse passer de la mer ou des ballasts dans les compartiments des machines ou les cales à marchandises, ni d'un compartiment dans l'autre. On doit prendre en particulier des mesures pour éviter qu'une cale à eau ayant des aspirations sur le tuyautage de cale et sur celui des ballasts ne puisse, par inadvertence, être remplie d'eau de mer quand elle est utilisée comme cale à marchandises ou vidée par le tuyau de cale quand elle contient du lest liquide.

(11.) Des mesures doivent être prises pour que, si un compartiment desservi par un tuyau d'aspiration de cale vient à être rempli, il ne se déverse dans un autre compartiment, dans le cas où le tuyau

other compartment. For this purpose, where the pipe is at any part situated near the side of the ship or in a duct keel, there shall be fitted to the pipe in the compartment containing the open end either a non-return valve, or a screw-down valve which can be operated from a position above the bulkhead deck.

(12.) All distribution boxes, cocks and valves in connection with the bilge pumping arrangement shall be in positions which are accessible at all times under ordinary circumstances. They shall be so arranged that in the event of flooding the emergency bilge pump may be operative on any compartment. If there is only one system of pipes common to all the pumps, the necessary cocks or valves for controlling the bilge suction must be workable from above the bulkhead deck. If in addition to the main bilge pumping system an emergency bilge pumping system is provided, it shall be independent of the main system and so arranged that the emergency pump is capable of operating on any compartment under flooding conditions.

*Motor Ships.*

Motor ships.

(13.) The bilge pumping arrangements in motor ships shall, so far as practicable, be equivalent to those required for steamships of similar size, except as regards main circulating pumps.

REGULATION XX.

*Power for Going Astern.*

Power for going astern.

Ships shall have sufficient power for going astern to secure proper control of the ship in all circumstances.

REGULATION XXI.

*Auxiliary Steering Apparatus.*

Auxiliary steering apparatus.

Ships shall be provided with an auxiliary steering apparatus which, however, may be of less power than the main apparatus, and need not be worked by steam or other mechanical power, provided adequate arrangements for manual operation are practicable. A duplicate main steering power plant shall be considered as an auxiliary steering apparatus within the meaning of this Regulation.

REGULATION XXII.

*Initial and Subsequent Surveys of Ships.*

Initial and subsequent surveys of ships.

(1.) Every new or existing ship shall be subjected to the surveys specified below:—

- (a.) A survey before the ship is put in service.
- (b.) A periodical survey once every twelve months.
- (c.) Additional surveys, as occasion arises.

d'aspiration en question serait lui-même brisé ou avarié par collision ou échouage. Pour cela, si en un point de son tracé, le tuyau est situé près du bordé extérieur ou dans une quille tubulaire, on doit placer sur le tuyau dans le compartiment qui contient l'extrémité libre du tuyau soit un clapet de non-retour, soit une vanne à tige filetée qui puisse être manœuvrée d'un point au-dessus du pont de cloisonnement.

(12.) Toutes les boîtes de distribution, vannes, robinets, faisant partie du système d'épuisement des cales doivent être placés dans des endroits où ils soient toujours accessibles dans les circonstances normales. Ils doivent être disposés de telle sorte qu'en cas de remplissage d'un compartiment, on puisse mettre en marche la pompe de secours sur un compartiment quelconque. S'il n'y a qu'un réseau de tuyaux commun à toutes les pompes, les vannes et robinets qu'il est nécessaire de manœuvrer pour régler les aspirations de cale doivent pouvoir être commandées d'un point au-dessus du pont de cloisonnement. Si, en plus du réseau normal de tuyautage de cale il y a un réseau de secours, il doit être indépendant du réseau principal et disposé de telle sorte que la pompe de secours puisse aspirer dans un compartiment quelconque en cas d'envahissement d'un compartiment.

*Navires à moteurs.*

(13.) Le système de pompage à la cale des navires à moteurs doit, autant que cela est pratiquement possible, et à l'exception de ce qui est relatif aux pompes de circulation, être équivalent à celui que serait exigé pour un navire à vapeur de même dimension.

## RÈGLE XX.

### *Marche arrière.*

La puissance de marche arrière doit être suffisante pour assurer au navire des aptitudes de manœuvre convenables en toutes circonstances.

## RÈGLE XXI.

### *Appareil à gouverner auxiliaire.*

Les navires doivent être munis d'un appareil à gouverner auxiliaire, qui peut être d'une puissance inférieure à celle de l'appareil principal; il n'est pas exigé que cet appareil auxiliaire soit actionné par la vapeur ou toute autre source d'énergie, pourvu que des dispositifs appropriés pour une commande à la main soient réalisables. Un moteur identique au moteur de la machine à gouverner principale sera considéré comme un appareil à gouverner auxiliaire dans le sens de la présente Règle.

## RÈGLE XXII.

### *Inspections initiales et subséquentes de Navires.*

(1.) Tout navire neuf ou existant doit être soumis aux inspections spécifiées ci-après:

- (a) une inspection préalable à la mise en service;
- (b) une inspection périodique tous les douze mois;
- (c) des inspections supplémentaires occasionnelles.

(2.) The surveys referred to above shall be carried out as follows:—

(a.) *The survey before the ship is put in service* shall include a complete inspection of the hull, machinery and equipments, including the outside of the ship's bottom and the inside and outside of the boilers. This survey shall be such as to ensure that the arrangements, material, and scantlings of the hull, boilers, and their appurtenances, main and auxiliary machinery, life-saving appliances, and other equipments, fully comply with the requirements of the present Convention and of the detailed regulations promulgated as a result thereof by the Government of the country to which the ship belongs for ships of the service for which it is intended. The survey shall also be such as to ensure that the workmanship of all parts of the ship and its equipments is in all respects satisfactory.

(b.) *The periodical survey* shall include an inspection of the whole of the hull, boilers, machinery, and equipments, including the outside of the ship's bottom. The survey shall be such as to ensure that the ship, as regards the hull, boilers, and their appurtenances, main and auxiliary machinery, life-saving appliances, and other equipments, is in satisfactory condition and fit for the service for which it is intended, and that it complies with the requirements of the present Convention, and of the detailed regulations promulgated as a result thereof by the Government of the country to which the ship belongs.

(c.) *A survey, either general or partial*, according to the circumstances, shall be made every time an accident occurs or a defect is discovered which affects the safety of the ship or the efficiency or completeness of its life-saving appliances or other equipments, or whenever any important repairs or renewals are made. The survey shall be such as to ensure that the necessary repairs or renewals have been effectively made, that the material and workmanship of such repairs or renewals are in all respects satisfactory, and that the ship complies in all respects with the provisions of the present Convention and of the detailed regulations promulgated as a result thereof by the Government of the country to which the ship belongs.

(3.) The detailed regulations referred to in sub-paragraph (2) shall prescribe the requirements to be observed as to the initial and subsequent hydraulic tests to which the main and auxiliary boilers, connections, steam-pipes, high-pressure receivers, and fuel tanks for oil motors are to be submitted, including the test pressure to be applied, and the intervals between two consecutive tests.

Main and auxiliary boilers, connections, tanks and receivers, also steam-piping of more than 3 inches (76 millimetres) internal diameter shall be satisfactorily tested by hydraulic pressure when new. Steam pipes of more than 3 inches (76 millimetres) internal diameter shall be tested by hydraulic pressure periodically.

(2.) Les inspections visées dans l'Article précédent doivent s'effectuer dans les conditions suivantes:

(a.) *L'inspection préalable à la mise en service* comporte un examen complet de la coque, des appareils mécaniques et de l'armement, notamment une visite à sec de la carène ainsi qu'une visite extérieure et intérieure des chaudières. Cette inspection doit permettre de se rendre compte que le navire répond complètement, au point de vue des dispositions générales, des matériaux et échantillons de la coque, des chaudières et de leurs accessoires, des machines principales et auxiliaires, des engins de sauvetage et de l'armement, aux prescriptions de la présente Convention ainsi qu'à celles des règlements de détail édictés pour l'application par le Gouvernement de l'État dont il dépend, pour les navires affectés au service auquel le navire est destiné. L'inspection doit également permettre de se rendre compte que le navire et son armement sont d'une exécution satisfaisante à tous égards.

(b.) *L'inspection périodique* comporte un examen d'ensemble de la coque, des chaudières, de la machinerie et de l'armement, notamment une visite à sec de la carène. Cette inspection doit permettre de se rendre compte que le navire est, au point de vue de la coque, des chaudières et accessoires, des machines principales et auxiliaires ainsi que des engins de sauvetage et de l'armement, dans un état satisfaisant et approprié au service auquel il est destiné, et qu'il répond, en outre, aux prescriptions de la présente Convention et à celles des règlements de détail édictés pour l'application par le Gouvernement de l'État dont relève le navire.

(c.) *Une inspection générale ou partielle*, suivant le cas, doit être faite chaque fois qu'il se produit un accident ou qu'il se révèle un défaut affectant soit la sécurité du navire, soit l'intégrité ou l'efficacité des engins de sauvetage ou des autres appareils. Il en est de même chaque fois que le navire a subi une réparation ou que des parties importantes en ont été renouvelées. L'inspection doit permettre de se rendre compte que les réparations nécessaires ou les renouvellements ont été effectués dans de bonnes conditions, que les matériaux utilisés, ainsi que les procédés d'exécution employés, donnent toute satisfaction, et que le navire répond à tous égards aux prescriptions de la présente Convention et à celles des règlements de détail édictées pour l'application par le Gouvernement dont relève le navire.

(3.) Les règlements de détail, visés au paragraphe (2) ci-dessus, fixent les règles à observer pour les essais hydrostatiques avant et après la mise en service applicables aux chaudières principales et auxiliaires, à leurs accessoires, aux tuyautages de vapeur, réservoirs à haute pression, réservoirs à combustible liquide pour moteurs à combustion interne. Ils doivent indiquer les pressions d'épreuve et l'intervalle entre deux essais consécutifs.

Les chaudières principales et auxiliaires, leurs accessoires, les réservoirs divers et les tuyautages de vapeur de plus de 76 millimètres (3 pouces) de diamètre intérieur doivent subir avec succès une épreuve hydraulique avant leur mise en service. Les tuyaux de vapeur de plus de 76 millimètres (3 pouces) de diamètre intérieur, subiront des épreuves hydrauliques périodiques.

Les embarcations de sauvetage de la Classe I doivent avoir une tonture moyenne au moins égale à quatre pour cent de leur longueur.

Les caissons à air des embarcations de sauvetage de la Classe I doivent être disposés de manière à assurer la stabilité de l'embarcation complètement chargée dans des circonstances de temps défavorables.

Dans les embarcations admises à porter 100 personnes ou plus, le volume des flotteurs doit être augmenté à la satisfaction de l'Administration.

Les embarcations de sauvetage de la Classe I doivent aussi satisfaire aux conditions suivantes:

(a.) *Embarcations de Sauvetage avec Flotteurs intérieurs seulement.*

La flottabilité d'une embarcation en bois de ce type doit être assurée par des caissons à air étanches ayant un volume total au moins égal au dixième de la capacité cubique de l'embarcation.

The buoyancy of a metal boat of this type shall not be less than that required above for a wooden boat of the same cubic capacity, the volume of watertight air-cases being increased accordingly.

(b.) *Lifeboats with Internal and External Buoyancy.*

Internal and external buoyancy.

The internal buoyancy of a wooden boat of this type shall be provided by watertight air-cases, the total volume of which is at least equal to seven and a half per cent. of the cubic capacity of the boat.

The external buoyancy may be of cork or of any other equally efficient material, but such buoyancy shall not be obtained by the use of rushes, cork shavings, loose granulated cork or any other loose granulated substance, or by any means dependent upon inflation by air.

If the buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousandths of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with buoyancy of cork.

The buoyancy of a metal boat shall be not less than that required above for a wooden boat of the same cubic capacity, the volume of the watertight air-cases and that of the external buoyancy being increased accordingly.

REGULATION XXVI.

*Boats of Class II.*

Boats of Class II.

Conditions.

Boats of Class II must satisfy the following conditions:—

(a.) *Open Boats with Internal and External Buoyancy—Upper Part of Sides collapsible.*

Open boats, etc.

A boat of this type shall be fitted both with watertight air-cases and with external buoyancy the aggregate volume of which, for each person which the boat is able to accommodate, shall be at least equal to the following amounts:—

	Cubic Decimetres.	Cubic. Feet.
Air-cases . . . . .	43	1.5
External buoyancy (if of cork) . . . . .	6	0.2

The external buoyancy may be of cork or of any other equally efficient material, but such buoyancy shall not be obtained by the use of rushes, cork shavings, loose granulated cork, or any other loose granulated substance, or by any means dependent upon inflation by air.

La flottabilité d'une embarcation métallique de ce type ne doit pas être inférieure à celle qui est exigée ci-dessus pour l'embarcation en bois de même capacité cubique; le volume des caissons à air étanches doit être augmenté en conséquence.

(b) *Embarcations de Sauvetage avec Flotteurs intérieurs et extérieurs.*

La flottabilité intérieure d'une embarcation en bois de ce type doit être assurée par des caissons à air étanches ayant un volume total au moins égal à sept et demi pour cent de la capacité cubique de l'embarcation.

Les flotteurs extérieurs peuvent être constitués par du liège ou par toute autre matière au moins équivalente. Ne sont pas admis les flotteurs dont le remplissage est constitué par du jonc, du liège en copeaux ou en grains, ou par toute autre substance à l'état de déchets et sans cohésion propre, non plus que les flotteurs nécessitant une insufflation d'air.

Lorsque les flotteurs sont en liège, leur volume, pour une embarcation en bois, ne doit pas être inférieur aux trente-trois millièmes de la capacité cubique de l'embarcation; s'ils sont en une autre matière que le liège, leur volume et leur installation doivent être tels que la flottabilité et la stabilité de l'embarcation ne soient pas inférieures à celles d'une embarcation similaire pourvue de flotteurs en liège.

La flottabilité d'une embarcation métallique ne doit pas être inférieure à celle qui est exigée ci-dessus pour une embarcation en bois de même capacité cubique; le volume des caissons et celui des flotteurs extérieurs doivent être augmentés en conséquence.

## RÈGLE XXVI.

### *Embarcations de la Classe II.*

Les embarcations de la Classe II doivent satisfaire aux conditions suivantes:

(a.) *Embarcations ouvertes ayant la partie supérieure du bordé repliable, avec des flotteurs intérieurs et extérieurs.*

Une embarcation de ce type doit comporter à la fois des caissons à air étanches et des flotteurs extérieurs. Leur volume total, pour chacune des personnes que l'embarcation est apte à recevoir, doit avoir au moins les valeurs suivantes:

	Décimètres cubes.	Pieds cubes anglals.
Caissons étanches . . . . .	43	1, 5
Flotteurs extérieurs (s'ils sont en liège) . . .	6	0, 2

Les flotteurs extérieurs peuvent être constitués par du liège ou par toute autre matière au moins équivalente. Ne sont pas admis les flotteurs dont le remplissage est constitué par du jonc, du liège en copeaux ou en grains, ou par toute autre substance à l'état de déchets et sans cohésion propre, non plus que les flotteurs nécessitant une insufflation d'air.

If of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with buoyancy of cork.

A metal boat of this type shall be provided with internal and external buoyancy to ensure that the buoyancy of the boat shall be at least equal to that of a wooden boat.

The minimum freeboard of boats of this type shall be fixed in relation to their length; and it shall be measured vertically to the top of the solid hull at the side amidships, from the water-level, when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts:—

Length of Lifeboat.		Minimum Freeboard.	
Metres.	Equivalent in Feet to—	Millimetres.	Equivalent in Inches to—
7.90	26	200	8
8.50	28	225	9
9.15	30	250	10

The freeboard of boats of intermediate lengths is to be found by interpolation.

The collapsible sides must be watertight.

Decked boats, etc.

(b.) *Decked Boats with either Fixed or Collapsible Watertight Bulwarks.*

(i.) *Decked Boats having a Well Deck.*—The area of the well deck of a boat of this type shall be at least 30 per cent. of the total deck area. The height of the well deck above the water-line at all points shall be at least equal to one-half per cent. of the length of the boat, this height being increased to one-and-a-half per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least 35 per cent.

(ii.) *Decked Boats having a Flush Deck.*—The minimum freeboard of boats of this type is independent of their lengths and depends only upon their depths. The depth of the boat is to be measured vertically from the underside of the garboard strake to the top of the deck at the side amidships and the freeboard is to be measured from the top of the deck at the side amidships to the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts, which are applicable without correction to boats having a mean sheer equal to three per cent. of their length:—

Depth of Lifeboat.		Minimum Freeboard.	
Millimetres.	Equivalent in Inches to—	Millimetres.	Equivalent in Inches to—
310	12	70	2¾
460	18	95	3¾
610	24	130	5½
760	30	165	6½

For intermediate depths the freeboard is obtained by interpolation.

Lorsque les flotteurs ne sont pas en liège, leur volume et leur installation doivent être tels que la flottabilité et la stabilité de l'embarcation ne soient pas inférieures à celles d'une embarcation similaire pourvue de flotteurs en liège.

Une embarcation métallique de ce type doit être munie de flotteurs intérieurs et extérieurs qui lui assurent une flottabilité au moins égale à celle d'une embarcation en bois.

Le franc-bord minimum des embarcations de ce type doit être fixé suivant leur longueur; il se mesure à mi-longueur de l'embarcation, et verticalement sur les flancs, depuis le sommet de la partie fixe de ceux-ci jusqu'à la flottaison en charge.

Le franc-bord en eau douce ne doit pas être inférieur aux valeurs ci-après:

Longueur de l'embarcation de sauvetage.		Franc-bord minimum.	
Mètres.	Pieds anglais.	Millimètres.	Pouces anglais.
7, 90	26	200	8
8, 50	28	225	9
9, 15	30	250	10

Le franc-bord des embarcations de longueur intermédiaire s'obtient par interpolation.

Les fargues repliables doivent être étanches.

(b.) *Embarcations pontées avec Fargues étanches fixes ou repliables.*

(i.) *Embarcations pontées avec pont surélevé en abord.*—La partie non surélevée du pont d'une embarcation de ce type doit présenter une surface non inférieure à 30 pour cent de la surface totale du pont. Cette partie non surélevée doit être, au-dessus de la flottaison en charge, d'une hauteur au moins égale en tous points à un demi pour cent de la longueur de l'embarcation; cette limite est portée à un et demi pour cent aux extrémités de cette partie.

Le franc-bord d'une embarcation de ce type doit être tel qu'il lui assure une réserve de flottabilité au moins égale à 35 pour cent.

(ii.) *Embarcations pontées à pont non surélevé.*—Le franc-bord minimum des embarcations de ce type est indépendant de leur longueur et est uniquement fixé d'après leur creux. Les mesures sont prises à mi-longueur de l'embarcation et verticalement, depuis le sommet du pont en abord jusqu'au-dessous du galbord pour le creux et jusqu'à la flottaison en charge pour le franc-bord.

Le franc-bord en eau douce ne doit pas être inférieur aux valeurs ci-après, qui sont applicables sans correction aux embarcations dont la tonture moyenne est égale aux trois centièmes de leur longueur:

Creux de l'embarcation de sauvetage.		Franc-bord minimum.	
Millimètres.	Pouces anglais.	Millimètres.	Pouces anglais.
310	12	70	2¾
460	18	95	3¾
610	24	130	5¾
760	30	165	6½

Le franc-bord des embarcations de creux intermédiaire s'obtient par interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard is obtained by adding to the figures in the table one-seventh of the difference between the standard sheer and the actual mean sheer measured at the stem and stern post; no deduction is to be made from the freeboard on account of the sheer being greater than the standard sheer or on account of the camber of the deck.

(iii.) All decked lifeboats shall be fitted with efficient means for clearing the deck of water.

## REGULATION XXVII.

### *Motor Boats.*

Motor boats.  
*Post*, p. 1246.

A motor boat carried as part of the lifesaving appliances of a vessel, whether required by Regulation XXXVI (2) or not, shall comply with the following conditions:—

(a.) It shall comply with the requirements for a lifeboat of Class I, and proper appliances shall be provided for putting it into the water speedily.

(b.) It shall be adequately provided with fuel, and kept so as to be at all times ready for use.

(c.) The motor and its accessories shall be suitably enclosed to ensure operation under adverse weather conditions, and provision shall be made for going astern.

(d.) The speed shall be at least six knots when fully loaded in smooth water.

The volume of the internal buoyancy and, where fitted, the external buoyancy shall be increased in sufficient proportion to compensate for the difference between the weight of the motor, the searchlight, and the wireless telegraph installation and their accessories, and the weight of the additional persons which the boat could accommodate if the motor, the searchlight and the wireless telegraph installation and their accessories were removed.

## REGULATION XXVIII.

### *Life Rafts.*

Life rafts.

No type of life raft may be approved unless it satisfies the following conditions:—

(a.) It shall be of approved material and construction;

(b.) It shall be effective and stable when floating either way up;

(c.) It shall be fitted with fixed or collapsible bulwarks of wood, canvas or other suitable material on both sides;

(d.) It shall have a line securely becketed round the outside;

(e.) It shall be of such strength that it can be launched or thrown from the vessel's deck without being damaged, and if to be thrown it shall be of such size and weight that it can be easily handled;

(f.) It shall have not less than 85 cubic decimetres (equivalent to three cubic feet) of air-cases or equivalent buoyancy for each person to be carried thereon;

Si la tonture est moindre que la tonture normale définie précédemment, le franc-bord minimum s'obtient en ajoutant aux nombres du tableau la septième partie de la différence entre la tonture normale et la moyenne des tontures réelles à l'étrave et à l'étambot; aucune réduction du franc-bord n'est accordée pour une tonture supérieure à la tonture normale ni pour le bouge du pont.

(iii.) Toutes les embarcations de sauvetage pontées doivent être pourvues de dispositifs efficaces pour assurer l'évacuation de l'eau du pont.

## RÈGLE XXVII.

### *Embarcations à moteur.*

Pour qu'une embarcation à moteur puisse être admise comme faisant partie des engins de sauvetage d'un navire, que ce soit à titre obligatoire en vertu de la Règle XXXVI, (2) ou non, elle doit remplir les conditions ci-après:

(a.) Elle doit satisfaire aux prescriptions formulées pour une embarcation de sauvetage de la Classe I et des dispositifs convenables doivent être prévus pour la mettre à l'eau rapidement.

(b.) Elle doit contenir un approvisionnement suffisant de combustible et être tenue constamment en état de marche.

(c.) Le moteur et ses accessoires doivent être enfermés convenablement pour en assurer le fonctionnement dans des conditions de temps défavorables, et on devra pouvoir faire marche arrière dans les mêmes conditions.

(d.) La vitesse doit être d'au moins six nœuds en pleine charge et en eau calme.

Le volume des flotteurs intérieurs et, le cas échéant, des flotteurs extérieurs, doit être augmenté dans une mesure convenable pour tenir compte de la différence entre le poids du moteur, du projecteur, de l'installation radiotélégraphique et de leurs accessoires et le poids des personnes supplémentaires que l'embarcation pourrait recevoir si le volume occupé par le moteur, le projecteur, l'installation radiotélégraphique et leurs accessoires était rendu disponible.

## RÈGLE XXVIII.

### *Radeaux de Sauvetage.*

Un type de radeau de sauvetage ne peut être approuvé s'il ne satisfait aux conditions suivantes:

(a.) Il doit être de matière et de construction approuvées.

(b.) Il doit être utilisable et stable, quelle que soit la face sur laquelle il flotte.

(c.) Il doit être pourvu sur les deux faces de fargues fixes ou repliables en bois, en toile ou en toute autre matière convenable.

(d.) Il doit avoir une filière en guirlande solidement attachée tout autour des parois extérieures.

(e.) Il doit avoir résistance suffisante pour pouvoir être lancé ou jeté sans avaries du pont du navire et, s'il est disposé pour être jeté, il doit être de dimensions et de poids tels qu'on puisse le manœuvrer facilement.

(f.) Il ne doit pas avoir moins de 85 décimètres cubes (trois pieds cubes) de caissons à air ou de flotteurs équivalents, pour chaque personne qu'il peut porter.

(g.) It shall have a deck area of not less than 3,720 square centimetres (equivalent to four square feet) for each person to be carried thereon, and it shall effectively support the occupants out of the water;

(h.) The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the life raft, and such buoyancy shall not be by any means dependent on inflation by air.

#### REGULATION XXIX.

##### *Buoyant Apparatus.*

Buoyant apparatus.

Buoyant apparatus, whether buoyant deck seats, buoyant deck chairs or other buoyant apparatus, shall be deemed sufficient, so far as buoyancy is concerned, for a person or number of persons to be ascertained by dividing the number of kilogrammes of iron which it is capable of supporting in fresh water by 14.5 (equivalent to the number of pounds divided by 32), and if the apparatus depends for its buoyancy on air it shall not require to be inflated before use in an emergency.

The number of persons for whom the apparatus is deemed suitable shall be determined by the least of the numbers ascertained either as above or by the number of 30.5 centimetres (equivalent to one foot) in the perimeter.

Such approved buoyant apparatus shall comply with the following conditions:—

1. It shall be constructed with proper workmanship and materials.
2. It shall be effective and stable when floating either way up.
3. It shall be of such size, strength and weight that it can be handled without mechanical appliances and, if necessary, thrown without damage from the vessel's deck on which it is stowed.
4. The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the apparatus.
5. It shall have a line securely becketed round the outside of the apparatus.

#### REGULATION XXX.

##### *Cubic Capacity of Lifeboats of Class I.*

Cubic capacity of lifeboats of Class I.

1. The cubic capacity of a lifeboat of Class I shall be determined by Stirling's (Simpson's) Rule or by any other method giving the same degree of accuracy. The capacity of a square-sterned boat shall be calculated as if the boat had a pointed stern.

2. For example, the capacity in cubic metres (or cubic feet) of a boat, calculated by the aid of Stirling's Rule, may be considered as given by the following formula:—

$$\text{Capacity} = \frac{l}{12} (4A + 2B + 4C)$$

*l* being the length of the boat in metres (or feet) from the inside of the planking or plating at the stem to the corresponding point at the stern post; in the case of a boat with a square stern, the length is measured to the inside of the transom.

(g.) Il doit avoir une surface de pont d'au moins 3720 centimètres carrés (quatre pieds carrés) pour chaque personne qu'il peut porter et les personnes qu'il porte doivent être effectivement hors de l'eau.

(h.) Les caissons à air ou les flotteurs équivalents doivent être disposés le plus possible en abord; aucun flotteur ne peut d'ailleurs être admis qui nécessiterait une insufflation d'air.

### RÈGLE XXIX.

#### *Engins flottants.*

Un engin flottant, que ce soit un banc de pont flottant, une chaise de pont flottante ou tout autre engin flottant, doit être considéré, pour ce qui concerne la flottabilité, comme correspondant au nombre de personnes obtenu en divisant le nombre de kilogrammes de fer qu'il peut supporter en eau douce par 14,5 (équivalant au poids en livres divisé par 32). Si l'air est employé pour obtenir la flottabilité de l'appareil, il ne doit pas être nécessaire de procéder à une insufflation avant d'utiliser cet engin en cas d'urgence.

Le nombre de personnes pour lequel l'engin est considéré comme utilisable est le plus petit des deux nombres obtenus soit par la flottabilité comme il est dit ci-dessus, soit en divisant le périmètre, exprimé en centimètres par 30,5 (1 pied).

Chacun des engins flottants approuvés doit réaliser les conditions suivantes:—

1. Il doit être de matière et de construction approuvées;
2. Il doit être utilisable et stable, quelle que soit la face sur laquelle il flotte;
3. Il doit avoir des dimensions, une résistance et un poids tels qu'il puisse être manœuvré sans l'aide d'appareils mécaniques et, si cela est nécessaire, jeté à la mer sans avarie, depuis le pont du navire où il est placé;
4. Les caissons à air ou les flotteurs équivalents doivent être placés aussi près que possible des côtés de l'engin;
5. Il doit avoir une filière en guirlande solidement attachée tout autour des parois extérieures.

### RÈGLE XXX.

#### *Capacité cubique des Embarcations de Sauvetage de la Classe I.*

1. La capacité cubique d'une embarcation de sauvetage de la Classe I doit être déterminée par la règle de Simpson (Stirling), ou par toute autre méthode donnant une précision du même ordre. La capacité d'une embarcation à arrière carré doit être calculée comme si l'embarcation était à arrière pointu.

2. A titre d'indication, la capacité, en mètres (ou pieds anglais) cubes, d'une embarcation, calculée à l'aide de la Règle de Simpson, peut être considérée comme donnée par la formule:

$$\text{Capacité} = \frac{l}{12} \times (4A + 2B + 4C)$$

*l* désigne la longueur de l'embarcation mesurée en mètres (ou pieds anglais) à l'intérieur du bordé en bois ou tôle, de l'étrave à l'étambot; dans le cas d'une embarcation à arrière carré, la longueur doit être mesurée jusqu'à la face intérieure du tableau.

A, B, C denote respectively the areas of the cross-sections at the quarter length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing  $l$  into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas A, B, C shall be deemed to be given in square metres (or square feet) by the successive application of the following formula to each of the three cross-sections:—

$$\text{Area} = \frac{h}{12} (a + 4b + 2c + 4d + e)$$

$h$  being the depth measured in metres (or in feet) inside the planking or plating from the keel to the level of the gunwale, or, in certain cases, to a lower level, as determined hereafter.

$a, b, c, d, e$  denote the horizontal breadths of the boat measured in metres (or in feet) at the upper and lower points of the depth and at the three points obtained by dividing  $h$  into four equal parts ( $a$  and  $e$  being the breadths at the extreme points, and  $c$  at the middle point, of  $h$ ).

3. If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceeds 1 per cent. of the length of the boat, the depth employed in calculating the area of the cross-sections A or C shall be deemed to be the depth amidships plus 1 per cent. of the length of the boat.

4. If the depth of the boat amidships exceeds 45 per cent. of the breadth, the depth employed in calculating the area of the midship cross-section B shall be deemed to be equal to 45 per cent. of the breadth, and the depth employed in calculating the areas of the quarter length sections A and C is obtained by increasing this last figure by an amount equal to 1 per cent. of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

5. If the depth of the boat is greater than 122 centimetres (equivalent to 4 feet) the number of persons given by the application of this rule shall be reduced in proportion to the ratio of 122 centimetres to the actual depth, until the boat has been satisfactorily tested afloat with that number of persons on board, all wearing life-jackets.

6. Each Administration shall impose, by suitable formulæ, a limit for the number of persons allowed in boats with very fine ends and in boats very full in form.

7. Each Administration reserves the right to assign to a boat a capacity equal to the product of the length, the breadth and the depth multiplied by 0.6 if it is evident that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner:—

*Length.*—From the intersection of the outside of the planking with the stem to the corresponding point at the stern post or, in the case of a square sterned boat, to the after side of the transom.

A, B, C désignent respectivement les aires des sections transversales, milieu avant, milieu et milieu arrière, qui correspondent aux trois points obtenus en divisant 1 en 4 parties égales. (Les aires correspondant aux deux extrémités de l'embarcation sont considérées comme négligeables.)

Les aires A, B, C doivent être considérées comme données en mètres (ou en pieds anglais) carrés par l'application successive, à chacune des trois sections transversales, de la formule suivante:

$$\text{Aire} = \frac{h}{12} \times (a + 4b + 2c + 4d + e)$$

*h* désigne le creux mesuré en mètres (ou en pieds anglais), à l'intérieur du bordé en bois ou tôle, depuis la quille jusqu'au niveau du plat-bord, ou, le cas échéant, jusqu'à un niveau inférieur déterminé comme il est dit ci-après.

*a*, *b*, *c*, *d*, *e* désignent les largeurs horizontales de l'embarcation mesurées en mètres (ou en pieds anglais) aux deux points extrêmes du creux ainsi qu'aux trois points obtenus en divisant *h* en quatre parties égales (*a* et *e* correspondent aux deux points extrêmes et *c* au milieu de *h*).

3. Si la tonture du plat-bord, mesurée en deux points situés au quart de la longueur à partir des extrémités, dépasse un centième de la longueur de l'embarcation, le creux à employer pour le calcul de la section transversale correspondante A ou C doit être pris au plus égal au creux au milieu, augmenté du centième de la longueur de l'embarcation.

4. Si le creux de l'embarcation au milieu dépasse les 45 centièmes de la largeur, le creux à employer pour le calcul de la section transversale milieu B doit être pris égal aux 45 centièmes de la largeur et les creux à employer pour le calcul des sections transversales A et C situées aux quarts avant et arrière s'en déduisent en augmentant le creux employé pour le calcul de la section B d'un centième de la longueur de l'embarcation, sans pouvoir dépasser toutefois les creux réels en ces points.

5. Si le creux de l'embarcation est supérieur à 122 centimètres (4 pieds), le nombre de personnes que l'application des règles conduit à admettre doit être réduit dans la proportion de cette limite ou creux réel, jusqu'à ce qu'une expérience à flot avec à bord ledit nombre de personnes, toutes munies de leurs brassières de sauvetage, ait permis d'arrêter définitivement ce nombre.

6. Chaque Administration doit fixer par des formules convenables une limitation du nombre des personnes dans les embarcations à extrémités très fines et dans celles qui présentent des formes très pleines.

7. Chaque Administration conserve le droit d'attribuer à une embarcation une capacité égale au produit par 0,6 des trois dimensions, s'il est reconnu que ce mode de calcul ne donne pas un résultat approché par excès; les dimensions s'entendent alors mesurées dans les conditions suivantes:

*Longueur*: hors bordé, entre intersections de celui-ci avec l'étrave et l'étambot; dans le cas d'une embarcation à arrière carré, jusqu'à la face extérieure du tableau;

*Breadth.*—From the outside of the planking at the point where the breadth of the boat is greatest.

*Depth.*—Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent. of the breadth.

In all cases the shipowner has the right to require that the cubic capacity of the boat shall be determined by exact measurement.

8. The cubic capacity of a motorboat is obtained from the gross capacity by deducting a volume equal to that occupied by the motor and its accessories, and, when carried, the wireless telegraphy installation and the searchlight with their accessories.

#### REGULATION XXXI.

##### *Deck Area of Boats of Class II.*

Deck area of boats  
of Class II.

1. The area of the deck of a decked boat shall be determined by the method indicated below or by any other method giving the same degree of accuracy. The same rule is to be applied in determining the area within the fixed bulwarks of a boat of Class II (a).

2. For example, the surface in square metres (or square feet) of a boat may be deemed to be given by the following formula:—

$$\text{Area} = \frac{l}{12}(2a + 1.5b + 4c + 1.5d + 2e)$$

$l$  being the length in metres (or in feet) from the intersection of the outside of the planking with the stem to the corresponding point at the stern post.

$a, b, c, d, e$  denote the horizontal breadths in metres (or in feet) outside the planking at the points obtained by dividing  $l$  into four equal parts and sub-dividing the foremost and aftermost parts into two equal parts ( $a$  and  $e$  being the breadths at the extreme sub-divisions,  $c$  at the middle point of the length, and  $b$  and  $d$  at the intermediate points).

#### REGULATION XXXII.

##### *Marking of Boats, Life Rafts and Buoyant Apparatus.*

Marking boats, life  
rafts, and buoyant ap-  
paratus.

The dimensions of the boat and the number of persons which it is authorised to carry, shall be marked on it in clear permanent characters. These marks shall be specifically approved by the officers appointed to inspect the ship.

Life rafts and buoyant apparatus shall be marked with the number of persons in the same manner.

#### REGULATION XXXIII.

##### *Carrying Capacity of Boats.*

Carrying capacity  
of boats.

1. The number of persons which a boat of one of the standard types can accommodate is equal to the greatest whole number ob-

*Largeur*: hors bordé, au fort de la section milieu;

*Creux*: au milieu, à l'intérieur du bordé, depuis la quille jusqu'au niveau du plat-bord. Mais le creux à faire intervenir dans le calcul de la capacité cubique ne peut, en aucun cas, dépasser les 45 centièmes de la largeur.

Dans tous les cas, l'armateur est en droit d'exiger que le cubage de l'embarcation soit effectué exactement.

8. La capacité cubique d'une embarcation à moteur se déduit de la capacité brute en retranchant de celle-ci un volume égal à celui qui est occupé par le moteur et ses accessoires, et, le cas échéant, par l'installation radiotélégraphique et le projecteur avec leurs accessoires.

#### RÈGLE XXXI.

##### *Surface des Embarcations de la Classe II.*

1. La surface du pont d'une embarcation pontée doit être déterminée comme il est dit ci-après, ou par toute autre méthode donnant une précision du même ordre; la même règle est applicable à la détermination de la surface comprise à l'intérieur du bordé rigide d'une embarcation de la Classe II (a).

2. A titre d'indication, la surface, en mètres (ou en pieds anglais) carrés d'une embarcation peut être considérée comme donnée par la formule:

$$\text{Surface} = \frac{l}{12} \times (2a + 1,5b + 4c + 1,5d + 2e)$$

*l* désigne la longueur, mesurée en mètres (ou en pieds anglais) hors bordé entre intersections de celui-ci avec l'étrave et l'étambot.

*a, b, c, d, e* désignent les largeurs horizontales, mesurées en mètres (ou en pieds anglais), hors bordé aux points obtenus en divisant *l* en quatre parties égales et en marquant les milieux des quarts extrêmes (*a* et *e* correspondent aux subdivisions extrêmes, *c* au milieu de la longueur, *b* et *d* aux points intermédiaires).

#### RÈGLE XXXII.

##### *Inscriptions sur les Embarcations, les Radeaux de Sauvetage et les Engins Flottants.*

Les dimensions de l'embarcation, ainsi que le nombre de personnes qu'elle est reconnue apte à recevoir, doivent être inscrits sur l'embarcation en caractères indélébiles et faciles à lire. Ces inscriptions doivent être spécialement approuvées par les fonctionnaires préposés à l'inspection du navire.

L'inscription du nombre de personnes sur les radeaux de sauvetage et les engins flottants doit être faite dans les mêmes conditions.

#### RÈGLE XXXIII.

##### *Capacité de Transport des Embarcations.*

1. Le nombre de personnes qu'une embarcation de l'un des types élémentaires est apte à recevoir est égal au plus grand nombre

tained by dividing the capacity in cubic metres (or cubic feet), or the surface in square metres (or square feet), of the boat by the standard unit of capacity, or unit of surface (according to circumstances), defined below for each type.

2. The standard units of capacity and surface for determining the number of persons are as follows:—

Unit of Capacity.	Cubic Metres.	Equivalent in Cubic Feet.
Open boats, Class I (a). . . . .	0.283	10
Open boats, Class I (b). . . . .	0.255	9
Unit of Surface.	Square Metres.	Equivalent in Square Feet.
Class II . . . . .	0.325	3½

3. The Administration may accept, in place of 0.325 or 3½, as the case may be, a smaller divisor, if it is satisfied after trial that the number of persons for whom there is seating accommodation in the decked boat in question is greater than the number obtained by applying the above divisor, provided always that the divisor adopted in place of 0.325 or 3½, as the case may be, may never be less than 0.280 or 3, as the case may be.

The Administration which accepts a lower divisor in this way shall communicate to the other Administrations particulars of the trial and drawings of the decked boat in question.

REGULATION XXXIV.

*Capacity Limits.*

Capacity limits.

No boat shall be marked for a greater number of persons than that obtained in the manner specified in these Regulations.

This number shall be reduced—

(1) when it is greater than the number of persons for which there is proper seating accommodation; the latter number shall be determined in such a way that the persons when seated do not interfere in any way with the use of the oars;

(2) when, in the case of boats other than those of Class I, the freeboard when the boat is fully loaded is less than the freeboard laid down for each type respectively; the number shall be reduced until the freeboard when the boat is fully loaded is at least equal to the standard freeboard laid down above.

In boats of Class II (b) (i), the raised part of the deck at the sides may be regarded as affording seating accommodation.

REGULATION XXXV.

*Equivalents for and Weight of the Persons.*

Equivalents for and weight of the persons.

In the tests for determining the number of persons which a boat or life raft can accommodate, each person shall be assumed to be an adult person wearing a life-jacket.

entier contenu dans le quotient de la capacité en mètres (ou pieds) cubes, ou de la surface en mètres (ou pieds) carrés de l'embarcation, par la valeur réglementaire de la capacité unitaire, ou de la surface unitaire (suivant le cas) qui est défini ci-après pour chaque type.

2. Les valeurs réglementaires des capacités et surfaces unitaires sont les suivantes:

Capacités unitaires.	En mètres cubes.	En pieds cubes anglais.
Embarcations ouvertes, Classe I (a) . .	0, 283	10
Embarcations ouvertes, Classe I (b) . .	0, 255	9
Surfaces unitaires.	En mètres carrés.	En pieds carrés anglais.
Classe II . . . . .	0, 325	3½

3. L'Administration a la faculté d'accepter, au lieu de 0.325 ou 3½ suivant le cas, un diviseur plus faible, si un essai lui a fait reconnaître que le nombre de places assises dans l'embarcation pontée en question est plus élevé que celui qui résulte de l'application du premier diviseur; toutefois, la valeur adoptée, en remplacement de 0.325 ou 3½ suivant le cas, ne peut être inférieure à 0.280 ou 3 suivant le cas.

L'Administration qui aura usé de cette faculté doit communiquer aux autres Administrations le compte rendu de l'essai effectué, accompagné des plans de l'embarcation pontée en question.

#### RÈGLE XXXIV.

##### *Limites de la Capacité.*

On ne doit pas inscrire sur une embarcation un nombre de personnes supérieur à celui qu'on obtient par les méthodes indiquées au présent Règlement.

Ce nombre doit être réduit:

(1) lorsqu'il est supérieur au nombre des personnes qui ont une place assise convenable, ce dernier étant déterminé de telle façon que les personnes assises ne gênent en rien le maniement des avirons;

(2) lorsque, dans le cas d'embarcations autres que celles de la Classe I, le franc-bord en pleine charge est inférieur aux francs-bords indiqués respectivement pour les divers types. Dans ce cas, le nombre dont il s'agit doit être réduit dans toute la mesure nécessaire pour que le franc-bord en pleine charge soit au moins égal aux susdits francs-bords réglementaires.

Dans les embarcations de la Classe II (b) (i), la partie surélevée du pont en abord peut être considérée comme offrant des places assises.

#### RÈGLE XXXV.

##### *Emplacement et poids des personnes.*

Dans les expériences ayant pour but d'évaluer le nombre de personnes qu'une embarcation ou qu'un radeau de sauvetage est apte à recevoir, chaque unité correspond à une personne adulte, munie d'une brassière de sauvetage.

In verifications of freeboard the decked boats shall be loaded with a weight of at least 75 kilogrammes (165 lbs.) for each adult person that the decked boat is authorised to carry.

In all cases two children under 12 years of age shall be reckoned as one person.

#### REGULATION XXXVI.

##### *Equipment of Boats and Life Rafts.*

Equipment of boats  
and life rafts.

##### 1. The normal equipment of every boat shall consist of:—

- (a.) A single banked complement of oars, two spare oars and a steering oar; one set and a half of thole pins or crutches; a boat hook.
- (b.) Two plugs for each plug hole (plugs are not required when proper automatic valves are fitted); a bailer and a galvanised iron bucket.
- (c.) A rudder and a tiller or yoke and yoke lines.

- (h.) A life-line becketed round the outside.
- (i.) A sea-anchor.
- (j.) A painter.
- (k.) A vessel containing four and a half litres (equivalent to one gallon) of vegetable or animal oil. The vessel shall be so constructed that the oil can be easily distributed on the water, and so arranged that it can be attached to the sea-anchor.

- (q.) Any boat which is certified to carry 100 or more persons shall be fitted with a motor and shall comply with the requirements of Regulation XXVII.

*Ante*, p. 1234.

A motor lifeboat need not carry a mast or sails or more than half the complement of oars, but it shall carry two boathooks.

Decked lifeboats shall have no plug-hole, but shall be provided with at least two bilge-pumps.

In the case of a ship which carries passengers in the North Atlantic north of 35° North Latitude, only a proportion of the boats, to be fixed by the Administration, need be equipped with masts and sails, and only one-half the quantity of condensed milk need be carried.

Dans les vérifications du franc-bord, les embarcations pontées doivent être chargées d'un poids de 75 kilogrammes (165 livres anglaises) au moins pour chaque personne adulte que l'embarcation pontée est reconnue apte à recevoir.

D'une façon générale, deux enfants âgés de moins de 12 ans sont comptés pour une personne.

#### RÈGLE XXXVI.

##### *Armement des Embarcations et des Radeaux de Sauvetage.*

1. L'armement normal de chaque embarcation est le suivant:

- (a) un nombre suffisant d'avirons pour la nage en pointe, plus deux avirons de rechange, et un aviron de queue; un jeu et demi de dames de nage ou de tolets; une gaffe;
- (b) deux tampons pour chaque nable (il n'est pas exigé de tampons pour les nables munis de soupapes automatiques convenables); une écope; un seau en fer galvanisé;
- (c) un gouvernail muni d'une barre franche ou à tire-veilles;
- (d) deux hachettes;

- (i) une ancre flottante;
- (j) une bosse;
- (k) un récipient contenant quatre litres et demi (un gallon anglais) d'huile végétale ou animale. Le récipient doit être disposé de façon à permettre de répandre aisément l'huile sur l'eau et construit de manière à pouvoir être amarré à l'ancre flottante;
- (l) un récipient étanche à l'air contenant des vivres à raison d'un kilogramme (2 livres anglaises) par personne;
- (m) un récipient étanche, avec un gobelet fixé par une aiguillette, contenant un litre (un quart anglais) d'eau douce par personne;

- (p) un coffre convenable pour recevoir le petit matériel d'armement;
- (q) une embarcation admise à recevoir cent personnes ou plus doit être pourvue d'un moteur et satisfaire aux prescriptions de la Règle XXVII.

Les embarcations de sauvetage à moteur sont dispensées de porter un mât et des voiles et n'ont besoin que de la moitié de l'armement normal d'avirons, mais elles doivent avoir deux gaffes.

Les embarcations de sauvetage pontées ne doivent pas avoir de nable, mais elles doivent avoir au moins deux pompes de cale.

Dans le cas d'un navire à passagers affecté à l'Atlantique Nord (au nord du parallèle 35 degrés de latitude Nord), une partie seulement des embarcations doit être pourvue de mâts et voiles et la quantité de lait condensé doit être réduite de moitié.

2. Where the number of lifeboats carried on a ship is more than 13, one shall be a motor boat, and where the number is more than 19, two shall be motor boats. These motor lifeboats shall be fitted with a wireless telegraph installation and a searchlight.

The wireless telegraph installation shall comply with conditions as to range and efficiency to be decided by each Administration.

The searchlight shall include a lamp of at least 80 watts, an efficient reflector and a source of power which will give effective illumination of a light coloured object over a width of about 18 metres (60 feet) at a distance of 180 metres (200 yards) for a total period of six hours, and it shall be capable of working for three hours continuously.

Where the power for the wireless equipment and the searchlight are derived from the same source, this shall be sufficient to provide for the adequate working of both appliances.

3. The normal equipment of every approved life raft shall consist of—

- (a.) Four oars.
- (b.) Five rowlocks.
- (c.) A self-igniting lifebuoy light.
- (d.) A sea-anchor.
- (e.) A painter.

- (i.) At least one dozen self-igniting red lights and a box of matches in watertight containers.

4. In the case of a ship which is engaged in short international voyages, the Administration may exempt the boats from carrying the equipment specified under sub-paragraphs (f), (h) and (i) of paragraph 1 and from the requirements of paragraph 2, and may also exempt the life rafts from carrying the equipment specified in paragraph 3 (g).

#### REGULATION XXXVII.

##### *Stowage and Handling of Boats and Life Rafts.*

1. Subject to the conditions of Regulation XXXVIII, the lifeboats may be stowed one above the other, or they may, subject to such conditions as the Administration may impose, be fitted one within another, but where boats so fitted require lifting before being launched they shall only be permitted if mechanical power appliances for lifting are provided.

2. Lorsque le nombre d'embarcations est supérieur à 13, une d'elles sera à moteur, et si le nombre est supérieur à 19 il doit y avoir deux embarcations à moteur. Ces embarcations à moteur doivent être munies d'une installation radiotélégraphique et d'un projecteur.

Les conditions de portée et de puissance auxquelles doit satisfaire l'installation radiotélégraphique doivent être déterminées par chaque Administration.

Le projecteur doit être constitué par une lampe d'au moins 80 watts, un réflecteur efficace et une source d'électricité permettant d'éclairer effectivement un objet de couleur claire sur une zone d'environ 18 mètres (60 pieds) de largeur, à une distance de 180 mètres (200 yards) pendant une durée totale de six heures, et en fonctionnant sans interruption pendant au moins trois heures.

Lorsque l'installation radiotélégraphique et le projecteur sont alimentés par la même source, celle-ci doit être assez puissante pour assurer le fonctionnement simultané des deux appareils.

3. L'armement normal de tout radeau de sauvetage approuvé contient:

- (a) quatre avirons;
- (b) cinq tolets;
- (c) un signal pyrotechnique de bouée de sauvetage;
- (d) une ancre flottante;
- (e) une bosse;
- (f) un récipient contenant: quatre litres et demi (1 gallon anglais) d'huile végétale ou animale; le récipient doit être disposé de façon à permettre de répandre aisément l'huile sur l'eau et construit de manière à pouvoir être amarré à l'ancre flottante;
- (g) un récipient étanche à l'air contenant des vivres à raison d'un kilogramme (2 livres anglaises) de vivres par personne;
- (h) un récipient étanche, avec un gobelet fixé par une aiguillette, contenant un litre (un quart anglais) d'eau douce par personne;
- (i) au moins une douzaine de signaux rouges automatiques et une boîte d'allumettes, le tout dans des récipients étanches.

4. Dans le cas d'un navire affecté à des voyages internationaux courts, l'Administration peut dispenser les embarcations de porter l'armement prescrit par les alinéas (f), (l) et (o) du paragraphe 1 et de satisfaire aux prescriptions du paragraphe 2; elle peut aussi dispenser les radeaux de sauvetage de porter l'armement prescrit par l'alinéa (g) du paragraphe 3.

### RÈGLE XXXVII.

#### *Installation et Manœuvre des Embarcations et des Radeaux de Sauvetage.*

1. Sous réserve des prescriptions de la Règle XXXVIII, les embarcations de sauvetage peuvent être placées l'une au-dessus de l'autre ou elles peuvent, sous certaines conditions que pourra imposer l'Administration, être placées l'une dans l'autre; toutefois, quand des embarcations ainsi disposées doivent être soulevées avant d'être mises à l'eau, on ne les admettra que s'il est prévu un appareil mécanique à moteur pour les soulever.

2. The lifeboats and life rafts additional to boats stowed under boats attached to davits may be stowed across a deck, bridge or poop and so secured that they will have the best chance of floating free of the ship if there is no time to launch them.

3. As large a number as possible of the additional boats referred to in paragraph 2 shall be capable of being launched on either side of the ship by means of approved appliances for transferring them from one side of the deck to the other.

4. Boats may only be stowed on more than one deck on condition that proper measures are taken to prevent boats on a lower deck being fouled by those stowed on a deck above.

5. Boats shall not be placed in the bows of the ship or in any positions in which they would be brought into dangerous proximity to the propellers at the time of launching.

6. Davits shall be of approved form and so disposed on one or more decks that the boats placed under them can be safely lowered without interference from the operation of any other davits.

7. The davits, blocks, falls and all other gear shall be of such strength that the boats can be safely lowered with the full complement of persons and equipment, with the ship listed to 15 degrees either way. The falls shall be long enough to reach the water with the vessel at her lightest seagoing draught and with a list of 15 degrees.

8. The davits shall be fitted with gear of sufficient power to ensure that the boats, fully equipped and manned, but not otherwise loaded with passengers, can be turned out against the maximum list at which the lowering of the boats is possible.

9. The boats attached to the davits shall have the falls ready for service, and means shall be provided for speedily, but not necessarily simultaneously, detaching the boats from the falls.

10. Where more than one boat is served by the same set of davits, if the falls are of rope, separate falls shall be provided to serve each boat, but where wire falls are used with mechanical appliances for recovering them, separate falls need not be provided. The appliances used must be such as to ensure lowering the boats in turn and rapidly.

Where mechanical appliances are fitted for the recovery of the falls efficient hand gear shall also be provided.

11. On short international voyages where the height of the boat deck above the water line when the vessel is at her lightest sea-going draught does not exceed 4.5 metres (15 feet), the requirements as to strength of davits and turning-out gear in sub-paragraphs 7, 8 and 10 shall not apply.

2. Les embarcations de sauvetage et les radeaux de sauvetage mis en complément des embarcations placées sous bossoirs peuvent être arrimés par le travers d'un pont, d'un château ou d'une dunette et assujettis de telle sorte qu'ils aient toute chance de flotter en se libérant du navire, si on n'a pas le temps de les mettre à l'eau.

3. Le plus grand nombre possible des embarcations complémentaires auxquelles s'applique le paragraphe 2 doit pouvoir être mis à l'eau d'un bord quelconque du navire, au moyen de dispositifs approuvés permettant de les transporter d'un bord à l'autre du pont.

4. Les embarcations ne peuvent être placées sur plus d'un pont que si des mesures sont prises pour éviter que les embarcations d'un pont inférieur ne soient avariées par les embarcations placées sur le pont au-dessus.

5. On ne doit pas mettre d'embarcations à l'extrême avant ni dans un emplacement où elles viendraient à une distance dangereuse des propulseurs, au moment de leur mise à l'eau.

6. Les bossoirs doivent être de forme approuvée et disposés sur un ou plusieurs ponts, de telle manière que les embarcations placées au-dessous de chacun d'eux puissent être mises à l'eau avec sécurité sans gêner la manœuvre des autres bossoirs.

7. Les bossoirs, poulies, garants et autres accessoires doivent avoir une résistance suffisante pour permettre de mettre à l'eau, avec sécurité, les embarcations contenant leur complet chargement de personnes et de matériel, même si le navire à une bande de 15 degrés d'un bord quelconque. Les garants doivent être assez longs pour permettre d'atteindre l'eau, le navire étant à son tirant d'eau minimum à la mer et ayant une bande de 15 degrés.

8. Les bossoirs doivent être pourvus d'appareils d'une force suffisante pour permettre de mettre dehors les embarcations, avec leur équipage et leur armement au complet, mais sans passagers, avec la bande contraire la plus forte pour laquelle il sera ensuite possible d'amener l'embarcation à l'eau.

9. Les embarcations attachées aux bossoirs doivent avoir leurs palans prêts à être utilisés et des dispositions doivent être prises pour que les embarcations soient rapidement libérées des palans, sans qu'il soit nécessaire que cette manœuvre soit simultanée pour les deux palans.

10. Lorsque le même jeu de bossoirs sert pour plus d'une embarcation, il doit y avoir des palans distincts pour chaque embarcation si les garants sont en cordage; mais des palans distincts ne sont pas exigés si on emploie des garants métalliques avec un dispositif mécanique pour les rentrer. Les appareils employés doivent permettre de mettre à l'eau les embarcations avec ordre et rapidité.

Lorsqu'un dispositif mécanique est employé pour rentrer les garants, il doit être complété par une commande à main efficace.

11. Dans les voyages internationaux courts, si la hauteur du pont des embarcations au-dessus de la flottaison correspondant au plus faible tirant d'eau du navire à la mer ne dépasse pas quatre mètres cinquante (15 pieds), on n'appliquera pas les prescriptions des paragraphes 7, 8 et 10 ci-dessus.

## REGULATION XXXVIII.

*Number and Capacity of Boats, Life Rafts, &c., and Davits.*

Boats, life rafts, etc.,  
and davits.

Number and ca-  
pacity.

1. A ship shall be provided with sets of davits in accordance with its length as provided in Column A of the Table in Regulation XXXIX, provided that a number of sets of davits greater than the number of boats necessary for the accommodation of all the persons on board shall not be required.

Each set of davits shall have a boat of Class I attached to it. If the lifeboats attached to davits do not provide sufficient accommodation for all the persons on board, additional lifeboats of one of the standard types shall be provided. One additional lifeboat shall, in the first place, be stowed under each of the boats attached to davits. After these have been fitted other boats shall be carried inboard, but an Administration may, if it is of opinion that life rafts will be more readily available and otherwise more satisfactory than these lifeboats in a case of emergency, allow life rafts to be carried provided that the total capacity of the boats on the ship will be at least up to the minimum capacity required by Column C of the Table in Regulation XXXIX.

When in the opinion of the Administration it is neither practicable nor reasonable to place on a ship the number of sets of davits required by Column A of the Table in Regulation XXXIX, the Administration may authorise, under exceptional conditions, a smaller number of sets of davits, provided always that this number shall never be less than the minimum number fixed by Column B of the Table and that the total capacity of the boats on the ship will be at least up to the minimum capacity required by Column C.

2. A ship engaged on short international voyages shall be provided with sets of davits in accordance with its length as provided in Column A of the Table in Regulation XXXIX. Each set of davits shall have a boat of Class I attached to it. If the lifeboats attached to davits do not provide the minimum cubic capacity specified in Column D of the Table in Regulation XXXIX or provide accommodation for all persons on board, additional lifeboats of one of the standard types, approved life rafts or other approved buoyant apparatus shall be provided, and the accommodation thus provided shall be sufficient for all on board.

When in the opinion of the Administration it is neither practicable nor reasonable to place on a ship engaged in short international voyages, the number of sets of davits required by Column A of the Table in Regulation XXXIX, the Administration may authorise, under exceptional conditions, a smaller number of sets of davits, provided always that this number shall never be less than the minimum number fixed by Column B of the Table, and that the total capacity of the boats on the ship will be at least up to the minimum capacity required by Column D.

## RÈGLE XXXVIII.

*Nombre et Capacité des Embarcations et des Radeaux de Sauvetage, &c. . . . Bossoirs.*

1. Tout navire doit avoir un nombre de jeux de bossoirs déterminé d'après sa longueur, par la Colonne A du tableau inséré à la Règle XXXIX, sous réserve qu'il ne sera pas exigé un nombre de jeux de bossoirs supérieur à celui des embarcations nécessaires pour recevoir toutes les personnes présentes à bord.

Sous chaque jeu de bossoirs doit être attachée une embarcation de la Classe I. Si les embarcations de sauvetage attachées aux bossoirs ne fournissent pas une place suffisante pour recevoir toutes les personnes présentes à bord, on doit installer des embarcations additionnelles de l'un des types réglementaires. Tout d'abord une embarcation additionnelle doit être placée sous chacune des embarcations attachées aux bossoirs. Lorsque celles-ci auront été installées, le reste des embarcations sera placé en retrait. Toutefois les diverses Administrations, si elles estiment que les radeaux de sauvetage sont plus rapidement utilisables et par ailleurs plus efficaces que les embarcations de sauvetage, en cas d'urgence, peuvent permettre d'installer des radeaux de sauvetage, pourvu que la capacité totale des embarcations du navire soit au moins égale au minimum fixé par la Colonne C du tableau inséré à la Règle XXXIX.

Lorsque, dans l'opinion d'une Administration, il n'est ni pratiquement possible, ni raisonnable de mettre sur un navire le nombre de jeux de bossoirs exigé par la Colonne A du tableau inséré à la Règle XXXIX, cette Administration peut, dans certains cas exceptionnels, autoriser une réduction du nombre de jeux de bossoirs, pourvu, toutefois, que ce nombre ne soit pas inférieur au nombre réduit fixé par la Colonne B et aussi que la capacité totale des embarcations du navire soit au moins égale au minimum exigé par la Colonne C.

2. Un navire affecté à des voyages internationaux courts doit avoir un nombre de jeux de bossoirs d'après sa longueur, fixé par Colonne A du tableau inséré à la Règle XXXIX. Sous chaque jeu de bossoirs doit être attachée une embarcation de la Classe I. Si les embarcations de sauvetage attachées aux bossoirs n'ont pas la capacité minimum exigée par la Colonne D du tableau de la Règle XXXIX, et si elles ne contiennent pas une place pour chaque personne présente à bord, on installera des embarcations de sauvetage complémentaires d'un des types réglementaires, des radeaux de sauvetage approuvés ou d'autres engins flottants approuvés, de façon à ce qu'il y ait ainsi une place suffisante pour toutes les personnes présentes à bord.

Lorsque, dans l'opinion d'une Administration, il n'est ni pratiquement possible, ni raisonnable de mettre sur un navire effectuant des voyages internationaux courts, le nombre de jeux de bossoirs exigé par la Colonne A du tableau inséré à la Règle XXXIX, l'Administration peut, dans certains cas exceptionnels, autoriser une réduction dans le nombre de jeux de bossoirs, pourvu, toutefois, que ce nombre ne soit pas inférieur au nombre réduit exigé par la Colonne B et aussi que la capacité totale des embarcations du navire soit au moins égale au minimum exigé par la Colonne D.

En outre, un système d'avertisseurs d'incendie ou de détecteurs d'incendie doit être installé, pour indiquer ou enregistrer automatiquement dans un ou plusieurs points ou stations où ces indications peuvent être rapidement observées par les officiers et l'équipage, l'existence ou l'indication d'un incendie dans toutes les parties du navire inaccessibles au service de ronde.

Steam in adequately equivalent proportion may be accepted in place of smothering gas on steam-driven ships. Provision for the supply of smothering gas or steam need not be required in ships of less than 1,000 tons gross.

5. A sufficient number of portable fluid fire extinguishers shall be provided, at least two being carried in each machinery space.

6. Two equipments, consisting of a smoke helmet or breathing apparatus and a safety lamp, shall be carried on board, and kept in two widely separated places.

7. In steamships in which the main boilers are oil fired, there shall be provided in addition to means whereby two powerful jets of water may be rapidly and simultaneously directed into any part of the machinery spaces—

(a.) Suitable conductors for spraying water on oil without undue disturbance of the surface.

(b.) In each firing space, a receptacle containing 283 cubic decimetres (10 cubic feet) of sand, sawdust impregnated with soda, or other approved dry materials, and scoops for distributing the same.

(c.) In each boiler room, and in each of the machinery spaces in which a part of the oil fuel installation is situated, two approved portable extinguishers of a type discharging froth or other approved medium suitable for quenching oil fires.

2. Chaque navire doit disposer de pompes à incendie puissantes mues par la vapeur ou par toute autre énergie. Ces pompes sont au nombre de deux pour les navires de moins de quatre mille tonnes de jauge brute, et de trois pour les navires plus grands. Elles doivent être assez puissantes pour débiter chacune une quantité d'eau suffisante par deux jets énergiques simultanés en un point quelconque du navire. Elles doivent être mises, avant l'appareillage, en état de fonctionner sans délai.

3. Les tuyautages d'incendie doivent permettre de diriger rapidement deux jets d'eau énergiques simultanés dans une région quelconque d'un entrepont habité dont les portes étanches et les portes contre l'incendie sont fermées. Les manches à incendie et les tuyautages doivent être largement proportionnés et faits de matières convenables. Les raccords de tuyautages doivent être dans chaque entrepont installés de telle manière que les manches puissent s'y adapter facilement.

4. Dans tout espace occupé par le chargement, on doit pouvoir diriger rapidement et simultanément au moins deux jets d'eau puissants. En outre, des dispositions doivent être prises pour amener rapidement par un tuyautage fixe, dans chaque compartiment occupé par des marchandises, un gaz extincteur en quantité telle que le volume de gaz libre soit au moins égal à trente pour cent du volume de la plus grande cale du navire. Sur les navires à vapeur, on peut accepter de la vapeur en quantité équivalente. L'installation pour l'extinction par le gaz ou la vapeur n'est pas obligatoire sur les navires de moins de 1,000 tonnes de jauge brute.

5. Des extincteurs d'incendie portatifs d'un type à fluide doivent être prévus en nombre convenable. Chaque compartiment de la tranche des machines doit en recevoir au moins deux.

6. Il doit y avoir à bord deux équipements composés chacun d'un casque ou d'un appareil respiratoire et d'un fanal de sûreté. Ils doivent être déposés en deux endroits différents.

7. Sur les navires à vapeur dans lesquels les chaudières principales sont chauffées au combustible liquide, en outre de dispositifs permettant d'amener rapidement et simultanément deux jets d'eau puissants en tout point de la tranche des machines, on doit installer:

(a) des distributeurs convenables pour projeter de l'eau en pluie sur le combustible liquide sans agitation anormale de la surface;

(b) dans chaque rue de chauffe, un récipient contenant 283 décimètres cubes (10 pieds cubes) de sable, de sciure de bois imprégnée de soude, de toute autre matière sèche approuvée et des écopés pour la répandre;

(c) dans chaque chaufferie et dans tout local de machines où se trouve une partie de l'installation de combustible liquide, deux extincteurs portatifs d'un type distributeur de mousse ou d'un autre agent approuvé efficace pour éteindre un incendie de combustible liquide;

(d.) Means whereby froth may be rapidly discharged and distributed over the whole of the lower part of the boiler room or of any one boiler room, if there are more than one, or of any machinery space in which oil fuel units or settling tanks are situated. The quantity of froth which can be discharged shall be ample to cover to a depth of 15.24 centimetres (6 inches) the whole area of the plating formed in any one compartment by the inner bottom plating, or by the shell plating of the vessel, if there is no double-bottom tank. If the engine and boiler rooms are not entirely separate, and fuel can drain from the boiler room bilges into the engine room, the combined engine and boiler rooms shall be considered as one compartment. The apparatus shall be operated and controlled from outside the compartment in which the fire may occur.

(e.) In addition to the foregoing, one extinguisher of the froth type of at least 136 litres (30 gallons) capacity in steamships having one boiler room and two such extinguishers in steamships with more than one boiler room. These extinguishers shall be provided with hoses on reels suitable for reaching any part of the boiler rooms and spaces containing oil-fuel pumping units. Equally efficient apparatus may be accepted in place of the 136 litres (30-gallons) extinguishers.

(f.) All containers and valves by which they are operated shall be easily accessible and so placed that they will not readily be cut off from use by an outbreak of fire.

8. In vessels propelled by internal combustion engines there shall be provided in each of the machinery spaces, in addition to means whereby two powerful jets of water may be rapidly and simultaneously directed into any part of the machinery spaces, together with suitable spraying conductors, froth extinguishers as follows:—

(a.) At least one approved 45 litres (10-gallons) extinguisher with an addition of one approved 9 litres (2-gallons) extinguisher for each 1,000 B.H.P. of the engines, but the total number of 9 litres (2-gallons) extinguishers so supplied shall be not less than two and need not exceed six.

(b.) When a donkey boiler is situated in the machinery space there shall be provided, in place of the 45 litres (10-gallons) extinguisher mentioned above, one of 136 litres (30 gallons) capacity, fitted with suitable hose attachments or other approved methods for distributing the froth.

9. In steamships using oil fuel, if the engine and boiler rooms are not entirely separated by a steel bulkhead, and if fuel oil can drain from the boiler-room bilges into the engine room, one of the fire pumps shall be situated in the tunnel or other space outside the machinery compartment. When more than two pumps are required they shall not all be fitted in the same space.

(d) des dispositifs pour produire et distribuer rapidement de la mousse sur toute la surface inférieure de la chaufferie ou de chacune des chaufferies, s'il y en a plusieurs, et de toute partie des machines qui renferme des pompes à combustible ou des caisses de décantation. La quantité de mousse à produire doit être suffisante pour couvrir sur une épaisseur de 15,24 centimètres (6 pouces) la surface totale des tôles formant dans un compartiment quelconque le plafond du waterballast, ou de celles du bordé extérieur là où il n'y a pas de waterballast. Si le compartiment des machines et celui des chaudières ne sont pas complètement séparés et si le combustible liquide peut passer de la cale de la chaufferie dans celle des machines, le compartiment des machines et la chaufferie seront considérés comme formant un seul compartiment. L'appareil doit pouvoir être mis en marche et contrôlé de l'extérieur du compartiment où l'incendie peut éclater;

(e) en outre de ce qui précède, il doit y avoir sur les navires à vapeur n'ayant qu'une chaufferie, un extincteur à mousse et sur les navires ayant plus d'une chaufferie, deux extincteurs à mousse d'au moins 136 litres (30 gallons) de capacité. Ces extincteurs doivent être pourvus de tuyaux sur dévidoirs permettant d'atteindre toutes les parties des chaufferies et des locaux contenant les pompes à combustible. Des appareils d'une efficacité équivalente peuvent être acceptés au lieu d'extincteurs de 136 litres (30 gallons);

(f) tous les récipients et les valves qui servent à les mettre en œuvre doivent être aisément accessibles et placés de telle sorte qu'ils ne soient pas facilement rendus inutilisables par un commencement d'incendie.

8. Dans les navires à moteurs à combustion interne, en outre des dispositifs permettant d'amener rapidement et simultanément deux jets d'eau puissants sur tous les points de la tranche des machines et également des distributeurs d'eau en pluie, on doit installer, dans chaque local des machines, les extincteurs à mousse suivants:

(a) au moins un extincteur approuvé de 45 litres (10 gallons), et, en outre, par 1,000 CV de puissance au frein des machines, un extincteur approuvé de 9 litres (2 gallons), sans que le nombre total d'extincteurs de 9 litres puisse être inférieur à deux, ni qu'il en soit exigé plus de six;

(b) lorsqu'il y a dans la tranche des machines, une chaudière auxiliaire au lieu de l'extincteur de 45 litres (10 gallons) mentionné ci-dessus, il doit en être installé un de 136 litres (30 gallons) avec son tuyautage approprié ou tout autre dispositif approuvé de distribution de mousse.

9. Sur les navires à vapeur utilisant le combustible liquide, si la chambre des machines et la chaufferie ne sont pas complètement séparées par une cloison métallique et si le combustible liquide peut passer de la cale de la chaufferie dans celle de la machine, une des pompes à incendie doit être placée dans le tunnel ou dans un autre espace hors de la tranche des machines. S'il est exigé plus de deux pompes à incendie, elles ne doivent pas être placées toutes dans le même local.

10. Where any special type of appliance, extinguishing medium or arrangement is specified, any other type of appliance, &c., may be allowed, provided that it is not less effective than the specified one. For example—a Carbon Dioxide system may be accepted in place of a froth installation (paragraph (7), sub-paragraphs (d) and (e)), provided that the quantity of carbon dioxide carried is sufficient to give a gas saturation of about 25 per cent. for the gross volume of the stokehold to about the top of the boilers.

11. All the fire-extinguishing appliances shall be thoroughly examined at least once each year by a surveyor appointed by the Administration.

#### REGULATION XLIV.

##### *Muster List.*

Muster list.

The muster list shall assign duties to the different members of the crew in connexion with—

- (a.) The closing of the watertight doors, valves, &c.
- (b.) The equipment of the boats, life rafts and buoyant apparatus generally.
- (c.) The launching of the boats attached to davits.
- (d.) The general preparation of the other boats, the life rafts, and buoyant apparatus.
- (e.) The muster of the passengers.
- (f.) The extinction of fire.

The muster list shall assign to the members of the stewards' department their several duties in relation to the passengers at a time of emergency. These duties shall include:—

- (a.) Warning the passengers.
- (b.) Seeing that they are dressed and have put on their life-jackets in a proper manner.
- (c.) Assembling the passengers at muster stations.
- (d.) Keeping order in the passages and on the stairways, and, generally, controlling the movements of the passengers.

The muster list shall specify definite signals for calling all the crew to their boat and fire stations, and shall give full particulars of these signals.

#### REGULATION XLV.

##### *Musters and Drills.*

Musters and drills.

Musters of the crew for boat drill shall take place weekly when practicable, and in vessels in which the voyage exceeds one week, before leaving port. The dates upon which musters are held shall be recorded in the Official Log Book and, if in any week a muster is not held, an entry shall be made stating why a muster was not practicable.

10. Lorsqu'il est spécifié un type spécial d'appareil, d'agent extincteur ou d'installation, tout autre type peut être accepté s'il n'est pas moins efficace que le type spécifié. Par exemple, un appareil à acide carbonique peut être admis au lieu d'une installation à mousse (paragraphe 7, alinéas (d) et (e)), pourvu que la quantité d'acide carbonique transportée soit suffisante pour fournir une saturation de 25 pour cent de gaz pour le volume brut de la chaufferie mesurée jusqu'au sommet des chaudières environ.

11. Toutes les installations pour l'extinction de l'incendie doivent être entièrement visitées une fois par an par un inspecteur désigné par l'Administration.

#### RÈGLE XLIV.

##### *Rôle d'Appel.*

Le rôle d'appel fixe les fonctions des divers membres de l'équipage en ce qui concerne:

- (a) la fermeture des portes étanches, vannes, &c.;
- (b) l'armement des embarcations, des radeaux de sauvetage et des engins flottants en général;
- (c) la mise à l'eau des embarcations sous bossoirs;
- (d) la préparation générale des autres embarcations, des radeaux de sauvetage et des engins flottants;
- (e) le rassemblement des passagers;
- (f) l'extinction de l'incendie.

Le rôle d'appel fixe les fonctions que les agents du service général ont à remplir au regard des passagers, en cas d'alarme. Ces fonctions comprennent notamment:

- (a) l'alerte à donner aux passagers;
- (b) le soin de leur faire revêtir et ajuster convenablement les brassières de sauvetage;
- (c) leur rassemblement aux postes d'appel;
- (d) le service d'ordre aux passages et aux échelles et, d'une façon générale, tout ce qui concerne la circulation des passagers.

Le rôle d'appel prévoit les signaux spéciaux pour l'appel de tout l'équipage aux postes d'embarcations ou d'incendie. Il doit, en outre, contenir une description complète de ces signaux.

#### RÈGLE XLV.

##### *Appels et Exercices.*

Un appel de l'équipage pour exercice d'embarcations doit être fait, autant que possible, chaque semaine et, sur les navires où le voyage dure plus d'une semaine, avant de prendre la mer. Les dates où auront lieu ces exercices seront inscrites au journal de bord réglementaire et si, au cours d'une semaine, aucun exercice n'a eu lieu, les raisons pour lesquelles cet exercice n'était pas possible devront être mentionnées dans ce journal.

In ships in which the voyage exceeds one week practice musters of passengers should be held at an early period of each voyage.

Different groups of boats shall be used in turn at successive boat drills. The drills and inspections shall be so arranged that the crew thoroughly understand and are practised in the duties they have to perform, and that all lifesaving appliances with the gear appertaining to them are always ready for immediate use.

The emergency signal for summoning passengers to muster stations shall be a succession of more than six short blasts followed by one long blast on the whistle or syren. This shall be supplemented on all ships except those engaged in short international voyages by other electrically operated signals throughout the ship controlled from the bridge. The meaning of all signals affecting passengers shall be clearly stated in different languages on cards posted in their cabins and in other passenger quarters.

Safety of Navigation.

## SAFETY OF NAVIGATION.

### REGULATION XLVI.

#### *Transmission of Information.*

Transmission of information.

The transmission of information regarding ice, derelicts, tropical storms or any other direct danger to navigation is obligatory. The form in which the information is sent is not obligatory. It may be transmitted either in plain language (preferably English) or by means of the International Code of Signals (Wireless Telegraphy Section). It should be issued CQ to all ships, and should also be sent to the first point of the coast to which communication can be made with a request that it be transmitted to the appropriate authority.

*Ante*, p. 1160.

All messages issued under Article 34 of the present Convention will be preceded by the safety signal TTT followed by an indication of the nature of the danger, thus: TTT Ice; TTT Derelict; TTT Storm; TTT Navigation.

#### *Information Required.*

Information required.

The following information is desired, the time in all cases being Greenwich Mean Time:—

##### *(a.) Ice, Derelicts and other Direct Dangers to Navigation.*

- (1) the kind of ice, derelict or danger observed;
- (2) the position of the ice, derelict or danger when last observed;
- (3) the time and date when the observation was made.

Lorsque le voyage doit durer plus d'une semaine, il devrait être fait un exercice pratique par les passagers, au début du voyage.

Les exercices d'embarcations doivent se faire en employant à tour de rôle les différents groupes d'embarcations. Les inspections et exercices doivent être conduits de manière que l'équipage possède la connaissance complète et la pratique des fonctions qu'il a à remplir et que toutes les embarcations et tous les engins de sauvetage du navire, ainsi que leurs appareils, soient toujours prêts à être utilisés immédiatement.

Le signal d'appel pour appeler les passagers aux postes d'appel consistera en une succession d'au moins six coups courts, suivis d'un coup long, de la sirène ou du sifflet. En outre, sur tous les navires autres que ceux qui effectuent des voyages internationaux courts, on doit faire dans tout le navire des signaux commandés électriquement de la passerelle. La signification de tous les signaux intéressant les passagers doit être clairement indiquée en plusieurs langues sur des pancartes affichées dans les cabines et autres locaux pour passagers.

## SÉCURITÉ DE LA NAVIGATION.

### RÈGLE XLVI.

#### *Transmission de Renseignements.*

La transmission de renseignements concernant les glaces, épaves, tempêtes tropicales ou tout autre danger immédiat pour la navigation est obligatoire. Aucune forme spéciale de transmission n'est imposée. L'information peut être transmise soit en langage clair (de préférence en anglais), soit au moyen du Code international de Signaux (signaux radiotélégraphiques). Elle devrait être transmise, précédée de CQ à tous des navires et devrait être également envoyée au premier point de la côté où la communication peut se faire avec prière de transmettre à l'autorité compétente.

Tous les messages transmis en vertu de l'Article 34 de la présente Convention seront précédés du signal de sécurité TTT suivi d'une indication sur la nature du danger, par exemple: TTT Glace; TTT Épaves; TTT Tempête; TTT Navigation.

#### *Information requise.*

Les renseignements à fournir sont les suivants, l'heure, étant, dans tous les cas, l'heure moyenne de Greenwich:

#### (a.) *Glaces, Épaves et autres Dangers immédiats pour la Navigation.*

- (1) la nature de la glace, de l'épave ou du danger observés;
- (2) la position de la glace, de l'épave ou du danger observés en dernier lieu;
- (3) la date et l'heure où l'observation a été faite.

(b.) *Tropical Storms*.—(Hurricanes in the West Indies, Typhoons in the China Seas, Cyclones in Indian waters, and storms of a similar nature in other regions.)

- (1.) *A Statement that a Tropical Storm has been Encountered*.—This obligation should be interpreted in a broad spirit, and information transmitted whenever the master has good reason to believe that a tropical storm exists in his neighbourhood.
- (2.) *Meteorological Information*.—In view of the great assistance given by accurate meteorological data in fixing the position and movement of storm centres, each shipmaster should add to his warning message as much of the following meteorological information as he finds practicable:—

- (a) barometric pressure (millibars, inches or millimetres);
- (b) change in barometric pressure (the change during the previous two to four hours);
- (c) wind direction (true not magnetic);
- (d) wind force (Beaufort or decimal scale);
- (e) state of the sea (smooth, moderate, rough, high);
- (f) swell (slight, medium, heavy) and the direction from which it comes.

When barometric pressure is given the word "millibars," "inches" or "millimetres," as the case may be, should be added to the reading, and it should always be stated whether the reading is corrected or uncorrected.

When changes of the barometer are reported the course and speed of the ship should also be given.

All directions should be true, not magnetic.

- (3.) *Time and Date and Position of the Ship*.—These should be for the time and position when the meteorological observations reported were made and not when the message was prepared or despatched. The time used in all cases should be Greenwich Mean Time.

- (4.) *Subsequent Observations*.—When a master has reported a tropical storm it is desirable, but not obligatory, that other observations be made and transmitted at intervals of three hours, so long as the ship remains under the influence of the storm.

Examples.

*Examples.*

*Ice.*

TTT Ice. Large berg sighted in 4605 N., 4410 W., at 0800 GMT. May 15.

(b.) *Tempêtes tropicales.*—(Ouragans aux Antilles, typhons dans les mers de Chine, cyclones dans l'Océan Indien et tempêtes de même nature dans les autres régions.)

- (1.) *Messages signalant qu'une tempête tropicale a été rencontrée.*—Cette obligation doit être comprise dans un esprit large et l'information devrait être transmise toutes les fois que le capitaine a lieu de croire qu'une tempête tropicale sévit dans son voisinage.
- (2.) *Renseignements météorologiques.*—Vu l'aide précieuse qu'assurent les renseignements météorologiques exacts en déterminant la position et le mouvement des centres de tempête, tout capitaine de navire devrait ajouter à son message d'avertissement le plus de renseignements météorologiques qu'il lui sera possible parmi les suivants:

- (a) pression barométrique (millibars, pouces anglais ou millimètres);
- (b) changement dans la pression barométrique (le changement survenu pendant la période de deux à quatre heures qui précède);
- (c) direction du vent (vraie et non magnétique);
- (d) force du vent (échelle Beaufort, ou échelle décimale);
- (e) état de la mer (calme, modérée, forte, démontée);
- (f) houle (modérée, moyenne, forte) et la direction d'où elle vient.

Lorsque la pression barométrique est indiquée, les mots "millibars, pouces anglais, ou millimètres," suivant le cas, devraient être ajoutés à la lecture faite et *il y aurait lieu de toujours indiquer si la lecture est corrigée ou non.*

Lorsque des variations barométriques sont signalées, la route et la vitesse du navire devraient toujours être indiquées.

Tous les caps indiqués doivent être vrais et non magnétiques.

- (3.) *Heure, date et position du navire.*—Ces renseignements doivent s'appliquer à l'heure et à la position où les observations météorologiques ont été prises et non à celle où le message a été préparé ou expédié. Dans tous les cas, l'heure doit être l'heure moyenne de Greenwich.
- (4.) *Observations ultérieures.*—Lorsqu'un capitaine a signalé une tempête tropicale, il est souhaitable mais non obligatoire de relever d'autres observations et de les transmettre à des intervalles de trois heures tant que le navire reste sous l'influence de la tempête.

Annex II.

## ANNEX II.

International Regulations for Preventing Collisions at Sea.

## INTERNATIONAL REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

## PRELIMINARY.

Preliminary.

These Rules shall be followed by all vessels upon the high seas and in all waters connected therewith, navigable by sea-going vessels.

In the following Rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The words "steam vessel" shall include any vessel propelled by machinery.

*The term "under steam" shall mean under any mechanical power.*

A vessel is "under way" within the meaning of these Rules when she is not at anchor or made fast to the shore or aground.

*The length of a vessel shall be deemed to be the length appearing in her certificate of registry.*

Rules concerning lights, etc.

## RULES CONCERNING LIGHTS, &amp;c.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

## ARTICLE 1.

The Rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights *or impair their visibility* shall be exhibited.

## ARTICLE 2.

A steam vessel when under way shall carry:—

(a.) On or in front of the foremast, or if a vessel without a foremast, then in the fore part of the vessel, at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz.,

## ANNEXE II.

RÈGLEMENT INTERNATIONAL POUR PRÉVENIR LES  
ABORDAGES EN MER.

## PRÉLIMINAIRES.

Le présent Règlement devra être suivi par tous les navires dans les hautes mers et dans toutes les eaux attenantes accessibles aux bâtiments de mer.

Dans les Règles ci-après, tout navire à vapeur qui marche à la voile et non à la vapeur doit être considéré comme un navire à voiles, et tout navire qui marche à la vapeur, qu'il porte ou non des voiles, doit être considéré comme un navire à vapeur.

L'expression "navire à vapeur" doit comprendre tout navire mû par une machine.

*L'expression "marchant à la vapeur" doit signifier marchant par un moyen mécanique quelconque.*

Un navire "fait route" ou "est en marche," dans le sens de ces Règles, lorsqu'il n'est ni à l'ancre, ni amarré à terre, ni échoué.

*La longueur d'un navire est celle qui est donnée par son certificat d'inscription ou d'immatriculation.*

## RÈGLES CONCERNANT LES FEUX, &amp;c.

Le mot "visible," dans ces Règles, lorsqu'il s'applique à des feux, veut dire visible par une nuit noire, avec une atmosphère pure.

ARTICLE 1<sup>er</sup>.

Les Règles concernant les feux doivent être observées par tous les temps, du coucher au lever du soleil, et pendant cet intervalle, on ne doit montrer aucun autre feu pouvant être pris pour un des feux prescrits ou contrariant la visibilité de ces derniers.

## ARTICLE 2.

Un navire à vapeur faisant route doit porter:

(a.) Au mât de misaine ou en avant de ce mât, ou bien, si le navire n'a pas de mât de misaine, sur la partie avant du navire, à une hauteur au-dessus du plat-bord qui ne soit pas inférieure à 6 m. 10; et, si la largeur du navire dépasse 6 m. 10, à une hauteur au-dessus du plat-bord au moins égale à cette largeur, sans qu'il soit néanmoins nécessaire que cette hauteur au-dessus du plat-bord dépasse 12 m. 10; un feu blanc brillant, disposé de manière à montrer une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de 20 quarts ou

from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.

(b.) *Either forward or aft of the white light mentioned in sub-division (a) a second white light similar in construction and character to that light.*

*Vessels of less than 150 feet in length shall not be required to carry this second white light, but may do so.*

(c.) *These two white lights shall be so placed in a line with the keel that one shall be at least 15 feet higher than the other and in such a position that the lower light shall be forward of the upper one, and higher than the lights mentioned in Article 2 (d) and (e). The vertical distance between the two white lights shall be less than the horizontal distance. The lower of these two white lights, or if only one is carried, then that light, shall be placed at a height above the hull of not less than 20 feet, and, if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet.*

(b.) (d.) *On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.*

(e.) (e.) *On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.*

(d.) (f.) *The said green and red side lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.*

(e.) *A steam vessel when under way may carry an additional white light similar in construction to the light mentioned in sub-division (a). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.*

*In naval vessels of special construction in which it is not possible to comply fully with the provisions of this Article as to the position of lights or their range of visibility, those provisions shall be followed as closely as circumstances will permit.*

rumbs du compas, soit 10 quarts ou rumbs de chaque côté du navire, c'est-à-dire depuis l'avant jusqu'à 2 quarts sur l'arrière du travers de chaque bord. Ce feu doit être visible d'une distance d'au moins 5 milles.

(b.) *Soit à l'avant, soit à l'arrière du feu blanc prévu au paragraphe (a), un deuxième feu blanc de construction et de caractère semblables.*

*Le deuxième feu blanc n'est pas obligatoire pour les navires d'une longueur inférieure à 45m. 75, mais ils peuvent le porter.*

(c.) *Ces deux feux blancs devront être placés dans le plan longitudinal ou parallèlement à ce plan, de manière que l'un d'eux soit plus élevé que l'autre d'au moins 4m. 57 et dans une position telle que le feu inférieur se trouve sur l'avant du feu supérieur et au-dessus des feux prévus aux paragraphes (d) et (e) du présent Article. La distance verticale entre ces deux feux devra être moindre que leur distance horizontale. Le feu blanc prévu au paragraphe (a), lorsqu'il n'y a qu'un seul feu, ou le feu inférieur lorsque le navire porte deux feux, devra se trouver à une hauteur au-dessus du plat-bord qui ne sera pas inférieure à 6m. 10 et, si la largeur dépasse 6m. 10, à une hauteur au-dessus du plat-bord au moins égale à cette largeur, sans qu'il soit néanmoins nécessaire que cette hauteur dépasse 12m. 19.*

(b.) (d.) A tribord, un feu vert établi de manière à projeter une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de 10 quarts ou rumbs de compas, c'est-à-dire depuis l'avant jusqu'à deux quarts sur l'arrière du travers à tribord. Ce feu doit être visible d'une distance d'au moins 2 milles.

(e.) (e.) A bâbord, un feu rouge établi de manière à projeter une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de 10 quarts ou rumbs de compas, c'est-à-dire depuis l'avant jusqu'à 2 quarts sur l'arrière du travers à bâbord. Ce feu doit être visible d'une distance d'au moins 2 milles.

(d.) (f.) Lesdits feux de côté vert et rouge doivent être munis, du côté du bâtiment, d'écrans s'avancant au moins de 0m. 91 en avant du feu, de telle sorte que leur lumière ne puisse pas être aperçue de tribord devant pour le feu rouge et de bâbord devant pour le feu vert.

(e.) *Un navire à vapeur faisant route peut porter un feu blanc additionnel de même construction que le feu mentionné au paragraphe (a). Ces deux feux devront être placés dans le plan longitudinal, de manière que l'un soit plus élevé que l'autre d'au moins 4m. 57, et dans une position telle, l'un par rapport à l'autre, que le feu inférieur soit sur l'avant du feu supérieur. La distance verticale entre ces feux devra être moindre que leur distance horizontale.*

*Sur les navires de guerre d'une construction spéciale, à bord desquels il n'est pas possible de se conformer exactement à toutes les prescriptions du présent Article en ce qui concerne l'emplacement des feux ou la distance à laquelle ils doivent être visibles, on appliquera les présentes Règles aussi exactement qu'il sera possible de le faire.*

## ARTICLE 3.

A steam vessel when towing another vessel shall, in addition to her side lights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and *one of them* shall be carried in the same position as the white light mentioned in Article 2 (a), ~~except the additional light which may and the lowest light shall~~ be carried at a height of not less than 14 feet above the hull.

~~Such steam vessel~~ *The vessel towing and the vessels towed, except the last vessel of the tow, may carry in lieu of the light required in Article 10,* a small white light abaft the funnel or aftermast, for the ~~vessel towed~~ tow to steer by, but such light shall not be visible forward of the beam.

## ARTICLE 4.

(a.) A vessel which ~~from any accident~~ is not under command shall carry ~~at the same height as the white light mentioned in Article 2 (a);~~ where they can best be seen, and, if a steam vessel, in lieu of ~~that light the lights required in Article 2 (a) and (b),~~ two red lights, in a vertical line one over the other, not less than 6 feet apart, *so placed that the lower light shall not be less than 14 feet above the hull,* and of such a character as to be visible all round the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line, one over the other not less than 6 feet apart, where they can best be seen, two black balls or shapes each 2 feet in diameter.

(b.) A vessel employed in laying or in picking up a ~~telegraph submarine~~ cable shall carry ~~in the same position as the white light mentioned in Article 2 (a);~~ and if a steam vessel, in lieu of ~~that light the lights required in Article 2 (a) and (b),~~ three lights in a vertical line, one over the other, not less than 6 feet apart, *so placed that the lowest of these lights shall be not less than 14 feet above the hull.* The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line, one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

## ARTICLE 3.

Tout navire à vapeur remorquant un autre navire doit porter, outre ses feux de côté, deux feux blancs brillants placés verticalement à 1m. 83 au moins l'un de l'autre et, lorsqu'il remorque plus d'un navire, il doit porter un feu blanc brillant additionnel à 1m. 83 au-dessus ou au-dessous des deux feux précédents, si la longueur de la remorque, mesurée entre l'arrière du remorqueur et l'arrière du dernier navire remorqué, dépasse 183m.

Chacun de ces feux doit être de même construction et de même caractère que le feu blanc mentionné à l'Article 2 (a), *à l'exception du feu additionnel qui peut être l'un d'eux sera placé dans la même position que ce dernier feu et le feu inférieur devra se trouver à une hauteur d'au moins 4m. 57 au-dessus du plat-bord.*

*Le remorqueur peut Le navire remorquant et les navires remorqués, à l'exception du dernier, peuvent porter, au lieu du feu prévu à l'Article 10, en arrière de la cheminée ou du mât de l'arrière, un petit feu blanc sur lequel gouvernent les bâtiments remorqués, mais ce feu ne doit pas être visible sur l'avant du travers du remorqueur.*

## ARTICLE 4.

(a.) Un navire qui, ~~pour une cause accidentelle~~ n'est pas maître de sa manœuvre, doit pendant la nuit porter ~~à la même hauteur que le feu blanc mentionné à l'article 2 (a);~~ à l'endroit où ils seront le plus apparents, et, si ce navire est à vapeur, *au lieu des feux prescrits à l'Article 2, (a) et (b),* deux feux rouges disposés verticalement à une distance l'un de l'autre d'au moins 1m. 83 *et placés de telle sorte que le feu inférieur ne se trouve pas à moins de 4m. 57 au-dessus du plat-bord.* Ils devront être d'une intensité suffisante pour être visibles d'une distance d'au moins 2 milles; pendant le jour, ce même navire devra porter, sur une ligne verticale et à 1m. 83 au moins de distance l'un de l'autre, dans l'endroit où ils seront le plus apparents, deux ballons ou marques noirs de 0m. 61 de diamètre chacun.

(b.) Un navire employé à poser ou à relever un câble ~~télégraphique sous-marin~~ doit porter, ~~dans la même position que le feu blanc mentionné à l'article 2 (a) et;~~ si c'est un navire à vapeur ~~à la place assignée à ce feu,~~ *au lieu des feux prescrits à l'Article 2 (a) et (b),* trois feux placés sur une ligne verticale à 1m. 83 au moins l'un de l'autre, *de telle sorte que le plus bas de ces trois feux ne soit pas situé à moins de 4m. 57 au-dessus du plat-bord.* Le feu supérieur et le feu inférieur seront rouges, le feu du milieu blanc. Ils auront une intensité suffisante pour être visibles sur tout l'horizon d'une distance d'au moins 2 milles. De jour, il devra porter, sur une même ligne verticale, à 1m. 83 au moins l'une de l'autre, et placées dans l'endroit le plus apparent, trois marques de 0m. 61 au moins de diamètre chacune, dont la plus haute et la plus basse seront de forme sphérique et de couleur rouge, celle du milieu de forme biconique et de couleur blanche.

(c.) The vessels referred to in this Article, when not making way through the water, shall not carry the side-lights, but when making way shall carry them.

(d.) The lights and shapes required to be shown by this Article are to be taken by other vessels as signals that the vessel showing them is not under command and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in Article 31.

#### ARTICLE 5.

A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by Article 2 for a steam vessel under way, with the exception of the white lights mentioned therein, which they shall never carry.

#### ARTICLE 6.

Whenever, as in the case of small vessels under way during bad weather, the green and red side lights cannot be fixed, these lights shall be kept at hand lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

#### ARTICLE 7.

Steam vessels of less than 40, and vessels under oars or sails of less than 20, tons gross tonnage, respectively, and rowing boats, when under way, shall not be ~~obliged~~ *required* to carry the lights mentioned in Article 2 (a), (b) ~~and~~ (e); but if they do not carry them they shall be provided with the following lights:—

1. Steam vessels of less than 40 tons shall carry:

(a.) In the fore part of the vessel, ~~or~~ on or in front of the funnel, where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in Article 2 (a), and of such a character as to be visible at a distance of at least 2 3 miles.

(b.) Green and red side-lights constructed and fixed as prescribed in Article 2 (b) ~~and~~ (e); (d) and (e), and of such a character as to be

(c.) Les navires dont il est question dans le présent Article ne porteront pas de feux de côté quand ils n'ont aucun sillage, mais ils devront en avoir s'ils ont de l'erre.

(d.) Les feux et les marques de jour prescrits par le présent Article doivent être regardés par les autres navires comme des signaux indiquant que le bâtiment qui les montre n'est pas maître de sa manœuvre et ne peut, par conséquent, s'écarter de la route.

Ces signaux ne sont pas des signaux de navire en détresse et demandant assistance. Ces derniers signaux sont spécifiés à l'Article 31.

#### ARTICLE 5.

Tout navire à voile qui fait route et tout navire remorqué doivent porter les feux prescrits à l'Article 2 pour un navire à vapeur faisant route à l'exception des feux blancs mentionnés dans ledit Article, qu'ils ne doivent jamais porter.

#### ARTICLE 6.

Toutes les fois que les feux de côté, vert et rouge, ne peuvent être fixés à leur poste, comme cela a lieu à bord des petits bâtiments faisant route par mauvais temps, ces feux doivent être tenus sous la main, allumés et prêts à être montrés; si l'on s'approche d'un autre bâtiment ou si l'on en voit un qui s'approche, on doit montrer ces feux à leur bord respectif suffisamment à temps pour prévenir la collision, de telle sorte qu'ils soient bien apparents et que le feu vert ne puisse pas être aperçu de bâbord, ni le feu rouge de tribord, et, s'il est possible, de telle sorte qu'ils ne puissent être vus au delà de 2 quarts sur l'arrière du travers de leur bord respectif.

Afin de rendre plus facile et plus sûr l'emploi de ces feux portatifs, les fanaux doivent être peints extérieurement de la couleur du feu qu'ils contiennent respectivement et doivent être munis d'écrans convenables.

#### ARTICLE 7.

Les navires à vapeur de moins de 40 tonneaux de jauge brute et les navires marchant à l'aviron ou à la voile de moins de 20 tonneaux de jauge brute, ainsi, que les embarcations à l'aviron, lorsqu'ils font route, ne sont pas astreints à porter les feux mentionnés à l'Article 2 (a), (b) et (c); mais, s'ils ne les portent pas, ils doivent être pourvus des feux suivants:

1. Les navires à vapeur de moins de 40 tonneaux doivent porter:

(a.) Sur la partie avant du navire, soit sur la cheminée, soit en avant de celle-ci, à l'endroit où il sera le plus apparent et à 2m. 75 au moins au-dessus du plat-bord, un feu blanc brillant construit et fixé comme il est prescrit à l'Article 2 (a) et d'une intensité suffisante pour être visible d'une distance d'au moins 2 3 milles.

(b.) Des feux de côté, vert et rouge, construits et fixés comme il est prescrit à l'Article 2 (b) et (c) (d) et (e), et d'une intensité suffisante

visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right ahead to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steamboats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the *side-lights* or the combined lantern, mentioned in sub-division 1 (b).

3. Vessels under oars or sails, of less than 20 tons, shall ~~have ready at hand if they do not carry the side-lights, carry, where it can best be seen, a lantern with showing a green glass light on one side and a red glass light on the other, which, on the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, of such a character as to be visible at a distance of at least 1 mile so that the green light shall not be seen on the port side nor the red light on the star-board side; provided that, where it is not possible to fix this light, it shall be kept lighted and ready for use, and shall be exhibited in sufficient time to prevent collision.~~

4. *Small rowing boats, whether under oars or sail, shall only be required to have ready at hand a lighted lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.*

The vessels referred to in this Article shall not be obliged to carry the lights prescribed by Article 4 (a), and Article 11, last paragraph.

#### ARTICLE 8.

*Sailing pilot-vessels, when engaged on their station on pilotage duty, and not at anchor, shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, at a distance of at least 3 miles, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen ten minutes.*

On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A *sailing* pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board may show the white light instead of carrying it at the masthead, and may, instead of the ~~coloured~~ *side-lights* above mentioned, have at hand, ready for use, a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

pour être visibles d'une distance d'au moins 1 mille, ou un fanal combiné pour montrer un feu vert et un feu rouge depuis l'avant jusqu'à 2 quarts sur l'arrière du travers de leur bord respectif. Ce fanal ne doit pas être placé à moins de 0m. 91 au-dessus du feu blanc.

2. Les petits navires à vapeur, tels que les embarcations que portent les bâtiments de mer, peuvent placer le feu blanc à moins de 2m. 74 au-dessus du plat-bord, mais ce feu doit être au-dessus *des feux de côté ou* du fanal combiné mentionné au paragraphe 1 (b).

3. Les petits navires à l'aviron ou à la voile, de moins de 20 tonneaux, s'il ne portent pas les feux de côté doivent ~~avoir prêt sur la main porter, à l'endroit où il sera le plus apparent,~~ un fanal ~~muni d'une~~ glace verte d'un côté et d'une glace rouge de l'autre côté, et s'ils s'approchent d'un autre navire ou s'ils en voient un s'approcher, ils doivent montrer ce fanal assez à temps pour prévenir une collision montrant un feu vert d'un côté et un feu rouge de l'autre côté d'une intensité suffisante pour être visibles d'une distance d'au moins 1 mille et de telle sorte que le feu vert ne puisse être aperçu de bâbord ni le feu rouge de tribord. *Toutefois, s'il n'est pas possible de fixer ce fanal il devra être maintenu allumé, tenu prêt, sous la main, et montré assez à temps pour prévenir une collision.*

4. Les petites embarcations à rames, lorsqu'elles marchent à l'aviron ou à la voile, doivent *ne sont soumises qu'à l'obligation d'avoir,* prêt, sous la main, un fanal blanc, qui sera montré temporairement assez à temps pour prévenir une collision.

Les navires dont il est question dans cet Article ne sont pas obligés de porter les feux prescrits par l'Article 4 (a) et par l'Article 11, dernier paragraphe.

#### ARTICLE 8.

Les bateaux-pilotes à voiles, quand ils sont à leurs stations en service de pilotage *et lorsqu'ils ne sont pas mouillés,* ne doivent pas montrer les feux exigés des autres navires; ils doivent porter en tête de mât un feu blanc visible tout autour de l'horizon, *à une distance de 3 milles au moins,* et montrer aussi un ou plusieurs feux provisoires d'une nature quelconque (flare-up light) à de courts intervalles, ne dépassant jamais 15 10 minutes.

S'ils s'approchent d'un autre navire ou s'ils en voient un s'approcher, ils doivent avoir leurs feux de côté allumés, prêts à servir et les démasquer et remasquer à de courts intervalles, pour indiquer la direction de leur cap; mais le feu vert ne doit pas paraître du côté de bâbord, ni le feu rouge du côté de tribord.

Un bateau-pilote à voile, de la catégorie de ceux qui sont obligés d'accoster un navire pour mettre un pilote à bord, peut montrer le feu blanc au lieu de le porter en tête de mât et peut, au lieu des feux de ~~couleurs~~ côté susmentionnés, avoir sous la main, prêt à servir, un fanal muni d'une glace verte d'un côté, et d'une glace rouge de l'autre côté, pour l'employer comme il est dit plus haut.

A steam pilot-vessel exclusively employed for the service of pilots licensed or certified by any pilotage authority or the Committee of any pilotage district, when engaged on her station on pilotage duty and not at anchor, shall, in addition to the lights *and flares* required for all pilot-boats sailing pilot-vessels, carry at a distance of eight feet below her white mast head light, a red light, visible all round the horizon and of such a character as to be visible on a dark night with a clear atmosphere at a distance of at least ~~two~~ three miles, and also the coloured side-lights required to be carried by vessels when under way.

*All pilot-vessels, when engaged on their stations on pilotage duty and at anchor, shall carry the lights and show the flares prescribed above, except that the side-lights shall not be shown.*

*When not engaged on their stations on pilotage duty, they shall carry the same lights as other vessels of their class and tonnage.*

When engaged on her station on pilotage duty and at anchor she shall carry, in addition to the lights required for all pilot boats, the red light above mentioned, but not the coloured side lights.

Pilot vessels, when not engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their tonnage.

Un bateau-pilote à vapeur exclusivement employé au service des pilotes patentés ou autorisés par toute autorité de pilotage ou comité d'un district de pilotage, doit, lorsqu'il est à sa station en service de pilotage, mais non au mouillage, porter, en plus des feux et des "flare-up lights" exigés pour tous les bateaux-pilotes à voiles, à 2m. 40 au-dessous du feu blanc de tête de mât, un feu rouge visible tout autour de l'horizon d'une distance d'au moins 2 3 milles par nuit noire mais atmosphère claire; il doit aussi porter les feux de côté exigés pour les navires en marche.

*Tous les bateaux-pilotes en service à leurs stations de pilotage et lorsqu'ils sont mouillés doivent porter les feux et montrer les "flare-up lights" ci-dessus prescrits à l'exception des feux de côté qu'ils ne doivent pas montrer.*

*Les bateaux-pilotes, lorsqu'ils ne sont pas à leurs stations en service de pilotage doivent porter des feux semblables à ceux des autres navires de leur catégorie et de leur tonnage.*

Les bateaux-pilotes, lorsqu'ils ne sont pas à leur station en service de pilotage, doivent porter des feux semblables à ceux des autres navires de leur tonnage.

#### ARTICLE 9.\*†

Les bateaux et embarcations de pêche sauf dans les cas visés ci-dessus sont tenus de porter ou de montrer lorsqu'ils sont en marche les feux réglementaires pour les navires de leur tonnage en marche.

(a.) Les bateaux découverts (c'est-à-dire ceux qu'un pont continu ne protège pas de la mer) qui, pendant la durée de la pêche de nuit, portent un appareil immergé ne s'étendant pas à plus de 45m. 72, distance horizontale comptée à partir du bateau sont tenus de porter un feu blanc visible sur tout l'horizon.

Les bateaux découverts, lorsqu'ils pêchent de nuit, avec un appareil immergé qui déborde et s'étend à plus de 45m. 72, comptés à partir du bateau et horizontalement, doivent porter un feu blanc visible sur tout l'horizon et, de plus, lorsqu'ils s'approchent d'un bâtiment ou lorsqu'ils sont rejoints par un navire, doivent montrer un deuxième feu blanc à au moins 0m. 91 au-dessous du premier feu et à une distance horizontale d'au moins 1m. 50 en dehors de ce feu et dans la direction où l'appareil qui déborde est amarré à bord.

*Les feux indiqués au présent paragraphe doivent avoir une intensité suffisante pour être visibles d'une distance de 2 milles au moins.*

\* Cet article ne s'applique pas aux navires chinois ou siamois. [Footnote in the original.]

† L'expression "mer Méditerranée" employée dans les paragraphes (b) et (c) de cet article comprend la mer Noire et les mers intérieures adjacentes communiquant avec elle. [Footnote in the original.]

‡(b.) Vessels and boats, except open boats as defined in sub-division (a), when fishing with drift-nets, shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and not more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon, and to be visible at a distance of not less than 3 miles.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea,§ sailing fishing-vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the net or gear) a white light visible at a distance of not less than one sea mile on the approach of or to other vessels.

(c.) Vessels and boats, except open boats as defined in sub-division (a), when line-fishing with their lines out and attached to or hauling their lines, and when not at anchor or stationary within the meaning of sub-division (b), shall carry the same lights as vessels fishing with drift-nets. When shooting lines, or fishing with towing lines, they shall carry the lights prescribed for a steam or sailing vessel under way respectively.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea,§ sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the lines) a white light, visible at a distance of not less than one sea mile on the approach of or to other vessels.

(d.) Vessels, when engaged in trawling, by which is meant the dragging of an apparatus along the bottom of the sea—

1. If steam vessels, shall carry in the same position as the white light mentioned in Article 2 (a), a tri-coloured lantern so constructed and fixed as to show a white light from right ahead to two points on each bow, and a green light and a red light over an arc of the horizon from two points on each bow to two points abaft the beam on the starboard and port sides respectively; and not less than 6 nor more than 12 feet below the tri-coloured lantern a white light in a lantern, so constructed as to show a clear, uniform and unbroken light all round the horizon.

2. If sailing vessels, shall carry a white light in a lantern, so constructed as to show a clear, uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.

‡ Dutch vessels and boats when engaged in the "kol," or hand-line, fishing will carry the lights prescribed for vessels fishing with drift-nets. [Footnote in the original.]

§ Also, as regards Russian vessels, in the seas (excluding the Baltic) bordering the coasts of Russia. [Footnote in the original.]

\*(b.) Les bateaux et embarcations, à l'exception des bateaux découverts définis dans le paragraphe (a), lorsqu'ils pêchent avec des filets dérivants, doivent, tant que les filets sont dans l'eau totalement ou en partie, porter deux feux blancs aux endroits où ils peuvent être le plus visibles. Ces feux doivent être placés à une distance verticale l'un de l'autre de 1m. 80 au moins, et de 4m. 50 au plus et à une distance horizontale, dans le sens de la longueur du bateau, de 1m. 50 au moins et de 3 mètres au plus. Le feu inférieur devra être dans la direction des filets et l'ensemble des deux feux devra être visible sur tout l'horizon d'une distance d'au moins 3 milles.

Dans la Méditerranée et dans les mers bordant les côtes du Japon et de la Corée,† les voiliers de pêche de moins de 20 tonneaux de jauge brute ne seront pas tenus de porter le dernier des feux ci-dessus (feu inférieur); mais s'ils ne le portent pas, ils seront tenus de montrer dans la même position (dans la direction du filet ou de l'appareil) un feu blanc visible d'au moins 1 mille à l'approche d'un autre bâtiment.

(c.) Les bateaux et embarcations, à l'exception des bateaux découverts tels qu'ils sont définis dans le paragraphe (a), lorsqu'ils pêchent à la ligne avec leurs lignes dehors et amarrées, ou lorsqu'ils halent leurs lignes et lorsqu'ils ne sont pas au mouillage ou stationnaires (voir paragraphe (h)), doivent porter les mêmes feux que les bateaux qui pêchent avec des filets dérivants. Lorsqu'ils élongent leurs lignes ou s'ils pêchent avec des lignes traînantes, ils sont tenus de porter les feux prescrits, suivant le cas, pour les vapeurs ou les voiliers en marche.

Dans la Méditerranée et dans les mers bordant les côtes du Japon et de la Corée,† les voiliers de moins de 20 tonneaux de jauge brute ne sont pas tenus de porter le dernier des feux ci-dessus (feu inférieur), mais s'ils ne le portent pas, ils doivent montrer dans la même position (dans la direction des lignes) un feu blanc visible d'au moins 1 mille, à l'approche d'un autre navire.

(d.) Les bateaux occupés à chaluter, c'est-à-dire à draguer le fond avec un appareil, doivent:

1. S'ils sont à vapeur, porter, dans la même position que le feu blanc mentionné dans l'Article 2(a), un fanal tricolore disposé de manière à montrer un feu blanc depuis l'avant jusqu'à deux quarts de chaque bord, et un feu vert par tribord ainsi qu'un feu rouge par bâbord, visibles l'un et l'autre à partir de deux quarts de l'avant jusqu'à deux quarts sur l'arrière du travers. Ils doivent porter de plus, à 1m. 80 au moins et à 3m. 60 au plus, au-dessous du fanal tricolore, un feu blanc, montrant une lumière claire, uniforme et ininterrompue sur tout l'horizon.

2. S'ils sont à voiles, porter un fanal disposé de manière à montrer une lumière blanche, claire, uniforme et ininterrompue sur tout l'horizon. Ils doivent aussi, à l'approche d'un autre bâtiment, montrer dans l'endroit où elle sera le mieux visible une flamme ("flare-up light"), ou une torche, assez à temps pour éviter un abordage.

\* Les navires et embarcations des Pays-Bas pêchant à la ligne à main ("Kol") montreront les feux prescrits pour les navires pêchant avec les filets dérivants. [Footnote in the original.]

† De même en ce qui concerne les navires russes dans les mers baignant les côtes russes à l'exception de la Baltique. [Footnote in the original.]

All lights mentioned in sub-division (d), 1 and 2, shall be visible at a distance of at least 2 miles.

(e.) Oyster dredgers and other vessels fishing with dredge-nets shall carry and show the same lights as trawlers.

(f.) Fishing-vessels and fishing-boats may at any time use a flare-up light in addition to the lights which they are by this Article required to carry and show, and they may also use working lights.

(g.) Every fishing-vessel and every fishing-boat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least ~~one~~ 2 miles.

Every fishing-vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least ~~one~~ 2 miles and shall exhibit a second light as provided for vessels of such length by Article 11.

Should any such vessel, whether under 150 feet in length, or of 150 feet in length or upwards, be attached to a net or other fishing gear, she shall, on the approach of other vessels, show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(h.) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in day-time haul down the day-signal required by sub-division (k); at night show the light or lights prescribed for a vessel at anchor; and, during fog, mist, falling snow, or heavy rain-storms, make the signal prescribed for a vessel at anchor. (See sub-division (d), and the last paragraph of Article 15.)

(i.) In fog, mist, falling snow, or heavy rain-storms, drift-net vessels attached to their nets, and vessels when trawling, dredging, or fishing with any kind of drag-net, and vessels line fishing with their lines out, shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute, make a blast; if steam vessels, with the whistle or siren, and, if sailing vessels, with the fog-horn; each blast to be followed by ringing the bell. Fishing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals; but, if they do not, they shall make some other efficient sound signal at intervals of not more than one minute.

(k.) All vessels or boats fishing with nets or lines or trawls, when under way, shall in daytime indicate their occupation ~~to an approaching vessel~~ by displaying a basket ~~or other efficient signal~~ where it can best be seen. If vessels or boats at anchor have their gear out, they shall, on the approach of other vessels, show the same signal on the side on which those vessels can pass.

Tous les feux mentionnés dans le paragraphe (d), 1 et 2, doivent être visibles d'au moins 2 milles.

(e.) Les dragueurs d'huîtres et autres bateaux pêchant avec des filets de drague doivent porter et montrer les mêmes feux que les chalutiers.

(f.) Les bateaux et embarcations de pêche peuvent, en tout temps, montrer une flamme ("flare-up") en plus des feux que le présent Article les oblige à porter ou à montrer; ils peuvent aussi employer des feux de travail ("working lights").

(g.) Tout bateau de pêche et toute embarcation de pêche de moins de 45m. 72 de longueur doit porter, au mouillage, un feu blanc visible d'au moins  $\pm$  mille 2 milles sur tout l'horizon.

Tout bateau de pêche de 45m. 72 de longueur ou au-dessus doit montrer au mouillage, un feu blanc, visible d'au moins  $\pm$  mille 2 milles sur tout l'horizon, et montrer un second feu comme l'Article 11 le prévoit pour les bâtiments de cette longueur.

Si le bâtiment, qu'il ait moins de 45m. 72 de longueur ou de 45m. 72 de longueur et au-dessus, est attaché à un filet ou à tout autre engin de pêche, il doit à l'approche d'un autre bâtiment, montrer un feu blanc supplémentaire à 0m. 90 au moins au-dessous du feu de mouillage et à une distance horizontale d'au moins 1m. 50 en dehors de ce dernier feu, dans la direction du filet ou de l'engin de pêche.

(h.) Si un bateau ou une embarcation de pêche devient stationnaire, ses engins s'étant trouvés engagés par une roche ou un autre obstacle, il doit, le jour, hisser le signal prévu par le paragraphe (k); de nuit, il doit montrer le feu ou les feux prescrits pour un navire au mouillage, et en temps de brouillard, de brume, de neige ou par tempêtes de pluie, faire le signal de brume des bâtiments au mouillage. (Voir paragraphe (d) et l'Article 15, dernier paragraphe.)

(i.) Par brouillard, brume, neige ou tempêtes de pluie, les bateaux à filets dérivants attachés à leurs filets et les bateaux chalutant, draguant ou pêchant avec toute espèce de filets à draguer, les bâtiments pêchant à la ligne avec leurs lignes dehors, doivent, si leur tonnage brut est de 20 tonneaux ou au-dessus, faire entendre, à des intervalles de une minute au plus, un son de leur sifflet ou de leur sirène, si ce sont des vapeurs, et de leur cornet de brume si ce sont des voiliers; chaque son doit être suivi d'une sonnerie de cloche. Les bateaux de pêche et embarcations de moins de 20 tonneaux de jauge brute ne sont pas tenus de faire les signaux ci-dessus; mais s'ils ne les font pas, ils doivent faire entendre quelque autre signal sonore efficace, à des intervalles ne dépassant pas une minute.

(k.) Tous les bateaux ou embarcations de pêche en marche se servant de filets, de lignes ou de chaluts, doivent l'indiquer, de jour, à tous bâtiments qui approchent en hissant un panier ou un autre signal efficace à l'endroit où il peut être le plus visible. S'ils sont au mouillage avec leurs engins dehors, ils doivent, à l'approche d'un autre bâtiment, montrer ce même signal du côté où ce bâtiment peut passer.

The vessels required by this Article to carry or show the lights hereinbefore specified shall not be obliged to carry the lights prescribed by Article 4 (a) and the last paragraph of Article 11.

#### ARTICLE 10.

~~A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.~~

The white light required to be shown by this Article may be fixed and carried in a lantern, but in such case the lantern shall be *A vessel when under way shall carry at her stern, a white light so constructed, fitted, and screened, that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, and of such a character so as to be visible at a distance of at least  $\pm$  mile 2 miles.* Such light shall be carried as nearly as practicable on the same level as the side lights.

*In small vessels, if it is not possible on account of bad weather or other sufficient cause for this light to be fixed, a light shall be kept at hand lighted and ready for use, and shall, on the approach of an overtaking vessel, be shown in sufficient time to prevent collision.*

*For vessels engaged in towing, see Article 3, last paragraph.*

#### ARTICLE 11.

A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform, and unbroken light visible all round the horizon at a distance of at least  $\pm$  2 miles.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40, feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

*Between sunrise and sunset all vessels when at anchor in or near a fairway shall carry, forward, where it can best be seen, one black ball, 2 feet in diameter. The length of a vessel shall be deemed to be the length appearing in her certificate of registry.*

A vessel aground in or near a fairway shall carry *by night* the above light or lights and the two red lights prescribed by Article 4 (a), and *by day, where they can best be seen, 3 black balls, each 2 feet in diameter, placed in a vertical line one over the other.*

Les bâtiments visés, par cet Article, ne sont pas obligés, de porter les feux prescrits par l'Article 4, paragraphe (a), et par le dernier paragraphe de l'Article 11.

#### ARTICLE 10.

Un navire qui est rattrapé par un autre doit montrer à celui-ci, de la partie arrière du navire, un feu blanc ou un feu provisoire d'une nature quelconque (flare up):

Le feu blanc mentionné dans cet article peut être fixé et placé dans un fanal, mais, dans ce cas, le fanal doit être. Un navire faisant route doit porter à son arrière un feu de poupe blanc construit, fixé et muni d'écrans de manière à projeter une lumière ininterrompue sur un arc d'horizon de 12 rums ou quarts du compas, soit 6 quarts de chaque bord à partir de l'arrière. Ce feu doit être visible d'au moins 2 milles et placé autant que possible à la même hauteur que les feux de côté.

A bord des petits bâtiments, lorsqu'il n'est pas possible, à cause du mauvais temps ou pour toute autre raison suffisante, de maintenir ce feu en place, on devra avoir sous la main et tout prêt un fanal allumé qui sera montré suffisamment à temps pour éviter un abordage à l'approche de tout navire qui le rattrape.

En ce qui concerne les navires remorquant et remorqués, se rapporter au dernier paragraphe de l'Article 3.

#### ARTICLE 11.

Un navire de moins de 45m. 72 de longueur, lorsqu'il est au mouillage, doit porter à l'avant, dans l'endroit où il peut être le plus apparent, mais à une hauteur n'excédant pas 6m. 10 au-dessus du plat-bord, un feu blanc dans un fanal disposé de manière à projeter tout autour de l'horizon une lumière claire, uniforme et non interrompue à une distance d'au moins  $\pm$  2 milles.

Un navire de 45m. 72 ou plus de longueur, lorsqu'il est au mouillage, doit porter à la partie avant, à une hauteur au-dessus du plat-bord de 6m. 10 au moins et de 12m. 19 au plus, un feu blanc semblable à celui mentionné au paragraphe précédent et, à l'arrière ou près de l'arrière, un second feu pareil qui doit être à une hauteur telle qu'il ne se trouve pas à moins de 4m. 57 plus bas que le feu de l'avant.

Entre le lever et le coucher du soleil, tous les bâtiments au mouillage dans un chenal ou près d'un chenal porteront à l'avant à l'endroit le plus apparent une boule noire de 0m. 61 de diamètre.

On prendra pour la longueur du navire celle qui est donnée par son certificat d'inscription ou d'immatriculation.

Tout navire échoué dans un chenal ou près d'un chenal doit porter, de nuit, le ou les feux mentionnés ci-dessus, ainsi que les deux feux rouges prescrits par l'Article 4 (a) et, de jour, à l'endroit le plus apparent, trois boules noires d'un diamètre de 0m. 61 chacune, placées l'une au-dessus de l'autre sur une même ligne verticale.

## ARTICLE 12.

Every vessel may, if necessary, in order to attract attention, in addition to the lights which she is by these Rules required to carry, show a flare-up light or use any detonating or other efficient sound signal that cannot be mistaken for a *prescribed* distress or fog signal.

## ARTICLE 13.

Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by shipowners, which have been authorised by their respective Governments and duly registered and published.

## ARTICLE 14.

A ~~steam~~ vessel proceeding under sail only, but having her funnel up, when also under steam or other mechanical power shall carry in the daytime, forward, where it can best be seen, one ~~black ball~~ black cone, point upwards, 2 feet in diameter at its base.

Sound signals for fog, etc.

## SOUND SIGNALS FOR FOG, &amp;c.

## ARTICLE 15.

Rules concerning.

All signals prescribed by this Article for vessels under way shall be given—

1. By “steam vessels” on the whistle or siren.
2. By “sailing vessels and vessels towed” on the fog horn.

The words “prolonged blast” used in this Article, shall mean a blast of from 4 to 6 seconds’ duration.

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell.\* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

---

\* In all cases where the rules require a bell to be used a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sea-going vessels. [Footnote in the original.]

## ARTICLE 12.

Tout navire peut, s'il le juge nécessaire pour appeler l'attention, montrer, en plus des feux prescrits par les présentes règles, un feu provisoire d'une nature quelconque (*flare-up light*) ou faire usage de tout signal détonant *ou tout autre signal sonore efficace* ne pouvant être pris pour un des signaux prévus comme signal de détresse *ou de brume*.

## ARTICLE 13.

Les présentes Règles ne doivent en rien gêner la mise à exécution des prescriptions spéciales édictées par un Gouvernement quelconque, quant à un plus grand nombre de feux de position ou de signaux à mettre à bord des bâtiments de guerre au nombre de deux ou davantage, ainsi qu'à bord de bâtiments naviguant en convoi; non plus que l'emploi de signaux de reconnaissance adoptés par les armateurs avec autorisation de leurs Gouvernements respectifs et dûment enregistrés et publiés.

## ARTICLE 14.

Tout navire à ~~vapeur~~ faisant route à la voile ~~seulement mais ayant sa cheminée dressée et au même temps au moyen de la vapeur ou de toute autre propulsion mécanique~~ doit porter, de jour, à l'avant à l'endroit où il sera le plus apparent ~~un ballon noir ou une marque noire; un cône noir, de 0 m. 61 de diamètre à la base, la pointe en haut.~~

## SIGNAUX PHONIQUES PAR TEMPS DE BRUME, &amp;c.

## ARTICLE 15.

Tous les signaux prescrits par le présent Article pour les navires faisant route devront être produits:

1. A bord des "navires à vapeur" au moyen du sifflet ou de la sirène;
2. A bord des "navires à voiles" et des navires remorqués au moyen du cornet de brume.

Les mots "son prolongé" employés dans cet Article signifient un son de 4 à 6 secondes de durée.

Tout navire à vapeur doit être pourvu d'un sifflet ou d'une sirène d'une sonorité suffisante, actionné par la vapeur ou tout autre moteur pouvant la remplacer, et placé de telle sorte que le son ne puisse être arrêté par aucun obstacle; il doit aussi être pourvu d'un cornet de brume actionné mécaniquement ainsi que d'une cloche,\* l'un et l'autre suffisamment puissants. Tout navire à voiles d'un tonnage brut de 20 tonneaux et au-dessus doit avoir un cornet de brume et une cloche semblables.

\* Dans tous les cas où ce règlement prescrit l'emploi de la cloche, un tambour ou un gong peuvent la remplacer sur les navires turcs, ou sur les petits navires de mer qui utilisent ces instruments. [Footnote in the original.]

In fog, mist, falling snow or heavy rain-storms, whether by day or night, the signals described in this Article shall be used as follows, viz.:—

(a.) A steam vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.

(b.) A steam vessel under way, but stopped and having no way upon her, shall sound, at intervals of not more than 2 minutes, 2 prolonged blasts, with an interval of about 1 second between them.

(c.) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack, 1 blast, when on the port tack, 2 blasts in succession, and when with the wind abaft the beam, 3 blasts in succession.

(d.) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.

*In vessels of more than 350 feet in length the bell shall be sounded in the forepart of the vessel, and, in addition, there shall be sounded in the after-part of the vessel, at intervals of not more than 1 minute, a gong or other instrument, the tone of which cannot be confused with the ringing of the bell.*

(e.) A vessel, when towing, a vessel employed in laying or in picking up a telegraph submarine cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœuvre as required by these Rules shall, instead of the signals prescribed in subdivisions (a), (b) and (c) of this Article, at intervals of not more than 2 minutes, sound 3 blasts in succession, viz., 1 prolonged blast followed by 2 short blasts. ~~A vessel towed may give this signal and she shall not give any other.~~

*A vessel towed, or if more than one vessel is towed, the last vessel of the tow, shall, at intervals of not more than 2 minutes, sound 4 blasts in succession, viz., 1 prolonged blast followed by 3 short blasts, provided that this signal is not required when it is impossible to keep the vessel manned.*

*When practicable, the vessel towed shall make this signal immediately after the signal made by the towing vessel.*

(f.) *A vessel aground in or near a fairway shall give the signal prescribed in paragraph (d), and shall, in addition, give 3 separate and distinct strokes on the bell immediately preceding and following each such signal.*

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals, but, if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.†

---

† Dutch steam pilot-vessels, when engaged on their station on pilotage duty in fog, mist, falling snow, or heavy rain-storms are required to make at intervals of 2 minutes at most one long blast with the siren, followed after 1 second by a long blast with the steam whistle and again after 1 second by a long blast on the siren. When not engaged on their station on pilotage duty, they make the same signals as other steamships. [Footnote in the original.]

Par temps de brume, de brouillard, de bruine, de neige ou pendant les forts grains de pluie, tant de jour que de nuit, les signaux décrits dans le présent Article seront employés comme il suit:

(a.) Tout navire à vapeur ayant de l'erre doit faire entendre un son prolongé à des intervalles de deux minutes au plus;

(b.) Tout navire à vapeur en route, mais stoppé et n'ayant pas d'erre, doit faire entendre, à des intervalles ne dépassant pas deux minutes, deux sons prolongés séparés par un intervalle d'une seconde environ.

(c.) Tout navire à voiles faisant route doit faire entendre à des intervalles n'excédant pas une minute, un son quand il est tribord amures, deux sons consécutifs quand il est bâbord amures et trois sons consécutifs quand il a le vent de l'arrière du travers.

(d.) Tout navire au mouillage doit sonner la cloche rapidement pendant 5 secondes environ à des intervalles n'excédant pas une minute.

*Sur les navires d'une longueur supérieure à 106m. 75, on devra sonner la cloche sur la partie avant du navire et de plus, sur la partie arrière, à des intervalles ne dépassant pas une minute, faire entendre un gong ou tout autre instrument dont le son ne peut être confondu avec celui de la cloche.*

(e.) Tout navire qui remorque, tout navire employé à poser ou à lever un câble télégraphique sous-marin, tout navire faisant route et ne pouvant se dérouter de la route d'un navire qui s'approche parce qu'il n'est pas maître de sa manœuvre et qui ne peut manœuvrer comme l'exige ce Règlement, devra, au lieu des signaux prescrits aux paragraphes (a), (b) et (c) du présent Article, faire entendre, à des intervalles ne dépassant pas deux minutes, trois sons consécutifs, savoir: un son prolongé suivi de deux sons brefs. ~~Un navire remorque peut faire ce signal, mais il n'en fera pas d'autre.~~

*Un navire remorqué, ou s'il en est remorqué plus d'un, le dernier navire du convoi devra, à des intervalles ne dépassant pas deux minutes, faire entendre quatre sons consécutifs, c'est-à-dire un son prolongé, suivi de trois sons brefs; ce signal n'est pas obligatoire dans le cas où il ne serait pas possible d'embarquer du personnel à bord du navire remorqué.*

*Quand il sera possible, le navire remorqué devra faire entendre ce signal immédiatement après le signal fait par le navire remorqueur.*

(f.) Tout navire échoué dans un chenal ou à proximité d'un chenal émettra le signal prescrit au paragraphe (d) et, de plus, devra faire entendre trois sons de cloche séparés et distincts immédiatement avant et après chaque signal.

Les navires à voiles et embarcations d'un tonnage brut de moins de 20 tonnes ne sont pas astreints à faire les signaux mentionnés ci-dessus; mais s'ils ne les font pas, ils doivent faire tout autre signal phonique d'une intensité suffisante à des intervalles ne dépassant pas une minute.\*

\* Les bateaux-pilotes à vapeur des Pays-Bas quand ils sont à leur station en service de pilotage, par temps de brume, de brouillard, de neige ou pendant les forts grains de pluie, sont astreints à intervalles de deux minutes au plus à faire entendre un son prolongé de la sirène suivi à une seconde d'intervalle par un son prolongé du sifflet à vapeur, suivi de nouveau à une seconde d'intervalle d'un son prolongé de la sirène. Quand ils ne sont pas à leur station en service de pilotage ils font entendre les mêmes signaux que les autres navires à vapeur. [Footnote in the original.]

Fog, etc.

## SPEED OF SHIPS TO BE MODERATE IN FOG, &amp;c.

## ARTICLE 16.

Speed limitations,  
etc.

Every vessel shall, in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

Steering and sailing  
rules.*Steering and Sailing Rules.**Preliminary—Risk of Collision.*

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

## ARTICLE 17.

When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz.:—

- (a.) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.
- (b.) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.
- (c.) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.
- (d.) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.
- (e.) A vessel which has the wind aft shall keep out of the way of the other vessel.

## ARTICLE 18.

When two steam vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

## LA VITESSE DES NAVIRES DOIT ÊTRE MODÉRÉE PAR TEMPS DE BRUME, &c.

### ARTICLE 16.

Tout navire, par temps de brume, de brouillard, de bruine, de neige, ou pendant les forts grains de pluie, doit aller à une vitesse modérée, en tenant attentivement compte des circonstances et des conditions existantes.

Tout navire à vapeur, en entendant, dans une direction qui lui paraît être sur l'avant de son travers, le signal de brume d'un navire dont la position est incertaine, doit, autant que les circonstances du cas le comportent, stopper sa machine et ensuite naviguer avec précaution jusqu'à ce que le danger de collision soit passé.

### *Règles de Barres et de Route.*

#### *Préliminaires—Risque de Collision.*

Le risque de collision peut, quand les circonstances le permettent, être constaté par l'observation attentive du relèvement au compas d'un navire qui s'approche. Si ce relèvement ne change pas d'une façon appréciable, on doit en conclure que ce risque existe.

### ARTICLE 17.

Lorsque deux navires à voiles s'approchent l'un de l'autre, de manière à faire craindre une collision, l'un d'eux doit s'écarter de la route de l'autre comme il suit, savoir:

- (a.) Tout navire courant largue doit s'écarter de la route d'un navire qui est au plus près.
- (b.) Tout navire qui court au plus près bâbord armures doit s'écarter de la route d'un navire qui est au plus près tribord armures.
- (c.) Lorsque deux navires courent largue avec le vent de bords opposés, celui qui reçoit le vent de bâbord doit s'écarter de la route de l'autre.
- (d.) Lorsque deux navires courent largue avec le vent du même bord, celui qui est au vent doit s'écarter de la route de celui qui est sous le vent.
- (e.) Tout navire vent arrière doit s'écarter de la route d'un autre navire.

### ARTICLE 18.

Lorsque deux navires marchant à la vapeur font des routes directement opposées ou à peu près opposées, de manière à faire craindre une collision, chacun d'eux doit venir sur tribord de manière à passer par bâbord l'un de l'autre.

Cet article ne s'applique qu'aux cas où les navires ont le cap l'un sur l'autre ou presque l'un sur l'autre, en suivant des directions opposées, de telle sorte que la collision soit à craindre; il ne s'applique pas à deux navires qui, s'ils continuent leurs routes respectives, se croisent sûrement sans se toucher.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

#### ARTICLE 19.

When two steam vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

#### ARTICLE 20.

When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

#### ARTICLE 21.

Where by way of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

NOTE.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (See Articles 27 and 29.)

*Post*, pp. 1302, 1303.

#### ARTICLE 22.

Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

#### ARTICLE 23.

Every steam vessel which is directed by these Rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

#### ARTICLE 24.

Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Les seuls cas que vise cet article sont ceux dans lesquels chacun des deux bâtiments a le cap sur l'autre; en d'autres termes, les cas dans lesquels, pendant le jour, chaque bâtiment voit les mâts de l'autre navire l'un par l'autre ou à très peu près l'un par l'autre et tout à fait ou à très peu près dans le prolongement de son cap; et, pendant la nuit, le cas où chaque bâtiment est placé de manière à voir à la fois les deux feux de côté de l'autre.

Il ne s'applique pas au cas où, pendant le jour, un bâtiment en aperçoit un autre droit devant lui et coupant sa route, ni au cas où, pendant la nuit, chaque bâtiment présentant son feu rouge voit le feu de même couleur de l'autre, où chaque bâtiment présentant son feu vert voit le feu de même couleur de l'autre; ni aux cas où un bâtiment aperçoit droit devant lui un feu rouge sans voir de feu vert, ou aperçoit droit devant lui un feu vert sans voir de feu rouge; enfin, ni au cas où un bâtiment aperçoit à la fois un feu vert et un feu rouge dans toute autre direction que droit devant ou à peu près.

#### ARTICLE 19.

Lorsque deux navires marchant à la vapeur font des routes qui se croisent, de manière à faire craindre une collision, le bâtiment qui voit l'autre par tribord doit s'écarter de la route de cet autre navire.

#### ARTICLE 20.

Lorsque deux navires, l'un à vapeur, l'autre à voiles, courent de manière à risquer de se rencontrer, le navire sous vapeur doit s'écarter de la route de celui qui est à voiles.

#### ARTICLE 21.

Quand, d'après les règles tracées ci-dessus, l'un des navires doit changer sa route, l'autre bâtiment doit conserver la sienne et maintenir sa vitesse.

NOTA.—Il peut se faire, par suite de temps couvert ou pour d'autres causes, que deux navires viennent à se trouver tellement rapprochés l'un de l'autre que la collision ne puisse être évitée par la manœuvre seule de celui qui doit laisser la route libre; dans ce cas, l'autre doit faire, de son côté, telle manœuvre qu'il jugera la meilleure pour empêcher l'abordage. (Voir Articles 27 et 29.)

#### ARTICLE 22.

Tout navire qui est tenu, d'après ces règles, de s'écarter de la route d'un autre navire doit, si les circonstances de la rencontre le permettent, éviter de couper la route de l'autre navire sur l'avant de celui-ci.

#### ARTICLE 23.

Tout navire à vapeur qui est tenu, d'après ces règles, de s'écarter de la route d'un autre navire, doit, s'il s'approche de celui-ci, ralentir au besoin sa vitesse, ou même stopper ou marcher en arrière, si les circonstances le rendent nécessaire.

#### ARTICLE 24.

Quelles que soient les prescriptions des articles qui précèdent, tout bâtiment qui en rattrape un autre doit s'écarter de la route de dernier.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, *i. e.*, in such a position, with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

#### ARTICLE 25.

In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

#### ARTICLE 26.

Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This Rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fair-way used by vessels other than fishing-vessels or boats.

#### ARTICLE 27.

In obeying and construing these Rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

Vessels in sight of one another.

#### SOUND-SIGNALS FOR VESSELS IN SIGHT OF ONE ANOTHER.

#### ARTICLE 28.

Sound-signals.

The words "short blast" used in this Article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorized or required by these Rules, shall indicate that course by the following signals on her whistle or siren, *viz.*:—

One short blast to mean, "I am directing my course to starboard."  
Two short blasts to mean, "I am directing my course to port."  
Three short blasts to mean, "My engines are going full speed astern."

Tout navire qui se rapproche d'un autre en venant d'une direction de plus de 2 quarts sur l'arrière du travers de ce dernier, c'est-à-dire qui se trouve dans une position telle, par rapport au navire qui est rattrapé, qu'il ne pourrait, pendant la nuit, apercevoir aucun des deux feux de côté de celui-ci, doit être considéré comme un navire qui en rattrape un autre; et aucun changement ultérieur dans le relèvement entre les deux bâtiments ne pourra faire considérer le navire qui rattrape l'autre comme croisant la route de ce dernier au sens propre de ces règles, et ne pourra l'affranchir de l'obligation de s'écarter de la route du navire rattrapé jusqu'à ce qu'il l'ait tout a fait dépassé et paré.

Pendant le jour, un bâtiment qui rattrape un autre bâtiment ne pouvant pas toujours reconnaître avec certitude s'il est sur l'avant ou sur l'arrière de cette direction par rapport à ce dernier, doit, s'il y a doute, se considérer comme un navire qui en rattrape un autre et s'écarter de la route de celui-ci.

#### ARTICLE 25.

Dans les passes étroites, tout navire à vapeur doit, quand la prescription est d'une exécution possible et sans danger pour lui prendre la droite du chenal ou du milieu du passage.

#### ARTICLE 26.

Tout navire à voiles faisant route doit s'écarter de la route des navires à voiles ou embarcations pêchant avec des filets, des lignes ou des chaluts. Cette prescription ne donne pas aux navires ou embarcations, qui sont occupés à une opération de pêche, le droit d'obstruer un chenal fréquenté par des navires autres que des navires ou embarcations de pêche.

#### ARTICLE 27.

En suivant et en interprétant les prescriptions qui précèdent, on doit tenir compte de tous les dangers de navigation et de collision, ainsi que des circonstances particulières qui peuvent forcer de s'écarter de ces règles pour éviter un danger immédiat.

### SIGNAUX PHONIQUES POUR LES NAVIRES QUI S'APER- ÇOIVENT L'UN L'AUTRE.

#### ARTICLE 28.

Les mots "son bref" employés dans cet article signifient un son d'environ une seconde de durée.

Lorsque des navires sont en vue l'un de l'autre, un navire à vapeur qui est en marche doit, en changeant sa route conformément à l'autorisation ou aux prescriptions de ce règlement, indiquer ce changement par les signaux suivants faits au moyen de son sifflet ou de sirène, savoir:

Un son bref pour dire: "Je viens sur tribord." Deux sons brefs pour dire: "Je viens sur bâbord." Trois sons brefs pour dire: "Je marche en arrière à toute vitesse."

## NO VESSEL UNDER ANY CIRCUMSTANCES TO NEGLECT PROPER PRECAUTIONS.

### ARTICLE 29.

No vessel to neglect proper precautions.

Nothing in these Rules shall exonerate any vessel, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

## RESERVATION OF RULES FOR HARBOURS AND INLAND NAVIGATION.

### ARTICLE 30.

Reservation of rules for harbors and inland navigation.

Nothing in these Rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

## DISTRESS SIGNALS.

### ARTICLE 31.

Distress signals.

When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz.:—

In the daytime—

1. A gun or other explosive signal fired at intervals of about a minute;
2. The International Code signal of distress; ~~indicated by N.C.~~
3. The ~~distant~~ *distance* signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball;
4. A continuous sounding with any fog-signal apparatus;
5. *The international distress signal made by radiotelegraphy or radiotelephony, or by any other distance signalling method.*

At night—

1. A gun or other explosive signal fired at intervals of about a minute;
2. Flames on the vessel (as from a burning tar-barrel, oil-barrel, &c.);
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals;
4. A continuous sounding with any fog-signal apparatus;
5. *The international distress signal made by radiotelegraphy or radiotelephony, or by any other distance signalling method.*

*The use of any of the above signals, except for the purpose of indicating that a vessel is in distress, and the use of any signals which may be confused with any of the above signals, is prohibited.*

OBSERVATION ABSOLUE, EN TOUTES CIRCONSTANCES,  
DES PRÉCAUTIONS ÉLÉMENTAIRES.

## ARTICLE 29.

Rien de ce qui est prescrit dans ces règles ne doit exonérer un navire ou son propriétaire, ou son capitaine, ou son équipage, des conséquences d'une négligence quelconque, soit au sujet des feux ou des signaux, soit de la part des hommes de veille, soit enfin au sujet de toute précaution que commandent l'expérience ordinaire du marin et les circonstances particulières dans lesquelles se trouve le bâtiment.

RÉSERVE RELATIVE AUX RÈGLES DE NAVIGATION  
DANS LES PORTS ET À L'INTÉRIEUR DES TERRES.

## ARTICLE 30.

Rien dans ces règles ne doit entraver l'application des règles spéciales, dûment édictées par l'autorité locale, relativement à la navigation dans une rade, dans une rivière ou dans une étendue d'eau intérieure quelconque.

## SIGNAUX DE DÉTRESSE.

## ARTICLE 31.

Lorsqu'un bâtiment est en détresse et demande des secours à d'autres navires ou à la terre, il doit faire usage des signaux suivants, ensemble ou séparément, savoir:

Pendant le jour:

1. Coups de canon ou autres signaux explosifs tirés à des intervalles d'une minute environ.
2. Le signal de détresse du Code international, *indiqué par les signes NC.*
3. Le signal de grande distance consistant en un pavillon carré, ayant au-dessus un ballon ou quelque chose ressemblant à un ballon.
4. Un son continu produit par un appareil quelconque pour signaux de brume.
5. *Le signal international de détresse radiotélégraphique ou radiotéléphonique ou autre système de signalisation à grande distance.*

Pendant la nuit:

1. Coups de canon ou autres signaux explosifs tirés à intervalles d'une minute environ.
2. Flammes sur le navire, telles qu'on peut en produire en brûlant un baril de goudron, à huile, &c.
3. Fusées ou bombes projetant des étoiles de toutes couleurs et de tous genres, ces fusées et bombes lancées une à une à de courts intervalles.
4. Un son continu produit par un appareil quelconque pour signaux de brume.
5. *Le signal international de détresse radiotélégraphique ou radiotéléphonique ou tout autre système de signalisation à grande distance.*

*Est interdit, l'usage de l'un quelconque des signaux ci-dessus sauf dans le but d'indiquer qu'un navire est en détresse et l'usage de tout signal susceptible d'être confondu avec un des signaux ci-dessus.*

February 7, 1936  
[T. S. No. 912]

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

### A PROCLAMATION.

WHEREAS a convention between the United States of America and the United Mexican States providing for the protection of migratory birds and game mammals was concluded and signed by their respective plenipotentiaries at the city of Mexico on the seventh day of February, one thousand nine hundred and thirty-six, the original of which convention, being in the English and Spanish languages, is word for word as follows:

Migratory birds and game mammals in United States and Mexico.  
Preamble.

CONVENTION BETWEEN THE UNITED STATES OF AMERICA AND THE UNITED MEXICAN STATES FOR THE PROTECTION OF MIGRATORY BIRDS AND GAME MAMMALS.

CONVENIO ENTRE LOS ESTADOS UNIDOS DE NORTEAMERICA Y LOS ESTADOS UNIDOS MEXICANOS PARA LA PROTECCION DE AVES MIGRATORIAS Y DE MAMIFEROS CINEGETICOS.

Whereas, some of the birds denominated migratory, in their movements cross the United States of America and the United Mexican States, in which countries they live temporarily;

Considerando que algunas de las aves llamadas migratorias en sus viajes cruzan los Estados Unidos de Norteamérica y los Estados Unidos Mexicanos, en cuyos países temporalmente habitan;

Whereas it is right and proper to protect the said migratory birds, whatever may be their origin, in the United States of America and the United Mexican States, in order that the species may not be exterminated;

Considerando que es justo y conveniente proteger dichas aves migratorias, cualquiera que sea su origen, en los Estados Unidos de Norteamérica y en los Estados Unidos Mexicanos para que no se extingan sus especies;

Whereas, for this purpose it is necessary to employ adequate measures which will permit a rational utilization of migratory birds for the purposes of sport as well as for food, commerce and industry;

Considerando que para el fin indicado es necesario emplear métodos adecuados que permitan utilizar racionalmente las aves migratorias tanto en el deporte cuanto para la alimentación, el comercio y la industria;

### ARTIKEL III.

Die Bestimmungen dieses Vertrages sollen keinen Anspruch auf Auslieferung wegen Verbrechen oder Vergehen politischer Art oder wegen Handlungen, die mit derartigen Verbrechen oder Vergehen im Zusammenhang stehen, geben und keine Person, die kraft dieses Vertrages von einem oder an einen der Hohen Vertragschliessenden Teile ausgeliefert wurde, soll wegen eines vor ihrer Auslieferung begangenen politischen Verbrechens oder Vergehens vor Gericht gestellt oder bestraft werden. Der ersuchte Staat oder dessen Gerichte sollen entscheiden, ob die Tat politischer Art ist. Wenn die zur Last gelegte strafbare Tat einen vollbrachten oder versuchten Mord, Meuchelmord oder Giftmord in sich schliesst, soll der Umstand, dass die Tat gegen das Leben des Herrschers oder Oberhauptes eines der Hohen Vertragschliessenden Teile oder gegen den Herrscher oder das Oberhaupt eines fremden Staates oder gegen das Leben eines Mitgliedes der Familie des einen oder des andern von ihnen vollbracht oder versucht wurde, nicht als hinreichend angesehen werden, um zu behaupten, dass das Verbrechen oder Vergehen politischer Art oder eine Handlung war, die mit Verbrechen oder Vergehen politischer Art im Zusammenhang steht.

### ARTIKEL IV.

Keine Person soll wegen eines vor ihrer Auslieferung begangenen Verbrechens oder Vergehens, derentwegen die Auslieferung nicht erfolgt ist, vor Gericht gestellt werden, es sei denn, dass sie während eines Monats, nachdem sie vor Gericht gestellt gewesen war, oder für den Fall einer Verurteilung während eines Monats nach erfolgter Verbüssung der Strafe oder Begnadigung die Freiheit gehabt hat, das Land zu verlassen.

### ARTIKEL V.

Eine angeklagte Person soll nach den Bestimmungen dieses Vertrages nicht ausgeliefert werden, wenn wegen Zeitablaufs oder aus einem andern Rechtsgrunde nach den Gesetzen des ersuchenden Staates ihre Verfolgung oder Bestrafung wegen der strafbaren Handlung, derentwegen die Auslieferung verlangt wird, ausgeschlossen ist.

## ARTICLE VI.

Person under prosecution in country where found.

If an accused person whose extradition may be claimed pursuant to the provisions of this Treaty be actually under prosecution, out on bail, in custody or sentenced for a crime or offense committed in the State to which he has fled, his extradition may be deferred until such proceedings are brought to an end and until he shall have been set at liberty in due course of law.

## ARTICLE VII.

Person claimed by other Powers.

If the extradition of an accused person, which is requested by one of the two Contracting Parties, is also requested by one or more other powers, on the ground of treaty provisions, for crimes or offenses committed within their jurisdiction, the person must be surrendered to that State whose request was first received, unless it is withdrawn.

Existing treaties with other States not affected.

This Article shall not affect treaties which were already concluded by one of the Contracting Parties at a previous period with other States.

## ARTICLE VIII.

Neither country bound to deliver up its own citizens; exception.

Under the provisions of this Treaty, neither of the High Contracting Parties shall be bound to surrender its own citizens, with the exception of cases in which such citizenship has been acquired after commission of the crime for which extradition is sought. The decision as to whether the person whose extradition is requested is its own citizen, belongs to the State to which the application for requisition is made.

## ARTICLE IX.

Expenses of arrest, etc.

The cost of transporting the fugitive shall be borne by the Government which has made the request for extradition. The competent officials of the country in which the extradition proceedings are to take place shall assist the officials of the Government requesting the extradition before the judges and magistrates by every legal means at their disposal. The Government which requested the extradition is liable for reimbursement of costs only for the subsistence and lodging of the fugitive, which have arisen prior to the extradition through the arrest, detention, the investigation proceedings and the delivery of the fugitive. However, the officials of the surrendering Government who shall in the course of their duty, receive specified fees for the services performed, instead of other compensation or payment, shall be entitled to receive from the Government asking extradition, the customary fees for the acts or services performed by them in the same manner and to the same amount as though such acts or services had been performed in ordinary criminal proceedings under the law of the country of which they are officers.

Officials of surrendering Government, compensation.

## ARTICLE X.

Articles seized with fugitive.

Everything found in the possession of an accused person, at the time of the arrest, if it is the proceeds of the crime or offense, or may be material as evidence, shall so far as practicable under the laws of the two High Contracting Parties be delivered up with his person at the time of surrender. Nevertheless, the rights of third persons with regard to the articles referred to shall be duly respected.

## ARTIKEL VI.

Wenn eine angeklagte Person, deren Auslieferung auf Grund der Bestimmungen dieses Vertrages verlangt werden kann, zurzeit wegen eines Verbrechens oder Vergehens, das im Zufluchtsstaate begangen worden ist, verfolgt wird, sich gegen Sicherheitsleistung auf freiem Fuss oder in Haft befindet, oder verurteilt worden ist, so kann ihre Auslieferung aufgeschoben werden, bis dieses Verfahren zu Ende geführt und sie von Rechts wegen auf freien Fuss gesetzt worden ist.

## ARTIKEL VII.

Wenn die Auslieferung einer angeklagten Person, die von einem der beiden Vertragsteile begehrt wird, auch von einer oder mehreren andern Mächten auf Grund von vertraglichen Bestimmungen wegen innerhalb ihrer Gerichtsbarkeit begangener Verbrechen oder Vergehen verlangt wird, ist die Person jenem Staate auszuliefern, dessen Begehren zuerst einlangte, es sei denn, dass dieses zurückgezogen wird.

Dieser Artikel soll Verträge nicht berühren, die schon zu einem frühern Zeitpunkte von einem der Vertragschliessenden Teile mit andern Staaten abgeschlossen worden sind.

## ARTIKEL VIII.

Nach den Bestimmungen dieses Vertrages soll keiner der Hohen Vertragschliessenden Teile verpflichtet sein, seine eigenen Staatsangehörigen auszuliefern, mit Ausnahme der Fälle, in denen diese Staatsangehörigkeit nach der Begehung des Verbrechens, derentwegen die Auslieferung nachgesucht wird, erworben worden ist. Der Beschluss darüber, ob die Person, deren Auslieferung verlangt wird, sein eigener Staatsangehöriger ist, kommt dem ersuchten Staate zu.

## ARTIKEL IX.

Die Kosten für die Ueberführung des Verfolgten werden von der Regierung getragen, die das Auslieferungsersuchen gestellt hat. Die zuständigen Beamten des Landes, in dem das Auslieferungsverfahren stattzufinden hat, sollen mit allen ihnen zur Verfügung stehenden gesetzlichen Mitteln den Beamten der ersuchenden Regierung Beistand vor den Richtern und Beamten gewähren. Die Regierung, welche die Auslieferung begehrt hat, ist zum Kostenersatz nur für die Verpflegung und Unterkunft des Verfolgten, die vor der Auslieferung durch die Festnahme, Festhaltung, das Prüfungsverfahren und die Uebergabe des Verfolgten entstanden sind, verpflichtet. Indessen sollen die Beamten der ausliefernden Regierung, die mitwirken, wenn sie im allgemeinen für ihre Dienstleistungen statt anderer Entschädigung oder Bezahlung feststehende Gebühren für die geleisteten Dienste bekommen, berechtigt sein, von der um Auslieferung ersuchenden Regierung die üblichen Gebühren für ihre Tätigkeit oder die geleisteten Dienste in derselben Weise und in derselben Höhe zu beanspruchen, wie sie sie für eine Tätigkeit oder Dienste, die sie in sonstigen Strafverfahren nach dem Rechte des Landes, in dem sie Beamte sind, erhalten.

## ARTIKEL X.

Alles was zur Zeit der Verhaftung einer angeklagten Person in ihrem Besitze gefunden wird, es mag aus dem Verbrechen oder Vergehen herkommen oder als Beweismittel von Bedeutung sein, soll, soweit dies nach den Gesetzen der beiden Hohen Vertragschliessenden Teile durchführbar ist, zugleich mit seiner Person bei der Auslieferung mitübergaben werden. Die Rechte dritter Personen in Ansehung der angeführten Gegenstände sollen jedoch berücksichtigt werden.

## ARTICLE XI.

## Territory affected.

The provisions of the present Treaty shall be applicable to all territory wherever situated, belonging to one of the High Contracting Parties, or in the occupancy or control of one of them, during such occupancy or control.

## Requisitions.

Requisitions for the extradition of fugitives from justice shall be made by the diplomatic representatives of the Contracting States. In the event of the absence of such representatives from the country or its seat of Government, or if extradition is sought from a territory outside of the United States of America or the Principality of Liechtenstein, in the manner specified in Article I, the requests may be made by superior consular officers.

## Arrest.

The arrest of the fugitive shall take place in accordance with the provisions of the laws of the States concerned. If, after examination on the basis of the provisions of law and the evidence, it is decided that the extradition must be granted under this Treaty, extradition of the fugitive shall be carried out in accordance with the legal regulations provided for such cases.

Release, if formal  
request not forthcoming;  
time limitation.

A person provisionally arrested shall be released, if, within two months counted from the day of opening the proceedings in the United States of America, and in Liechtenstein, from the day of the arrest, the formal requisition for surrender with the documentary evidence hereinafter described has not been made by the diplomatic representative of the Government making the request, or in his absence, by a consular officer thereof, in the above-mentioned manner.

## Papers required.

If the accused person has been sentenced for the crime or offense for which his extradition is requested, a duly authenticated copy of the sentence of the court which pronounced the sentence shall be produced. When the accused person is merely charged with a crime, a duly authenticated copy of the warrant for arrest issued in the State where the act was committed, shall be produced, with the proofs of guilt mentioned in Article I of this Treaty.

*Ante, p. 1338.*

the sockeye salmon  
fisheries.  
Preamble.

The President of the United States of America and His Majesty the King of Great Britain, Ireland and the British dominions beyond the Seas, Emperor of India, in respect of the Dominion of Canada, recognizing that the protection, preservation and extension of the sockeye salmon fisheries in the Fraser River system are of common concern to the United States of America and the Dominion of Canada; that the supply of this fish in recent years has been greatly depleted and that it is of importance in the mutual interest of both countries that this source of wealth should be restored and maintained, have resolved to conclude a Convention and to that end have named as their respective plenipotentiaries:

Contracting  
Powers.

The President of the United States of America: Mr. Henry L. Stimson, Secretary of State of the United States of America; and

Who, after having communicated to each other their full powers, found in good and due form, have agreed upon the following Articles:

#### ARTICLE I

The territorial waters and the high seas westward from the western coast of the United States of America and the Dominion of Canada and from a direct line drawn from Bonilla Point, Vancouver Island, to the lighthouse on Tatoosh Island, Washington,—which line marks the entrance to Juan de Fuca Strait,—and embraced between 48 and 49 degrees north latitude, excepting therefrom, however, all the waters of Barklay Sound, eastward of a straight line drawn from Amphitrite Point to Cape Beale and all the waters of Nitinat Lake and the entrance thereto.

2. The waters included within the following boundaries :

The High Contracting Parties engage to have prepared as soon as practicable charts of the waters described in this Article, with the above described boundaries thereof and the international boundary indicated thereon. Such charts, when approved by the appropriate authorities of the Governments of the United States of America and the Dominion of Canada, shall be considered to have been substituted for the charts annexed to this Convention and shall be authentic for the purposes of the Convention.

Establishment of buoys, etc.

The High Contracting Parties further agree to establish within the territory of the United States of America and the territory of the Dominion of Canada such buoys and marks for the purposes of this Convention as may be recommended by the Commission hereinafter authorized to be established, and to refer such recommendations as the Commission may make as relate to the establishment of buoys or marks at points on the international boundary to the International Boundary Commission, United States-Alaska and Canada, for action pursuant to the provisions of the Treaty between the United States of America and His Majesty, in respect of Canada, respecting the boundary between the United States of America and the Dominion of Canada, signed February 24, 1925.

The Commission shall continue in existence so long as this Convention shall continue in force, and each High Contracting Party shall have power to fill and shall fill from time to time vacancies which may occur in its representation on the Commission in the same manner as the original appointments are made. It shall conduct the sockeye salmon fish cultural operations in the waters described in paragraphs numbered 2 and 3 of Article I of this Convention, and to that end it shall have power to improve spawning grounds, construct, and maintain hatcheries, rearing ponds and other such facilities as it may determine to be necessary for the propagation of sockeye salmon in any of the waters covered by this Convention, and to stock any such waters with sockeye salmon by such methods as it may determine to be most advisable. The Commission shall also have authority to recommend to the Governments of the High Contracting Parties removing or otherwise overcoming obstructions to the ascent of sockeye salmon, that may now exist or may from time to time occur, in any of the waters covered by this Convention, where investigation may show such removal of or other action to overcome obstructions to be desirable. The Commission shall make an annual report to the two Governments as to the investigations which it has made and other action which it has taken in execution of the provisions of this Article, or of other Articles of this Convention.

### ARTICLE IV

The Commission is hereby empowered to limit or prohibit taking sockeye salmon in respect of all or any of the waters described in Article I of this Convention, provided that when any order is adopted by the Commission limiting or prohibiting taking sockeye salmon in any of the territorial waters or on the High Seas described in paragraph numbered 1 of Article I, such order shall extend to all such territorial waters and High Seas, and, similarly, when in any of the waters of the United States of America embraced in paragraph numbered 2 of Article I, such order shall extend to all such waters of the United States of America, and when in any of the Canadian waters embraced in paragraphs numbered 2 and 3 of Article I, such order shall extend to all such Canadian waters, and provided further, that no order limiting or prohibiting taking sockeye salmon adopted by the Commission shall be construed to suspend or otherwise affect the requirements of the laws of the State of Washington or of the Dominion of Canada as to the procuring of a license to fish in the

waters on their respective sides of the boundary, or in their respective territorial waters embraced in paragraph numbered 1 of Article I of this Convention, and provided further that any order adopted by the Commission limiting or prohibiting taking sockeye salmon on the High Seas embraced in paragraph numbered 1 of Article I of this Convention shall apply only to nationals and inhabitants and vessels and boats of the United States of America and the Dominion of Canada.

Duration.

Any order adopted by the Commission limiting or prohibiting taking sockeye salmon in the waters covered by this Convention, or any part thereof, shall remain in full force and effect unless and until the same be modified or set aside by the Commission. Taking sockeye salmon in said waters in violation of an order of the Commission shall be prohibited.

#### ARTICLE V

Fishing gear and appliances.

In order to secure a proper escapement of sockeye salmon during the spring or chinook salmon fishing season, the Commission may prescribe the size of the meshes in all fishing gear and appliances that may be operated during said season in the waters of the United States of America and/or the Canadian waters described in Article I of this Convention. At all seasons of the year the Commission may prescribe the size of the meshes in all salmon fishing gear and appliances that may be operated on the High Seas embraced in paragraph numbered 1 of Article I of this Convention, provided, however, that in so far as concerns the High Seas, requirements prescribed by the Commission under the authority of this paragraph shall apply only to nationals and inhabitants and vessels and boats of the United States of America and the Dominion of Canada.

Whenever, at any other time than the spring or chinook salmon fishing season, the taking of sockeye salmon in waters of the United States of America or in Canadian waters is not prohibited under an order adopted by the Commission, any fishing gear or appliance authorized by the State of Washington may be used in waters of the United States of America by any person thereunto authorized by the State of Washington, and any fishing gear or appliance authorized by the laws of the Dominion of Canada may be used in Canadian waters by any person thereunto duly authorized. Whenever the taking of sockeye salmon on the High Seas embraced in paragraph numbered 1 of Article I of this Convention is not prohibited, under an order adopted by the Commission, to the nationals or inhabitants or vessels or boats of the United States of America or the Dominion of Canada, only such salmon fishing gear and appliances as may have been approved by the Commission may be used on such High Seas by said nationals, inhabitants, vessels or boats.

#### ARTICLE VI

Necessary vote for action.

No action taken by the Commission under the authority of this Convention shall be effective unless it is affirmatively voted for by at least two of the Commissioners of each High Contracting Party.

#### ARTICLE VII

Equal shares agreed to.

Inasmuch as the purpose of this Convention is to establish for the High Contracting Parties, by their joint effort and expense, a fishery that is now largely nonexistent, it is agreed by the High Contracting Parties that they should share equally in the fishery. The Commission shall, consequently, regulate the fishery with a view to allowing,

as nearly as may be practicable, an equal portion of the fish that may be caught each year to be taken by the fishermen of each High Contracting Party.

#### ARTICLE VIII

Each High Contracting Party shall be responsible for the enforcement of the orders and regulations adopted by the Commission under the authority of this Convention, in the portion of its waters covered by the Convention.

Enforcement of orders, etc., in Convention waters.

Except as hereinafter provided in Article IX of this Convention, each High Contracting Party shall be responsible, in respect of its own nationals and inhabitants and vessels and boats, for the enforcement of the orders and regulations adopted by the Commission, under the authority of this Convention, on the High Seas embraced in paragraph numbered 1 of Article I of the Convention.

On the High Seas.

Each High Contracting Party shall acquire and place at the disposition of the Commission any land within its territory required for the construction and maintenance of hatcheries, rearing ponds, and other such facilities as set forth in Article III.

Sites for hatcheries, etc.

#### ARTICLE IX

Every national or inhabitant, vessel or boat of the United States of America or of the Dominion of Canada, that engages in sockeye salmon fishing on the High Seas embraced in paragraph numbered 1 of Article I of this Convention, in violation of an order or regulation adopted by the Commission, under the authority of this Convention, may be seized and detained by the duly authorized officers of either High Contracting Party, and when so seized and detained shall be delivered by the said officers, as soon as practicable, to an authorized official of the country to which such person, vessel or boat belongs, at the nearest point to the place of seizure, or elsewhere, as may be agreed upon with the competent authorities. The authorities of the country to which a person, vessel or boat belongs alone shall have jurisdiction to conduct prosecutions for the violation of any order or regulation, adopted by the Commission in respect of fishing for sockeye salmon on the High Seas embraced in paragraph numbered 1 of Article I of this Convention, or of any law or regulation which either High Contracting Party may have made to carry such order or regulation of the Commission into effect, and to impose penalties for such violations; and the witnesses and proofs necessary for such prosecutions, so far as such witnesses or proofs are under the control of the other High Contracting Party, shall be furnished with all reasonable promptitude to the authorities having jurisdiction to conduct the prosecutions.

Penalty provisions.

#### ARTICLE X

The High Contracting Parties agree to enact and enforce such legislation as may be necessary to make effective the provisions of this Convention and the orders and regulations adopted by the Commission under the authority thereof, with appropriate penalties for violations.

Enactment, etc., of necessary legislation.

#### ARTICLE XI

The present Convention shall be ratified by the President of the United States of America, by and with the advice and consent of the Senate thereof, and by His Majesty in accordance with constitutional practice, and it shall become effective upon the date of the exchange of ratifications which shall take place at Washington as

#### ARTICULO XIII

#### ARTICULO XIV.

Salvo lo estipulado en contrario en el párrafo segundo de este Ar-

Article, the provisions of this Agreement relating to the treatment to be accorded by the United States of America or by the Republic of Nicaragua, respectively, to the commerce of the other country, shall not apply to the Philippine Islands, the Virgin Islands, American Samoa, the Island of Guam, or to the Panamá Canal Zone.

Subject to the reservations set forth in the third and fourth paragraphs of this Article, the provisions of Article X shall apply to articles the growth, produce or manufacture of any territory under the sovereignty or authority of the United States of America or of the Republic of Nicaragua, imported from or exported to any territory under the sovereignty or authority of the other country. It is understood, however, that the provisions of this paragraph do not apply to the Panamá Canal Zone.

The advantages now accorded or which may hereafter be accorded by the United States of America or by the Republic of Nicaragua to adjacent countries in order to facilitate frontier traffic, and advantages resulting from a customs union to which either the United States of America or the Republic of Nicaragua may become a party, shall be excepted from the operation of this Agreement.

The advantages now accorded or which may hereafter be accorded by the United States of America, its territories or possessions or the Panamá Canal Zone to one another or to the Republic of Cuba shall be excepted from the operation of this Agreement. The provisions of this paragraph shall continue to apply in respect of any advantages now or hereafter accorded by the United States of America, its territories or possessions or the Panamá Canal Zone to the Philippine Islands irrespective of any change in the political status of the Philippine Islands.

título, las disposiciones de este Convenio relativas al tratamiento que deberá acordarse por los Estados Unidos de América o por la República de Nicaragua, respectivamente, al comercio del otro país, no serán aplicables a las Islas Filipinas, Islas Vírgenes, la Samoa Americana, la Isla de Guam ni a la Zona del Canal de Panamá.

Con sujeción a las reservas expresadas en los párrafos tercero y cuarto de este Artículo, las estipulaciones del Artículo X serán aplicables a artículos cosechados, producidos o fabricados en cualquier territorio bajo la soberanía o jurisdicción de los Estados Unidos de América o de la República de Nicaragua, importados de o exportados a cualquier territorio bajo la soberanía o jurisdicción del otro país. Es entendido, sin embargo, que las disposiciones de este párrafo no son aplicables a la Zona del Canal de Panamá.

Las ventajas concedidas actualmente o que en lo futuro sean acordadas por los Estados Unidos de América o por la República de Nicaragua a países limítrofes con objeto de facilitar el comercio fronterizo, lo mismo que las ventajas que resulten de una unión aduanera de la cual los Estados Unidos de América o la República de Nicaragua puedan llegar a formar parte, quedarán excluidas en la aplicación de este Convenio.

Las ventajas concedidas en la actualidad o que en lo futuro puedan acordarse mutuamente los Estados Unidos de América, sus territorios o posesiones o la Zona del Canal de Panamá, o por los mismos a la República de Cuba, quedan excluidas de la aplicación de este Convenio. Lo dispuesto en este párrafo continuará aplicándose con respecto a cualesquier ventajas actuales o que en lo futuro sean acordadas por los Estados Unidos de América, sus territorios o posesiones o la Zona del Canal de Panamá a las Islas Filipinas, cualquiera que sea el cambio en el estado político de las Islas Filipinas.

Not applicable to police or sanitary regulations.

Unless otherwise specifically provided in this Agreement, the provisions thereof shall not be construed to apply to police or sanitary regulations; and nothing in this Agreement shall be construed to prevent the adoption of measures prohibiting or restricting the exportation of gold or silver, or to prevent the adoption of such measures as either Government may see fit with respect to the control of the export or sale for export of arms, munitions, or implements of war, and, in exceptional circumstances, all other military supplies.

#### ARTICLE XV

Adoption of measures impairing Agreement; adjustment.

In the event that the Government of the United States of America or the Government of Nicaragua adopts any measure which, even though it does not conflict with the terms of this Agreement, is considered by the Government of the other country to have the effect of nullifying or impairing any object of the Agreement, the Government which has adopted any such measure shall consider such representations and proposals as the other Government may make with a view to effecting a mutually satisfactory adjustment of the matter.

#### ARTICLE XVI

Former Agreement supplanted.

The present Agreement shall, from the date on which it comes into force, supplant the Agreement between the United States of America and the Republic of

Las ventajas actuales o que en lo futuro puedan ser acordadas por la República de Nicaragua al comercio de Costa Rica, El Salvador, Guatemala, Honduras o Panamá, mientras cualquier tratamiento especial acordado al comercio de aquellos países o de cualquiera de ellos por la República de Nicaragua no sea extensivo a cualquier otro país, quedarán excluidas en la aplicación de este Convenio.

A menos que expresamente se disponga otra cosa en este Convenio, no deberá interpretarse que las estipulaciones del mismo sean aplicables a reglamentos de policía o sanitarios; y nada de lo expresado en este Convenio se interpretará de tal manera que impida la adopción de medidas que prohiban o restrinjan la exportación de oro o plata o para impedir la adopción de las medidas que uno u otro Gobierno pueda juzgar convenientes con respecto al control de la exportación o venta para la exportación de armas, pertrechos e implementos de guerra, y en circunstancias excepcionales, de todos los demás efectos militares.

#### ARTICULO XV.

En caso de que el Gobierno de los Estados Unidos de América o el Gobierno de Nicaragua adopte cualquier medida que aún cuando no esté en conflicto con los términos de este Convenio sea considerada por el Gobierno del otro país como nulificando o desvirtuando cualquiera de los fines de este Convenio, el Gobierno que haya adoptado tal medida deberá considerar las representaciones y propuestas que el otro Gobierno pueda hacer con la mira de efectuar un arreglo del asunto mutuamente satisfactorio.

*Agreement between the United States of America and Finland respecting reciprocal trade. Signed at Washington, May 18, 1936; approved by the President of the Republic of Finland, October 2, 1936; proclaimed by the President of the United States, October 3, 1936; effective November 2, 1936.*

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

### A PROCLAMATION.

Reciprocal trade  
agreement with Fin-  
land.  
48 Stat. 943.  
19 U. S. C. §1351.

WHEREAS it is provided in the Tariff Act of 1930 of the Congress of the United States of America, as amended by the Act of June 12, 1934, entitled "AN ACT To amend the Tariff Act of 1930" (48 Stat. 943), as follows:

Statutory provi-  
sions.

"Sec. 350. (a) For the purpose of expanding foreign markets for the products of the United States (as a means of assisting in the present emergency in restoring the American standard of living, in overcoming domestic unemployment and the present economic depression, in increasing the purchasing power of the American public, and in establishing and maintaining a better relationship among various branches of American agriculture, industry, mining, and commerce) by regulating the admission of foreign goods into the United States in accordance with the characteristics and needs of various branches of American production so that foreign markets will be made available to those branches of American production which require and are capable of developing such outlets by affording corresponding market opportunities for foreign products in the United States, the President, whenever he finds as a fact that any existing duties or other import restrictions of the United States or any foreign country are unduly burdening and restricting the foreign trade of the United States and that the purpose above declared will be promoted by the means hereinafter specified, is authorized from time to time—

"(1) To enter into foreign trade agreements with foreign governments or instrumentalities thereof; and

"(2) To proclaim such modifications of existing duties and other import restrictions, or such additional import restrictions, or such continuance, and for such minimum periods, of existing customs or excise treatment of any article covered by foreign trade agreements, as are required or appropriate to carry out any foreign trade agreement that the President has entered into hereunder. No proclamation shall be made increasing or decreasing by more than 50 per centum any existing rate of duty or transferring any article between the dutiable and free lists. The proclaimed duties and other import restrictions shall apply to articles the growth, produce, or manufacture of all foreign countries, whether imported directly, or indirectly: *Provided*, That the President may suspend the application to articles the growth, produce, or manufacture of any country because of its discriminatory treatment of American commerce or because of other acts or policies which in his opinion tend to defeat the purposes set forth in this section; and the proclaimed duties and other import

restrictions shall be in effect from and after such time as is specified in the proclamation. The President may at any time terminate any such proclamation in whole or in part."

WHEREAS, I, Franklin D. Roosevelt, President of the United States of America, have found as a fact that certain existing duties and other import restrictions of the United States of America and the Republic of Finland are unduly burdening and restricting the foreign trade of the United States of America and that the purpose declared in the said Tariff Act of 1930, as amended by the said Act of June 12, 1934, will be promoted by a foreign trade agreement between the United States of America and the Republic of Finland;

Promotion of foreign trade.

WHEREAS reasonable public notice of the intention to negotiate such foreign trade agreement was given and the views presented by persons interested in the negotiation of such agreement were received and considered;

Notice given.

WHEREAS, after seeking and obtaining information and advice with respect thereto from the United States Tariff Commission, the Departments of State, Agriculture, and Commerce, and from other sources, I entered into a foreign Trade Agreement on May 18, 1936, through my duly empowered Plenipotentiary, with the President of the Republic of Finland, through his duly empowered Plenipotentiary, which Agreement, including two Schedules annexed thereto, in the English and Finnish languages, is in words and figures as follows:

Amerikan Yhdysvaltojen Presidentti ja Suomen Tasavallan Presidentti, haluten lujittaa molempien maiden välisiä perinnäisiä ystävyyssiteitä pitämällä samanarvoisen kohtelun periaatteita kaupallisten suhteiden pohjana sekä suomalla molemminpuolisia ja vastavuoroisia myönnötyksiä ja etuja kaupan edistämiseksi, ovat asianomaisten täysivaltaisten edustajiensa kautta tehneet seuraavan sopimuksen:

(c) antaa julkisen ilmoituksen tämän määrän jaosta eri vientimaiden kesken ja ilmoittaa aina pyydettyä toisen maan hallitukselle jokaisen tällaisen kunkin vientimaan tavaran, luonnon- tai teollisuustuotteen määrästä, mikä on tuotu tai myyty tai minkä tuomiseen tai myymiseen on myönnetty lupia tai todistuksia.

2. Amerikan Yhdysvallat ja Suomi eivät saa säännöstellä minkään sellaisen tavaran tuonnin tai myynnin kokonaismäärää alueellaan, joka kiinnostaa toista maata, yksityisille tai järjestöille annetuilla tuontiluvilla tai todistuksilla, jollei tämän tuotavaksi tai myytäväksi sallitun tavaran kokonaismäärää vähintään kolmen kuukauden pituiseksi kiintiöajaksi ole määrätty, ja jollei sellaisten lupien tai todistusten antamista koskevia määräyksiä ole tehty julkisesti tunnetuiksi ennen määräysten voimaansaapoa.

ing such monopoly, or granting such monopoly privileges, agrees that in respect of the foreign purchases of such monopoly or agency the commerce of the other country shall receive fair and equitable treatment. To this end it is agreed that in making its foreign purchases of any product such monopoly or agency will be influenced solely by those considerations, such as price, quality, marketability, and terms of sale, which would ordinarily be taken into account by a private commercial enterprise interested solely in purchasing such product on the most favorable terms.

#### ARTICLE X

Control of foreign exchange.

The tariff advantages and other benefits provided for in this Agreement are granted by the United States of America and Finland to each other subject to the condition that if the Government of either country shall establish or maintain, directly or indirectly, any form of control of foreign exchange, it shall administer such control so as to insure that the nationals and commerce of the other country will be granted a fair and equitable share in the allotment of exchange.

With respect to the exchange made available for commercial transactions, it is agreed that the Government of each country shall be guided in the administration of any form of control of foreign exchange by the principle that, as nearly as may be determined, the share of the total available exchange which is allotted to the other country shall not be less than the share employed in a previous representative period, prior to the establishment of any exchange control, for the settlement of commercial obligations to the nationals of such other country.

Mutual consideration of representations in respect of application of Article.

The Government of each country shall give sympathetic consideration to any representations which the other Government may make in respect of the application of the provisions of this Article.

tai luovuttaa monopolioikeuksia siihen, että toisen maan kauppa saa oikeudenmukaisen ja tasapuolisen kohtelun tällaisen monopolin tai elimen ulkomaisten ostojen suhteen. Tätä tarkoitusta varten on sovittu, että kyseiset monopolit tai elimet, ostaessaan mitä hyvänsä tavaraa ulkomailta, toimivat yksinomaan sellaisten vaikuttimien kuin hinnan, laadun, markkinakelpoisuuden ja myyntiehtojen mukaan, jotka sellainen yksityinen kaupparyitys tavallisesti ottaa huomioon, jota kiinnostaa yksinomaan tällaisen tavaran ostaminen mahdollisimman edullisin ehdoin.

#### X ARTIKLA

Amerikan Yhdysvallat ja Suomi ovat myöntäneet toisilleen tässä sopimuksessa edellytetyt tariffi-myönnytykset ja muut edut ehdolla, että jos jommankumman maan hallitus ottaa käytäntöön tai pitää voimassa, välillisesti tai välittömästi, minkälaista ulkomaisen valuutan kaupan valvontaa tahansa, se hoitaa tätä valvontaa turvatakseen, että toisen maan kansalaisille ja kaupalle taataan kohtuullinen ja oikeudenmukainen osa valuutanjakelussa.

Kaupallisiin toimiin käytettävään valuuttaan nähden on sovittu, että kummankin maan hallitus pitää ulkomaisen valuutan kaupan kaikenlaisen valvonnan toimeenpanossa ohjeenaan sitä periaatetta, että, niin tarkoin kuin voidaan määrätä, koko käytettävänä olevasta valuuttamäärästä toiselle maalle jaettava osa ei saa olla pienempi kuin osa, joka on käytetty jonakin edellisenä edustavana ajanjaksona ennen valuuttakaupan valvonnan käyttöönottamista kauppasaatavien maksamiseksi tämän toisen maan kansalaisille.

Kummankin maan hallitus ottaa hyväntahtoisesti harkittavakseen kaikki esitykset, joita toisen maan hallitus saattaa tehdä tämän artiklan määräyksien soveltamiseksi.

Tämän artiklan ensimmäisen kappaleen määräykset eivät koske:

(1) kohtelua, jonka Yhdysvallat myöntävät Kuuban kaupalle Yhdysvaltojen ja Kuuban kesken 11 päivänä joulukuuta 1902 tehdyn tai minkä tahansa muun Yhdysvaltojen ja Kuuban kesken tämän jälkeen tehdyn kauppasopimuksen määräysten nojalla, taikka niitä etuja, jotka Amerikan Yhdysvallat, niiden alueet tai alusmaat tahi Panaman kanavavyöhyke nykyään suovat tai vastedes saattavat suoda keskenään toisilleen tai Kuuban tasavallalle. Tämä määräys jää edelleen voimaan mihin tahansa etuihin nähden, jotka Amerikan Yhdysvallat, niiden alueet tai alusmaat tahi Panaman kanavavyöhyke nykyään tai vastedes suovat Filippiineille, huolimatta millaisista tahansa muutoksista Filippiinien poliittisessa asemassa;

#### XII ARTIKLA

Amerikan Yhdysvalloissa ja Suomessa ei määrätä suurempia kuin nimellisiä rangaistuksia toisen maan tavaroita, luonnon- tai teollisuustuotteita maahan tuotaessa sellaisista asiakirjoissa olevista virheellisyyksistä, jotka ilmeisesti johtuvat kirjoitusvirheestä tai joista todetaan, että on toimittu hyvässä uskossa.

Kummankin maan hallitus ottaa hyväntahtoisesti harkittavakseen sellaiset esitykset, joita toinen hallitus saattaa tehdä ja järjestää pyynnöstä riittävän tilaisuuden neuvotella niistä, mikäli ne koskevat tullimääräysten täytäntöönpanoa, määrää koskevia rajoituksia tai niiden käyttöä, tullimuodollisuuksien noudattamista ja terveydenhoitolakien sekä ihmisten, eläinten tai kasvien elämän suojelua tarkoittavien määräysten soveltamista.

Mikäli jommankumman maan hallitus toisen maan hallitukselle tekee minkä tahansa terveydenhoitolain tai ihmisten, eläinten tai kasvien elämän suojelua tarkoittavan määräyksen soveltamista koskevan esityksen ja mikäli siitä on erimielisyyttä, asetetaan jommankumman hallituksen pyynnöstä teknillisistä asian- tuntujoista kokoonpantu toimikunta, jossa kummankin hallituksen on oltava edustettuna, harkitsemaan asiaa ja esittämään ehdotuksia molemmille hallituksille.

#### XIII ARTIKLA

Siinä tapauksessa, että huomattava vaihtelu tapahtuu Amerikan Yhdysvaltojen ja Suomen valuuttojen välisissä kurseissa, jommankumman maan hallituksella on oikeus, jos se pitää vaihtelua niin oleellisenä, että se on vahingoksi maan teollisuudelle tai kaupalle, ehdottaa neuvotteluihin ryhtymistä tämän sopimuksen muuttamiseksi tai lopettaa koko

this Agreement in its entirety on thirty days' written notice.

tämä sopimus kolmenkymmenen päivän kuluttua siitä kuin kirjallinen irtisanominen on tapahtunut.

#### ARTICLE XIV

Laws, regulations of administrative authorities and decisions of administrative or judicial authorities of the United States of America or Finland, respectively, pertaining to the classification of articles for customs purposes or to rates of duty shall be published promptly in such a manner as to enable interested persons to become acquainted with them. Such laws, regulations and decisions shall be applied uniformly at all ports of the respective country, except as otherwise specifically provided in statutes of the United States of America relating to articles imported into Puerto Rico.

Amerikan Yhdysvaltojen tai vastaavasti Suomen lait, hallintoviranomaisten säädökset ja hallintotai oikeusviranomaisten päätökset, jotka koskevat tavaroiden luokittelua tullasta varten taikka tullimääriä, julkaistaan viipymättä sillä tavoin, että kiinnostuneiden henkilöiden on mahdollista tutustua niihin. Sellaisia lakeja, säädöksiä ja päätöksiä sovelletaan yhtäläisesti asianomaisen maan kaikissa satamissa, paitsi silloin, kun erikseen on toisin määrätty Amerikan Yhdysvaltojen säännöksissä, jotka koskevat Puerto Ricoon tuotuja tavaroita.

Publication of laws, regulations, and decisions.

#### ARTICLE XV

Except as otherwise provided in the second paragraph of this Article, the provisions of this Agreement relating to the treatment to be accorded by the United States of America and Finland, respectively, to the commerce of the other country, shall not apply to the Philippine Islands, the Virgin Islands, American Samoa, the Island of Guam, or to the Panama Canal Zone.

The provisions of this Agreement regarding most-favored-nation treatment shall apply to articles the growth, produce or manufacture of any territory under the sovereignty or authority of the United States of America or Finland, imported from or exported to any territory under the sovereignty or authority of the other country. It is understood, however, that the provisions of this paragraph do not apply to the Panama Canal Zone.

Lukuunottamatta mitä tämän artiklan toisessa kappaleessa toisin on määrätty, ei tämän sopimuksen määräyksiä siitä kohtelusta, jonka Amerikan Yhdysvallat ja vastaavasti Suomi myöntää toisen maan kaupalle, sovelleta Filippiineihin, Neitsytsaariin, Amerikan Samoasaariin, Guamin saareen eikä Panaman kanavavyöhykkeeseen.

Provisions not to apply to Philippine Islands, etc.

#### XV ARTIKLA

Tässä sopimuksessa olevia, suosituimmuutta koskevia määräyksiä sovelletaan minkä tahansa Amerikan Yhdysvaltojen tai Suomen suvereniteetin tai herruuden alaisen alueen tavaroihin, luonnon- tai teollisuustuotteisiin, jotka tuodaan miltä tahansa toisen maan suvereniteetin tai herruuden alaiselta alueelta tai viedään sinne. On kuitenkin sovittu siitä, ettei tämän kappaleen määräyksiä sovelleta Panaman kanavavyöhykkeeseen.

Police or revenue laws.

Subject to the requirement that there shall be no arbitrary discrimination by either country against the other country in favor of any third country under like circumstances, the provisions of this Agreement shall not extend to regulations for the enforcement of police or revenue laws of the United States or of Finland relating to imports the importation, transportation, or sale of which is prohibited or restricted; or to prohibitions or restrictions (1) imposed on moral or humanitarian grounds; (2) designed to protect human, animal or plant life or health; or (3) relating to prison-made goods.

## ARTICLE XVII

Adoption of measures impairing Agreement; adjustment.

In the event that the Government of the United States of America or the Government of Finland adopts any measure or takes any action which, even though it does not conflict with the terms of this Agreement, is considered by the Government of the other country to have the effect of nullifying or impairing any object of the Agreement, the Government which has adopted such measure or taken such action shall consider such representations and proposals as the other Government may make with a view to effecting a mutually satisfactory adjustment of the matter.

Edellyttäen, ettei mitään mieltävaltaista syrjintää toisen maan puolelta toista vastaan kolmannen maan hyväksi harjoiteta vastaavanlaisissa olosuhteissa, ei tämän sopimuksen määräyksiä sovelleta säännöksiin sellaisten Yhdysvaltojen tai Suomen poliisi- tai vero lakien toimeenpanosta mitkä koskevat tuontitavaroita, joiden maahantuonti, kuljetus tai myynti on kiellettyä tai rajoitettua eikä myöskään kieltöihin ja rajoituksiin (1) jotka on määrätty moraalisisista tai humanisisista syistä; (2) jotka ovat tarkoitettut suojaamaan ihmisten, eläinten ja kasvien elämää tai terveyttä; taikka (3) jotka koskevat vankeissa valmistettuja tavaroita.

## XVII ARTIKLA

Siinä tapauksessa, että Amerikan Yhdysvaltojen tai Suomen hallitus ryhtyy johonkin toimenpiteeseen tai tekee jonkun teon, jonka, vaikkakaan se ei ole riskitiedassa tämän sopimuksen määräyksien kanssa, toisen maan hallitus katsoo vaikuttavan siten, että jokin tämän sopimuksen tarkoitusperä sen takia tulee mitätöimäksi tai kadottaa merkitystään, se hallitus, joka on johonkin tällaiseen toimenpiteeseen ryhtynyt tai tehnyt tällaisen teon, ottaa harkittavakseen ne toisen maan tekemät esitykset ja ehdotukset, jotka tarkoittavat kumpaakin asianosaista tyydyttävän järjestelyn aikaansaamista asiassa.

## XVIII ARTIKLA

MONSIEUR L'AMBASSADEUR,

Agreement with  
France providing for  
reciprocal suppression  
of customs frauds.

J'ai l'honneur de faire savoir à Votre Excellence que le Gouvernement français est disposé, sous condition de réciprocité, à appliquer, à partir du 15 décembre 1936, les dispositions suivantes en vue de la répression des fraudes douanières par l'assistance mutuelle des Administrations douanières française et américaine:

"Article 1er.—L'Administration des Douanes des Etats-Unis d'Amérique et l'Administration française des Douanes se communiqueront mutuellement sans délai tous renseignements dont elles pourraient disposer à un moment quelconque au sujet des importations et exportations et qui seraient susceptibles de faciliter la répression de la contrebande ou de la fraude dans l'autre pays.

"Article 2.—En ce qui concerne les expéditions directes ou indirectes de marchandises entre les Etats-Unis d'Amérique ou leurs possessions et la France ou ses possessions, chacune des administrations intéressées enverra directement à l'autre, à la demande écrite de cette dernière, tous les renseignements qui pourraient être tirés des documents en sa possession (écritures, registres d'inscription, déclarations et autres documents douaniers). Ces documents ou des copies dûment authentifiées ou certifiées de ces documents pourront servir de preuve au cours des procédures ou des poursuites devant les tribunaux.

"Article 3.—Les fonctionnaires compétents des Gouvernements des Etats-Unis d'Amérique et de la France fourniront, respectivement, sur demande, aux fonctionnaires dûment autorisés de l'autre Gouvernement, des renseignements en ce qui concerne les congés des navires ou le transport des cargaisons quand l'importation ou l'exportation d'une partie quelconque du chargement transporté sera prohibée, limitée ou soumise au paiement de droits ou autres redevances, ou quand les fonctionnaires requérants soupçonneront les propriétaires ou les personnes en possession d'une partie quelconque du chargement d'avoir l'intention de violer les lois du Gouvernement requérant en ce qui concerne ce chargement.

"Article 4.—Il est entendu que les fonctionnaires de la douane et autres fonctionnaires administratifs du Gouvernement des Etats-Unis d'Amérique et de la France respectivement seront, sur la de-

mande des autorités compétentes de l'un des Gouvernements adressée aux autorités compétentes de l'autre Gouvernement, tenus de déposer en qualité de témoins et de produire tous registres et dossiers dont ils pourraient disposer, ou des copies dûment certifiées ou authentifiées de ces documents, qui pourraient être considérés comme essentiels au jugement d'affaires civiles ou criminelles devant les tribunaux de l'Etat au nom duquel la requête a été faite, pour autant que la production de ces documents soit compatible avec l'intérêt général de l'Etat auquel la requête a été adressée.

"Les frais de transcription de registres, de dépositions, certificats et commissions rogatoires dans les affaires civiles ou criminelles, et les frais de voyage aller et retour en première classe, de séjour et autres dépenses normales que pourrait comporter l'audition de ces témoins, seront payés par le Gouvernement qui requiert leur audition et ce au plus tard au moment où le tribunal décidera que leur présence n'est plus nécessaire dans ce procès. Les commissions rogatoires et les requêtes seront exécutées dans le plus bref délai possible et les copies de registres ou de documents officiels seront authentifiées ou certifiées d'urgence par les fonctionnaires compétents, conformément aux dispositions des lois des Etats respectifs".

Veuillez agréer, Monsieur l'Ambassadeur, les assurances de ma très haute considération.

MINISTRY  
OF  
FOREIGN AFFAIRS

OFFICE OF  
ADMINISTRATIVE AFFAIRS  
AND INTERNATIONAL UNIONS

PARIS, December 10, 1936.

MR. AMBASSADOR:

I have the honor to advise Your Excellency that the French Government is disposed, on condition of reciprocity, to apply, on and after December 15, 1936, the following provisions, with a view to the suppression of customs frauds, through the mutual assistance of the French and American Customs Administrations.

"Article I. The Customs Administration of the United States of America and the French Customs Administration shall promptly communicate to each other all information at any time in their possession concerning imports and exports which might facilitate the suppression of smuggling or fraud in the other country.

"Article II. Concerning direct or indirect shipments of merchandise between the United States of America or its possessions and France or its possessions, each of the Administrations concerned shall send

directly to the other, upon the latter's written request, all information which may be gathered from documents in its possession (entries, registration records, declarations, and other customs documents). Such documents, or duly authenticated or certified copies thereof, may be used as evidence in proceedings or prosecutions in the courts.

"Article III. The appropriate officers of the Governments of the United States of America and France, respectively, shall furnish upon request to duly authorized officers of the other Government information concerning clearances of vessels or the transportation of cargoes, when the importation or exportation of any of the cargo carried is prohibited, restricted, or subject to the payment of duties or other exactions, or when the requesting officers suspect that the owners or persons in possession of any of the cargo intend to violate the laws of the requesting Government, in respect of such cargo.

"Article IV. It is agreed that the customs and other administrative officials of the Government of the United States of America and France, respectively, shall upon request of the competent authorities of one Government made of the competent authorities of the other Government, be directed to attend as witnesses and to produce such available records and files, or duly authenticated or certified copies thereof, as may be considered essential to the trial of civil or criminal cases in the courts of the country on whose behalf the request was made, and as may be produced compatibly with the public interest of the country of which the request was made.

"The cost of transcripts of records, depositions, certificates and letters rogatory in civil or criminal cases, and the cost of first-class transportation both ways, maintenance and other proper expenses involved in the attendance of such witnesses shall be paid by the Government requesting their attendance not later than at the time of their discharge by the court from further attendance at such trial. Letters rogatory and commissions shall be executed with all possible despatch and copies of official records or documents shall be authenticated or certified promptly by the appropriate officials in accordance with the provisions of the laws of the respective countries."

Please accept, Mr. Ambassador, the assurances of my very high consideration.

Excellency:

I have the honor to acknowledge the receipt of Your Excellency's note of December 10, 1936, concerning cooperation between the

Customs Services of the United States of America and France for the suppression of frauds, and, in reply, to state that the American Government agrees to the following provisions, to become effective December 15, 1936, for this purpose:

*"Article I.* The Customs Administration of the United States of America and the French Customs Administration shall promptly communicate to each other all information at any time in their possession concerning imports and exports which might facilitate the suppression of smuggling or fraud in the other country.

*Parcel post agreement between the United States of America and the Bahamas. Signed at Nassau, October 29, 1936, at Washington, December 21, 1936; approved by the President, December 29, 1936.*

## AGREEMENT BETWEEN THE BAHAMAS AND THE UNITED STATES OF AMERICA CONCERNING THE EXCHANGE OF PARCEL POST.

Parcel post agreement with the Bahamas.

The Undersigned, provided with full powers by their respective governments, have by mutual consent and subject to ratification by the competent superior authorities, drawn up the following Agreement:

### ARTICLE I

Object.

#### *Object of the Agreement.*

Territory embraced.

Between the United States of America (including Alaska, Puerto Rico, the Virgin Islands, Guam, Samoa and Hawaii) on one hand, and the Bahamas on the other hand, there may be exchanged, under the denomination of parcel post, parcels up to the maximum weight and the maximum dimensions indicated in the Regulations of Execution.

Post, p. 1482.

### ARTICLE II

Transit parcels.

#### *Transit Parcels.*

Rights guaranteed.

1. Each Postal Administration guarantees the right of transit through its service, to or from any country with which it has parcel post communication, of parcels originating in or addressed for delivery in the service of the other contracting Administration.

Notices.

2. Each Postal Administration shall inform the other to which countries parcels may be sent through it as intermediary, and the amount of the charges due to it therefor, as well as other conditions.

Intermediate Administration requirements.

3. To be accepted for onward transmission, parcels sent by one of the contracting Administrations through the service of the other Administration must comply with the conditions prescribed from time to time by the intermediate Administration.

### ARTICLE III

Postage and fees.

#### *Prepayment of Postage and Fees.*

Collection from sender.

1. The Administration of origin is entitled to collect from the sender of each parcel the postage and the fees for requests for information as to the disposal of a parcel made after it has been posted, and also, in the case of insured parcels, the insurance fees and the fees for return receipts that may from time to time be prescribed by its regulations.

Prepayment.

2. Except in the case of returned or redirected parcels, prepayment of the postage and such of the fees mentioned in the preceding section as are applicable, is compulsory.

## ARTICLE IV

### *Preparation of Parcels.*

Every parcel shall be packed in a manner adequate for the length of the journey and the protection of the contents as set forth in the Regulations of Execution.

Preparation of parcels.

Packing.  
Post, p. 1482.

## ARTICLE V

### *Prohibitions.*

1. The following articles are prohibited transmission by parcel post:

Prohibitions.

Articles specified.

Letters, etc.

(a) A letter or a communication having the nature of a letter. Nevertheless, it is permitted to enclose in a parcel an open invoice, confined to the particulars which constitute an invoice, and also a simple copy of the address of the parcel, with mention of the address of the sender.

Enclosure with different address.

(b) An enclosure which bears an address different from that placed on the cover of the parcel.

Live animals.

Narcotics.

Nonadmissible articles.

(c) Any live animal, except leeches.

(d) Opium, morphine, cocaine and other narcotics.

(e) Any article the admission of which is forbidden by the customs or other laws or regulations in force in either country.

Explosive, etc., articles.

(f) Any explosive or inflammable article, and in general any article the conveyance of which is dangerous, including articles which from their nature or packing may be a source of danger to postal employees, or may soil or damage other parcels.

(g) Obscene or immoral articles.

Obscene, etc., articles.

Designated uninsured articles.

(h) It is, moreover, forbidden to send coin, bank notes, currency notes, or any kind of securities payable to bearer, platinum, gold or silver (whether manufactured or unmanufactured), precious stones, jewels, or other precious articles in uninsured parcels.

Prohibited articles erroneously handled.

2. When a parcel contravening any of these prohibitions is handed over by one Administration to the other, the latter shall proceed in accordance with its laws and inland regulations. Explosive or inflammable articles, as well as documents, pictures and other articles injurious to public morals may be destroyed on the spot by the Administration which has found them in the mails.

The fact that a parcel contains a letter, or a communication having the nature of a letter, may not, in any case, entail the return of the parcel to the sender. The letter is, however, marked for the collection of postage due from the addressee at the regular rate.

Parcel containing a letter.

The two Administrations advise each other, by means of the List of Prohibited Articles published by the International Bureau of the Universal Postal Union, of all prohibited articles. However, they do not on that account assume any responsibility towards the customs or police authorities, or the sender.

List of Prohibited Articles.

3. If parcels wrongly admitted to the post are neither returned to origin nor delivered to the addressee, the Administration of origin must be informed in a precise manner of the treatment accorded to the parcels.

Treatment of wrongly admitted parcels.

## ARTICLE VI

### *Insurance.*

Insurance.

Maximum amount.

Parcels may be insured up to the amount of 500 gold francs or its equivalent in the currency of the country of origin. However, the Chiefs of the Postal Administrations of the two contracting countries may, by mutual consent, increase or decrease this maximum amount of insurance.

## Limitation.

A parcel cannot give rise to the right to an indemnity higher than the actual value of its contents, but it is permissible to insure it for only part of that value.

## ARTICLE VII

*Responsibility. Indemnity.*

## Responsibility—Indemnity.

## Nonresponsibility for loss of ordinary parcel.

## Allowance to sender.

1. The Postal Administrations of the two contracting countries will not be responsible for the loss, abstraction or damage of an ordinary parcel.

2. Except in the cases mentioned in the Article following, the Administrations are responsible for the loss of insured parcels mailed in one of the two contracting countries for delivery in the other and for the loss, abstraction of, or damage to, their contents, or a part thereof.

The sender, or other rightful claimant, is entitled to compensation corresponding to the actual amount of the loss, abstraction or damage. The amount of indemnity is calculated on the basis of the actual value (current price, or, in the absence of current price, the ordinary estimated value) at the place where and the time when the parcel was accepted for mailing, provided in any case that the indemnity may not be greater than the amount for which the parcel was insured, and on which the insurance fee has been collected, or the maximum amount of 500 gold francs.

## Indirect damages or loss of profits.

3. No indemnity is paid for indirect damages or loss of profits resulting from the loss, rifling, damage, non-delivery, misdelivery or delay of an insured parcel dispatched in accordance with the conditions of the present Agreement.

## Return of postage on loss of parcel.

4. In the case where indemnity is payable for the loss of a parcel or for the destruction or abstraction of the whole of the contents thereof, the sender is entitled to return of the postal charges, if claimed. However, the insurance fees are not in any case returned.

## Parcels originating in a third country.

5. In the absence of special agreement to the contrary between the countries involved, which agreement may be made by correspondence, no indemnity will be paid by either country for the loss, rifling or damage of transit insured parcels, that is, parcels originating in a country not participating in this Agreement and destined for one of the two contracting countries or parcels originating in one of the two contracting countries and destined for a country not participating in this Agreement.

## Parcels reforwarded to a third country.

6. When an insured parcel originating in one country and destined to be delivered in the other country is reforwarded from there to a third country or is returned to a third country at the request of the sender or of the addressee, the party entitled to the indemnity in case of loss, rifling or damage occurring subsequent to the reforwarding or return of the parcel by the original country of destination, can lay claim, in such a case, only to the indemnity which the country where the loss, rifling or damage occurred consents to pay, or which that country is obliged to pay in accordance with the agreement made between the countries directly interested in the reforwarding or return. Either of the two countries signing the present Agreement which wrongly forwards an insured parcel to a third country is responsible to the sender to the same extent as the country of origin, that is, within the limits of the present Agreement.

## Responsibility for error.

## Defects in packing, etc.

7. The sender is responsible for defects in the packing and insufficiency in the closing and sealing of insured parcels. Moreover, the two Administrations are released from all responsibility in case of loss, rifling or damage caused by defects not noticed at the time of mailing.

## ARTICLE VIII

### *Exceptions to the Principle of Responsibility.*

The Administrations are relieved from all responsibility:

(a) In case of parcels of which the addressee has accepted delivery without reservation;

(b) In case of loss or damage through force majeure (causes beyond control) although either Administration may at its option and without recourse to the other Administration pay indemnity for loss or damage due to force majeure even in cases where the Administration of the country in the service of which the loss or damage occurred recognizes that the damage was due to force majeure. The country responsible for the loss, abstraction or damage, must decide, in accordance with its internal legislation, whether this loss, abstraction or damage was due to circumstances constituting a case of "force majeure";

(c) When, their responsibility not having been proved otherwise, they are unable to account for parcels in consequence of the destruction of official documents through force majeure;

(d) When the damage has been caused by the fault or negligence of the sender or the addressee or the representative of either, or when it is due to the nature of the article;

(e) For parcels which contain prohibited articles;

(f) In case the sender of an insured parcel, with intent to defraud, shall declare the contents to be above their real value; this rule, however, shall not prejudice any legal proceedings necessitated by the legislation of the country of origin;

(g) For parcels seized by the Customs because of false declaration of contents;

(h) When no inquiry or application for indemnity has been made by claimant or his representative within a year commencing with the day following the posting of the insured parcel;

(i) For parcels which contain matter of no intrinsic value or perishable matter or which did not conform to the stipulations of this Agreement or which were not posted in the manner prescribed, but the country responsible for the loss, rifling or damage may pay indemnity in respect of such parcels without recourse to the other Administration.

Exceptions to principle of responsibility.  
Unconditional acceptance.

Loss, etc., through force majeure.

Destruction of official documents.

Damage through fault of sender, addressee, etc.

Prohibited articles.  
Declared above real value.

Seized, because of false declaration.

Unclaimed within a year.

Matter of no intrinsic value, etc.

## ARTICLE IX

### *Termination of Responsibility.*

Administrations cease to be responsible for parcels of which they have effected delivery in accordance with their internal regulations for parcels of the same nature.

Responsibility is, however, maintained when the addressee or, in case of return, the sender makes reservations in taking delivery of a parcel the contents of which have been abstracted or damaged.

Termination of responsibility; exception.

## ARTICLE X

### *Obligation to pay Compensation.*

The obligation to pay compensation, as well as the postage charges due to be refunded, rests with the Administration to which the office of origin of the parcel is subordinate. However, in cases where the compensation is paid to the addressee in accordance with Article VII, Section 2, second paragraph, the obligation shall rest with the Administration of destination.

The paying Administration retains the right to make a claim against the Administration responsible.

Obligation to pay compensation.

Country responsible.

*Ante*, p. 1474.

Claim for repayment.

## ARTICLE XI

*Period for Payment of Compensation.*

Period for payment.

1. The payment of compensation for an insured parcel shall be made to the rightful claimant as soon as possible and at the latest within a period of one year counting from the day following that on which the application is made.

Deferred payments in exceptional cases.

However, the Administration responsible for making payment may exceptionally defer payment of indemnity for a longer period than that stipulated if, at the expiration of that period, it has not been able to determine the disposition made of the article in question or the responsibility incurred.

Payment where office delays nine months.

2. Except in cases where payment is exceptionally deferred as provided in the second paragraph of the foregoing section, the Postal Administration which undertakes the payment of compensation is authorized to pay indemnity on behalf of the Office, which, after being duly informed of the application for indemnity, has let nine months pass without settling the matter.

## ARTICLE XII

*Fixing of Responsibility.*

Responsible office.

1. Until the contrary is proved, responsibility for an insured parcel rests with the Administration which, having received the parcel without making any reservations and being put in possession of all the regulation means of investigation, cannot establish the disposal of the parcel.

2. When the loss, rifling or damage of an insured parcel is detected upon opening the receptacle at the receiving exchange office and has been regularly pointed out to the dispatching exchange office, the responsibility falls on the Administration to which the latter office belongs, unless it be proved that the irregularity occurred in the service of the receiving Administration.

Loss, etc., in transit.

3. If the loss, rifling or damage has taken place in the course of transportation, without its being possible to establish on the territory or in the service of which country the act took place, the offices involved bear the loss in equal shares.

Rights assumed by paying office.

4. The Administration paying compensation takes over, to the extent of the amount paid, the rights of the person who has received it, in any action which may be taken against the addressee, the sender or a third party.

If lost parcel is found.

5. If a parcel which has been regarded as lost is subsequently found the person to whom compensation has been paid must be informed that he is at liberty to take possession of the parcel against repayment of the amount of compensation.

## ARTICLE XIII

*Repayment of Compensation.*

Repayment to country paying.

1. The Administration responsible for the loss, rifling or damage and on whose account the payment is effected, is bound to repay the amount of the indemnity to the country which has effected payment. This reimbursement must take place without delay, and at the latest within the period of nine months after notification of payment.

Without expense.

2. These repayments to the creditor country must be made without expense for that Office, by money order or draft, in money valid in

the creditor country or in any other way to be agreed upon mutually by correspondence.

3. The reimbursement of the indemnities must be effected on the basis of gold money.

Reimbursement on gold basis.

#### ARTICLE XIV

##### *Fee for Customs Clearance.*

Customs clearance.

The office of delivery may collect from the addressee either in respect of delivery to the Customs and clearance through the Customs or in respect of delivery to the Customs only, a fee not exceeding 50 centimes gold per parcel.

Fee.

#### ARTICLE XV

##### *Delivery to the Addressee. Fee for Delivery at the Place of Address.*

Delivery.

Parcels are delivered to the addressees as quickly as possible in accordance with the conditions in force in the country of destination. This country may collect in respect of delivery of parcels to the addressee a fee not exceeding 50 centimes gold per parcel. The same fee may be charged, if the case arises, for each presentation after the first at the addressee's residence or place of business.

To addressee.

Fee.

#### ARTICLE XVI

##### *Warehousing Charges.*

The country of destination is authorized to collect the warehousing charge fixed by its legislation for parcels addressed "General Delivery" or which are not claimed within the prescribed period. This charge may in no case exceed five francs gold.

Warehousing charges.

#### ARTICLE XVII

##### *Customs Charges.*

The parcels are subject to all customs laws and regulations in force in the country of destination. The duties collectible on that account are collected from the addressee on delivery of the parcel in accordance with the customs regulations of the country of destination.

Customs charges; imposed by country of destination.

#### ARTICLE XVIII

##### *Customs Charges to be Cancelled.*

The customs charges on parcels sent back to the country of origin or redirected to another country shall be cancelled both in the Bahamas and in the United States of America.

Cancellation, if returned or redirected.

#### ARTICLE XIX

##### *Recall and Change of Address.*

So long as a parcel has not been delivered to the addressee, the sender may recall it or cause its address to be changed. The Postal Administration of the country of origin may collect and retain, for this service, the charge fixed by its regulations. The requests for recall or change of address of parcels to be delivered in the United States of America shall be addressed to the Central Administration at Washington; those relating to parcels for delivery in the Bahamas shall be addressed to the Parcel Post Branch, Nassau, Bahamas.

Recall and change of address.

## ARTICLE XX

*Certificate of Mailing. Receipts.*

Certificate of mailing.

Furnished sender on request.

Receipt.

The sender will, on request at the time of mailing an ordinary (uninsured) parcel, receive a certificate of mailing from the post office where the parcel is mailed, on a form provided for the purpose; and each country may fix a reasonable fee therefor.

The sender of an insured parcel receives without charge, at the time of posting, a receipt for his parcel.

## ARTICLE XXI

*Return Receipts and Inquiries.*

Return receipts and inquiries.

Advice of delivery, charge.

Inquiry charge.

Inquiry relative to irregularity.

1. The sender of an insured parcel may obtain an advice of delivery upon payment of such additional charges, if any, as the country of origin of the parcel shall stipulate and under the conditions laid down in the Regulations.

2. A fee may be charged, at the option of the country of origin, on a request for information as to the disposal of an ordinary parcel and also for an insured parcel made after it has been posted if the sender has not already paid the special fee to obtain an advice of delivery.

3. A fee may also be charged, at the option of the country of origin, in connection with any complaint of any irregularity which *prima facie* was not due to the fault of the Postal Service.

## ARTICLE XXII

*Missent Parcels.*

Missent parcels.

Ordinary parcels.

Insured parcels.

Refunding, if parcel returned.

Reforwarding to a third country.

Ordinary parcels, when missent, are reforwarded to their correct destination by the most direct route at the disposal of the reforwarding Administration. They must not be charged with Customs or other charges by that Administration. Insured parcels, when missent, may not be reforwarded to their destination except as insured mail. If this is impossible, they must be returned to origin.

When the reforwarding involves return of the parcel to the office of origin, the retransmitting Administration refunds to that office the credits received and reports the error by a Bulletin of Verification.

When the reforwarding involves dispatch of a parcel to a third country and if the amount credited to the retransmitting Administration is insufficient to cover the expenses of retransmission which it has to defray, the retransmitting Administration allows to the Administration to which it forwards the parcel the credits due it; it then recovers the amount of the deficiency by claiming it from the office of exchange from which the missent parcel was directly received. The reason for this claim is notified to the latter by means of a Bulletin of Verification.

## ARTICLE XXIII

*Reforwarding.*

Redirection within country.

Charges.

1. A parcel may be redirected in consequence of the addressee's change of address in the country of destination, at the request of either the sender or the addressee.

The reforwarding of a parcel within one of the contracting countries gives rise to the collection of the supplementary charges pro-

vided for by the Administration of that country. The same is true, if occasion arises, in regard to the delivery of such parcel to another person at the original place of destination. These charges shall not be cancelled even in case the parcel is returned to origin or reforwarded to another country.

2. If a parcel must be reforwarded to one of the two countries signatory to the present Agreement, it is liable to new postage charges, and, if occasion arises, new insurance fees, unless such charges and fees have been paid in advance. The new postage and fees are collected from the addressee by the Administration effecting the delivery. Insured parcels must be reforwarded as such.

3. At the request of the sender or addressee, parcels may also be reforwarded or returned to another country. Insured parcels may not, however, be reforwarded or returned except as such. The senders may mark the parcels: "Do not forward to a third country". In that case, the parcels must not be reforwarded to any other country. In case of loss, rifling or damage of an insured parcel reforwarded to another country or returned by that country, the indemnity is decided upon exclusively in accordance with the provisions of Article VII, Section 6.

#### ARTICLE XXIV

##### *Non-delivery.*

1. Undeliverable parcels returned to the sender are liable to new postage charges as well as insurance fees if necessary, and are returned as parcels of the same class in which they were received. The charges are collectible from the sender and are collected by the Administration delivering the parcels to him.

2. At the time of mailing, the sender must state how his parcel is to be disposed of in the event of non-delivery; that is, the sender must mark the parcel and the customs declarations with one of the following notes:

"In case of non-delivery, the parcel should be returned immediately";

"In case of non-delivery, the parcel should be considered as abandoned";

"In case of non-delivery, the parcel should be delivered to\_\_\_\_\_".

No note other than those provided for above, or note of similar import, is permitted, except as provided in Article XXIII, Section 3.

3. Barring contrary instructions, undeliverable parcels are returned to origin, without previous notification, 30 days after their arrival at the office of destination. Parcels which the addressee refuses to accept shall be returned immediately. In all cases, the reason for non-delivery must be indicated on the parcel.

4. Parcels liable to deterioration or corruption may be sold immediately, even en route, on the outward or return voyage, without previous notice and without judicial formality, for the benefit of the rightful party.

If, for any reason sale is impossible, the deteriorated or corrupted articles are destroyed. The sale or destruction gives rise to the making of a report which is sent to the Administration of origin.

5. Undeliverable parcels which the sender has abandoned may, at the expiration of a 30-day period, be sold for the profit of the Administration of the country of destination. However, in the case of an insured parcel, a report is made up, which must be sent to the Administration of the country of origin. Likewise, the Administra-

## REGULATIONS OF EXECUTION FOR THE PARCEL POST AGREEMENT

Regulations for execution.

The following detailed Regulations for the Execution of the Parcel Post Agreement have been agreed upon by the Chiefs of the Postal Administrations of the United States of America and the Bahamas.

### ARTICLE 1

#### *Limits of Weight and Size.*

Limits of weight and size.

1. The parcels to be exchanged under the provisions of this Agreement may not exceed 22 pounds in weight nor the following dimensions:

Greatest length 4 feet, on condition that parcels over 42 inches but not over 44 inches long do not exceed 24 inches in girth; that parcels over 44 inches but not over 46 inches long do not exceed 20 inches in girth; that parcels over 46 inches but not over 48 inches long do not exceed 16 inches in girth; and that parcels up to 3½ feet in length do not exceed 6 feet in length and girth combined.

The limit of weight and maximum dimensions stated above may be changed from time to time by agreement made through correspondence.

2. In regard to the exact calculation of the weight and dimensions, the indications furnished by the dispatching office will be accepted save in the case of obvious error.

### ARTICLE 2

#### *Preparation of Parcels.*

Preparation of parcels.

1. The name and address of the sender and of the addressee must be written legibly and correctly on the parcel itself if possible or on a label or tag securely affixed to the parcel.

It is recommended<sup>1</sup> that a duplicate of the address be inserted in every parcel, especially when the use of a tag for the address is rendered necessary by the packing or form of the parcel.

Parcels on which the name of the sender or of the addressee is indicated merely by initials are not admitted, unless the initials are the adopted trade name of the sender or addressee which is generally understood.

Addresses in ordinary pencil are not admitted. However, addresses written in indelible pencil on a previously dampened surface are accepted.

2. Each parcel must be packed in such a manner that the contents are protected over the whole route, and in such a way as to prevent the contents from damaging other parcels or objects or injuring postal agents. The packing must protect the contents sufficiently that, in case of rifling, the traces thereof may be easily discovered.

Insured parcels must be closed and securely sealed with wax or otherwise. Ordinary parcels may be sealed at the option of the sender, or careful tying is sufficient as a mode of closing.

As a protective measure, either Administration may require that a special imprint or mark of the sender appear on the wax or lead seals closing insured parcels mailed in its service.

<sup>1</sup> So in original.

The Customs Administration of the country of destination is authorized to open the parcels in order to inspect the contents. To that end, the seals or any other fastenings may be broken. Parcels opened by the Customs must be refastened and also officially resealed, except in the case of ordinary parcels which were not sealed by the senders in the first instance.

3. Each insured parcel must bear on the address side an insurance number and must bear a label with the word "Insured" or this word must be marked or stamped on the parcel.

4. For insured parcels, the amount of insured value must appear on the parcel in currency of the country of origin, in Roman letters written out in full and in Arabic figures. Also, the exact weight of each parcel in pounds and ounces must be entered by the Administration of origin (a) on the address side of the parcel and (b) on the customs declaration in the place reserved for this purpose.

5. The labels or postage stamps affixed to insured parcels must be spaced so that they cannot serve to conceal injuries to the packing. Neither may they be folded over two faces of the wrapping so as to cover the edge.

6. Liquids and easily liquefiable substances must be sent in a double receptacle. Between the first (bottle, flask, box, etc.) and the second (box of metal, strong wood, strong corrugated cardboard or strong carton of fibre-board, or receptacle of equal strength), there must be left a space to be filled with sawdust, bran or other absorbent material, in sufficient quantity to absorb all the liquid in case that the receptacle is broken.

7. Powders and dyes in powder form must be packed in strong boxes of tin or other metal, which, after soldering, must be placed in turn in substantial outer covers in such a way as to avoid all damage to other articles.

### ARTICLE 3

#### *Customs Declarations.*

1. The sender shall prepare one customs declaration for each parcel sent from either country, upon a special form provided for the purpose by the country of origin.

Customs  
declarations.

The customs declaration shall give a general description of the parcel, an accurate statement in detail of its contents and value, date of mailing, gross and net weight, the sender's name and address, and the name and address of the addressee, and shall be securely attached to the parcel.

However, as an exception to the foregoing, when more than one parcel is mailed simultaneously by the same sender in the United States of America to the same addressee at the same address in the Bahamas and vice versa, the sender need prepare only one customs declaration for the entire shipment, which customs declaration shall show, in addition to the particulars set forth in the preceding paragraph, the total number of parcels comprising the shipment, and shall be securely attached to one of the parcels. The parcels comprising the entire shipment shall be clearly marked in such case with a fractional number, the numerator of which will indicate, in Arabic figures, the number of the parcel and the denominator the number of parcels comprising the shipment; for example: If a single shipment were composed of 15 parcels each parcel would be numbered, respectively, 1/15, 2/15, 3/15, etc.

2. The Administrations accept no responsibility for the correctness of the customs declarations.

## ARTICLE 4

*Return Receipts.*

Return receipts.

1. As to a parcel for which a return receipt is asked, the office of origin places on the parcel the letters or words "A. R." or "Avis de Réception" or "Return receipt requested". The office of origin or any other office appointed by the dispatching Administration shall fill out a return receipt form and attach it to the parcel. If the form does not reach the office of destination, that office makes out a duplicate.

2. The office of destination, after having duly filled out the return receipt form, returns it free of postage to the address of the sender of the parcel.

3. When the sender applies for a return receipt after a parcel has been mailed, the office of origin duly fills out a return receipt form and attaches it to a form of inquiry which is entered with the details concerning the transmission of the parcel and then forwards it to the office of destination of the parcel. In the case of the due delivery of the parcel, the office of destination withdraws the inquiry form, and the return receipt is treated in the manner prescribed in the foregoing Section.

## ARTICLE 5

*Receptacles.*

Receptacles.

1. The Postal Administrations of the two contracting countries shall provide the respective bags necessary for the dispatch of their parcels and each bag shall be marked to show the name of the office or country to which it belongs.

2. Bags must be returned empty to the dispatching office by the next mail. Empty bags to be returned are made up in bundles of ten, enclosing nine bags in one. The total number of bags returned shall be entered on the relative parcel bills.

3. In case ten per cent of the total number of bags used during the year have not been returned, the value of the missing bags must be repaid to the Administration of origin.

## ARTICLE 6

*Method of Exchange of Parcels.*

Method of exchange of parcels.

1. The parcels shall be exchanged, in sacks duly fastened and sealed, by the offices appointed by agreement between the two Administrations, and shall be dispatched to the country of destination by the country of origin at its cost and by such means as it provides.

2. Insured parcels shall be enclosed in separate sacks from those in which ordinary parcels are contained, and the labels of sacks containing insured parcels shall be marked with such distinctive symbols as may from time to time be agreed upon.

## ARTICLE 7

*Billing of Parcels.*

Billing of parcels.

1. Separate parcel bills must be prepared for the ordinary parcels on the one hand, and for the insured parcels on the other hand.

The parcel bills are prepared in duplicate. The original is sent in the regular mails, while the duplicate is inserted in one of the sacks. The sack containing the parcel bill is designated by the letter "F" traced in a conspicuous manner on the label.

2. The ordinary parcels included in each dispatch to the United States of America are to be entered on the parcel bills to show the total number of parcels and the total net weight thereof. The ordinary parcels included in each dispatch to the Bahamas are to be entered on the parcel bills to show the total number of parcels.

3. Insured parcels shall be entered individually on the parcel bills to show the insurance number and the name of the office of origin. In the case of insured parcels for the United States of America, the total net weight of the parcels must also be shown.

4. Parcels sent "à découvert" must be entered separately on the parcel bills.

5. Returned or redirected parcels must be entered individually on the parcel bills and be followed by the word "Returned" or "Redirected" as the case may be. A statement of the charges which may be due on these parcels should be shown in the "Observations" column.

6. The total number of sacks comprising each dispatch must also be shown on the parcel bills.

7. Each dispatching exchange office numbers the parcel bills in the upper left-hand corner in accordance with an annual series. The last number of the preceding year must be mentioned on the first bill of the following year.

8. The exact method of advising parcels or the receptacles containing them sent by one Administration in transit through the other, together with any details of procedure in connection with the advice of such parcels or receptacles for which provision is not made in this Agreement, shall be settled by mutual consent through correspondence between the two Administrations.

## ARTICLE 8

### *Verification by the Exchange Office.*

1. Upon receipt of a dispatch, the exchange office of destination proceeds to verify it. The entries in the parcel bill must be verified exactly. Each error or omission must be brought immediately to the knowledge of the dispatching exchange office by means of a bulletin of verification. A dispatch is considered as having been found in order in all regards when no bulletin of verification is made up.

Verification by exchange office.

If any error or irregularity is found upon receipt of a dispatch, all objects which may serve later on for investigations, or for examination of requests for indemnity, must be kept.

2. The dispatching exchange office to which a bulletin of verification is sent returns it after having examined it and entered thereon its observations, if any. That bulletin is then attached to the parcel bills of the parcels to which it relates. Corrections made on a parcel bill which are not justified by supporting papers are considered as devoid of value.

3. If necessary, the dispatching exchange office may also be advised by telegram, at the expense of the Office sending such telegram.

4. In case of shortage of a parcel bill, a duplicate is prepared, a copy of which is sent to the exchange office of origin of the dispatch.

5. The office of exchange which receives from a corresponding office a parcel which is damaged or insufficiently packed must re-dispatch such parcel after repacking, if necessary, preserving the original packing as far as possible.

If the damage is such that the contents of the parcel may have been abstracted, the office must first officially open the parcel and verify its contents.

In either case, the weight of the parcel will be verified before and after repacking, and indicated on the wrapper of the parcel itself. That indication will be followed by the note "Repacked at . . .", and the signature of the agents who have effected such repacking.

ARTICLE 9

*Payment.*

*Payment.*

1. For each parcel, ordinary or insured, sent to the Bahamas, payment shall be made at the rate of 1 gold franc per parcel.

2. For each parcel, ordinary or insured, sent to the United States of America or to its possessions, payment shall be made as follows, based on the bulk net weight of each dispatch:

0.32	gold francs per pound for parcels for the United States of America
0.16	" " " " " " " " Virgin Islands,
	Hawaii, Puerto Rico,
	Guam and Samoa
0.32	" " " " " " " " Alaska

3. In addition, there shall be paid the following transit charges for parcels, ordinary or insured, for the possessions of the United States of America, based on the bulk net weight of each dispatch:

0.32	gold francs per pound when only sea service is provided
0.52	" " " " " " " " land " " "
0.68	" " " " " " " " both land and sea services are provided.

4. The terminal quotas and transit charges above mentioned may be reduced or increased on three months' previous notice given by one country to the other. The reduction or increase shall remain in force for at least one year.

ARTICLE 10

*Accounting.*

*Accounting.*

1. At the end of each quarter, each Administration makes up an account on the basis of the parcel bills.

2. These accounts accompanied by the parcel bills, and, if any, copies of verification notes relating thereto shall be submitted to the examination of the corresponding Administration in the course of the month following the quarter to which they relate.

3. The recapitulation, transmission, examination and acceptance of these accounts must not be delayed, and the payment of the balance shall take place at the latest at the expiration of the following quarter.

4. The balance resulting from the adjustment of the accounts between the two Administrations is paid by a sight draft drawn on New York, or by some other means mutually agreed upon by correspondence. The expenses of payment are chargeable to the debtor Administration.

ARTICLE 11

*Miscellaneous Notifications.*

*Miscellaneous notifications.*

The Administrations shall communicate to each other a summary of the provisions of their laws or regulations applicable to the parcels exchanged between the two contracting countries, and other items necessary for carrying out the exchange of parcels.

These Regulations shall come into operation on the day on which the Parcel Post Agreement comes into force and shall have the same duration as the Agreement. Effective date and duration.

*Prepayment of Postage and Fees.*

sender.

1. The Administration of origin is entitled to collect from the sender of each parcel the postage and the fees for requests for information as to the disposal of a parcel made after it has been posted,

and also, in the case of insured parcels, the insurance fees and the fees for return receipts, that may from time to time be prescribed by its regulations.

2. Except in the case of returned or redirected parcels, prepayment of the postage and such of the fees mentioned in the preceding section as are applicable, is compulsory.

#### ARTICLE IV.

##### *Preparation of Parcels.*

#### ARTICLE V.

Dangerous articles.

(b) Opium, morphine, cocaine and other narcotics;

Narcotics.

(c) Any article the admission of which is forbidden by the Customs or other laws or regulations in force in either country;

Nonadmissible articles.

(d) A letter or any document which constitutes an actual and personal correspondence. Nevertheless, it is permitted to enclose in a parcel an open invoice confined to the particulars which constitute an invoice, and also a simple copy of the address of the parcel, with mention of the address of the sender;

Coin, etc.

2. When a parcel contravening any of these prohibitions is handed over by one Administration to the other, the latter shall proceed in accordance with its laws and inland regulations. Explosive or inflammable articles, as well as documents, pictures and other articles injurious to public morals may be destroyed on the spot by the Administration which has found them in the mails.

Action to be taken.

The fact that a parcel contains a letter, or a communication having the nature of a letter, may not, in any case, entail the return of the parcel to the sender. The letter is, however, marked for collection of postage due from the addressee at the regular rate.

Parcel containing a letter.

The two Administrations advise each other, by means of the List of Prohibited Articles published by the International Bureau of the Universal Postal Union, of all prohibited articles. However, they do not assume, on that account, any responsibility towards the customs or police authorities, or the sender.

List of Prohibited Articles.

3. If parcels wrongly admitted to the post are neither returned to origin nor delivered to the addressee, the Administration of origin must be informed in a precise manner of the treatment accorded to the parcels.

Parcels wrongly admitted.

## ARTICLE VI.

Insurance.

*Insurance.*

Maximum.

Parcels may be insured up to the amount of 500 francs gold or its equivalent in the currency of the country of origin. However, the Chiefs of the Postal Administrations of the two contracting countries may, by mutual consent, increase or decrease this maximum amount of insurance.

Limitation.

A parcel cannot give rise to the right to an indemnity higher than the actual value of its contents, but it is permissible to insure it for only part of that value.

## ARTICLE VII.

*Responsibility. Indemnity.*

Responsibility.

1. The Postal Administrations of the two contracting countries will not be responsible for the loss, abstraction or damage of an ordinary parcel.

2. Except in the cases mentioned in the Article following the Administrations are responsible for the loss of insured parcels mailed in one of the two contracting countries for delivery in the other and for the loss, abstraction of or damage to their contents, or a part thereof.

Indemnity.

The sender, or other rightful claimant, is entitled to compensation corresponding to the actual amount of the loss, abstraction or damage. The amount of indemnity is calculated on the basis of the actual value (current price, or, in the absence of current price, the ordinary estimated value), at the place where and the time when the parcel was accepted for mailing, provided in any case that the indemnity may not be greater than the amount for which the parcel was insured, and on which the insurance fee has been collected or the maximum amount of 500 gold francs.

Indirect damages,  
etc.

3. No indemnity is paid for indirect damages or loss of profits resulting from the loss, rifling, damage, non-delivery, mis-delivery or delay of an insured parcel dispatched in accordance with the conditions of the present Agreement.

Return of postage  
on loss of parcel.

4. In the case where indemnity is payable for the loss of a parcel or for the destruction or abstraction of the whole of the contents thereof, the sender is entitled to return of the postal charges, if claimed. However, the insurance fees are not in any case returned.

Transit originating  
in a third country  
destined for either  
contracting power.

5. In the absence of special agreement to the contrary between the countries involved, which agreement may be made by correspondence, no indemnity will be paid by either country for the loss of transit insured parcels, that is, parcels originating in a country not participating in this Agreement and destined for one of the two contracting countries, or parcels originating in one of the two contracting countries and destined for a country not participating in this Agreement.

Parcels reforwarded  
to a third country.

6. When an insured parcel originating in one country and destined to be delivered in the other country is reforwarded from there to a third country or is returned to a third country, at the request of the sender or of the addressee, the party entitled to the indemnity in case of loss, rifling, or damage occurring subsequent to the reforwarding or return of the parcel by the original country of destination, can lay claim, in such a case, only to the indemnity which the country where the loss, rifling or damage occurred consents to pay, or which that country is obliged to pay in accordance with the agree-

ment made between the countries directly interested in the reforwarding or return. Either of the two countries signing the present Agreement which wrongly forwards an insured parcel to a third country is responsible to the sender to the same extent as the country of origin, that is, within the limits of the present Agreement.

7. The sender is responsible for defects in the packing and insufficiency in the closing and sealing of insured parcels. Moreover, the two Administrations are released from all responsibility in case of loss, rifling, or damage caused by defects not noticed at the time of mailing.

Responsibility for defects in packing, etc.

### ARTICLE VIII.

#### *Exceptions to the Principle of Responsibility.*

Exceptions to principle of responsibility.

The Administrations are relieved from all responsibility:

(a) In case of parcels of which the addressee has accepted delivery without reservation;

Unconditional acceptance.

(b) In case of loss or damage through force majeure (causes beyond control) although either Administration may at its option and without recourse to the other Administration pay indemnity for loss or damage due to force majeure even in cases where the Administration of the country in the service of which the loss or damage occurred recognizes that the damage was due to force majeure. The country responsible for the loss, abstraction or damage must decide in accordance with its internal legislation, whether this loss, abstraction or damage is due to circumstances constituting a case of force majeure;

Loss, etc., through force majeure.

(c) When, their responsibility not having been proved otherwise, they are unable to account for parcels in consequence of the destruction of official documents through force majeure;

Destruction of official documents.

(d) When the damage has been caused by the fault or negligence of the sender or the addressee or the representative of either, or when it is due to the nature of the article;

Damage through fault of sender, addressee, etc.

(e) For parcels which contain prohibited articles;

Prohibited articles.

(f) In case the sender of an insured parcel, with intent to defraud, shall declare the contents to be above their real value; this rule, however, shall not prejudice any legal proceedings necessitated by the legislation of the country of origin;

Declared above real value.

(g) For parcels seized by the Customs because of false declaration of contents;

Seized, because of false declaration.

(h) When no inquiry or application for indemnity has been made by claimant or his representative within a year commencing with the day following the posting of the insured parcel.

Unclaimed within a year.

(i) For parcels which contain matter of no intrinsic value or perishable matter or which did not conform to the stipulations of this Agreement or which were not posted in the manner prescribed, but the country responsible for the loss, rifling, or damage may pay indemnity in respect of such parcels without recourse to the other Administration.

Matter of no intrinsic value, etc.

### ARTICLE IX.

#### *Termination of Responsibility.*

The Administrations cease to be responsible for parcels of which they have effected delivery in accordance with their internal regulations for parcels of the same nature.

Termination of responsibility.

Responsibility is, however, maintained when the addressee or, in case of return, the sender makes reservations in taking delivery of a parcel the contents of which have been abstracted or damaged.

## ARTICLE X.

*Payment of Compensation.*

Payment of compensation.

*Ante*, p. 1490.

The obligation to pay compensation, as well as the postage charges due to be refunded, rests with the Administration to which the office of origin of the parcel is subordinate. However, in cases where the compensation is paid to the addressee in accordance with Article VII, Section 2, second paragraph, the obligation shall rest with the Administration of destination.

The paying Administration retains the right to make a claim against the Administration responsible.

## ARTICLE XI.

*Period for Payment of Compensation.*

Period for payment of compensation.

Deferred payment.

Payment when delayed nine months.

1. The payment of compensation for an insured parcel shall be made to the rightful claimant as soon as possible and at the latest within a period of one year counting from the day following that on which the application is made.

However, the Administration responsible for making payment may exceptionally defer payment of indemnity for a longer period than that stipulated if, at the expiration of that period, it has not been able to determine the disposition made of the article in question or the responsibility incurred.

2. Except in cases where payment is exceptionally deferred as provided in the second paragraph of the foregoing section, the Postal Administration which undertakes the payment of compensation is authorized to pay indemnity on behalf of the Office, which, after being duly informed of the application for indemnity, has let nine months pass without settling the matter.

## ARTICLE XII.

*Fixing of Responsibility.*

Fixing of responsibility.

1. Until the contrary is proved, responsibility for an insured parcel rests with the Administration which, having received the parcel without making any reservations, and being put in possession of all the regulation means of investigation, cannot establish the disposal of the parcel.

2. When the loss, rifling, or damage of an insured parcel is detected upon opening the receptacle at the receiving exchange office and has been regularly pointed out to the dispatching exchange office, the responsibility falls on the Administration to which the latter office belongs, unless it be proved that the irregularity occurred in the service of the receiving Administration.

3. If the loss, rifling or damage has taken place in the course of transportation, without its being possible to establish on the territory or in the service of which country the act took place, the Offices involved bear the loss in equal shares.

4. The Administration paying compensation takes over, to the extent of the amount paid, the rights of the person who has received it, in any action which may be taken against the addressee, the sender or a third party.

5. If a parcel which has been regarded as lost is subsequently found, the person to whom compensation has been paid must be informed that he is at liberty to take possession of the parcel against repayment of the amount of compensation.

### ARTICLE XIII.

#### *Repayment of Compensation.*

1. The Administration responsible for the loss, rifling, or damage, and on whose account the payment is effected, is bound to repay the amount of the indemnity to the country which has effected the payment. This reimbursement must take place without delay, and at the latest within the period of nine months after notification of payment.

Repayment to country paying.

2. These repayments to the creditor country must be made without expense for that office, by money order or draft, in money valid in the creditor country or in any other way to be agreed upon mutually by correspondence.

3. The reimbursement of the indemnities must be effected on the basis of gold money.

### ARTICLE XIV.

#### *Fee for Customs Clearance.*

Customs clearance.

The office of delivery may collect from the addressee either in respect of delivery to the Customs and clearance through the Customs or in respect of delivery to the Customs only, a fee not exceeding 50 centimes gold per parcel.

Fee.

### ARTICLE XV.

#### *Delivery to the Addressee.*

Delivery to addressee.

#### *Fee for Delivery at the Place of Address.*

Parcels are delivered to the addressees as quickly as possible in accordance with the conditions in force in the country of destination. This country may collect in respect of delivery of parcels to the addressee a fee not exceeding 50 centimes gold per parcel. The same fee may be charged, if the case arises, for each presentation after the first at the addressee's residence or place of business.

Fee.

### ARTICLE XVI.

#### *Warehousing Charges.*

The country of destination is authorized to collect the warehousing charge fixed by its legislation for parcels addressed "General Delivery" or which are not claimed within the prescribed period. This charge may in no case exceed five francs gold.

Warehousing charges.

### ARTICLE XVII.

#### *Customs Charges.*

The parcels are subject to all customs laws and regulations in force in the country of destination. The duties collectible on that account are collected from the addressee on delivery of the parcel in accordance with the customs regulations.

Customs charges.

### ARTICLE XVIII.

#### *Customs Charges to be Cancelled.*

The customs charges on parcels sent back to the country of origin or redirected to another country shall be cancelled both in Gibraltar and in the United States of America.

Cancellation, if returned or redirected.

## ARTICLE XIX.

*Recall and Change of Address.*

Recall and change  
of address.

So long as a parcel has not been delivered to the addressee, the sender may recall it or cause its address to be changed. The Postal Administration of the country of origin may collect and retain for this service, the charge fixed by its regulations. The requests for recall or change of address of parcels to be delivered in the United States of America shall be addressed to the Central Administration at Washington; those relating to parcels for delivery in Gibraltar shall be addressed to the Colonial Postmaster, Gibraltar.

## ARTICLE XX.

*Certificate of Mailing. Receipts.*

Certificate of mail-  
ing.

Furnished sender,  
on request.

The sender will, on request at the time of mailing an ordinary (uninsured) parcel, receive a certificate of mailing from the post office where the parcel is mailed, on a form provided for the purpose; and each country may fix a reasonable fee therefor.

Insured parcels.

The sender of an insured parcel receives without charge, at the time of posting, a receipt for his parcel.

## ARTICLE XXI.

*Return Receipts and Inquiries.*

Return receipts and  
inquiries.

Advice of delivery.

1. The sender of an insured parcel may obtain an advice of delivery upon payment of such additional charges, if any, as the country of origin of the parcel shall stipulate and under the conditions laid down in the Regulations.

Request for infor-  
mation.

2. A fee may be charged, at the option of the country of origin, on a request for information as to the disposal of an ordinary parcel and also for an insured parcel made after it has been posted if the sender has not already paid the special fee to obtain an advice<sup>1</sup> of delivery.

Irregularities.

3. A fee may also be charged, at the option of the country of origin, in connection with any complaint of any irregularity which *prima facie* was not due to the fault of the Postal Service.

## ARTICLE XXII.

*Missent Parcels.*

Missent parcels.

Provisions concern-  
ing ordinary parcels.

Ordinary parcels, when missent, are reforwarded to their correct destination by the most direct route at the disposal of the reforwarding Administration. They must not be charged with customs or other charges by that Administration. Insured parcels, when missent, may not be reforwarded to their destination except as insured mail. If this is impossible, they must be returned to origin.

Insured parcels.

Refunding, if par-  
cel returned.

When the reforwarding involves the return of the parcel to the office of origin, the retransmitting Administration refunds to that office the credits received and reports the error by a Bulletin of Verification.

Reforwarding to a  
third country.

When the reforwarding involves the dispatch of a parcel to a third country and if the amount credited to the retransmitting Administration is insufficient to cover the expenses of retransmission which it has to defray, the retransmitting Administration allows to the Administration to which it forwards the parcel the credits due it; it then recovers the amount of the deficiency by claiming it from the office of exchange from which the missent parcel was directly received. The reason for this claim is notified to the latter by means of a Bulletin of Verification.

<sup>1</sup> So in original.

# ARTICLE XXIII.

## *Reforwarding.*

1. A parcel may be redirected in consequence of the addressee's change of address in the country of destination, at the request of either the sender or the addressee.

The reforwarding of a parcel within one of the contracting countries gives rise to the collection of the supplementary charges provided for by the Administration of that country. The same is true, if occasion arises, in regard to the delivery of such parcel to another person at the original place of destination. These charges shall not be cancelled even in case the parcel is returned to origin or reforwarded to another country.

2. If a parcel must be reforwarded to one of the two countries signatory to the present Agreement, it is liable to new postage charges, and, if occasion arises, new insurance fees, unless such charges and fees have been paid in advance. The new fees are collected from the addressee by the Administration effecting the delivery. Insured parcels must be reforwarded as such.

3. At the request of the sender or addressee, parcels may also be reforwarded or returned to another country. Insured parcels may not, however, be reforwarded or returned except as such. The senders may mark the parcels: "Do not forward to a third country". In that case, the parcels must not be reforwarded to any other country. In case of loss, rifling, or damage of an insured parcel reforwarded to another country or returned by that country, the indemnity is decided upon exclusively in accordance with the provisions of Article VII, Section 6.

Reforwarding.

Redirection.

Supplementary charges.

New fees.

Return or reforwarding to another country.

Indemnity in case of loss, etc.

*Ante*, p. 1490.

# ARTICLE XXIV.

## *Non-delivery.*

1. Undeliverable parcels returned to the sender are liable to new postage charges as well as insurance fees if necessary, and are returned as parcels of the same class in which they were received. The charges are collectible from the sender, and are collected by the Administration delivering the parcels to him.

2. At the time of mailing, the sender must state how his parcel is to be disposed of in the event of non-delivery; that is, the sender must mark the parcel and the customs declarations with one of the following notes:

"In case of non-delivery, the parcel should be returned immediately";

"In case of non-delivery, the parcel should be considered as abandoned";

"In case of non-delivery, the parcel should be delivered to -----".

No note other than those provided for above, or note of similar import is permitted, except as provided in Article XXIII, Section 3.

3. Barring contrary instructions, undeliverable parcels are returned to origin, without previous notification, 30 days after their arrival at the office of destination. Parcels which the addressee refuses to accept shall be returned immediately. In all cases, the reason for non-delivery must be indicated on the parcel.

4. Parcels liable to deterioration or corruption may be sold immediately even en route, on the outward or return voyage, without previous notice and without judicial formality, for the profit of the rightful party.

Non-delivery.

Charges, etc.

Treatment, in case of non-delivery.

Undeliverable parcels, return to place of origin.

Parcels liable to deterioration.

If, for any reason, sale is impossible, the deteriorated or corrupted articles are destroyed. The sale or destruction gives rise to the making of a report which is sent to the Administration of origin.

Abandoned parcels.

5. Undeliverable parcels which the sender has abandoned may, at the expiration of a 30-day period, be sold for the profit of the Administration of the country of destination. However, in the case of an insured parcel, a report is made up, which must be sent to the Administration of the country of origin. Likewise, the Administration of the country of origin must be advised when an insured parcel which is undeliverable is not returned to origin.

Provisions applicable.

6. The provisions of Article XXV, Section 2, shall be applied to a parcel which is returned in consequence of non-delivery.

## ARTICLE XXV.

Charges.

### *Charges.*

Credits.

1. For each parcel exchanged between the contracting countries, the dispatching Office credits to the Office of destination in the parcel bills the quotas due to the latter, and indicated in the Regulations of Execution.

Redispatching.

2. In case of reforwarding or return to origin of a parcel, if new postage and new insurance fees (in the case of insured parcels) are collected by the redispatching office, the parcel is treated as if it had originated in that country. Otherwise, the redispatching office recovers from the other office the quota due to it, namely, as the case may be:

*Ante*, p. 1493.

- (a) the charges prescribed by Section 1 above;
- (b) the delivery, customs clearance and storage charges provided for by Articles XIV, XV and XVI;
- (c) the charges for reforwarding or return.

In case of reforwarding or return to a third country, the accrued charges, that is, such of the charges mentioned in (a), (b), and (c) above as are applicable, shall follow the parcel, but in the case that the third country concerned refuses to assume the charges because they cannot be collected from the addressee or sender, as the case may be, or for any other reason, they shall be charged back to the country of origin.

In case of a parcel returned or reforwarded in transit through one of the two Administrations to or from the other, the intermediary Administration may claim also the sum due to it for any additional territorial or sea service provided, together with any amounts due to any other Administration or Administrations concerned.

## ARTICLE XXVI.

Charges other than those prescribed.

*Postal Charges other than those Prescribed not to be Collected.*

Restriction on collection.

The parcels to which this Agreement applies shall not be subject to any postal charges other than those contemplated by the different articles hereof.

## ARTICLE XXVII.

Air parcels.

### *Air Parcels.*

Surtax, etc.

The Chiefs of the Postal Administrations of the two contracting countries have the right to fix by mutual consent the air surtax and other conditions in the case where the parcels are conveyed by the air routes.

# ARTICLE XXVIII.

## *Temporary Suspension of Service.*

In extraordinary circumstances such as will justify the measure, either Administration may temporarily suspend the parcel-post service, either entirely or partially, or restrict it to certain offices, on condition of giving immediate notice, if necessary by telegraph, to the other Administration.

Temporary suspension of service.

# ARTICLE XXIX.

## *Matters not Provided for in the Present Agreement.*

1. Unless they are provided for in the present Agreement, all questions concerning requests for recall or change of address of parcels and the obtaining and disposition of return receipts and settlement of indemnity claims in connection with insured parcels shall be treated in accordance with the provisions of the Universal Postal Convention and its Regulations of Execution, in so far as they are applicable and are not contrary to the forgoing<sup>1</sup> provisions. If the case is not provided for at all, the domestic legislation of the United States of America or of Gibraltar or the decisions made by one country or the other, are applicable in the respective country.

Matters not provided for.

Application of Universal Postal Convention, etc.

49 Stat. 2741.

Further provisions.

2. The details relative to the application of the present Agreement will be fixed by the two Administrations in Regulations of Execution, the provisions of which may be modified or completed by common consent by way of correspondence. A similar agreement through correspondence may be made with a view to the exchange of collect-on-delivery parcels.

Details to be fixed by common consent.

3. The two Administrations notify each other mutually of their laws, ordinances and tariffs concerning the exchange of parcel post, as well as of all modifications in rates which may be subsequently made.

Mutual notice of applicable provisions, etc.

# ARTICLE XXX.

## *Duration of the Agreement.*

1. This Agreement substitutes and abrogates the Parcel Post Agreement signed at Washington, January 8, 1915 and at Gibraltar, December 7, 1914.

Former agreement abrogated.  
38 Stat. 1877.

2. It shall become effective on January 1, 1937.

Effective date.

3. It shall remain in effect as long as it has not been terminated six months in advance by one or the other of the two Administrations.

Duration.

# DETAILED REGULATIONS FOR THE EXECUTION OF THE PARCEL POST AGREEMENT.

Regulations for execution.

The following Detailed Regulations for the Execution of the Parcel Post Agreement have been agreed upon by the Chiefs of the Postal Administrations of the United States of America and of Gibraltar.

## ARTICLE 1.

### *Limits of Weight and Size.*

Limits of weight and size.

The parcels to be exchanged under the provisions of this Agreement may not exceed 22 pounds (10 kilograms) in weight nor the following dimensions:

Greatest length 4 feet, on condition that parcels over 42 inches but not over 44 inches long do not exceed 24 inches in girth; that parcels over 44 inches but not over 46 inches long do not exceed 20 inches in girth; that parcels over 46 inches but not over 48 inches long do not exceed 16 inches in girth; and that parcels which are 3½ feet or less in length do not exceed 6 feet in length and girth (taken in a direction other than that of the length) combined.

The limit of weight and maximum dimensions stated above may be changed from time to time by agreement made through correspondence.

## ARTICLE 2.

### *Preparation of Parcels.*

Preparation of parcels.

1. The name and address of the sender and of the addressee must be written, legibly and correctly, on the parcel itself if possible, or on a label or tag affixed securely to the parcel.

It is recommended that a duplicate of the address be inserted in every parcel, especially when the use of a tag for the address is rendered necessary by the packing or form of the parcel.

Parcels on which the name of the sender or of the addressee is indicated merely by initials are not admitted, unless the initials are the adopted trade name of the sender or addressee which is generally understood.

Addresses in pencil are not admitted. However, addresses written in indelible pencil on a previously dampened surface are accepted.

2. Each parcel must be packed in such a manner that the contents are protected over the whole route, and in such a way as to prevent the contents from damaging other parcels or objects or injuring postal agents. The packing must protect the contents sufficiently that, in case of rifling, the traces thereof may be easily discovered.

Ordinary parcels may be sealed at the option of the sender, or careful tying is sufficient as a mode of closing. Insured parcels must be sealed by means of wax, by lead or other seals.

As a protective measure, either Administration may require that special imprints or marks of the senders appear on the wax or lead seals closing insured parcels.

The Customs Administration of the country of destination is authorized to open the parcels. To that end, the seals or any other fastenings may be broken. Parcels opened by the Customs must be refastened and also officially resealed.

3. Each insured parcel must bear on the address side an insurance number and must bear a label with the words "Insured" or "Valeur déclarée".

4. For insured parcels, the amount of insured value must appear on the parcel in the currency of the country of origin, in Roman characters written in full and in Arabic figures. Also, the exact weight of each parcel in pounds and ounces must be entered by the Administration of origin (a) on the address side of the parcel and (b) on the customs declaration in the place reserved for this purpose.

5. The labels or postage stamps affixed to insured parcels must be spaced so that they cannot serve to conceal injuries to the packing. Neither may they be folded over two faces of the wrapping so as to cover the edge.

6. Liquids and easily liquefiable substances must be sent in a double receptacle. Between the first (bottle, flask, box, etc.) and the second (box of metal, strong wood, or strong carton of fiberboard, or receptacle of equal strength), there must be left a space to be filled with sawdust, bran or other absorbent material, in sufficient quantity to absorb all the liquid in case that the receptacle is broken.

7. Powders and dyes in powder form must be packed in strong boxes of tin or other metal, which, after soldering, must be placed in turn in substantial outer covers in such a way as to avoid all damage to other articles.

### ARTICLE 3.

#### *Customs Declarations.*

1. The sender shall prepare one customs declaration for each parcel sent from either country, upon a special form provided for the purpose by the country of origin.

Customs declarations.

The customs declaration shall give a general description of the parcel, an accurate statement in detail of its contents and value, date of mailing, gross and net weight, the sender's name and address, and the name and address of the addressee, and shall be securely attached to the parcel.

However, as an exception to the foregoing, the use of only one customs declaration may be allowed for a single consignment of any number of uninsured parcels sent by the same sender to the same addressee at the same time. In this case the customs declaration shall show, in addition to the particulars set forth in the preceding paragraph, the total number of parcels comprising the shipment, and shall be securely attached to one of the parcels. The parcels comprising the entire shipment shall be clearly marked in such case with a fractional number, the numerator of which will indicate, in Arabic figures, the number of the parcel, and the denominator the number of parcels comprising the shipment; for example, if a single shipment were composed of 15 parcels, each parcel would be numbered, respectively, 1/15, 2/15, 3/15, etc.

2. The Administrations accept no responsibility for the correctness of the customs declarations.

## ARTICLE 4.

*Return Receipts.*

Return receipts.

1. As to a parcel for which a return receipt is asked, the office of origin places on the parcel the letters or words "A. R." or "Return receipt requested". The office of origin or any other office appointed by the dispatching Administration shall fill out a return receipt form and attach it to the parcel. If the form does not reach the office of destination, that office makes out a duplicate.

2. The office of destination, after having duly filled out the return receipt form, returns it free of postage to the address of the sender of the parcel.

3. When the sender applies for a return receipt after a parcel has been mailed, the office of origin duly fills out a return receipt form and attaches it to a form of inquiry which is entered with the details concerning the transmission of the parcel and then forwards it to the office of destination of the parcel. In the case of the due delivery of the parcel, the office of destination withdraws the inquiry form, and the return receipt is treated in the manner prescribed in the foregoing Section.

## ARTICLE 5.

*Receptacles.*

Receptacles.

1. The Postal Administrations of the two contracting countries shall provide the respective bags necessary for the dispatch of their parcels and each bag shall be marked to show the name of the office or country to which it belongs.

2. Bags must be returned empty to the dispatching office by the next mail. Empty bags to be returned are made up in bundles of ten, enclosing nine bags in one. The total number of bags returned shall be entered on the relative parcel bills.

3. In case ten percent of the total number of bags used during the year have not been returned, the value of the missing bags must be repaid to the Administration of origin.

## ARTICLE 6.

*Method of Exchange of Parcels.*

Method of exchange of parcels.

1. The parcels shall be exchanged, in sacks duly fastened and sealed, by the Offices appointed by agreement between the two Administrations, and shall be dispatched to the country of destination by the country of origin at its cost and by such means as it provides.

2. Insured parcels shall be enclosed in separate sacks from those in which ordinary parcels are contained, and the labels of sacks containing insured parcels shall be marked with such distinctive symbols as may from time to time be agreed upon.

## ARTICLE 7.

*Billing of Parcels.*

Billing of parcels.

1. Separate parcel bills must be prepared for the ordinary parcels on the one hand, and for the insured parcels on the other hand. The parcel bills are prepared in duplicate. The original is sent in the regular mails, while the duplicate is inserted in one of the

sacks. The sack containing the parcel bill is designated by the letter "F" traced in a conspicuous manner on the label.

2. The ordinary parcels included in each dispatch sent to either country are to be entered on the parcel bills to show the total number of parcels and the total net weight thereof.

3. Insured parcels shall be entered individually on the parcel bills to show the insurance number and the name of the office of origin, as well as the total net weight of the parcels.

4. Parcels sent "à découvert" must be entered separately on the parcel bills.

5. Returned or redirected parcels must be entered individually on the parcel bills and be followed by the word "Returned" or "Redirected", as the case may be. A statement of the charges which may be due on these parcels should be shown in the "Observations" column.

6. The total number of sacks comprising each dispatch must also be shown on the parcel bills.

7. Each dispatching exchange office numbers the parcel bills in the upper left-hand corner in accordance with an annual series. The last number of the preceding year must be mentioned on the first bill of the following year.

8. The exact method of advising parcels or the receptacles containing them sent by one Administration in transit through the other together with any details of procedure in connection with the advice of such parcels or receptacles for which provision is not made in this Agreement, shall be settled by mutual agreement through correspondence between the two Administrations.

#### ARTICLE 8.

##### *Verification by the Exchange Offices.*

1. Upon receipt of a dispatch, the exchange office of destination proceeds to verify it. The entries in the parcel bill must be verified exactly. Each error or omission must be brought immediately to the knowledge of the dispatching exchange office by means of a bulletin of verification. A dispatch is considered as having been found in order in all regards when no bulletin of verification is made up.

Verification by exchange offices.

If an error or irregularity is found upon receipt of a dispatch, all objects which may serve later on for investigations, or for examination of requests for indemnity, must be kept.

2. The dispatching exchange office to which a bulletin of verification is sent, returns it after having examined it and entered thereon its observations, if any. That bulletin is then attached to the parcel bills of the parcels to which it relates. Corrections made on a parcel bill which are not justified by supporting papers are considered as devoid of value.

3. If necessary, the dispatching exchange office may also be advised by telegram, at the expense of the office sending such telegram.

4. In case of shortage of a parcel bill, a duplicate is prepared, a copy of which is sent to the exchange office of origin of the dispatch.

5. The office of exchange which receives from a corresponding office a parcel which is damaged or insufficiently packed must redispach such parcel after repacking, if necessary, preserving the original packing as far as possible.

If the damage is such that the contents of the parcel may have been abstracted, the office must first officially open the parcel and verify its contents.

In either case, the weight of the parcel will be verified before and after repacking, and indicated on the wrapper of the parcel itself. That indication will be followed by the note "Repacked at . . . . .", and the signature of the agents who have effected such repacking.

# ARTICLE 9.

## *Charges.*

Charges.

1. For each parcel, ordinary or insured, sent to Gibraltar payment shall be made at the rate of 3 cents per pound, based on the bulk net weight of each dispatch.

For each parcel, ordinary or insured, sent to the United States of America, payment shall be made at the rate of 6 cents per pound, based on the bulk net weight of each dispatch.

These terminal charges may be reduced or increased on 3 months previous notice given by one country to the other. These reductions or increases shall hold good for at least one year.

2. The amounts to be allowed in respect to parcels sent from one Administration to the other for onward transmission to a possession of either country, or to a third country, shall be fixed by the intermediary Administration.

3. Except as provided in this Article, each Administration shall keep the whole of the sums which it collects by virtue of the various Articles of this Agreement.

# ARTICLE 10.

## *Accounting.*

Accounting.

1. At the end of each quarter, each Administration makes up an account on the basis of the parcel bills.

2. These accounts accompanied by the parcel bills, and, if any, by copies of verification notes relating thereto, shall be submitted to the examination of the corresponding Administration in the course of the month following the quarter to which they relate.

3. The recapitulation, transmission, examination and acceptance of these accounts must not be delayed, and the payment of the balance shall take place, at the latest, at the expiration of the following quarter.

4. The balance resulting from the adjustment of the accounts between the two Administrations is paid by a sight draft drawn on New York, or by some other means mutually agreed upon by correspondence. The expenses of payment are chargeable to the debtor Administration.

# ARTICLE 11.

## *Miscellaneous Notifications.*

Miscellaneous notifications.

The Administrations shall communicate to each other a summary of the provisions of their laws or regulations applicable to the parcels exchanged between the two contracting countries, and other items necessary for carrying out the exchange of parcels.

These Regulations shall come into operation on the day on which the Parcel Post Agreement comes into force and shall have the same duration as the Agreement.

Effective date and duration.

Done in duplicate and signed at Washington, the 5<sup>th</sup> day of January 1937, and at Gibraltar, the 18<sup>th</sup> day of December 1936.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA  
A PROCLAMATION

Reciprocal trade  
agreement, etc., with  
the Netherlands.  
48 Stat. 943.  
19 U. S. C. § 1351.

WHEREAS it is provided in the Tariff Act of 1930 of the Congress of the United States of America, as amended by the Act of June 12, 1934, entitled "AN ACT To Amend the Tariff Act of 1930" (48 Stat. 943), as follows:

Statutory pro-  
visions.

"Sec. 350. (a) For the purpose of expanding foreign markets for the products of the United States (as a means of assisting in the present emergency in restoring the American standard of living, in overcoming domestic unemployment and the present economic depression, in increasing the purchasing power of the American public, and in establishing and maintaining a better relationship among various branches of American agriculture, industry, mining, and commerce) by regulating the admission of foreign goods into the United States in accordance with the characteristics and needs of various branches of American production so that foreign markets will be made available to those branches of American production which require and are capable of developing such outlets by affording corresponding market opportunities for foreign products in the United States, the President, whenever he finds as a fact that any existing duties or other import restrictions of the United States or any foreign country are unduly burdening and restricting the foreign trade of the United States and that the purpose above declared will be promoted by the means hereinafter specified, is authorized from time to time—

"(1) To enter into foreign trade agreements with foreign governments or instrumentalities thereof; and

"(2) To proclaim such modifications of existing duties and other import restrictions, or such additional import restrictions, or such continuance, and for such minimum periods, of existing customs or excise treatment of any article covered by foreign trade agreements, as are required or appropriate to carry out any foreign trade agreement that the President has entered into hereunder. No proclamation shall be made increasing or decreasing by more than 50 per centum any existing rate of duty or transferring any article between the dutiable and free lists. The proclaimed duties and other import restrictions shall apply to articles the growth, produce, or manufacture of all foreign countries, whether imported directly, or indirectly: *Provided*, That the President may suspend the application to articles the growth, produce, or manufacture of any country because of its

discriminatory treatment of American commerce or because of other acts or policies which in his opinion tend to defeat the purposes set forth in this section; and the proclaimed duties and other import restrictions shall be in effect from and after such time as is specified in the proclamation. The President may at any time terminate any such proclamation in whole or in part."

WHEREAS I, Franklin D. Roosevelt, President of the United States of America, have found as a fact that certain existing duties and other import restrictions of the United States of America and the Kingdom of the Netherlands are unduly burdening and restricting the foreign trade of the United States of America and that the purpose declared in the said Tariff Act of 1930, as amended by the said Act of June 12, 1934, will be promoted by a foreign trade agreement between the United States of America and Her Majesty the Queen of the Netherlands;

Promotion of foreign trade.

48 Stat. 943,  
19 U. S. C. § 1351.

WHEREAS reasonable public notice of the intention to negotiate such foreign trade agreement was given and the views presented by persons interested in the negotiation of such agreement were received and considered;

Notice given.

WHEREAS, after seeking and obtaining information and advice with respect thereto from the United States Tariff Commission, the Departments of State, Agriculture, and Commerce, and from other sources, I entered into a foreign Trade Agreement on December 20, 1935, through my duly empowered Plenipotentiary, with Her Majesty the Queen of the Netherlands, through her duly empowered Plenipotentiary, which Agreement, including four Schedules annexed thereto, in the English and Netherlands languages, is in words and figures as follows:

Any advantage, favor, privilege or immunity which has been or may hereafter be granted by the United States of America or the Kingdom of the Netherlands in regard to the above-mentioned matters, to a natural or manufactured product originating in any third country or consigned to the territory of any third country shall be accorded immediately and without compensation to the like product originating in or consigned to the territory of the Kingdom of the Netherlands or the United States of America, respectively.

It is understood that so long as and insofar as existing law of the United States of America may otherwise require, the provisions of this Article, insofar as they would otherwise relate to duties, taxes or charges on coal, coke manufactured therefrom, or coal or coke briquettes, shall not apply to such products imported into the United States of America. If the law of the United States of America shall not permit the complete operation of the provisions of this Article with respect to the above-mentioned products, the Kingdom of the Netherlands reserves the right to impose on such products originating in the United States of America, after September 1, 1936, duties or charges other or higher than those imposed on like products originating in

Alle voordeelen, gunsten, voorrechten of vrijdommen, welke door de Vereenigde Staten van Amerika of door het Koninkrijk der Nederlanden ten aanzien van de bovengenoemde aangelegenheden zijn of in de toekomst mochten worden toegekend aan producten van bodem of nijverheid, van oorsprong uit eenig derde land of met bestemming naar het gebied van eenig derde land, zullen onmiddellijk en zonder compensatie worden toegekend aan de gelijksoortige producten van oorsprong uit of met bestemming naar het gebied respectievelijk van het Koninkrijk der Nederlanden en van dat van de Vereenigde Staten van Amerika.

Het is wel verstaan, dat, zoolang en voorzover de thans bestaande wetgeving van de Vereenigde Staten van Amerika zulks mocht vereischen, de bepalingen van dit Artikel, voor zoover zij overigens betrekking zouden hebben op rechten, belastingen of heffingen op steenkool, daaruit vervaardigde cokes, of steenkool- of cokesbriquettes, niet van toepassing zullen zijn bij den invoer van deze producten in de Vereenigde Staten van Amerika. Indien de wetgeving van de Vereenigde Staten van Amerika de volledige werking van de bepalingen van dit Artikel ten aanzien van bovengenoemde producten niet zal toelaten, behoudt het Koninkrijk der Nederlanden zich het recht voor om, na 1 September 1936, deze producten, wanneer zij van oorsprong

10. With respect to the import quotas, which are now in effect or which may hereafter be established by either the United States of America or the Kingdom of the Netherlands, each Government will take appropriate measures to facilitate as much as possible the exhaustion of such quotas. Any representations which either Government may make with a view to effectuating this purpose shall be given the most sympathetic consideration by the other Government.

Wanneer binnen dertig dagen na ontvangst van de hiervoorgenoemde kennisgeving geen overeenstemming terzake zal zijn bereikt, zal de Regeering van de Vereenigde Staten van Amerika de bevoegdheid hebben, binnen vijftien dagen na afloop van de hiervoorgenoemden termijn van dertig dagen, dit Verdrag in zijn geheel schriftelijk op te zeggen met een termijn van dertig dagen.

9. De aan de Vereenigde Staten van Amerika toegewezen hoeveelheid voor eenig product, waarvoor overeenkomstig de tweede of derde alinea van dit Artikel een contingent is vastgesteld, zal in geen geval worden verminderd, tenzij het globale contingent voor dat product eveneens wordt vermindert en wel in de zelfde verhouding. Indien het globale contingent voor een zoodanig product te eeniger tijd mocht worden verhoogd, zal het aan de Vereenigde Staten van Amerika toegewezen contingent, na 1 Februari 1937, in dezelfde verhouding worden verhoogd, tenzij is overeengekomen van een dergelijke toewijzing af te zien. De uitdrukking "globaal contingent" beteekent de totale hoeveelheid of waarde van een product, waarvan de invoer uit alle vreemde landen is toegestaan.

10. Met betrekking tot de invoercontingenten, welke thans in werking zijn of, welke hetzij door de Vereenigde Staten van Amerika, hetzij door het Koninkrijk der Nederlanden later mochten worden ingesteld, zal de betreffende Regeering de passende maatregelen nemen om de uitputting van de contingenten zooveel mogelijk te vergemakkelijken. De eventuele vertoogen, welke een van beide Regeeringen mocht indienen, strekkende tot het verwezenlijken van gemeld doel, zullen door de Regeering van het andere land in de meest welwillende overweging worden genomen.

11. Sympathetic consideration will be given by either Government to any request which the other Government may make for a readjustment of the quota allotment for any article or to any request or representation with respect to any other matter relating to quotas or other quantitative restrictions.

#### ARTICLE VII

With respect to the articles enumerated and described in Schedules I and II, no prohibitions, import quotas, import licenses, or any other form of quantitative regulation, whether or not operated in connection with any agency of centralized control, shall be imposed by the Kingdom of the Netherlands and the United States of America, respectively.

The foregoing provision shall not apply to quantitative restrictions in whatever form imposed by either country on the importation or sale of any article the growth, produce or manufacture of the other country in conjunction with governmental measures operating to regulate or control the production, market supply, or prices of like domestic articles, nor shall it apply to such necessary measures as may be adopted in extraordinary and abnormal circumstances to protect the vital economic or financial interests of the country. Whenever either Government establishes or changes any restriction authorized by this paragraph, it shall notify the other Government and shall afford such other Government an opportunity to consult with it in respect of such action; and if, objection being made to such action, an agreement with respect thereto is not reached within thirty days following receipt of the aforesaid notice, such other Government shall be free

Elk van beide Regeeringen zal in welwillende overweging nemen elk verzoek, dat de andere Regeering mocht doen tot herziening van het voor eenig product toegewezen contingent, of elk verzoek of verhoog betrefende eenige andere aangelegenheid, verband houdende met contingenten of met andere quantitatieve beperkingen.

#### ARTIKEL VII

Met betrekking tot de producten, opgesomd en omschreven in de Lijsten I en II, zullen door, respectievelijk, het Koninkrijk der Nederlanden en de Vereenigde Staten van Amerika geen verboden worden ingesteld noch invoercontingenten, invoervergunningen of eenige andere regelingen inzake quantitatieve beperking, al dan niet verband houdende met de werking van eenig orgaan, waarbij de controle is gecentraliseerd.

De hiervoor gaande bepaling zal niet van toepassing zijn op quantitatieve beperkingen, van welken aard ook, door een van beide landen gelegd op den invoer of verkoop van eenig product van bodem of nijverheid van het andere land, in verband met van Regeeringswege genomen maatregelen met het doel de productie, de marktvoorziening of de prijzen van gelijksoortige inheemsche producten te regelen of te beheerschen, noch zal zij van toepassing zijn op zoodanige noodzakelijke maatregelen, die in buitengewone en abnormale omstandigheden mochten worden genomen, te neinde de vitale economische of financieele belangen van het land te beschermen. Telkens wanneer een van beide Regeeringen eenige beperking, welke bij deze alinea is toegelaten, instelt of wijzigt, zal Zij de andere Regeering daarmede in kennis stellen en deze Regeering gelegenheid geven om met Haar ter zake overleg te plegen. Indien door de andere Regeering bezwaar is gemaakt tegen een

Treatment of Government monopolies.

In the event that the United States of America or the Kingdom of the Netherlands establishes or maintains a monopoly for the importation, production or sale of an article or grants exclusive privileges, formally or in effect, to one or more agencies to import, produce or sell an article, the Government of the country establishing or maintaining such monopoly, or granting such monopoly privileges, shall, in respect of the foreign purchases of such monopoly or agency, accord the commerce of the other country fair and equitable treatment. In making its foreign purchases of any article such monopoly or agency shall, within the quantitative limitations permitted by other provisions of this Agreement, be influenced solely by competitive considerations, such as price, quality, marketability, and terms of sale.

## SCHEDULE III

## 1. Wheat flour:

The Netherlands Government undertakes to purchase annually from mills in the United States of America a quantity of wheat flour equivalent to not less than five per centum of the annual total wheat flour consumption in the Netherlands, provided that the price of such wheat flour delivered in the Netherlands is competitive with the price of other foreign wheat flour of comparable grade and quality.

## 2. Milling wheat:

The Netherlands Government undertakes to purchase annually a quantity of milling wheat originating in the United States of America equivalent to not less than five per centum of the annual total consumption of foreign milling wheat in the Netherlands, provided that the price of the milling wheat originating in the United States of America is competitive with the world price for milling wheat of comparable grade and quality.

*Note 1.* Of the total annual quantities of either milling wheat or wheat flour originating in the United States of America which the Netherlands Government undertakes to purchase pursuant to the foregoing provisions, one-twelfth part thereof will be purchased each month unless purchases for one or more months are made in advance. If in any month the prices of milling wheat or wheat flour originating in the United States of America are not competitive and for this reason the monthly purchases are smaller than those provided for above, the Netherlands Government shall not be obligated to compensate for such deficiency by correspondingly increased purchases in later months.

*Note 2.* The Netherlands Government will give sympathetic consideration to any representations which the Government of the United States of America may make with respect to any matter pertaining to the application of the provisions of this Schedule.

DEPARTMENT OF STATE,  
Washington, December 20, 1935.

SIR:

I have the honor to make the following statement of my understanding of the agreement reached through recent conversations held at Washington by representatives of the Government of the United States and the Netherlands Government with reference to certain special duties.

These conversations have disclosed a mutual understanding between the two Governments, which is that neither will impose on products of territories of the other Government any antidumping duty or new or additional duty to countervail the payment or bestowal of a bounty or grant, without first giving the other Government, through an informal notice, an opportunity to present representations with respect to the proposed duty. No decision to impose such duty will be made within thirty days after the date of the informal notice, unless an earlier decision is required by law. Any representations submitted by the other Government will be carefully considered by the Government contemplating the imposition of the duty.

Accept, Sir, the assurances of my highest consideration.

EXCELLENTIE,

Ik heb de eer de ontvangst te erkennen van Uwer Excellentie's nota van heden, bevattende een uiteenzetting van Uwer Excellentie's opvatting met betrekking tot de overeenstemming, ten opzichte van zekere bijzondere rechten, bereikt gedurende onlangs te Washington

gehouden besprekingen tusschen de vertegenwoordigers van de Nederlandsche Regeering en die van de Regeering van de Vereenigde Staten van Amerika.

Gedurende deze besprekingen is tot uiting gekomen een gelijke opvatting tusschen beide Regeeringen, dat, met name, geen van beide Regeeringen op producten van het gebied der andere eenig anti-dumping recht zal leggen, noch eenig nieuw of bijkomend recht ter compensatie van de betaling of toekenning van een premie of uitkeering, zonder eerst de andere Regeering, na Haar daarvan langs informeele weg kennis te hebben gegeven, de gelegenheid te hebben geboden tot het doen van voorstellen met betrekking tot het voorgenomen recht. Geen beslissing, ten aanzien van het opleggen van een zoodanig recht, zal worden genomen binnen dertig dagen na den datum van de hiervoor bedoelde informeele kennisgeving, tenzij de wet een vroegere beslissing vereischt. Elk, door de andere Regeering ingediend, vertoog zal door de Regeering, welke voornemens is tot de oplegging van bedoeld recht over te gaan, zorgvuldig in overweging worden genomen.

Ik heb de eer Uwer Excellentie de aldus bereikte overeenstemming te bevestigen.

Ik neem deze gelegenheid te baat U, Mijnheer de Staatssecretaris, de hernieuwde verzekering mijner hoogste achting aan te bieden.

### A PROCLAMATION.

Reciprocal trade  
agreement with El  
Salvador.  
48 Stat. 943.  
19 U. S. C. § 1351.

Statutory authori-  
zation.

WHEREAS it is provided in the Tariff Act of 1930 of the Congress of the United States of America, as amended by the Act of June 12, 1934, entitled "AN ACT To amend the Tariff Act of 1930" (48 Stat. 943), as follows:

"Sec. 350. (a) For the purpose of expanding foreign markets for the products of the United States (as a means of assisting in the present emergency in restoring the American standard of living, in overcoming domestic unemployment and the present economic depression, in increasing the purchasing power of the American public, and in establishing and maintaining a better relationship among various branches of American agriculture, industry, mining, and commerce) by regulating the admission of foreign goods into the United States in accordance with the characteristics and needs of various branches of American production so that foreign markets will be made available to those branches of American production which require and are capable of developing such outlets by affording corresponding market opportunities for foreign products in the United States, the President, whenever he finds as a fact that any existing duties or other import restrictions of the United States or any foreign country are unduly burdening and restricting the foreign trade of the United States and that the purpose above declared will be promoted by the means hereinafter specified, is authorized from time to time—

"(1) To enter into foreign trade agreements with foreign governments or instrumentalities thereof; and

"(2) To proclaim such modifications of existing duties and other import restrictions, or such additional import restrictions, or such continuance, and for such minimum periods, of existing customs or excise treatment of any article covered by foreign trade agreements, as are required or appropriate to carry out any foreign trade agreement that the President has entered into hereunder. No proclamation shall be made increasing or decreasing by more than 50 per centum any existing rate of duty or transferring any article between the dutiable and free lists. The proclaimed duties and other import restrictions shall apply to articles the growth, produce, or manufacture of all foreign countries, whether imported directly, or indirectly: *Provided*, That the President may suspend the application to articles the growth, produce, or manufacture of any country because of its discriminatory treatment of American commerce or because of other acts or policies which in his opinion tend to defeat the purposes set forth in this section; and the proclaimed duties and other import

restrictions shall be in effect from and after such time as is specified in the proclamation. The President may at any time terminate any such proclamation in whole or in part."

WHEREAS I, Franklin D. Roosevelt, President of the United States of America, have found as a fact that certain existing duties and other import restrictions of the United States of America and the Republic of El Salvador are unduly burdening and restricting the foreign trade of the United States of America and that the purpose declared in the said Tariff Act of 1930, as amended by the said Act of June 12, 1934, will be promoted by a foreign trade agreement between the United States of America and the Republic of El Salvador;

*Post*, pp. 1571, 1572.

In respect of articles the growth, produce or manufacture of the United States of America or the Republic of El Salvador, enumerated and described in Schedules I and II, respectively, imported into the other country, on which ad valorem rates of duty, or duties based upon or regulated in any manner by value, are or may be assessed, it is understood and agreed that the bases and methods of determining dutiable value and of converting currencies shall be no less favorable to importers than the bases and methods prescribed under laws and regulations of the Republic of El Salvador and the United States of America, respectively, in force on the day of the signature of this Agreement.

## ARTICLE VI

No quantitative  
regulation.

1. The United States of America will not impose any prohibition, import or customs quotas, import licenses or any other form of quantitative regulation, whether or not operated in connection with any agency of centralized control, on the importation or sale of any article the growth, produce or manufacture of the Republic of El

Salvador, enumerated and described in Schedule II; nor will the Republic of El Salvador impose any prohibition, import or customs quotas, import licenses or any other form of quantitative regulation, whether or not operated in connection with any agency of centralized control, on the importation or sale of any article the growth, produce or manufacture of the United States of America, enumerated and described in Schedule I.

2. The foregoing provision shall not apply to:

(a) Prohibitions or restrictions (1) imposed on moral or humanitarian grounds; (2) designed to protect human, animal or plant life; (3) relating to prison-made goods; or (4) relating to the enforcement of police or revenue laws; or to

(b) Quantitative restrictions in whatever form, imposed by the United States of America or the Republic of El Salvador on the importation or sale of any article the growth, produce or manufacture of the other country, in conjunction with governmental measures operating to regulate or control the production, market supply or prices of like domestic articles, or tending to increase the labor costs of production of such articles. Whenever the Government of either country proposes to establish or change any restriction authorized by this subparagraph, it shall give notice thereof in writing to the other Government and shall afford such other Government an opportunity within thirty days after receipt of such notice to consult with it in respect of the proposed action; and if an agreement with respect thereto is not reached within thirty days following receipt of the aforesaid notice, the Government which proposes to take such action shall be free to do so at any time thereafter, and the other Government shall be free within fifteen days after such action is taken to terminate this Agreement in its entirety on thirty days' written notice.

3. It is understood that the provisions of this Article do not affect the application of measures directed against misbranding, adulteration and other fraudulent practices, such as are provided for in the pure food and drug laws of the United States of America, or the application of measures directed against unfair practices in import trade, such as are provided for in Section 337 of the United States Tariff Act of 1930.

## ARTICLE VII

1. If the Government of the United States of America or the Republic of El Salvador establishes or maintains any form of quantitative restriction or control of the importation or sale of any article in which the other country has an interest, or imposes a lower import duty or charge on the importation or sale of a specified quantity of any such article than the duty or charge imposed on importations in excess of such quantity, the Government taking such action will:

(a) Give public notice of the total quantity, or any change therein, of any such article permitted to be imported or sold or permitted to be imported or sold at such lower duty or charge, during a specified period;

(c) Give public notice of the allotments of such quantity among the several exporting countries, and at all times upon request advise the Government of the other country of the quantity of any such article the growth, produce or manufacture of each exporting country which

2. Neither the United States of America nor the Republic of El Salvador shall regulate the total quantity of importations into its territory or sales therein of any article in which the other country has an interest, by import licenses or permits issued to individuals or organizations, unless the total quantity of such article permitted to be imported or sold, during a quota period of not less than three months, shall have been established, and unless the regulations covering the issuance of such licenses or permits shall have been made public before such regulations are put into force.

#### ARTICLE VIII

In the event that the Government of the United States of America or the Government of the Republic of El Salvador establishes or maintains a monopoly for the importation, production or sale of a particular commodity or grants exclusive privileges, formally or in effect, to one or more agencies to import, produce or sell a particular commodity, the Government of the country establishing or maintaining such monopoly, or granting such monopoly privileges, agrees that in respect of the foreign purchases of such monopoly or agency the commerce of the other country shall receive fair and equitable treatment. To this end it is agreed that in making its foreign purchases of any product such monopoly or agency will be influenced solely by those considerations, such as price, quality, marketability, and terms of sale, which would ordinarily be taken into account by a private commercial enterprise interested solely in purchasing such product on the most favorable terms.

#### ARTICLE IX

Control of foreign exchange.

The tariff advantages and other benefits provided for in this Agreement are granted by the United States of America and the Republic of El Salvador to each other subject to the condition that if the Government of either country shall establish or maintain, directly or indirectly, any form of control of foreign exchange, it shall administer such control so as to insure that the nationals and commerce of the other country will be granted a fair and equitable share in the allotment of exchange.

With respect to the exchange made available for commercial transactions, it is agreed that the Government of each country shall be guided in the administration of any form of control of foreign exchange by the principle that, as nearly as may be determined, the share of the total available exchange which is allotted to the other country shall not be less than the share employed in a previous representative period prior to the establishment of any exchange control for the settlement of commercial obligations to the nationals of such other country.

Mutual consideration of representations with respect to application of Article.

The Government of each country shall give sympathetic consideration to any representations which the other Government may make in respect of the application of the provisions of this Article, and if, within thirty days after the receipt of such representations, a satisfactory adjustment has not been made or an agreement has not been reached with respect to such representations, the Government making them may, within fifteen days after the expiration of the aforesaid period of thirty days, terminate this Article or this Agreement in its entirety on thirty days' written notice.

## ARTICLE X

With respect to customs duties or charges of any kind imposed on or in connection with importation or exportation, and with respect to the method of levying such duties or charges, and with respect to all rules and formalities in connection with importation or exportation, and with respect to all laws or regulations affecting the sale or use of imported goods within the country, any advantage, favor, privilege or immunity which has been or may hereafter be granted by the United States of America or by the Republic of El Salvador to any article originating in or destined for any third country, shall be accorded immediately and unconditionally to the like article originating in or destined for the Republic of El Salvador or the United States of America, respectively.

## ARTICLE XI

Such laws, regulations and decisions shall be applied uniformly at all ports of the respective country, except as otherwise specifically provided in statutes of the United States of America relating to articles imported into Puerto Rico.

Publication of laws, regulations, and decisions.

No administrative ruling by the United States of America or the Republic of El Salvador effecting advances in rates of duties or in charges applicable under an established and uniform practice to imports originating in the territory of the other country, or imposing any new requirement with respect to such importations, shall be effective retroactively or with respect to articles either entered for or withdrawn for consumption prior to the expiration of thirty days after the date of publication of notice of such ruling in the usual official manner. Not retroactive, etc.

Anti-dumping duties.

## ARTICLE XII

In the event that a wide variation occurs in the rate of exchange between the currencies of the United States of America and the Republic of El Salvador, the Government of either country, if it considers the variation so substantial as to prejudice the industries or commerce of the country, shall be free to propose negotiations for the modification of this Agreement or to terminate this Agreement in its entirety on thirty days' written notice.

Modification where exchange rate prejudicial.

## ARTICLE XIII

Greater than nominal penalties will not be imposed in the United States of America or in the Republic of El Salvador upon importations of articles the growth, produce or manufacture of the other country because of errors in documentation obviously clerical in origin.

Unless otherwise specifically provided in this Agreement, the provisions thereof shall not be construed to apply to police or sanitary regulations; and nothing in this Agreement shall be construed to prevent the adoption of measures prohibiting or restricting the exportation of gold or silver, or to prevent the adoption of such measures as either Government may see fit with respect to the control of the export or sale for export of arms, munitions, or implements of war, and, in exceptional circumstances, all other military supplies.

ARTICLE XV

In the event that the Government of the United States of America or the Government of El Salvador adopts any measure which, even though it does not conflict with the terms of this Agreement, is considered by the Government of the other country to have the effect of nullifying or impairing any object of the Agreement, the Government which has adopted any such measure shall consider such representations and proposals as the other Government may make with a view to effecting a mutually satisfactory adjustment of the matter.

## CONVENIO COMERCIAL CELEBRADO ENTRE LOS ESTADOS UNIDOS DE AMERICA Y EL SALVADOR 1937

El Presidente de los Estados Unidos de América y el Presidente de la República de El Salvador, deseosos de estrechar los vínculos de amistad entre ambos países por medio del mantenimiento del principio de igualdad de trato como base de relaciones comerciales y por la concesión de ventajas mutuas y recíprocas para la promoción del comercio, han decidido concluir un Convenio Comercial y para ese fin han designado sus Plenipotenciarios, así:

El Presidente de los Estados Unidos de América, al Señor Doctor Don Frank Patrick Corrigan, su Enviado Extraordinario y Ministro Plenipotenciario cerca de la República de El Salvador;

El Presidente de la República de El Salvador, al Señor Doctor Don Miguel Angel Araujo, Secretario de Estado en el Despacho de Relaciones Exteriores,

Quienes, después de haber canjeado sus plenos poderes, y de encontrarlos en buena y debida forma, han convenido en los siguientes artículos:

### ARTICULO I

Los artículos cosechados, producidos o fabricados en los Estados Unidos de América, enumerados y descritos en la Lista I, anexa a este Convenio, y del cual es parte integrante, serán eximidos, a su importación en la República de El Salvador, de los derechos aduaneros ordinarios que excedan a los especificados en dicha Lista. También a dichos artículos se les concederá exención de cualesquiera otros derechos, impuestos, contribuciones, cargas o exacciones sobre o relacionados con las importaciones, que sean en exceso de los que rigen en el día de la firma de este Convenio o de los que han de regir en lo sucesivo conforme a las leyes de la República de El Salvador vigentes en el día de la firma de este Convenio.

### ARTICULO II

Los artículos cosechados, producidos o fabricados en la República de El Salvador, enumerados y descritos en la Lista II, anexa a este Convenio, y del cual es parte integrante, serán eximidos, a su importación en los Estados Unidos de América, de los derechos aduaneros ordinarios que excedan a los especificados en dicha Lista. También a dichos artículos se les concederá exención de cualesquiera otros derechos, impuestos, contribuciones, cargas o exacciones, sobre o relacionados con las importaciones, que sean en exceso de los que rigen en el día de la firma de este Convenio o de los que han de regir en lo sucesivo conforme a las leyes de los Estados Unidos de América, vigentes en el día de la firma de este Convenio.

Mientras estén vigentes las disposiciones sobre cuotas de la llamada "Ley para incluir remolachas y caña de azúcar como artículos agrícolas básicos, conforme la Ley sobre Arreglo Agrónomo, y para otros propósitos", aprobada por el Presidente de los Estados Unidos el 9 de mayo de 1934, modificada y prorrogada por la Resolución Pública No. 109, aprobada el 19 de junio de 1936, o las disposiciones sobre cuotas de cualquiera ley parecida que también establezcan que no se cargue a la cuota de cualquier país el azúcar que tenga descuento o devolución (drawback) en los derechos de dicho país, cualquier azúcar importado a los Estados Unidos de América de la República de El Salvador, con respecto al cual esté permitido un descuento o devolución (drawback) de derechos de aduana, bajo las disposiciones de la Sección 313 del Tariff Act of 1930, no será cargado en la cuota establecida por el Secretario de Agricultura de los Estados Unidos de América para la República de El Salvador.

## ARTICULO III

Los Estados Unidos de América y la República de El Salvador convienen en dar a las notas incluidas en las Listas I y II, fuerza y efecto como partes integrantes de este Convenio.

## ARTICULO IV

Los artículos cosechados, producidos o fabricados en los Estados Unidos de América o en la República de El Salvador estarán exentos, después de su importación en el otro país, de impuestos, contribuciones, cargas o exacciones internas, distintos o mayores que los pagaderos sobre análogos artículos de origen nacional o de cualquier otro origen extranjero.

## ARTICLE V

Con respecto a los artículos cosechados, producidos o fabricados en los Estados Unidos de América o en la República de El Salvador enumerados y descritos en las Listas I y II, respectivamente, que se importen en el otro país, sobre los cuales se imponen o se impusieren derechos *ad valorem*, o derechos basados sobre el valor o determinados de cualquier manera por él, se entiende y se conviene que las bases y los métodos para determinar el monto imponible y para hacer la conversión de la moneda, no serán, de ninguna manera, menos favorables a los importadores que las bases y los métodos prescritos por las leyes y reglamentos de la República de El Salvador y de los Estados Unidos de América, respectivamente, vigentes en el día de la firma de este Convenio.

## ARTICULO VI

1. Los Estados Unidos de América no impondrá prohibición alguna, ni cuotas de importación o aduaneras, permisos de importación o cualquiera otra forma de régimen cuantitativo, sea que éste opere o no en conexión con agencias de control centralizado, sobre la importación o venta de ningún artículo cosechado, producido o fabricado en la República de El Salvador, enumerado y descrito en la Lista II; ni la República de El Salvador impondrá clase alguna de prohibiciones, cuotas de importación o aduaneras, permisos de importación o cualquiera otra forma de régimen cuantitativo, sea que éste opere o no en conexión con agencias de control centralizado, sobre la importación o venta de ningún artículo cosechado, producido o fabricado en los Estados Unidos de América, enumerado y descrito en la Lista I.

2. La disposición precedente no se aplicará a:

a) Las prohibiciones o restricciones: 1) con finalidades morales o humanitarias; 2) destinadas a la protección de la vida humana, animal o vegetal; 3) relativas a efectos fabricados en prisiones; 4) relativas al cumplimiento de leyes policíacas o fiscales; ni a

b) Las restricciones cuantitativas en cualquier forma impuestas por los Estados Unidos de América o por la República de El Salvador sobre importación o venta de cualquier artículo cosechado, producido o fabricado en el otro país, en conexión con medidas gubernativas destinadas a regularizar o controlar la producción, el abastecimiento del mercado, o los precios de artículos nacionales análogos, o tendientes a aumentar el costo del trabajo de producción de dichos artículos. En caso de que el Gobierno de uno u otro de los dos países se proponga establecer o modificar cualquiera restricción autorizada por este inciso, dará aviso de ello al otro Gobierno, por escrito, y comunicará también, a éste, la oportunidad, dentro de treinta días después del recibo de dicho aviso, para consultar con él respecto a la acción propuesta; y si no se llega a un acuerdo con respecto a esa acción dentro

de treinta días después del recibo del aviso mencionado, el Gobierno que se proponga iniciar tal acción, tendrá la libertad de realizarla en cualquier momento, y el otro Gobierno podrá, dentro de los quince días de consumada la acción, quedar también en libertad de dar por terminado este Convenio, por completo, previo aviso, por escrito, con treinta días de anticipación.

3. Queda convenido que las disposiciones de este Artículo no afectan la aplicación de medidas dirigidas contra la falsificación de marcas, adulteración y otras prácticas fraudulentas, tales como las que se prescriben en las leyes de alimentos y drogas de los Estados Unidos de América, ni la aplicación de medidas dirigidas contra prácticas injustas en el comercio de importación, como las prescritas en la Sección 337 de la Ley Arancelaria de 1930 de los Estados Unidos de América.

#### ARTICULO VII

1. Si el Gobierno de los Estados Unidos de América o el de la República de El Salvador establece o mantiene cualquiera clase de restricción cuantitativa o de control sobre la importación o venta de cualquier artículo en el cual el otro país esté interesado, o impone una tasa o contribución más baja sobre la importación o venta de una cantidad determinada de ese artículo que la tarifa o contribución que esté establecida sobre importaciones que sean en exceso de tal cantidad, el Gobierno que así actúe deberá:

a) Dar aviso público de la cantidad total o de cualquier cambio en ella en cuanto a cualquiera de dichos artículos cuya venta o importación sea permitida o los cuales puedan ser importados o vendidos con tal rebaja de tarifa durante un determinado período;

b) Asignar al otro país durante ese determinado período una porción de aquella cantidad total, tal como ésta hubiera sido originalmente establecida o como se hubiera modificado posteriormente en algún modo, equivalente a la proporción de la importación total de ese artículo que ese otro país haya estado proveyendo durante un período representativo anterior, a menos que se convenga mutuamente dispensar tal asignación; y

c) Dar aviso público de la asignación hecha entre los diversos países exportadores, y en todo momento, informar al Gobierno del otro país, al requerirlo, acerca de la cantidad de cualquier artículo de los cosechados, producidos o fabricados que haya sido importada o vendida, correspondiente a cada país exportador, o por la cual se hubiera otorgado a éstos autorización o permiso de importar o vender.

2. Ni los Estados Unidos de América ni la República de El Salvador regulará la cantidad total de importaciones a su territorio o de ventas en el mismo por medio de autorizaciones o permisos de importación emitidos a favor de individuos u organizaciones, de ningún artículo en que el otro país esté interesado, a menos que la cantidad total de dicho artículo cuya importación o venta se permita durante un período de cuota no menor de tres meses, haya sido establecida y a menos que los reglamentos a que esté sujeta la emisión de tales autorizaciones o permisos hayan sido hechos públicos antes de entrar en vigencia.

#### ARTICULO VIII

En caso que el Gobierno de los Estados Unidos de América o el Gobierno de la República de El Salvador establezca o mantenga monopolio oficial para la importación, producción o venta de determinado artículo u otorgue derechos exclusivos, de hecho o de derecho, a una o más agencias para la importación, producción y venta de determinado artículo, el Gobierno del país que establezca o mantenga dicho monopolio o que otorgue tales privilegios de monopolio, se

compromete, con respecto a las compras extranjeras de tal monopolio o agencias, a tratar al comercio del otro país imparcial y equitativamente. A este fin se conviene en que, al efectuar en el extranjero sus compras de cualquier producto, tal monopolio o agencias se regirán solamente por tales consideraciones de precio, calidad, posibilidades y condiciones de venta, que tomaría en cuenta ordinariamente una empresa privada comercial interesada solamente en comprar tal producto bajo las condiciones más favorables.

#### ARTICULO IX

Los Estados Unidos de América y la República de El Salvador se conceden mutuamente las ventajas aduaneras y demás beneficios estipulados en este Convenio, sujetos a la condición de que si el Gobierno de uno u otro país estableciere o mantuviere directa o indirectamente cualquiera forma de control sobre el cambio extranjero, administrará tal control de manera que los nacionales y el comercio del otro país tengan la seguridad de que les corresponda una porción justa y equitativa en la asignación del cambio.

Respecto al cambio aprovechable para las transacciones comerciales, se acuerda que el Gobierno de uno u otro país se regirá en la administración de cualquier forma de control sobre el cambio por el principio de que, lo más aproximadamente posible, la porción del total de cambio disponible que se asigne al otro país no será menor que la porción empleada en un período representativo anterior al establecimiento de cualquier control de cambio, para la liquidación de obligaciones comerciales a favor de nacionales de tal otro país.

El Gobierno de cada país prestará consideración amistosa a cualesquiera representaciones que pueda hacer el otro Gobierno respecto a la aplicación de las disposiciones de este artículo; y si, dentro de treinta días a partir del recibo de tales representaciones, no se hubiere llegado a una solución satisfactoria ni a un acuerdo con respecto a ellas, el Gobierno que haya iniciado las mismas, puede, dentro de los quince días siguientes a la expiración del citado período de treinta días, poner fin a este Artículo o a este Convenio en su totalidad previo aviso por escrito con treinta días de anticipación.

#### ARTICULO X

En lo concerniente a derechos aduaneros o gravámenes de cualquier clase, impuestos sobre o en relación con importaciones o exportaciones, y con respecto al método de aplicación de tales derechos o gravámenes, lo mismo que en lo referente a todos los reglamentos y formalidades relacionados con la importación o exportación, y con respecto a todas las leyes o reglamentos que afecten la venta o uso dentro del país, de las mercaderías importadas, cualquier ventaja, favor, privilegio o inmunidad que haya sido o que en lo adelante pueda ser concedido por los Estados Unidos de América o por la República de El Salvador a cualquier artículo originario de, o destinado a un tercer país, deberá ser acordado inmediata e incondicionalmente al artículo análogo originario de o destinado a la República de El Salvador o a los Estados Unidos de América, respectivamente.

#### ARTICULO XI

Las leyes, los reglamentos de las autoridades administrativas y las decisiones de las autoridades administrativas o judiciales de los Estados Unidos de América o de la República de El Salvador, respectivamente, relativos a la clasificación de artículos para fines aduaneros o tasa de derechos, se publicarán en forma tal que los comerciantes puedan oportunamente enterarse de ellos. Tales leyes, reglamentos

y decisiones de aplicarán con uniformidad en todos los puertos del país respectivo, excepto las disposiciones específicas contenidas en estatutos de los Estados Unidos de América en cuanto se refieren a artículos importados a Puerto Rico.

Ningún decreto administrativo promulgado por los Estados Unidos de América o por la República de El Salvador que aumente la tasa de derechos o las cargas aplicables en conformidad con una práctica uniforme establecida sobre importaciones originarias del territorio del otro país, o que exija algún nuevo requisito para tales importaciones, tendrá efecto retroactivo; asimismo no deberá aplicarse tal disposición a artículos introducidos al país o retirados de la Aduana para el consumo con anterioridad a la expiración de un plazo de treinta días a contar de la fecha de publicación del aviso de tal decreto en la forma oficial acostumbrada. Las disposiciones de este párrafo no son aplicables a órdenes administrativas que establezcan derechos contra el "dumping", ni a las que se refieran a disposiciones para la protección de la vida humana, animal o vegetal, a la seguridad pública, o que den efecto a sentencias judiciales.

#### ARTICULO XII

En caso de gran fluctuación en el tipo de cambio entre la moneda de los Estados Unidos de América y la de la República de El Salvador, el Gobierno de cualquiera de las Partes Contratantes, si estimare dicha fluctuación de tal grado que perjudicare las industrias o el comercio de su país, estará en libertad para iniciar gestiones tendientes a modificar este Convenio, o para poner fin al mismo en su totalidad, previo aviso por escrito con treinta días de anticipación.

#### ARTICULO XIII

No se impondrán en los Estados Unidos de América ni en la República de El Salvador, sobre la importación de artículos cosechados, producidos, manufacturados o fabricados en el otro país, más que multas nominales con motivo de errores de documentación que patentemente se deban a la simple escritura, o sean *lapsus plumae* o *lapsus machinae*.

El Gobierno de cada una de las Partes Contratantes prestará oportuna consideración amistosa a las representaciones que el otro Gobierno pueda hacerle respecto al funcionamiento de las disposiciones aduaneras, restricciones cuantitativas o la administración de las mismas, cumplimiento de formalidades aduaneras y aplicación de leyes sanitarias y reglamentaciones para la protección de la vida humana, animal o vegetal.

#### ARTICULO XIV

Con excepción de lo estipulado en contrario en el segundo párrafo de este artículo, las disposiciones del presente Convenio referentes al tratamiento otorgado por los Estados Unidos de América o por la República de El Salvador, respectivamente, al comercio del otro país, no serán aplicables a las Islas Filipinas, las Islas Vírgenes, la Samoa americana, la Isla Guam ni a la Zona del Canal de Panamá.

Con sujeción a las reservas expresadas en los párrafos tercero, cuarto, y quinto de este Artículo, las estipulaciones del Artículo X serán aplicables a artículos cosechados, producidos o fabricados en cualquier territorio bajo la soberanía o jurisdicción de los Estados Unidos de América o de la República de El Salvador, importados de o exportados a cualquier territorio bajo la soberanía o jurisdicción del otro país. Es entendido, sin embargo, que las disposiciones de este párrafo no son aplicables a la Zona del Canal de Panamá.

Las ventajas que se extienden o que puedan ser extendidas por los Estados Unidos de América o por la República de El Salvador a países contiguos para facilitar el tráfico fronterizo, y las ventajas obtenidas de una unión aduanera de la cual los Estados Unidos de América o la República de El Salvador puedan formar partes, serán exceptuadas de este Convenio.

Las ventajas ahora extendidas o que puedan extenderse en lo sucesivo por los Estados Unidos de América, sus territorios y posesiones o la Zona del Canal de Panamá entre sí, o a la República de Cuba, se exceptuarán de este Convenio. Las disposiciones de este párrafo continuarán en vigor con respecto a cualquiera ventaja extendida o que pueda extenderse en lo sucesivo por los Estados Unidos de América, sus territorios o posesiones o la Zona del Canal de Panamá, a las Islas Filipinas, prescindiendo de cualquier cambio en el status político de las Islas Filipinas.

Se exceptuarán de los efectos de este Convenio las ventajas acordadas o que después acuerde la República de El Salvador al comercio de Costa Rica, Guatemala, Honduras, Nicaragua y Panamá mientras tales ventajas no se concedan a cualquier otro país.

Salvo específicas disposiciones en contrario de este Convenio, las estipulaciones del mismo no se interpretarán como aplicables a los reglamentos sanitarios y policíacos y nada de este Convenio se interpretará como contrario a la adopción de medidas que prohiban o restrinjan la exportación de oro o plata, ó a la adopción de las medidas que cualquiera de los Gobiernos contratantes crea necesarias para controlar la exportación o venta de armas, municiones o implementos de guerra, y, en circunstancias excepcionales, de todo otro material necesario para la guerra.

#### ARTICULO XV

En caso de que el Gobierno de los Estados Unidos de América o el Gobierno de la República de El Salvador adopte medida alguna que, aun cuando no esté en conflicto con los términos de este Convenio, según la opinión del Gobierno del otro país, tenga el efecto de invalidar o perjudicar cualquiera finalidad de este Convenio, el Gobierno que haya adoptado tal medida considerará las representaciones y proposiciones que el otro Gobierno pueda hacer con el objeto de efectuar un arreglo mutuamente satisfactorio de ese asunto.

#### ARTICULO XVI

Nada de lo expresado en este Convenio se interpretará de tal manera que afecte los derechos y las obligaciones provenientes del Tratado de Amistad, Comercio y Prerrogativas Consulares entre los Estados Unidos de América y la República de El Salvador firmado en la ciudad de San Salvador a los veintidós días del mes de febrero de mil novecientos veintiséis.

#### ARTICULO XVII

El presente Convenio entrará en pleno vigor el trigésimo día después de la proclamación del mismo por el Presidente de los Estados Unidos de América y por el Presidente de la República de El Salvador o en el caso de que las proclamaciones fueran promulgadas en diferentes fechas, el trigésimo día después de la fecha de la última proclamación; y quedará en vigor durante los tres años subsiguientes, a menos que sea terminado antes de acuerdo con las disposiciones de los Artículos VI, IX o XII. El Gobierno de cada una de las Partes Contratantes notificará al Gobierno de la otra Parte la fecha de su proclamación.

A no ser que por lo menos seis meses antes de la terminación del precitado plazo de tres años el Gobierno de uno u otro de los dos países le haya notificado al otro su intención de terminar el Convenio al cumplirse el antedicho plazo, el Convenio quedará en vigor después de tal fecha, sujeto a ser terminado de acuerdo con las disposiciones de los Artículos VI, IX o XII hasta seis meses a partir de la fecha en que el Gobierno de uno u otro país haya notificado esa determinación al otro Gobierno.

En testimonio de lo cual los respectivos Plenipotenciarios firman y sellan este Convenio.

Hecho en cuadruplicado: dos ejemplares en español y dos en inglés, los cuatro auténticos, en la ciudad de San Salvador, a los diez y nueve días del mes de febrero de mil novecientos treinta y siete.

### A PROCLAMATION

Reciprocal trade  
agreement with Costa  
Rica.  
48 Stat. 943.  
19 U. S. C. § 1351.

WHEREAS it is provided in the Tariff Act of 1930 of the Congress of the United States of America, as amended by the Act of June 12, 1934, entitled "An Act To amend the Tariff Act of 1930" (48 Stat. 943), as follows:

Statutory provi-  
sions.

"Sec. 350 (a) For the purpose of expanding foreign markets for the products of the United States (as a means of assisting in the present emergency in restoring the American standard of living, in overcoming domestic unemployment and the present economic depression, in increasing the purchasing power of the American public, and in establishing and maintaining a better relationship among various branches of American agriculture, industry, mining, and commerce) by regulating the admission of foreign goods into the United States in accordance with the characteristics and needs of various branches of American production so that foreign markets will be made available to those branches of American production which require and are capable of developing such outlets by affording corresponding market opportunities for foreign products in the United States, the President, whenever he finds as a fact that any existing duties or other import restrictions of the United States or any foreign country are unduly burdening and restricting the foreign trade of the United States and that the purpose above declared will be promoted by the means hereinafter specified, is authorized from time to time—

"(1) To enter into foreign trade agreements with foreign governments or instrumentalities thereof; and

"(2) To proclaim such modifications of existing duties and other import restrictions, or such additional import restrictions, or such continuance, and for such minimum periods, of existing customs or excise treatment of any article covered by foreign trade agreements, as are required or appropriate to carry out any foreign trade agreement that the President has entered into hereunder. No proclamation shall be made increasing or decreasing by more than 50 per centum any existing rate of duty or transferring any article between the dutiable and free lists. The proclaimed duties and other import restrictions shall apply to articles the growth, produce, or manufacture of all foreign countries, whether imported directly, or indirectly: *Provided*, That the President may suspend the application to articles the growth, produce, or manufacture of any country because of its discriminatory treatment of American commerce or because of other acts or policies which in his opinion tend to defeat the purposes set forth in this section; and the proclaimed duties and other import restrictions shall be in effect from and after such time as is specified in the proclamation. The President may at any time terminate any such proclamation in whole or in part."

WHEREAS I, Franklin D. Roosevelt, President of the United States of America, have found as a fact that certain existing duties and other import restrictions of the United States of America and the Republic of Costa Rica are unduly burdening and restricting the foreign trade of the United States of America and that the purpose declared in the said Tariff Act of 1930, as amended by the said Act of June 12, 1934, will be promoted by a foreign trade agreement between the United States of America and the Republic of Costa Rica;

Promotion of foreign trade.

WHEREAS reasonable public notice of the intention to negotiate such foreign trade agreement was given and the views presented by persons interested in the negotiation of such agreement were received and considered;

#### ARTICLE IX

Control of foreign exchange.

The tariff advantages and other benefits provided for in this Agreement are granted by the United States of America and the Republic of Costa Rica to each other subject to the condition that if the Government of either country shall establish or maintain, directly or indirectly, any form of control of foreign exchange, it shall administer such control so as to insure that the nationals and commerce of the other country will be granted a fair and equitable share in the allotment of exchange.

#### ARTÍCULO IX

Los Estados Unidos de América y la República de Costa Rica se conceden mutuamente las ventajas de tarifa y demás beneficios estipulados en este Convenio sujetos a la condición de que si el Gobierno de uno u otro país, directa o indirectamente, estableciere o mantuviere alguna forma de control, sobre el cambio extranjero, administrará tal control en forma que asegure a nacionales y comercio del otro país garantía de justa y equitativa parte en las asignaciones del cambio.

With respect to the exchange made available for commercial transactions, it is agreed that the Government of each country shall be guided in the administration of any form of control of foreign exchange by the principle that, as nearly as may be determined, the share of the total available exchange which is allotted to the other country shall not be less than the share employed in a previous representative period prior to the establishment of any exchange control for the settlement of commercial obligations to the nationals of such other country.

With respect to non-commercial transactions it is agreed that the Government of each country shall apply any form of control of foreign exchange in a non-discriminatory manner as between the nationals of the other country and the nationals of any third country.

Con respecto a transacciones no comerciales, se acuerda que el Gobierno de cada país administrará cualquiera forma de control de cambio extranjero, de manera que no habrá distinción entre los nacionales del otro país y los de cualquier tercer país.

El Gobierno de cada país considerará amistosamente cualesquiera representaciones que el otro Gobierno pueda hacer respecto la aplicación de las estipulaciones de este artículo. Si, dentro de los treinta días de recibidas tales representaciones, no se llega a arreglo satisfactorio ni se ajusta acuerdo respecto de ellas, el Gobierno que las hace puede, dentro de los quince días posteriores a la expiración del mencionado plazo de treinta días, terminar este artículo o el Convenio en su totalidad a los treinta días de notificación escrita.

Subject to the reservations set forth in the third, fourth, and fifth paragraphs of this Article, the provisions of Article X shall apply to articles the growth, produce or manufacture of any territory under the sovereignty or authority of the United States of America or the Republic of Costa Rica, imported from or exported to any territory under the sovereignty or authority of the other country. It is understood, however, that the provisions of this paragraph do not apply to the Panama Canal Zone.

3. The advantages now accorded or which may hereafter be accorded by the United States of America or the Republic of Costa Rica to adjacent countries in order to facilitate frontier traffic and advantages resulting from a customs union to which either the United States of America or the Republic of Costa Rica may become a party shall be excepted from the operation of this Agreement.

4. The advantages now accorded or which may hereafter be accorded by the Republic of Costa Rica to the commerce of Guatemala, El Salvador, Honduras, Nicaragua or Panama, so long as any such advantage is not accorded to any other country, shall be excepted from the operation of this Agreement.

5. The advantages now accorded or which may hereafter be accorded by the United States of America, its territories or possessions or the Panama Canal Zone to one another or to the Republic of Cuba shall be excepted from the operation of this Agreement. The provisions of this paragraph shall continue to apply in respect to any advantages now or hereafter accorded by the United States of America, its territories or possessions or the Panama

Se entiende, sin embargo, que las disposiciones de este párrafo no se aplican a la Zona del Canal de Panamá.

3. Se exceptuarán de los efectos de este Convenio las ventajas ya acordadas o que en lo sucesivo se acordaren por los Estados Unidos de América o la República de Costa Rica a países adyacentes para facilitar el tráfico fronterizo, y las ventajas resultantes de una unión aduanera de que los Estados Unidos de América o la República de Costa Rica puedan formar parte.

4. Se exceptuarán de los efectos de este Convenio las ventajas ya acordadas o que en lo futuro acuerde la República de Costa Rica al Comercio de Guatemala, El Salvador, Honduras, Nicaragua, o Panamá, mientras tales ventajas no se concedan a cualquier otro país.

5. Se exceptuarán de este Convenio las ventajas ya acordadas o que en lo sucesivo se acordaren por los Estados Unidos de América, sus territorios o posesiones o por la Zona del Canal de Panamá entre sí o a la República de Cuba. Las disposiciones de este párrafo continuarán aplicándose respecto de cualesquiera ventajas que ahora o después acuerden los Estados Unidos de América, sus territorios o posesiones o la Zona del Canal de Panamá, a Islas Filipinas, con

#### ARTÍCULO XV

En caso de que los Estados Unidos de América o la República de Costa Rica adopten cualquier medida que, aunque sin contradecir los términos de este Convenio, se considere por el Gobierno del otro país como nulificando o perjudicando cualquiera de los objetos del Convenio, el Gobierno del país que la haya adoptado considerará las representaciones y propuestas que el Gobierno del otro país pueda hacer con la mira de efectuar un arreglo mutuamente satisfactorio del asunto.

August 4, 1937  
[E. A. S. No. 105]

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

### A PROCLAMATION.

WHEREAS, by my authority, the Ambassador Extraordinary and Plenipotentiary of the United States of America to the Union of Soviet Socialist Republics exchanged at Moscow on August 4, 1937, with the authorized representative of the Union of Soviet Socialist Republics identic notes, constituting an agreement in regard to commerce between the United States of America and the Union of Soviet Socialist Republics and the continuance of favorable commercial relations between the two Governments, the texts of which notes are word for word as follows:

Commercial, etc.,  
agreement with the  
Union of Soviet So-  
cialist Republics.

Texts of notes.

Moscow, August 4, 1937.

#### EXCELLENCY:

With reference to recent conversations which have taken place in regard to commerce between the United States of America and the Union of Soviet Socialist Republics, I have the honor to confirm and to make of record by this note the following agreement which has been reached between the Governments of our respective countries:

Confirmation by  
United States of  
America.

One. The United States of America will grant to the Union of Soviet Socialist Republics unconditional and unrestricted most-favored-nation treatment in all matters concerning customs duties and charges of every kind and in the method of levying duties, and, further, in all matters concerning the rules, formalities and charges imposed in connection with the clearing of goods through the customs, and with respect to all laws or regulations affecting the sale or use of imported goods within the country.

Most-favored-nation  
treatment.

Accordingly, natural or manufactured products having their origin in the Union of Soviet Socialist Republics shall in no case be subject, in regard to the matters referred to above, to any duties, taxes or charges other or higher, or to any rules or formalities other or more burdensome, than those to which the like products having their origin in any third country are or may hereafter be subject.

Similarly, natural or manufactured products exported from the territory of the United States of America and consigned to the territory of the Union of Soviet Socialist Republics shall in no case be subject with respect to exportation and in regard to the above-mentioned matters, to any duties, taxes, or charges other or higher, or to any rules or formalities other or more burdensome, than those to

which the like products when consigned to the territory of any third country are or may hereafter be subject.

Any advantage, favor, privilege or immunity which has been or may hereafter be granted by the United States of America in regard to the above-mentioned matters, to a natural or manufactured product originating in any third country or consigned to the territory of any third country shall be accorded immediately and without compensation to the like product originating in or consigned to the territory of the Union of Soviet Socialist Republics.

It is understood that so long as and in so far as existing law of the United States of America may otherwise require, the foregoing provisions, in so far as they would otherwise relate to duties, taxes or charges on coal, coke manufactured therefrom, or coal or coke briquettes, shall not apply to such products imported into the United States of America. If the law of the United States of America shall not permit the complete operation of the foregoing provisions with respect to the above-mentioned products, the Union of Soviet Socialist Republics reserves the right within fifteen days after January 1, 1938, to terminate this agreement in its entirety on thirty days' written notice.

U. S. trade with its possessions, Philippine Islands, etc.

It is understood, furthermore, that the advantages now accorded or which may hereafter be accorded by the United States of America, its territories or possessions, the Philippine Islands, or the Panama Canal Zone to one another or to the Republic of Cuba shall be excepted from the operation of this agreement.

Adoption of measures prohibiting, etc., exportation of gold or silver.

Export or sale for export of munitions, etc.

Nothing in this agreement shall be construed to prevent the adoption of measures prohibiting or restricting the exportation or importation of gold or silver, or to prevent the adoption of such measures as the Government of the United States of America may see fit with respect to the control of the export or sale for export of arms, ammunition, or implements of war, and, in exceptional cases, all other military supplies. It is understood that any action which may be taken by the President of the United States of America under the authority of Section 2 (b) of the Neutrality Act of 1937 in regard to the passage of title to goods shall not be considered as contravening any of the provisions of this agreement relating to the exportation of natural or manufactured products from the territory of the United States of America.

#### Exceptions.

Subject to the requirement that no arbitrary discrimination shall be effected by the United States of America against importations from the Union of Soviet Socialist Republics and in favor of those from any third country, the foregoing provisions shall not extend to prohibitions or restrictions (1) imposed on moral or humanitarian grounds, (2) designed to protect human, animal, or plant life, (3) relating to prison-made goods, or (4) relating to the enforcement of police or revenue laws.

U. S. S. R. to take steps for increasing purchases in U. S.

Two. On its part the Government of the Union of Soviet Socialist Republics will take steps to increase substantially the amount of purchases in the United States of America for export to the Union of Soviet Socialist Republics of articles the growth, produce, or manufacture of the United States of America.

Effective date of agreement.

Three. This agreement shall come into force on the day of proclamation thereof by the President of the United States of America and of approval thereof by the Soviet of People's Commissars of the Union of Soviet Socialist Republics, which proclamation and approval shall take place on the same day. It shall continue in effect for twelve months. Both parties agree that not less than thirty days

prior to the expiration of the aforesaid period of twelve months they shall start negotiations regarding the extension of the period during which the present agreement shall continue in force.

Accept, Excellency, the renewed assurances of my highest consideration.

One. The United States of America will grant to the Union of Soviet Socialist Republics unconditional and unrestricted most-favored-nation treatment in all matters concerning customs duties and charges of every kind and in the method of levying duties, and, further, in all matters concerning the rules, formalities, charges imposed in connection with the clearing of goods through the customs, and with respect to all laws or regulations affecting the sale or use of imported goods within the country.

Accordingly, natural or manufactured products having their origin in the Union of Soviet Socialist Republics shall in no case be subject, in regard to the matters referred to above, to any duties, taxes or charges other or higher, or to any rules or formalities other or more burdensome, than those to which the like products having their origin in any third country are or may hereafter be subject.

respect to the above-mentioned products, the Union of Soviet Socialist Republics reserves the right within fifteen days after January 1, 1938, to terminate this agreement in its entirety on thirty days' written notice.

It is understood, furthermore, that the advantages now accorded or which may hereafter be accorded by the United States of America, its territories or possessions, the Philippine Islands, or the Panama Canal Zone to one another or to the Republic of Cuba shall be excepted from the operation of this agreement.

Nothing in this agreement shall be construed to prevent the adoption of measures prohibiting or restricting the exportation or importation of gold or silver, or to prevent the adoption of such measures as the Government of the United States of America may see fit with respect to the control of the export or sale for export of arms, ammunition, or implements of war, and, in exceptional cases, all other military supplies. It is understood that any action which may be taken by the President of the United States of America under the authority of Section 2 (b) of the Neutrality Act of 1937 in regard to the passage to title to goods shall not be considered as contravening any of the provisions of this agreement relating to the exportation of natural or manufactured products from the territory of the United States of America.

Subject to the requirement that no arbitrary discrimination shall be effected by the United States of America against importations from the Union of Soviet Socialist Republics and in favor of those from any third country, the foregoing provisions shall not extend to prohibitions or restrictions (1) imposed on moral or humanitarian grounds, (2) designed to protect human, animal, or plant life, (3) relating to prison-made goods, or (4) relating to the enforcement of police or revenue laws.

LEGACIÓN DE PANAMÁ,  
Washington, Agosto 17 de 1937.

SEÑOR SECRETARIO:

Tengo el honor de referirme a la nota de ese Departamento fechada el 17 de Marzo de 1937 <sup>1</sup> y a la cocrrespondencia anterior referente a la recíproca exención de los barcos de la República de Panamá y de los Estados Unidos de América en cuanto al aforo de su tonelaje en los puertos de los respectivos países.

El Gobierno de Panamá adoptó las leyes y reglamentos de los Estados Unidos para el aforo de los barcos al ser matriculados, por medio de su Resolución N° 1, de 5 de Enero de 1937, que establece la reglamentación del tonelaje (Véase la *Gaceta Oficial* de Panamá, de 8 de Enero de 1937). Esto le fué debidamente comunicado a Vuestra Excelencia, para su información, en mi nota N° D-21, de 22 de Enero de 1937 y en respuesta Vuestra Excelencia solicitó que se le informara acerca de las opiniones de mi Gobierno respecto a la propuesta de un arreglo recíproco para la aceptación de los certificados de matrícula y del apéndice de tonelaje especial en los puertos de ambos países.

Conforme a instrucciones de mi Gobierno, tengo ahora el honor de avisar a Vuestra Excelencia que los barcos de los Estados Unidos que lleven certificado de matrícula u otros documentos nacionales que prueben su tonelaje neto según aforo y que se les hayan expedido conforme a las leyes y reglamentos de los Estados Unidos, quedarán exentos de reaforo en todos los puertos de la República de Panamá, con tal que los barcos de matrícula panameña que hayan sido aforados o medidos de conformidad con la antedicha resolución y que porten certificado de matrícula u otros documentos nacionales que demuestren su tonelaje neto según aforo verificado así, quedarán recíprocamente exentos de reaforo en todos los puertos de los Estados Unidos.

Se tiene entendido además, que los barcos para pasajeros, de Panamá y de los Estados Unidos, portarán un Apéndice de Tonelaje especial con cada una de sus matrículas, para probar todos los espacios destinados a pasajeros y que las leyes de los Estados Unidos no requieren actualmente que se les mida para su matriculación, anexos que se usarán para determinar los derechos de puerto y otros impuestos que se basan en el tonelaje neto de los barcos.

Ruego a Vuestra Excelencia que tenga la bondad de confirmar el acuerdo que se expresa en la presente.

The Postal Administrations of the two contracting countries will not be responsible for the loss, abstraction or damage of an ordinary parcel; but either Administration is at liberty to pay indemnity for the loss, abstraction or damage which may occur in its service, without recourse to the other Administration.

Sauf dans les cas mentionnés au paragraphe suivant, les Administrations sont responsables de la perte des colis assurés déposés dans l'un des deux pays contractants pour être livrés dans l'autre, et pour la perte, l'abstraction ou le dommage de leur contenu ou une partie de tel contenu. L'expéditeur ou un autre ayant-droit a le droit, de ce chef, à une indemnité qui corresponde au montant réel de la perte, de l'abstraction ou du dommage. Le montant de l'indemnité est calculé sur la base de la valeur réelle (le prix courant, ou, à son défaut, la valeur ordinaire appréciée) au lieu et à l'époque où le colis a été accepté au transport; pourvu que l'indemnité ne puisse en aucun cas être supérieure à la somme pour laquelle le colis a été assuré, sur laquelle la taxe à la valeur a été perçue, ni au maximum de 100 dollars (500 francs-or).

Except in the cases mentioned in the Section following, the Administrations are responsible for the loss of insured parcels mailed in one of the two contracting countries for delivery in the other and for the loss, abstraction or damage to their contents, or a part thereof. The sender, or other rightful claimant, is<sup>1</sup> entitled on this account to an indemnity corresponding to the actual amount of the loss, abstraction or damage. The amount of indemnity is calculated on the basis of the actual value (current price, or, in the absence of current price, the ordinary estimated value) at the place where and the time when the parcel was accepted for mailing, provided in any case that the indemnity may not be greater than the amount for which the parcel was insured, and on which the insurance fee has been collected or the maximum amount of \$100 (500 gold francs).

Dans le cas où l'indemnité est payable pour la perte d'un colis ou pour la destruction ou abstraction de son contenu entier, l'expéditeur a le droit à la restitution des taxes postales, sur demande. Toutefois, les droits d'assurance ne sont remboursés dans aucun cas.

In the case where indemnity is payable for the loss of a parcel or for the destruction or abstraction of the whole of the contents thereof, the sender is entitled to the return of the postal charges, if claimed. However, the insurance fees are not in any case returned.

Sauf arrangement spécial contraire entre les pays intéressés, aucune indemnité ne sera payée par l'un ou l'autre des pays pour la perte de colis assurés en transit originaires d'un pays qui ne participe pas à cet Arrangement, à destination de l'un des deux pays contractants.

Lorsqu'un colis avec valeur déclarée provenant d'un pays et destiné à être remis dans l'autre pays est réexpédié de la sur un tiers pays ou y est renvoyé à la demande de l'expéditeur ou du destinataire, l'ayant-droit à l'indemnité, en cas de perte, de spoliation ou d'avarie survenue subséquemment à la réexpédition ou au renvoi du colis par le pays de l'adresse primitive, ne peut prétendre, le cas échéant, qu'à l'indemnité que consent à verser ou-suivant l'entente intervenue entre les pays intéressés directement à la réexpédition ou au renvoi-que doit payer le pays où le fait s'est produit. Chacun des deux pays signataires du présent Arrangement qui réexpédie à tort un colis avec valeur déclarée sur un tiers pays, est responsable envers l'expéditeur dans la même mesure que le pays d'origine, donc dans les limites du présent Arrangement.

2. Les Administrations sont dégagées de toute responsabilité:

a) En cas de colis dont les destinataires ont pris livraison sans réserves.

b) En cas de perte ou d'avarie due à la force majeure; bien que chacune des Administrations puisse, de son gré et sans recours contre l'autre Administration, payer indemnité pour la perte ou l'avarie due à la force majeure, même si l'Administration du pays dans le service duquel la perte ou l'avarie a eu lieu reconnaît que le dommage a été causé par la force majeure.

c) Lorsqu'elles ne sont pas à même de se rendre compte des colis à la suite de la destruction des documents officiels due à la force majeure.

In the absence of special agreement to the contrary between the countries involved, no indemnity will be paid by either country for the loss of transit insured parcels originating in a country not participating in this Agreement and destined for one of the two contracting countries.

When an insured parcel originating in one country and destined to be delivered in the other country is reforwarded from there to a third country or is returned to a third country, at the request of the sender or of the addressee, the party entitled to the indemnity in case of loss, rifling or damage occurring subsequent to the reforwarding or return of the parcel by the original country of destination, can lay claim, in such a case, only to the indemnity which the country where the loss, rifling or damage occurred consents to pay, or which that country is obligated to pay in accordance with the agreement made between the countries directly interested in the reforwarding or return. Either of the two countries signing the present Agreement which wrongly forwards an insured parcel to a third country is responsible to the sender to the same extent as the country of origin, that is, within the limits of the present Agreement.

2. The Administrations are relieved of all responsibility:

a) In case of parcels of which the addressee has accepted delivery without reservation.

b) In case of loss or damage through force majeure (causes beyond control) although either Administration may at its option and without recourse to the other Administration pay indemnity for loss or damage due to force majeure even in cases where the Administration of the country in the service of which the loss or damage occurred recognizes that the damage was due to force majeure.

e) Pour les colis qui contiennent des objets interdits.

f) Au cas où l'expéditeur d'un colis assuré, avec intention frauduleuse, déclare le contenu avec une valeur supérieure à sa valeur réelle; cette règle ne porte préjudice à aucun poursuit judiciaire nécessité par la législation du pays d'origine.

g) Pour les colis saisis par la douane à la suite d'une fausse déclaration de leur contenu.

h) Lorsqu'une réclamation ou une application d'indemnité n'a pas été présentée par le réclamant ou son agent dans la période d'un an à compter du lendemain du dépôt du colis assuré.

g) For parcels seized by the customs because of false declaration of contents.

h) When no inquiry or application for indemnity has been made by claimant or his representative within a year commencing with the day following the posting of the insured parcel.

i) For parcels which contain matter of no intrinsic value or perishable matter or which did not conform to the stipulations of this Agreement or which were not posted in the manner prescribed, but the country responsible for the loss, rifling or damage may pay indemnity in respect of such parcels without recourse to the other Administration.

3. No indemnity is paid for indirect damages or loss of profits resulting from the loss, rifling, damage, non-delivery, mis-delivery or delay of an insured parcel dispatched in accordance with the conditions of the present Agreement.

4. The payment of compensation for an insured parcel shall be made to the rightful claimant as soon as possible and at the latest within a period of one year counting from the day following that on which the application is made.

However, the paying Postal Administration may exceptionally defer payment of indemnity for a longer period than that stipulated if, at the expiration of that period, it has not been able to determine

établir le sort de l'objet dont il s'agit ni la responsabilité encourue.

5. Sauf les cas où le paiement est exceptionnellement différé en conformité avec le deuxième alinéa du paragraphe précédent, l'Administration postale qui se charge du paiement de la compensation est autorisée à payer l'indemnité pour le compte de l'Office qui, ayant été dûment notifié de la demande d'indemnité, a laissé s'écouler neuf mois sans donner de solution à l'affaire.

6. L'obligation de payer l'indemnité incombe à l'Administration postale dont dépend le bureau d'origine, pourvu qu'au cas où l'indemnité est payée au destinataire selon le premier alinéa du paragraphe 1, elle incombe à l'Administration postale de destination.

L'Administration payeuse se réserve le droit de soumettre une demande de remboursement à l'Administration responsable.

Par le fait du paiement de l'indemnité, et jusqu'à concurrence du montant de telle indemnité, l'Administration responsable est subrogée dans les droits de la personne qui l'a reçue, pour tout recours éventuel, soit contre le destinataire, soit contre l'expéditeur ou contre des tiers.

Cependant, si des colis considérés comme perdus sont retrouvés, totalement ou partiellement, la personne à qui l'indemnité a été payée sera avisée qu'elle peut reprendre possession de l'envoi contre restitution du montant de l'indemnité qui lui a été payée.

7. Jusqu'à preuve du contraire, la responsabilité pour un colis assuré incombe à l'Administration qui, ayant reçu le colis sans formuler de réserves et étant mis en possession de tous les moyens réglementaires d'investigation, ne peut établir le sort du colis.

8. Lorsque la perte, la spoliation ou l'avarie d'un colis avec valeur déclarée est constatée lors de l'ouverture du récipient par le

5. Except in cases where payment is exceptionally deferred as provided in the second paragraph of the foregoing section, the Postal Administration which undertakes the payment of compensation is authorized to pay indemnity on behalf of the Office, which, after being duly informed, of the application for indemnity, has let nine months pass without settling the matter.

6. The obligation of paying the indemnity shall rest with the Postal Administration to which the mailing office is subordinate, provided that in cases where the indemnity is paid to the addressee in accordance with the second paragraph of Section 1, it shall rest with the Postal Administration of destination.

The paying Administration retains the right to make a claim against the Administration responsible.

By the fact of the payment of the indemnity, and up to the amount of such indemnity, the responsible Administration is subrogated to the rights of the person who has received the indemnity for all eventual recourse against either the addressee, the sender or third parties.

However, if parcels considered as lost are subsequently found again, in whole or in part, the person to whom the indemnity has been paid will be informed that he may regain possession of the recovered article by repaying the amount of the indemnity which has been paid to him.

7. Until the contrary is proved, responsibility for an insured parcel rests with the Administration which, having received the parcel without making any reservations, and being put in possession of all the regulation means of investigation, can not establish the disposition of the parcel.

If this is impossible, they are returned to origin.

When the reforwarding involves the dispatch of a parcel to a third country and if the amount credited to the retransmitting Administration is insufficient to cover the expenses of retransmission which it has to defray, the retransmitting Administration allows to the Administration to which it forwards the parcel the credits due it; it then recovers the amount of the deficiency by claiming it from the office of exchange from which the missent parcel was directly received. The reason for this claim is notified to the latter by means of a Bulletin of Verification.

3. At the request of the sender or addressee, parcels may also be reforwarded or returned to another country. Insured parcels may not, however, be reforwarded or returned except as such. The senders may mark the parcels: "Do not forward to a third country." In that case the parcels must not be reforwarded to any other country. In case of loss, rifling or damage of an insured parcel reforwarded to another country, or returned by that country, the indemnity is decided upon exclusively in accordance with the provisions of Article 7, Section 1, 5th paragraph.

Les colis que le destinataire refuse d'accepter doivent être renvoyés immédiatement. 4. Les colis sujets à détérioration ou à corruption peuvent être vendus immédiatement, même en route, à l'aller ou au retour, sans avis préalable, et sans formalité judiciaire, au profit de qui de droit.

Si, pour une cause quelconque, la vente est impossible, les objets détériorés ou corrompus sont détruits. La vente ou la destruction donne lieu à l'établissement d'un procès-verbal qui est envoyé à l'Administration d'origine.

5. Les colis tombés en rebut dont l'expéditeur a fait abandon, peuvent, à l'expiration du délai de 30 jours, être vendus au profit de l'Administration du pays de destination. ART. 1.

*Conditionnement des Colis.*

1. Le nom et l'Adresse de l'expé-  
diteur et du destinataire doivent  
être écrits d'une façon lisible et  
exacte, si possible sur le colis  
même ou sur une étiquette fixée  
solidement à l'envoi.

Il est recommandé d'insérer un  
double de l'adresse dans chaque  
colis, surtout lorsque l'usage d'une  
étiquette volante est rendu né-  
cessaire par le conditionnement  
ou par la forme de l'envoi.

Les colis dont l'adresse de l'ex-  
péditeur ou du destinataire con-  
siste en initiales seulement ne  
sont pas admis, à moins que les  
initiales ne soient la raison so-  
ciale adoptée de l'expéditeur ou du  
destinataire, généralement  
reconnu.

Les adresses au crayon ne sont  
pas admises. Sont toutefois ac-  
ceptées les adresses écrites au  
crayon-encre, sur un fond préa-  
lablement mouillé.

2. Chaque colis doit être em-  
ballé de manière que le contenu  
soit préservé pendant toute la  
durée du transport, et de façon  
à empêcher le contenu d'endom-  
mager des autres colis ou envois,  
ou blesser les agents postaux.  
L'emballage doit protéger le con-  
tenu suffisamment afin que les  
traces soient faciles à découvrir  
en cas de spoliation.

Les colis avec valeur déclarée  
doivent être scellés par des cachets  
à la cire, par des plombs ou par un  
autre moyen équivalent. Pour les  
colis ordinaires, un ficelage soi-  
gneux suffit comme moyen de fer-  
meture, mais ils peuvent aussi  
être scellés.

ART. 1.

*Preparation of parcels.*

1. The name and address of the  
sender and of the addressee must  
be written, legibly and correctly,  
if possible on the parcel itself,  
or on a label affixed securely to  
the parcel.

It is recommended that a dupli-  
cate of the address be inserted in  
every parcel, especially when the  
use of a tag is rendered necessary  
by the packing or form of the  
parcel.

Parcels on which the name of the  
sender or of the addressee is indi-  
cated merely by initials are not  
admitted unless the initials are the  
adopted trade name of the sender,  
or addressee, which is generally  
understood.

Addresses in pencil are not ad-  
mitted. However, addresses writ-  
ten in indelible pencil on a previ-  
ously dampened surface are ac-  
cepted.

2. Each parcel must be packed  
in such a manner that the contents  
are protected over the whole  
route, and in such a way as to  
prevent the contents from damag-  
ing other parcels or objects or  
injuring postal agents. The pack-  
ing must protect the contents  
sufficiently that, in case of rifling,  
the traces thereof may be easily  
discovered.

Insured parcels must be sealed  
with wax or lead or by some equiv-  
alent means. For ordinary par-  
cels, careful tying is sufficient as  
a mode of closing, but they may  
also be sealed.

Preparation of par-  
cels.

Comme mesure de sécurité, chaque Administration peut exiger qu'une empreinte ou marque spéciale de l'expéditeur figure sur les plombs ou cachets de fermeture des colis avec valeur déclarée.

L'Administration des douanes du pays de destination est autorisée à ouvrir les colis. A cet effet, les cachets ou toute autre fermeture peuvent être brisés ou rompus. Les envois ouverts par la douane doivent être refermés et, en outre, scellés d'office, si l'expéditeur les avait scellés.

3. Pour les colis avec valeur déclarée, le montant de la valeur déclarée doit figurer sur le colis, exprimé dans la monnaie du pays d'origine, en caractères latins. Ce montant doit être converti en francs-or par l'expéditeur ou par le bureau d'origine, et le résultat de la conversion est ajouté au-dessous de l'indication originale. Le montant de la valeur assurée doit aussi être indiqué sur le bulletin d'expédition.

4. Chaque colis avec valeur déclarée doit porter du côté de l'adresse un numéro (insurance number) et l'indication "insured" ou "valeur déclarée". Le même numéro d'assurance et la même annotation doivent également figurer sur le bulletin d'expédition.

5. Les étiquettes ou timbres-poste apposés sur les colis avec valeur déclarée doivent être espacés afin qu'ils ne puissent servir à cacher des lésions de l'emballage. Ils ne doivent pas, non plus, être repliés sur deux faces de l'emballage, de manière à couvrir la bordure.

6. Les liquides et les corps facilement liquéfiables doivent être expédiés dans un double récipient. Entre le premier (bouteille, flacon, boîte, etc.) et le second (boîte en métal, en bois résistant, en fibre de solide qualité ou récipient de résistance équivalente), une espace doit être laissée qui sera remplie de sciure, de son ou de toute autre matière spongieuse, en quantité suffisante pour absorber tout le liquide en cas de bris du récipient.

As a protective measure, either Administration may require that a special imprint or mark of the sender appear on the wax or lead seals closing insured parcels.

The Customs Administration of the country of destination is authorized to open the parcels. To that end, the seals of<sup>1</sup> any other fastenings may be broken. Parcels opened by the customs must be refastened and also officially sealed, if the sender has sealed them.

3. For insured parcels, the amount of insured value must appear on the parcel in the currency of the country of origin and in Roman letters. This amount must be converted into gold francs by the sender or by the office of origin, and the result of the conversion is added below the original indication. The amount of the insured value must also be indicated on the dispatch note.

4. Each insured parcel must bear on the address side an insurance number and the notation "Insured" or "Valeur déclarée". The same insurance number and notation must also be shown on the dispatch note.

5. The labels or postage stamps affixed to insured parcels must be spaced so that they cannot serve to conceal injuries to the packing. Neither must they be folded over two faces of the wrapping so as to cover the edge.

6. Liquids and easily liquefiable substances must be sent in a double receptacle. Between the first (bottle, flask, box, etc.) and the second (box of metal, strong wood, or strong carton of fiber-board, or receptacle of equal strength), there must be left a space to be filled with sawdust, bran or other absorbent material, in sufficient quantity to absorb all the liquid in case that the receptacle is broken.

<sup>1</sup> So in original.

7. Les poudres et les matières colorantes en poudre doivent être emballés dans de fortes boîtes en fer-blanc ou autre métal, qui, après avoir été soudées, seront placées à leur tour dans des emballages extérieurs résistants de manière à exclure tout endommagement d'autres envois.

7. Powders and dyes in powder form must be packed in strong boxes of tin or other metal, which, after soldering, must be placed in turn in substantial outer covers in such a way as to avoid all damage to other articles.

ART. 2.

*Déclarations en douane et Bulletins d'Expédition.*

1. L'expéditeur doit préparer une déclaration en douane et un bulletin d'expédition pour chaque colis expédié aux Etats-Unis d'Amérique, et deux déclarations en douane et un bulletin d'expédition pour chaque colis expédié à la Roumanie, sur des formules spéciales fournies à cet effet par le pays d'origine.

La déclaration en douane doit fournir une description générale du colis, une liste exacte et détaillée de son contenu et de sa valeur, la date de sa mise à la poste, le poids réel, le nom et l'adresse de l'expéditeur, et le nom et l'adresse du destinataire; et elle sera attachée solidement au colis.

Le bulletin d'expédition doit indiquer le bureau d'origine, le nom et l'adresse de l'expéditeur, le nombre de déclarations en douane, le poids du colis, le port payé, le nom et l'adresse du destinataire, et le bureau de destination; et il sera attaché solidement au colis.

Toutefois, par exception à ce qui précède, lorsque plus d'un colis non assuré est déposé simultanément par le même expéditeur à l'adresse du même destinataire, l'expéditeur ne doit nécessairement préparer qu'une déclaration en douane et un bulletin d'expédition pour chaque lot de trois colis au maximum originaires de la Roumanie; ou deux déclarations en douane et un bulletin d'expédition pour chaque lot de trois colis au maximum originaires des Etats-Unis d'Amérique. Telles déclarations en douane et tels bulletins d'expédition doivent indiquer,

Si la formule ne parvient pas au bureau de destination, celui-ci prépare un duplicata.

3. Lorsque l'expéditeur demande un avis de réception postérieurement au dépôt du colis, le bureau d'origine remplit régulièrement une formule d'avis de réception tout en y attachant une formule de réclamation pourvue des détails relatifs à l'expédition du colis, et la transmet au bureau de destination du colis. En cas de livraison régulière du colis, le bureau de destination retire la formule de réclamation, et l'avis de réception est traité de la manière prescrite au paragraphe précédent.

If the form does not reach the office of destination, that office makes out a duplicate.

2. The office of destination, after having duly filled out the return receipt form, returns it free of postage to the address of the sender of the parcel.

3. When the sender applies for a return receipt after a parcel has been mailed, the office of origin duly fills out a return receipt form and attaches it to a form of inquiry which is entered with the details concerning the transmission of the parcel and then forwards it to the office of destination of the parcel. A l'aide de ces indications, chaque Administration exerce un contrôle sur la rentrée des réceptients qui lui appartiennent. Au cas où ce contrôle démontrerait que le dix pour cent du nombre total des sacs utilisés pendant une année n'a pas été renvoyé, la valeur des sacs manquants doit être remboursée à l'office expéditeur.

With the aid of these indications, each Administration exercises a control over the return of the receptacles belonging to it. Si l'on constate une erreur ou une irrégularité à la réception d'une dépêche, toutes les pièces pouvant servir de preuves à l'appui en vue de recherches ultérieures ou de l'examen de demandes d'indemnité doivent être conservées.

2. Le bureau d'échange expéditeur auquel un bulletin de vérification est envoyé doit le renvoyer après l'avoir examiné et y apporté ses observations éventuelles. 1. Upon the receipt of a dispatch, the exchange office of destination proceeds to verify it. The entries in the parcel bill must be verified exactly. Each error or omission must be brought immediately to the knowledge of the dispatching exchange office by means of a bulletin of verification. Dans l'un ou l'autre cas, le poids du colis sera vérifié avant et après le remballage, et indiqué sur l'emballage du colis même. Cette indication sera suivie par la note "Remballé à-----" (Repacked at-----) ainsi que la signature des agents ayant effectué tel remballage.

4. In case of shortage of a parcel bill, a duplicate is prepared, a copy of which is sent to the exchange office of origin of the dispatch.

## VOTOS DEL CONGRESO

RESOLUTIONS OF THE CONGRESS<sup>1</sup>

Resolutions of the Congress.

El IV Congreso Postal Américo-español recomienda a todos los países que forman esta Unión:

The Fourth Americo-Spanish Postal Congress recommends to all the countries forming this Union:

Recommendations.

## I

Que constituyendo el servicio de encomiendas postales un medio que facilita las relaciones comerciales entre los países contratantes, sería conveniente derogar cuantos requisitos signifiquen una restricción para la efectividad de dicho servicio y suprimir la exigencia de facturas y visados consulares, así como los certificados de origen, para las encomiendas cuyo valor no exceda de 150 francos oro o su equivalencia.

That, as the parcel-post service constitutes a medium which facilitates commercial relations among the contracting countries, it would be fitting to abolish all requirements which signify a restriction on the effectiveness of said service, and to abolish the requirement for consular invoices and visas, as well as certificates of origin, for parcels whose value does not exceed 150 gold francs or the equivalent thereof.

Abolishment of requirements restricting service.

Consular invoices, visas, etc.

## II

Que en vista de que los anuncios constituyen un medio de divulgación útil y conveniente, tendiente a aumentar el conocimiento de los pueblos, el Congreso opina que los envíos de tal naturaleza deberían ser transportados en el servicio postal internacional sin estar sujetos a derechos aduaneros o a requisitos que tiendan a limitar sus fines.

In view of the fact that advertisements constitute a useful and convenient medium for spreading information which tends to increase the knowledge of the peoples, it is the sense of the Congress that articles of that nature should be transported in the international postal service without being subject to customs duties or to requirements which tend to limit their aims.

Transit of advertisements.

## III

Que las Administraciones de la Unión Postal de las Américas y España creen, a serles posible, una Oficina de Información en la sede de las Centrales de Correos, con un salón de lectura, en el cual se pongan a disposición del público, libros, diarios, revistas y publicaciones en general de los distintos países de la Unión, remitidos gratuitamente por los gobiernos, empresas editoriales, autores, etc.

That the Administrations of the Postal Union of the Americas and Spain create, if possible, Information Offices in the Central Post Offices, with reading rooms, in which are placed, at the disposal of the public, books, newspapers, magazines, and publications in general from the different countries of the Union, furnished gratuitously by the Governments, publishing companies, authors, etc.

Creation of information offices in central post offices.

## IV

y España que transporten su correspondencia, la rebaja de los fletes actuales, y que, en ningún caso, cobren por unidad de peso una suma mayor de la que perciban del país de origen, salvo en los casos en que por privilegio de paquete o de otra naturaleza, dichas Compañías estén obligadas al transporte gratuito.

Americas and Spain which transport their correspondence a reduction in the present rates, and their agreement in no case to collect a sum per weight-unit greater than that which they collect from the country of origin, except in cases where, due to packet or other privileges, said companies are obliged to perform gratuitous transportation.

## V

Commemorative  
postage stamps.

Que los Gobiernos respectivos autoricen la emisión de sellos de correos para conmemorar la celebración de los Congresos Postales Américoespañoles, eligiendo, de acuerdo con la Oficina Internacional de Montevideo, diseños alegóricos de la reunión de los Congresos o de los vínculos de solidaridad y fraternidad que unen a los países de América con España.

## V

That the respective Governments authorize the issuance of postage stamps in commemoration of the meeting of Americo-Spanish Postal Congresses, selecting, by agreement with the International Office of Montevideo, allegorical designs of the meeting of Congresses or of the bonds of solidarity and fraternity which unite the countries of America with Spain.

## VI

Air surcharges, etc.

Que las Administraciones de la Unión Postal Américoespañola, antes de la reunión del próximo Congreso, procedan a efectuar estudios cuidadosos respecto a la posibilidad de establecer sobretasas y gastos de transporte aéreos uniformes, tomando como base las sugerencias que figuran a continuación:

## VI

That the Administrations of the Americo-Spanish Postal Union, before the meeting of the next Congress, proceed to make careful study of the possibility of fixing uniform air surcharges and transportation charges, using the following suggestions as the basis:

Basis suggested.

*Sobretasas**Surcharges*

Surcharges.

1. Los objetos que deban transmitirse por la vía aérea, pagarán, además de las tasas postales reglamentarias, una sobretasa especial de transporte aéreo, determinada por la Administración del país de origen, sin que ella pueda exceder en ningún caso de 25 céntimos de franco oro por cada 5 gramos o fracción y por 1.500 kilómetros de recorrido aéreo.

2. Cuando una Administración adopte para el franqueo de la correspondencia aérea una tasa que represente la totalidad de los portes, el monto del franqueo exigido no podrá ser superior al previsto en el parágrafo anterior.

1. Articles to be transmitted by air mail will be liable, in addition to the regular postage rates, to a special surcharge for air transportation, fixed by the Administration of the country of origin, which may in no case exceed 25 centimes of a gold franc for each 5 grams or fraction and for each 1500 kilometers of air transmission.

2. When an Administration adopts, for the prepayment of air-mail correspondence, a charge representing the total of the rates, the amount of postage required may not be higher than that provided for in the preceding Section.

3. Para los objetos distintos a las cartas, tarjetas postales y valores declarados, el monto total del franqueo podrá reducirse en una 1/5 parte como mínimo.

3. For articles other than letters, post cards and insured articles, the total amount of postage may be reduced to one-fifth as a minimum.

### *Gastos de Transporte*

1. La tarifa básica para la liquidación de las cuentas relativas al transporte aéreo realizado entre los países de la Unión Postal Américoespañola será de 25 milésimos (0,025) de franco oro por kilogramo de peso bruto y por kilómetro, como máximo.

2. Cuando la correspondencia aérea hubiere de transitar por las líneas internas de los países intermediarios o de destino, dicho transporte será cubierto por la Administración de origen sobre la misma base prevista en el párrafo 1.

En lo que respecta a la Administración de destino, la bonificación será uniforme para todos los recorridos efectuados dentro de su territorio. A tal efecto, cada Administración indicará un promedio de sus gastos para su recorrido interno.

3. La misma tarifa de tránsito será aplicada a la correspondencia expedida de una Administración de la Unión, por intermedio de otra Administración américoespañola, para cualquier país que se rija por las disposiciones del régimen universal, en la parte que se relacione con los transportes efectuados dentro del territorio de las Américas y España.

4. El transporte de la correspondencia en tránsito efectuado por un país intermediario con destino a otro que no pertenezca a la Unión Postal Américoespañola, se someterá a las tasas y condiciones que dicho país haya indicado en la lista A. V. 1, editada por la Oficina de Berna.

### *Transportation charges*

1. The basic rate for settlement of accounts relative to air transportation performed between countries of the Americo-Spanish Postal Union will be 25 thousandths (0.025) of a gold franc per kilogram of gross weight and per kilometer, as a maximum.

2. When airmail correspondence must pass in transit over the domestic lines of the countries of intermediation or destination, said transportation will be paid for by the Administration of origin on the same basis as indicated in Section 1.

In regard to the Administration of destination, payment will be uniform for all transportation effected within its territory. To that end, each Administration will indicate an average charge for its domestic service.

3. The same transit rate will be applied to correspondence originating in one Administration of the Union, sent through the intermediary of another Americo-Spanish Administration to any country to which the provisions of the Universal régime are applicable, insofar as concerns transportation performed within the territory of the Americas and Spain.

4. The transportation of correspondence in transit effected by an intermediary country, destined for another country which does not belong to the Americo-Spanish Postal Union, will be subject to the rates and conditions which the said country has indicated in the list A V 1 published by the Bureau at Berne.

1. Gestionar ante los Gobiernos de los Estados Unidos de América y de Panamá, si fuere necesario, la autorización para que sea erigido en el territorio del Istmo, sobre el Pacífico, un faro monumental a la memoria de Vasco Núñez de Balboa, semejante al que se piensa erigir en la República Dominicana en honor de Cristóbal Colón, requiriendo para ello el concurso oficial y efectivo de todos los Gobiernos americanos para que emitan sellos especiales de franqueo, cuyo producto se dedicará a la construcción proyectada, mediante cuota, en análogas proporciones a la que aportan los países de la Unión Postal de las Américas y España para el sostenimiento de la Oficina Internacional de Montevideo.

1. To request from the Governments of the United States of America and Panama, if necessary, authorization for the erection on the Pacific, within the territory of the Isthmus, of a monumental lighthouse in memory of Vasco Núñez de Balboa, similar to the one whose erection is contemplated in the Dominican Republic in honor of Christopher Columbus, for that purpose calling on all the American Governments for official and effective cooperation by issuing special postage stamps, the proceeds of which will be dedicated to the proposed construction, on the basis of quotas in proportions similar to those contributed by the countries of the Postal Union of the Americas and Spain to the upkeep of the International Office of Montevideo.

Executive Committee to arrange for competitive plans, etc.

2. Facultar a esta misma Oficina para que, por la vía diplomática, obtenga del Gobierno de los Estados Unidos y del de la República de Panamá la designación de representantes que integren una Comisión ejecutiva que se entienda con la organización de un concurso para la presentación de planos y su selección, construcción de la obra, recaudación de fondos, etc.

2. To authorize the said Office to obtain, through diplomatic channels, from the Governments of the United States and Panama, the designation of representatives to constitute an Executive Commission which will arrange for the organization of a competition for the submission of plans and their selection, construction of the work, collection of funds, etc.

Notice of lighthouse completion.

3. Que una vez efectuada la construcción del faro, la Oficina Internacional comunique el hecho a los países interesados, a fin de que acuerden lo correspondiente al día de la inauguración.

3. That, as soon as the construction of the lighthouse is completed, the International Office shall give notice of the fact to the countries concerned, in order that they may come to an agreement concerning the day of inauguration.

Que resuelvan la emisión de tarjetas postales de turismo a tarifa moderada, con vistas de las principales ciudades americanas y de España, y bellezas geográficas de cada país.

That they provide for the issuance of tourist post cards at a reduced rate, with views of the principal American and Spanish cities, and the geographic beauties of each country.

## IX

Que recomienden la emisión de un sello oficial análogo para todas las naciones américoespañolas que no tenga denominación, sino que diga simplemente «Correspondencia oficial» o «Servicio del Estado».

That they recommend the issuance of an official postage stamp, similar for all Americo-Spanish nations, having no denomination, but simply reading *Correspondencia oficial* (Official correspondence) or *Servicio del Estado* (Government service).

Official postage stamp.

## X

Que establezcan el servicio de suscripciones a diarios y publicaciones periódicas, más o menos sobre las bases fijadas en el Acuerdo respectivo de la Unión Postal Universal.

That they establish the service of subscriptions to newspapers and periodical publications, more or less on the basis fixed by the respective Agreement of the Universal Postal Union.

Newspaper, etc., subscriptions.

## XI

Que los países signatarios propendan a que la reducción de las tasas de transporte de la correspondencia por vía aérea, que tienen en estudio los Estados Unidos de América, sea lo más acentuada posible, a fin de que en un futuro cercano el servicio de transporte aéreo de la correspondencia no asuma el carácter que hoy tiene y se procure así su mayor difusión y aprovechamiento.

That the signatory countries make every effort so that the reduction in transportation charges for airmail correspondence now being studied by the United States of America may be as great as possible, in order that, in the near future, the service of air transportation may cease to have the character which it has today, and thus bring about its more widespread utilization.

A person in possession of a valid, subsisting permit issued to him by a State, on its part, authorizing him to possess, buy, sell, and transport migratory waterfowl and their increase and eggs for propagating purposes, may possess, buy, sell, and transport such waterfowl and their increase and eggs for such purposes when authorized by a permit issued to him by the Secretary; and migratory waterfowl, except the birds taken under paragraph 1 of this regulation, so possessed may be killed by him at any time and in any manner (except that they may be killed by shooting only during the open season for waterfowl in the State where killed), and the carcasses, with heads and feet attached thereto, may be sold and transported by him to any person for actual consumption, or to the keeper of a hotel, restaurant, or boarding house, a retail dealer in meat or game, or a club, for sale or service to their patrons, who may possess such carcasses for actual consumption without a permit, but no such birds that have been killed shall be bartered, sold, or bought unless each bird before attaining the age of 4 weeks shall have had removed from the web of one foot a portion thereof in the form of a V large enough to make a permanent, well-defined mark, which shall be sufficient to identify it as a bird raised in domestication under a permit.

3. Applications for permits shall be addressed to the Secretary of Agriculture, Washington, D. C., and must state the name and address of the applicant; the place where the propagating project is to be carried on; the area to be used in the project; the facilities the applicant has for properly caring for the waterfowl; the number of each species of waterfowl in his possession, and how, when, and where they were acquired; and, if the application is for a permit to take migratory waterfowl or their eggs, the species and number of each species or eggs of each species proposed to be taken, and the specific locality where it is proposed to take them.

6. No permit issued by the Secretary authorizes the taking, possession, sale, purchase, exchange, or transportation of migratory waterfowl unless the permittee has in his possession while exercising any such privilege a valid, subsisting permit of equivalent tenor issued to him by the State in which he proposes to operate. Permits are not transferable and are revocable at any time in the discretion of the Secretary. A permit revoked by the Secretary shall be surrendered to him by the person to whom it was issued on demand of any employee of the United States Department of Agriculture authorized to enforce the provisions of the Migratory Bird Treaty Act.

Limitations.

Exceptions.

Every package in which migratory waterfowl or their eggs are shipped wholly within a State or Territory for propagating purposes shall be plainly and clearly marked or labeled on the outside thereof in the manner above prescribed.

Regulation 9, "Permits to Collect Migratory Birds for Scientific Purposes", is amended to read as follows:

Permits for collect-  
ing specimens.

#### REGULATION 9.—PERMITS TO COLLECT MIGRATORY BIRDS FOR SCIENTIFIC PURPOSES

Scientific collec-  
tions.

Requirements.

Restrictions.

A person in possession of a valid, subsisting permit issued to him by a State, on its part, authorizing him to take therein migratory birds or their nests or eggs for scientific purposes may take such birds or their nests or eggs in such State for such purposes when authorized by a permit issued to him by the Secretary. Both permits shall be carried on his person when he is collecting migratory birds thereunder and shall be exhibited to any person requesting to see them; but nothing herein shall be deemed to permit the taking of any migratory game bird during the open season therefor in any manner or by any

means or at any time of day not permitted by regulations 3 and 4 of these regulations.

Application for a permit shall be addressed to the Secretary of Agriculture, Washington, D. C., and must state the name and address of the applicant, his age, the State or Territory in which specimens are proposed to be taken, the purpose for which they are intended, information sufficient to show that specimens permitted to be taken will be devoted to scientific purposes, and the names and addresses of at least two well-known ornithologists, principals or superintendents of educational or zoological institutions, officials or members of zoological or natural history organizations, or instructors in zoology in high schools, colleges, or universities, from whom may be obtained information respecting the applicant's status as a scientific investigator. The applicant must furnish such other information touching his fitness to be entrusted with a permit as may be called for by the Secretary.

Applications for permits.

A permit may limit the number and species of migratory birds or their nests or eggs that may be taken thereunder, and the places where, time when, and means by which they may be taken, and may authorize the holder thereof, when possessed of an equivalent State permit, to possess, buy, sell, exchange, and transport migratory birds and their nests and eggs for scientific purposes; or it may limit the holder to one or more of these privileges. Public museums, zoological parks and societies, and public scientific and educational institutions may possess, buy, sell, exchange, and transport migratory birds and their nests and eggs for scientific purposes, without a permit, but no specimens shall be taken without a permit or purchased from or exchanged with a person not authorized by a permit to sell or exchange them. The plumage and skins of migratory game birds legally taken may be possessed and transported by a person without a permit.

Effect of permits.

A taxidermist, when authorized by a permit issued by the Secretary, may possess any migratory bird delivered to him for mounting or like preparation by any person who has lawfully taken or lawfully possesses such bird, and may transport such specimen in consummation of such purpose when likewise authorized by the State in which such permittee is operating. Every such permittee shall keep books and records correctly setting forth the name and address of each person delivering each specimen of migratory bird to him, together with the name of each species, the date of delivery, the disposition of each specimen, and the date thereof, and such books and records shall be available for inspection at all reasonable hours on request of any authorized representative of the Department of Agriculture.

Taxidermists.

Maintenance of books and records; inspection.

No permit issued by the Secretary authorizes the taking, possession, sale, purchase, exchange, or transportation of any migratory bird unless the permittee has in his possession while exercising any such privilege a valid, subsisting permit of equivalent tenor issued to him by the State in which he proposes to operate. Permits are not transferable and are revocable at any time in the discretion of the Secretary. A permit revoked by the Secretary shall be surrendered to him by the person to whom issued, on demand of any employee of the United States Department of Agriculture authorized to enforce the provisions of the Migratory Bird Treaty Act. A person holding a permit under this regulation shall report annually to the Secretary, on or before the 10th day of January, the number of birds or nests or eggs of each species taken, bought, sold, received, possessed, mounted, exchanged, or transported during the preceding 12 months, and failure to make such report will be cause for revocation of the permit.

State permits.

Every package in which migratory birds or their nests or eggs are transported by any means whatever for scientific purposes, from one State, Territory, or the District of Columbia, to, into, or through

Marking of packages.

another State, Territory, or the District of Columbia, or to or from a foreign country shall be plainly and clearly marked or labeled on the outside thereof to show the name and address of consignor and consignee, the contents of the package by number and kind, the number of the permit under authority of which it is transported, and that the specimens contained therein are for scientific purposes. Every package in which migratory birds or their nests or eggs are shipped wholly within a State or Territory, for scientific purposes, shall be plainly and clearly marked or labeled on the outside thereof in the manner above prescribed.

AND WHEREAS upon consideration it appears that approval of the foregoing amendatory regulations will tend to effectuate the purposes of the aforesaid Migratory Bird Treaty Act and result in reducing the annual kill of migratory game birds:

## AMERICAN EDUCATION WEEK

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

September 30, 1936  
[No. 2199]

### A PROCLAMATION

An opportunity for all of our people to obtain the education that will best fit them for their life work and their responsibilities as citizens is the ideal of American education. It is an ideal which has been a vital factor in our national development since 1647 when the General Court of Massachusetts enacted the historic measure providing for an elementary school in every township of fifty householders and a grammar school in every town of one hundred families "to instruct youth so farr as they may be fited for y<sup>e</sup> university". In the expansion of the nation the school has moved with the frontier, and time and experience have demonstrated that universal education is essential to national progress.

American Education Week.

It is accordingly with a feeling of earnest gratification that we note the improvement which has taken place with respect to the educational situation in the United States. Teaching positions which were eliminated during the depression years are being restored and teachers' salaries have returned to pre-depression levels in an encouraging number of school systems, colleges, and universities. There has been a steady increase in the attendance of students at elementary schools, high schools, and colleges.

It is particularly appropriate, therefore, that a time be set apart this year for a widespread and understanding observance of the benefits that flow from a continuing advancement of the standards of American education.

Week beginning  
November 9, 1936,  
designated as.

NOW, THEREFORE, I, Franklin Delano Roosevelt, President of the United States, do by this proclamation designate the week beginning Monday, November 9, 1936, as American Education Week and urge that it be observed throughout the United States.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the city of Washington this 30th day of September, in the year of our Lord nineteen hundred and thirty-six, and  
[SEAL] of the Independence of the United States of America the one hundred and sixty-first.

16 U. S. C. §§ 703-  
711.

WHEREAS the Acting Secretary of Agriculture has submitted to me for approval the following regulation adopted by him under authority of the Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755):

All lands and waters within the aforesaid boundaries withdrawn, set apart, and designated, in part, as the Red Rock Lakes Migratory Waterfowl Refuge by the aforesaid Executive Orders are closed by virtue of said Orders, and the Acts of Congress thereunto appertaining, to entry for any purpose except in accordance with regulations of the Secretary of Agriculture, and all hunting either of migratory or non-migratory birds or wild life of any kind on said lands and waters is forbidden by law.

THANKSGIVING DAY—1936

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

November 12, 1936

[No. 2208]

A PROCLAMATION

I, FRANKLIN D. ROOSEVELT, President of the United States of America, hereby designate Thursday, the twenty-sixth day of November 1936, as a day of national thanksgiving.

Thanksgiving Day,  
1936.  
Thursday, Novem-  
ber 26, designated as.

The observance of a day of general thanksgiving by all the people is a practice peculiarly our own, hallowed by usage in the days before we were a nation and sanctioned through succeeding years.

Having safely passed through troubled waters, it is our right to express our gratitude that Divine Providence has vouchsafed us

wisdom and courage to overcome adversity. Our free institutions have been maintained with no abatement of our faith in them. In our relations with other peoples we stand not aloof but make resolute effort to promote international friendship and, by the avoidance of discord, to further world peace, prosperity, and happiness.

Coupled with our grateful acknowledgment of the blessings it has been our high privilege to enjoy, we have a deepening sense of our solemn responsibility to assure for ourselves and our descendants a future more abundant in faith and in security.

Observance.

Let us, therefore, on the day appointed, each in his own way, but together as a whole people, make due expression of our thanksgiving and humbly endeavor to follow in the footsteps of Almighty God.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

## CONTRIBUTIONS TO AMERICAN RED CROSS FOR FLOOD RELIEF

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

### A PROCLAMATION

January 23, 1937  
 [No. 2222]

American Red Cross.

Disastrous floods in the Ohio and Mississippi River valleys already have driven 270,000 men, women and children from their homes.

There is every likelihood that until the crest of the flood waters is reached, this number of homeless refugees will be largely increased. Snow, sleet and freezing weather have added to the suffering and made more hazardous the work of rescue.

The victims of this grave disaster are dependent upon the American Red Cross for food, shelter, fuel, medical care and warm clothing. I have instructed the various agencies of the Federal Government to cooperate to the fullest extent with the Red Cross authorities.

In order that the Red Cross may meet these immediate emergency needs and continue to care for these unfortunates until the waters have receded and they can be returned to their homes, it is imperative that a minimum relief fund of two million dollars be raised as speedily as possible. We are looking to this great national relief agency to act as our representative in this emergency.

As President of the United States and as President of the American Red Cross, I am, therefore, urging all of our people to contribute promptly and most generously to this relief fund so that adequate relief may be made instantly available for these thousands of our homeless and suffering fellow citizens.

Contributions to, for flood relief, requested.

I am confident the response everywhere will be immediate and generous.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

## ONE HUNDRED AND FIFTIETH ANNIVERSARY OF THE CONSTITUTION

July 4, 1937

[No. 2242]

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

## A PROCLAMATION

One hundred and fiftieth anniversary of the Constitution and inauguration of the first President.

WHEREAS the Constitution of the United States was signed on September 17, 1787, and had by June 21, 1788, been ratified by the necessary number of States; and

WHEREAS George Washington was inaugurated as the first President of the United States on April 30, 1789:

Setting apart period for commemoration of.

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, hereby designate the period from September 17, 1937, to April 30, 1939, as one of commemoration of the one hundred and fiftieth anniversary of the signing and the ratification of the Constitution and of the inauguration of the first President under that Constitution.

In commemorating this period we shall affirm our debt to those who ordained and established the Constitution "in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity".

We shall recognize that the Constitution is an enduring instrument fit for the governing of a far-flung population of more than one hundred and thirty million engaged in diverse and varied pursuits, even as it was fit for the governing of a small agrarian nation of less than four million.

It is therefore appropriate that in the period herein set apart we shall think afresh of the founding of our Government under the Constitution, how it has served us in the past and how in the days to come its principles will guide the nation ever forward.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this fourth day of July, in the year of our Lord nineteen hundred and thirty-seven, and [SEAL] of the Independence of the United States of America the one hundred and sixty-second.

Upon his determination an appropriate order will be made.

**Specific injury.**

**Specific injury.**—Upon receipt by the Chief of the Bureau, or the Regional Director of the Bureau of Biological Survey in the region where the injury occurs, of information from the owner, tenant, or share cropper that migratory birds are injuring his crops or other property on the land on which he resides, together with a statement of the location of the land, the nature of the crops or property being injured, the extent of such injury, and the particular species of birds committing the injury, an investigation will be made and if it is determined from such investigation that the injury complained of is substantial and can be abated only by killing the birds, or so many thereof as may be necessary, a permit to kill the birds will be issued by said Chief of the Bureau or Director, in which permit will be specified the time during which, the means and methods by which, and the person or persons by whom the birds may be killed, and the disposition to be made of the birds so killed, and such other restrictions as may be deemed necessary and appropriate in the circumstances of the particular case: *Provided, however,* That in every permit issued as aforesaid it shall be specified that no such birds shall be shot at or killed at any time or in any manner not authorized by the laws of the State in which such permit is effective; and as to migratory waterfowl, that they shall not be shot at or killed (1) from any blind, sink, pit, or any other device or means of concealment, whether natural or artificial, movable or stationary, or on land or water; (2) by means of any gun larger than no. 10 gage, or of any gun to which a silencer has been attached or otherwise affixed; and (3) by the use of decoys of any description, or of traps or nets of any kind.

**Proviso.  
Restriction.**

**Records to be kept.**

Every person exercising any privilege hereinbefore in this regulation provided for shall keep an accurate record of all migratory birds killed by him and whenever requested by the Chief of the Bureau or by the Regional Director shall submit promptly, on a form provided by the Bureau for the purpose, a report correctly stating the species and number of each species of migratory birds killed by him and in any event shall submit such report to the Regional Director on or before January 10 of each year. Failure to submit a report as required by this regulation will be sufficient cause for revocation of any permit or withdrawal of any privilege accorded any person failing to make the report.

Regulation 11.—STATE LAWS FOR THE PROTECTION OF  
MIGRATORY BIRDS

Nothing in these regulations or in any permit issued thereunder shall be construed to permit the taking, possession, sale, purchase, or transportation of migratory birds, or parts, nests, or eggs thereof contrary to the laws and regulations of any State or Territory, or the District of Columbia, made for the purpose of giving further protection to migratory birds, their nests, and eggs when such laws and regulations are not inconsistent with the conventions between the United States and any other country for the protection of migratory birds or with the Migratory Bird Treaty Act and do not extend the open seasons for such birds beyond the dates prescribed by these regulations.

State laws for protection of migratory birds.

Regulation 12.—TRANSPORTATION OF GAME MAMMALS TO  
AND FROM MEXICO

Game mammals, parts or products thereof, taken in and transported from a State, Territory, or the District of Columbia may be transported to Mexico, if the importation thereof is not prohibited by law or regulation of that country, upon presentation to the Collector of customs at the port of exit of the certificate of an official, warden, or other officer of the game department of such State, Territory, or District, that such game mammals, or parts or products thereof, which must be listed in the certificate, were taken or acquired and are being transported in compliance with the laws and regulations of such State, Territory, or District.

Transportation of game mammals to and from Mexico.

Live game mammals authorized by a special permit issued by the Secretary of Agriculture, pursuant to Section 241 of the Penal Code, to be imported, and the dead bodies, parts or products of game mammals, proceeding from Mexico, if accompanied by a Mexican export permit, may be transported into the United States, but their possession in any State, Territory, or the District of Columbia will be subject to the laws of such State, Territory, or District.

Special permits.  
18 U. S. C. § 391.

The Migratory Bird Treaty Act Regulations approved July 31, 1918 (40 Stat. 1912) and all amendments thereof are hereby revoked, but all regulations heretofore adopted and approved pursuant to said Act closing areas of land and water or of land or water adjacent to migratory bird sanctuaries, refuges, reservations, and breeding and feeding grounds to the taking of migratory birds, and all orders and permits of the Secretary of Agriculture heretofore made or issued pursuant to said Act and now in force authorizing the killing or other disposition of certain species of migratory birds when injurious to crops and other property and interests and the taking, possession, sale, purchase, exchange, or transportation of migratory birds and their nests and eggs for scientific purposes, and migratory waterfowl for propagating purposes, are hereby continued and extended in full force and effect as regulations, orders, and permits adopted and approved or made or issued hereunder.

Former regulations revoked.  
40 Stat. 1812.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States Department of Agriculture to be affixed.
